

DOES YOUR WATCH NEED REPAIRING?

A WATCH is intended to tell you the time of day. Unless it does this it is worse than useless, for it is like the man you cannot depend upon.

Many a man has twenty-five or thirty dollars tied up in a watch which is worthless when if he would invest a dollar or two for having it repaired he would get the full value out of it.

Often a watch which does not keep proper time needs regulating, for which we make no charge. If it needs repairing our charges are more than reasonable. Our work is guaranteed.

MARKETS FOR THE WEEK

Hog Prices Continue to Climb. Sheep Trade at Standstill

There was a light run of cattle on the Portland market Monday, the total being less than 500 head. Trading was fairly active, although demand was limited. Prices were on about the same basis as a week ago, although prime light steers showed an advance of 15 to 25 cents, while all other lines were steady.

Trading in the beef steer division was active, prime steers sold up to \$8.50 for several loads, which was a good 25 cents higher than a week ago. Also several loads of primes crossed the scales at \$8.50; medium grades brought from \$7.50 to \$7.55, with common kind down to \$5; one load of choice feeding-steers sold at \$7.25; best cows brought \$7.50 for a few small lots, while two loads of prime dehorned cows brought \$7.35; good kind realized around \$7 to \$7.10; medium and fair grades \$6.25 to \$6.75; common valley cows and canners \$4 to \$5.50.

The hog market is on the climb "yet," an advance of 5 to 10 cents being made on all good butchers and packing droves; the top was \$10.55 for one load of choice light hogs which was 5 cents higher, while the bulk of sales were \$10.45 to \$10.50, which is a big ten cents higher than a week ago. Sellers had a hard time boosting prices, but after considerable holding packers got busy on the advance prices. Pigs were in good supply with fair demand at steady prices; a few good pigs brought \$9.25, while \$9 took the bulk.

The sheep trade is at a standstill, the only supply received having been weighed of cars to packers. The trade is very firm and prices on valley lambs have been boosted another 25 cents to \$11; no east-of-the-mountains lambs have been in the market for over a week, when lambs brought \$11.25 and yearlings \$10; a further advance may be expected when supplies are available.

Eighty-Seven Years Old

Backache, sore muscles, stiff joints, dark puffs under the eyes and bladder disorders are symptoms of diseased kidneys. H. H. Adams, Springfield, Mo., writes: "I had a very severe attack of kidney trouble. I am getting old, eighty-seven. I tried different treatments, but none did me so much good as Foley Kidney Pills. I consider it the best." Foley Kidney Pills are tonic in action, and quick to give good results.—Jones Drug Co.

Small Theatre Fire

A small blaze on the roof of the Grand theatre building late Tuesday called out the fire department companies on Main street to find that the nearby hydrants were frozen and that there was no water supply. The firemen connected with taps several blocks away and controlled the blaze before much damage had been done.

DEWEY IS DEAD

Memorial Service Here for Departed Hero of Spanish-American War

Admiral George Dewey, America's hero in the Spanish-American war, and by priority of grade the ranking naval officer of the world, will be honored in death with an appropriate memorial exercise at the Congregational church here on Sunday evening. The Rev. J. W. MacCallum will devote the evening service to the memory of the great naval hero and has provided not only special music but other features that will make the service attractive. The subject of Mr. MacCallum's address will be "Dewey, the Man and Citizen."

Admiral Dewey died on Tuesday evening at his home in Washington in his 80th year. He had not been conscious since the day before, when he had lapsed into coma, still believing that he would soon be back at his desk in the Navy department, where he kept at his tasks until a few days before his death. General breakdown, accompanied by anterior scelerosis incident to old age, was the cause of death. The disease had been gradually spreading its hold upon the powerful body for more than a year, but the proud old hero had fought it off and kept its existence a secret from even his intimate friends.

The G. A. R. veterans, ladies of the Relief corps and fraternal orders have all been invited to attend the service at the Congregational church Sunday night at 7:30.

WANT TO BUILD PLANT

Oregon City and West Linn Would Co-operate in Paving Project

After much discussion of the plan, the idea of installing a joint paving plant for West Linn and Oregon City is about to be taken up officially by the Oregon City council, according to Mayor Hackett, who will present the matter once more with figures on the cost.

Mayor Hackett believes the two cities can bear the expense of erecting a plant and will profit from paving laid without the expensive services of contractors. The two cities have approximately \$17,000 to spend on road work this year and Oregon City's council has pledged itself to stop repairing macadam or other surfaces except with pavement. It is estimated that such work would cost about 80 cents a square yard and that a plant, similar to that used by the county, could be built for less than \$1500. The first road to be built by Oregon City will be from Fourteenth and Washington to the end of the hard surfaced Oregon City-Parkplace road.

E. A. HACKETT INJURED

Mayor's Son Suffers Fractured Skull and Broken Jaw Bone

When E. A. Hackett, son of Mayor E. C. Hackett, put open bridles on a team of horses hitched to a heavy wood wagon on Tuesday, the animals became frightened and started a mad rush down Main street. The young man, who was standing directly in front of the team, was knocked to the ground, stepped on by the animals and, it is thought, the heavy wheels of the wood wagon passed over his head.

Mr. Hackett suffered a fractured skull and a broken jaw bone, in addition to many minor cuts and bruises, and for some time his life was despaired of. He has been resting as well as could be expected considering nature of his injuries, which the Drs. Mount dressed. The team dashed madly down Main street for 10 blocks before Chief of Police Blanchard saw them. The officer stopped the animals single handed after several spectators had failed. Drs. Mount hold every hope for the complete recovery of the mayor's son.

PEERLESS WIRE FENCE

STANDS LIKE A STONE WALL

The Quality of Peerless Fence

A high grade fencing for all purposes. Made of heavily galvanized open hearth steel wire. The material which enters into Peerless Fence is only the very best; the stiff stay construction makes a Peerless Fence a life time investment.

Buy Wire Fence Now and Save Money

WE SELL WIRE FENCE FOR LESS

THIS IS HOW WE DO IT

We buy our fence in car load lots direct from the factory; hence a saving in freight and actual cost. We own our own store building and pay no rent; hence a saving in our overhead expenses. Those stores who pay rent must add this extra expense to the price of their merchandise.

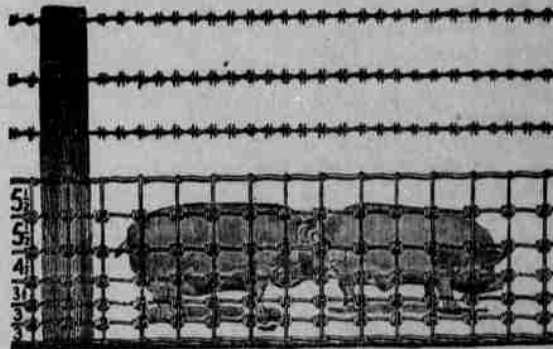

WE PAY NO RENT. THAT IS WHY WE SELL FOR LESS.

These Prices are not Guaranteed for any Definite Length of Time

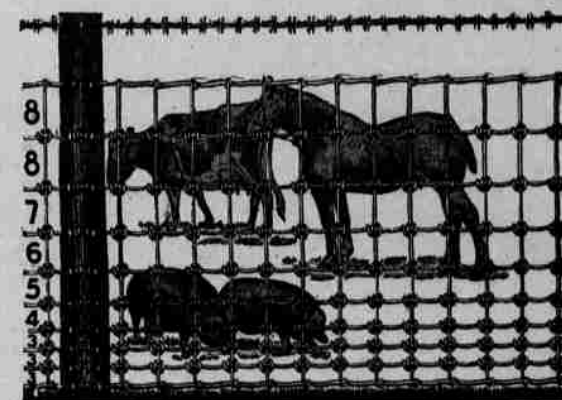

They apply to our present stock only—we advise our customers to BUY NOW

26-inch Hog Fence. A fence specially constructed to stand excessive strain. This fence is usually used with three strands of barb wire, which not only makes a durable hog fence, but a stock and field fence for all purposes.

The stiff stays of the Peerless fence make it superior for turning hogs, because they cannot root under it or lift it up. When properly stretched will do effective service for a lifetime.

Price Per Rod, 27c

49-inch Field Fence. The stiff stays of this fence make it a practical fence for any purpose. It is especially recommended for a line fence.

The long knot which holds the wires together will not kink or slip. The galvanizing on this fence is extra heavy.

Busch's Rainproof Roofing

Ready For Use

Busch's Rainproof Roofing is made of high-grade wool-fibre felt, saturated with a gummy waterproof compound that will not dry or rot, and coated with a non-oxidizing waterproof material, so combining the qualities necessary to secure a perfect protection against the elements at a minimum cost.

Not the same as other roofings. Busch's Roofing is guaranteed to be superior to any felt roofing produced by anyone. It is lighter than tin, tar and gravel roofing, and is far superior to shingles, thatch or galvanized iron. It is lighter than any of the above materials and far cheaper than most of them.

Busch's Roofing is made to outwear other prepared roofings of similar weight because it is of heavy, strong wool-fibre felt and waterproof gums and mineral 100 per cent pure. This roofing is strong and tough, elastic and pliable, and is satisfactory on steep roofs or flat roofs and buckles much less than any other brand of prepared roofing.

1/2 Ply, per square, with nails and cement \$1.25
