

IRRITABILITY A WARNING

Let us figure on your printing. —
 prior.

SIGNALS FROM AIR CRAFT.

When military aviators wish to drop written communication to the earth without descending they utilize an ingenious bomb. This contains the document, and the projectile is weighted so that it falls sharp end first. As the bomb strikes the ground a trigger is released, which sets fire to a torch on top, and thus the location of the bomb is indicated day or night.—Pearson's Weekly.
