CHERRYVILLE

Fire on the mountains! The showers came on schedule time.
The fire-fighters began to come out about the first of the month and their efforts and the rain put a stop to the fires.

The army of men and loads of supplies going by here during the period of mountain fires, looked like a battle was raging on our front. There was, but not with the intention of destroying, but saving.

Fire broke out at the store and hotel about 10 o'clock last Monday, and although every effort was made to put it out, it was soon past control. The contents were mostly saved, however. The fire is supposed to have started from a defective flue, as a hot fire was burning in the stove and the landlady, being called out for a short time, found upon her return that the kitchen roof was under full blaze.

The loss is partially covered by insurance. A new building will be erected in the same location or in the same vicinity.
Frank Servis with two witnesses, went to Portland last week to prove up on his claim. While there they called on Col. Robert Miller, who said among other things, that the bankers would not be able to keep the lid on much longer, as the enormous amount of money on hand in this country would soon seek investment as idle money is no good to anybody.

August Beidenstein is busy hauling lumber for his new bungalow north of town.

SCOTT'S MILLS

The Scotts Mills Water Co. has been having a considerable amount of work done on their reservoir, having developed a large vein of water that was entirely lost before. This will make a great difference in the supply of water for the city use.

R. A. Peterson, of Salem, was in town last week. Mr. Peterson represents the new advertising firm of Salem.

Dr. F. E. Hume reports the arrival of a fine boy at the home of Clarence Beyers, both mother and child doing well.

Charles Scott of the Scotts Mills Flouring Mills is increasing the height of his dam two feet. The low water is causing Mr. Scott some inconvenience, but he hopes in this way

to obtain enough water to do away with it.

Thomas Fairclough, of Oregon City, was in town Saturday on his way from Ogle Mt. Mine. Mr. Fairclough is one of the developers of this mine and had confidence enough in the quality of the ore to put a great deal of his time and money into it. The high price of chemicals, with other things, has caused a shut down for this summer, but they expect to start full force next spring.

Mrs. E. E. Hickox and Mr. A. J. Shepherd visited at the home of their sister, Mrs. Chas. Morley of Silverton, on the 26th.

Mr. and Mrs. Furman, of Molalla, were visitors at the Amundson home on Sunday.

Mrs. Fred White and children, of Donnybrook, North Dakota, left for their home Friday after a two months' visit with her sister, Mrs. Amundson. They were accompanied as far as Spokane by another sister, Miss Grace Robinson, who goes to Spokane to take up her school duties after spending her vacation here.

VIOLA

Joel La Croy and Miss Pearl Bateson were married in Vancouver Wednesday. We expect when they return that they will receive a good reception, with music, consisting of bells (cow), horns and other kinds, by Joel's many friends. Here is wishing them long life and happiness.

J. A. Randolph lost two young calves last week through sickness.

T. Jackson has a fine crop of peaches, which he is selling at \$1.00 a bushel as fast as he can pick them. Someone helped himself to two or three boxes one night recently. Someone—but not of Viola—wanted peaches pretty badly when they had to steal them.

Harve Mattoon lost a valuable cow Sunday. He didn't know what was the matter with her, as she was sick but a few days and then died.

George Hicinbotham was down from Redland to attend church Sunday afternoon. Rev. Cady was the minister, and he preached afternoon and evening.

Mrs. Clara Hicinbotham, of Rivermill, came over Saturday to make her mother a visit, and also get peaches and pears to can. Charlie came over on Sunday.

HOW TO SEE FAIR

Oregon Commission Gives Hints to Prospective Frisco Visitors

Oregonians who want to see the most of the big Exposition in the shortest length of time, at the least expense in the long-run and with the greatest comfort and real pleasure, should be located on the grounds. This is the conclusion of the writer after five months' experience and innumerable conversations with those who have been both on and off the grounds. Since coming here the writer has lived in Oakland, in San Francisco, and upon the grounds. He believes that any coming for but one week can not afford to locate down in the city, and really desirable places are no longer to be found, except occasionally, near the grounds. If the trip is to be of two-weeks, at least one week should be spent wholly inside the grounds. Located at Inside Inn, for instance, one is able to see inside of one week all that can be seen in two weeks if one lives away from the grounds. The mornings here are the desirable time at the exposition, and this is the time wasted when one lives away.

The night offers the wonderful illuminations and at eleven o'clock are the extraordinary illuminated flights of the aviators. Much of this is necessarily missed if one must go by car down into the city to spend the nights. Usually people get so tired that they really cannot remain up with any comfort or pleasure. When at Inside Inn it is possible to take a rest whenever desired, and it is possible to view practically everything at night from the hotel windows. There is every convenience and comfort at this hotel, the rates running from \$2.00 upward and breakfast can be had for fifty cents. There is a regular dining room, also a cafe where one can spend as much or as little as may seem desirable. The rooms are large and well furnished and a stay at Inside Inn is a real pleasure. If one does not care to eat at the hotel it is easy to find fairly good living at the Y. W. C. A. cafeteria or at several other eating places over the grounds where the price is not necessarily very strenuous.

The Courier has a full line of Legal Blanks for sale. If you are in need of Legal Blanks you will find that it will pay you to come to the Courier.

into their own house after being absent three years.

Mr. and Mrs. Myers and family will move into the parsonage.

A. C. White and family were visitors at Estacada Sunday.

EXPERT CRITICISM

Mr. Lloyd Riches, Eminent Actor, Talks about the Boys

Mr. Lloyd Riches, Oregon City's leading man and star thespian, recently consented to be interviewed regarding the modern journalistic field. Lounging in his magnificent office in the rear of the Portland Railway bureau, and indolently smoking a perfumed cigarette, the famous humorist said, to-wit and as follows:

"Both our local reporters, Mr. McKethnie and Mr. Victor, are good enough fellows, and they cover a lot of ground and gather a lot of news and a lot of personal items. But they both have the same fault, they have no sense of real news values, as I have; and much that they print doesn't really amount to anything at all. They do very well for small-town papers, but a great deal of what they write the Journal wouldn't care for at all."

This is doubtless why Mr. Lloyd Riches, who acts as Journal correspondent when not engaged in dramatic endeavor, always clips and rewrites the local papers for his daily "string" in the great Portland paper.

HINT ON WEEDS

Agricultural College Opens up on Subject Once Again

"About the only sprays that I know of used successfully in the control of weeds are those that are used primarily to prevent seeding," says H. S. Hammond, of the O. A. C. Botany department. "Three of the most common are 12 pounds of copper sulphate or 100 pounds iron sulphate or 110 of common salt, each dissolved in 50 gallons of water. This will control annuals and retard development of some perennials, but the best way to eradicate such plants as the Canada thistle is to keep them down for a few months by hoe cuttings, when the root portion will gradually die of starvation."

His Rest Was Broken

O. D. Wright, Rosemont, Neb., writes: "For about six months I was bothered with shooting and continual pains in the region of my kidneys. My rest was broken nearly every night by frequent action of my kidneys. I was advised by my doctor to try Foley Kidney Pills and one 50 cent bottle made a well man of me. I can always recommend Foley Kidney Pills, for I know they are good." This splendid remedy for backache, rheumatism, sore muscles and swollen joints contains no habit forming drugs.—Jones Drug Co.
