LETTER TO SOLDIER IS RETURNED AFTER TAKING LONG TRIP

A letter addressed to Arnold Schneider, of Company D, 364th Field Artillery, and which has traveled many places in France, arrived again in Oregon City Wednesday morning. This letter, written by the committee publishing a patriotic number of the Morning Enterprise almost a year ago, and which contains a \$1.00 greenback, is to be turned over to Mr. Schneider when he calls for it. Mr. Schneider, who is the son of Mr. and Mrs. Schneider, of Redland, was formerly employed in this city. The envelope has the appearance of hard usage, having been transferred to many postoffices before it was returned to this city, but it has each time fallen in honest hands, and although the letter has been censored a number of times, the greenback is still untouched.

An effort will be made to find Mr. Schneider's present address, as he returned to Oregon City some time ago, and later went to California.

A few days ago a letter was returned to the committee with the greenback taken from the envelope. This was addressed to an Oregon City young man, and the flag seal had been broken open at the rear of the envelope and the money removed from the letter, which had been attached to the dollar greenback by a paper clip. The paper clip was still attached.

MR. AND MRS. BARKER MEET SOLDIER SON IN PORTLAND TUESDAY

Mr. and Mrs. Thomas Barker, of this city, went to Portland Tuesday afternoon to see their son, Thomas Barker, Jr., who has been receiving medical treatment at the hospital at Camp Lewis, and is now on his way to California, where he is to undergo another operation on his arm. He is with a large number of other casualties to receive medical aid in California.

Barker was with the famous 81st Division in France, and was in some of the heaviest fighting. It was while engaged in one of the big battles he was shot in the left arm, and several operations have already been performed. It will probably be necessary for the young man to undergo an operation where the bone will be grafted.

LIEUTENANT SPAGLE IS APPOINTED ARMY OFFICER IN RESERVE

J. C. Spagle, who served in the army on the Mexican border, and who was assigned as a second lieutenant in the 28th infantry during the late war, received intelligence Thursday of his appointment as first lieutenant of infantry in the United States army reserves. The reserves will be mobilized 15 days each year for instruction, and will be subject to the call of the government at any time.

LICENSE TO WED

Marriage licenses were issued Thursday to the following: Irene Roberts, 25, and I. T. Martin, 25, both of Portland, and to Sarah E. Wilcox, 20, of Portland, and Waldo Koellmeier, 27, of Oregon City.

Truman Cross Is Visiting In City

Truman Cross, who was with the Rainbow Division in France, and who recently returned from overseas service, has arrived in Oregon City from Olex, Eastern Oregon, and is visiting his parents, Mr. and Mrs. Frank Cross of Greenpoint.

Cross, when entering the service was operating one of the large caterpillars used by the farmers and grain-growers of Eastern Oregon, and was anxious to get into a division in France where these caterpillars were used. After arriving overseas, he was transferred from his company to another division, where he was one of the truck drivers, and close to the battle line. He is now engaged in repairing caterpillars at Olex.

Cross came to Oregon City from Olex on his motorcycle, and his parents and other members of the family left here Sunday morning and met him at Bonneville, where a picnic lunch was enjoyed. He will remain here for a few days, and will then return to Olex, as it is nearing the busy season in that section.

Two Local Boys Join U. S. Army

Two of Oregon City's popular young men, Claude Harris and Roy Swift, led Oregon City's quota in the new peace time army and enlisted for training in the Air Service. Both men have remarkable aptitude for the higher branches of mechanical work and will without doubt reflect credit upon this city by their advancement in the branch which they have entered.

Like the majority of western men they have passed their preliminary examinations with flying colors and will leave Friday for Portland and from there will probably be sent to San Francisco for their preliminary training.

The opportunities of taking up one of the trades taught by the army is offered to every young man in Oregon City and the vicinity and the recruiting officer and sergeants are anxious to meet them at the Oregon City Recruiting Office, Postoffice Building.

William Bowes Is Back From France

William Bowes, formerly of Oregon City, and at one time linotype operator for the Morning Enterprise, who entered the service in 1918, and has been in France with Hospital Corps 45, was in Oregon City Thursday, where he was visiting among his many friends, who gave him a most cordial welcome to his former home town. When the Hospital Corps 45 left France for the United States, Bowes was taken ill with the measles, and there was no more disappointed young man in France than he, when the troop ship with his organization left the pier for the homeward trip.

While in New York Bowes visited the Oregon headquarters, where he enjoyed the hospitality the Oregon people are extending to the returned soldiers and others in the service. Miss Peggy Curtis, a Salem young woman, is on the reception committee, and is doing her part in giving Oregon boys a most cordial welcome. Bowes speaks highly of this place, and says all the boys greatly appreciate the headquarters and the treatment given them while in the rooms and they are proud of old Oregon for doing this bit of good work.

Bowes has gained in weight, and is in the best of health, and says he is mighty glad to be back in the United States. He says the further West he came the better it looked to him.

RECEIVER APPOINTED

James M. Reeves was appointed Thursday as receiver of the mill of Edith R. Reeves and L. Flury, manufacturers of railroad ties. His bonds were set at \$2,000.

Edith Reeves alleged that Flury was unlawfully selling the ties and padding the payroll and asked the court to appoint a receiver.

FRIGHTENED HORSES RUN AWAY TUESDAY AND WRECK WAGON

A team belonging to Mr. Rose, who resides three miles southeast of Oregon City, caused considerable excitement and damage Tuesday when they ran away while the owner was stopping at Parkplace.

Mr. Rose and daughter had driven to Parkplace having their wagon loaded with groceries, and then loaded a large table on the wagon. After this they tied the team and were eating dinner at the home of Mrs. Brayton when the horses became frightened and broke away.

They ran through Parkplace and down a steep bank, where the wagon was upset. Here the front wheels and tongue broke loose and the team ran several miles into the country before being stopped.

They ran into a new automobile, driving the tongue of the wagon into the machine and otherwise damaging it. The team was caught by the driver of the car and held until Mr. Rose arrived. Damages to the auto were estimated at over \$100.

PROMINENT RESIDENT OF SHEDDS, OREGON DROWNED TUESDAY

Tuesday morning Mr. and Mrs. W. M. Parker of this city, received the sad intelligence of the drowning of Ralph Hines, brother-in-law of Mrs. Parker. The drowning occurred at Shedd, Oregon, while Mr. Hines was bathing.

It is thought by relatives and friends of the young man that he was seized with a cramp while swimming, as he was considered an excellent swimmer. His automobile and clothing were alongside the stream. Every effort is being made to recover the body. Although a large amount of dynamite has been exploded near the spot where the clothing and the automobile were found no trace of the body has yet been found.

Mr. Hines was about 27 years of age and leaves a widow and two little children, Paul and Frank.

Mr. Hines has visited this city on a number of occasions, and visited the Barker family about two months ago. His parents reside in Washington.

PHONE OPERATORS AND CONSTRUCTION MEN STRIKE IN PORTLAND

PORTLAND, June 30.—With approximately 400 telephone operators and 100 construction workers employed by the Pacific Telephone & Telegraph company reported on strike in Portland today, the city faces the prospect of almost complete demoralization of the telephone service before midnight tonight. Even officials of the telephone company decline to forecast the possible scope that the strike may attain by tomorrow.

The strike completes the tie-up of the Pacific coast, as far as telephone and electrical workers are concerned, since Seattle and San Francisco have already gone on strike in compliance with orders issued by the International Brotherhood of Electrical Workers.

Portland operators went on strike this morning at 7 o'clock, after deliberations that lasted practically all day Sunday, closing with a final meeting at midnight last night.

PRESIDENT WILSON EXPECTED TO PRESENT PEACE TREATY TUESDAY

WASHINGTON, July 2.—President Wilson, it was expected by many members of congress today, will appear before the senate next Tuesday to present the treaty of peace for ratification.

Meanwhile, both house and senate were in recess. All appropriation bills were finished and the vacation was voted last midnight. Congress will meet again July 8.

The measures driven to final passage in the 14-hour session yesterday were:

The army bill, carrying \$775,000,000, 000,000.

The District of Columbia budget, carrying \$15,000,000.

A deficiency measure carrying a number of small items totalling \$25,000,000.

The army bill as finally agreed upon provides for an average army of 325,000 men during the fiscal year which began yesterday.

The money bills passed bring the total appropriations during the present session and the closing session of the 65th congress to more than \$5,000,000,000.

Just before adjournment, House Republican Leader Mondell inserted in the record a statement that the six great supply bills passed by the 66th congress were nearly \$800,000,000 less than the same bills as they passed the last house.

In addition, he said, the request of the railroad administration has been cut \$450,000,000.

Thirty Years Ago Today

Taken from Oregon City Enterprise, June 27, 1889

The climbing clematis on Mr. C. O. Albright's front porch has presented a very handsome appearance for the past four weeks, as it hangs fairly loaded with large blossoms.

F. M. Darling's school closed last Friday in the Brown school district, having rendered good satisfaction. The directors have talked of securing him next winter.

David McArthur of New Era was in Oregon City yesterday, having his mower repaired. He says the hay crop this year is the largest he has ever seen in Oregon.

C. O. T. Williams went to Tacoma last Thursday morning and returned Saturday.

E. Warner brought to this office a head of lettuce that measured 14 inches across the head.

Military Company.—Last night Lieutenant Wells of Portland came up to organize Company F of the First Regiment of Oregon National Guards. To the application for the organization of a company there were enrolled the following names: E. S. Warren; E. M. Randa, Lance Gardner, W. T. Davidson, B. F. Burck, Jr., C. W. Porter, Henry E. Stevens, Austin T. Olsen, D. E. Shepard, Horace Williams, Charles W. Kelly, C. E. Murray, Jr., John Alldredge, Sam Harselson, F. S. Kelly, M. G. Heckley, Thomas Smith, J. C. Hickman, Charles Babcock, G. C. Fields, James W. McConnell, John Green, Charles Athey, A. Halmas, Frank Cross, W. W. Marra, Tom Randall, S. R. Green, A. H. Schram, M. F. McCown, J. W. Ganong, George Warner, John Mulvey, John Trembath, Jr., W. H. Stackpole, J. K. Morris, George Pearson, M. H. Flanagan, Joe Green, Fox, A. E. Pater, A. B. Graham, Hen. L. W. Dans, Lafayette Marra, W. T. Whitlock, Ernest Randa and James P. Shaw.

New Boat.—The new steamer Modoc built by the O. R. & N. Co. and which is expected to be ready for service by July 1st, is built especially for up river service in low water.

Well Arranged.—G. A. Harding is expecting to move back into his house tomorrow. Mrs. Harding has had full scope in the plans for remodeling and has evolved a pleasant, convenient and commodious residence. The fireplace and mantel in the dining room are neat and attractive.

Fourth of July at Beaver Creek.—The citizens of Beaver Creek have made arrangements to have a grand picnic on July 4th. The proceeds will be for the Welsh church.

A Week of Play.—The Chicago Com-

edy Company closed a very successful week here last Saturday evening. It would hardly be supposed that a town of this size would stand one week of theatre going, but the house was crowded every night. The strong members of the company are James A. Devlin and Miss Belle Inman. Mortimer Snow and Val E. Love assumed the parts of tragedian and villain very successfully.

Seriously Hurt.—Yesterday at about 12:30 John Alldredge, aged about 17 years, took Wheeler Church's horses from the corral opposite Noblett's Livery. When outside the gate he jumped on one of them to ride, intending to lead the other. The horse started and landed John too far back. Several jumps on the part of the horse were sufficient to throw Alldredge, and he struck with force on the hard ground. He was picked up unconscious, and Dr. J. W. Norris was summoned, who found no bones broken, but is probably suffering from internal injuries.

BOYS WHO ROBBED GARAGE AT BORING CAPTURED THURSDAY

Thomas Abraham, Ralph Rutherford and Harry Knecht, wanted for robbing the Telford garage at Boring Tuesday night, were captured Thursday in Portland by the police of that city. The young men reside in Portland and were arraigned before the juvenile court for hearing. They have all been paroled from the reform school and were sent back to that institution.

All articles taken from the garage with the exception of a tire gauge, were recovered. These consisted of several tires, both outer casings and inner tubes and accessories.

SWARM OF BEES ARE WELCOMED AT NEW HOME

The home of Mr. and Mrs. George A. Harding has been selected for swarming bees. Where they have come from is a mystery to Mr. and Mrs. Harding. These little insects are now busily engaged in making honey for the family.

About three weeks ago F. A. Miles, an old time friend of Mr. Harding was calling on the latter, who has been ill at his home for some time, and as he was leaving the home, saw the bees

Ireland and England

Edward F. Dunne and Frank P. Walsh, in their report on Irish conditions, made after a personal investigation, set forth a terrible indictment against England in seventeen accusations, any one of which, if substantiated, is enough to cover any Government tolerating them with infamy.

The Dunne-Walsh report charges that prisoners were doused with ice-cold water as they lay helpless in their cells, and left to die thus in winter, in their soaked clothing, until stricken with pneumonia; hundreds of men and women confined for months in vile prisons without charges being preferred against them; prisoners confined day and night in narrow cells with their hands handcuffed behind them and wallowing in unspeakable filth; prisoners pounded and beaten with clubs in their cells, and other horrible and almost unprintable details.

The New York Herald, in a recent issue, printed the Dunne-Walsh report in full. It is a ghastly document. Official Britain says "lies," but that answer will not serve. The Irish are a brave people. They have made a long fight for freedom and they are entitled to a fair hearing without their masters resorting to the barbaric acts of the stone age.

Unless England proves its utterance of "lies" by a full investigation, then millions of people who are not Irish at all, but who breathe the free air of America, will believe the statements of the Dunne-Walsh report are true. Press reports advise us that the fair-minded people of England were "stunned" upon reading the report, and well they may be.

trying to find a place to light. He rushed into the Harding home and informed Mr. and Mrs. Harding of the visitors, and by that time others passing by saw the excited little bees trying to find some place to settle. The first place visited in the Harding yard was the large laurastina bush, but some of the higher-up bees decided on one of the large rose bushes covered with beautiful pink roses. These flowers the queen probably preferred to those of the leaves of the laurastina bush. So for the rose bush they all started, and there were hundreds of them in the bunch that settled on the bush.

Carl Bach, who has had experience with bees and hives of all kinds, was passing near the Harding home, and he rushed into the yard to give his assistance. Mrs. Harding, who is an authority on growing roses, for her place has nearly every variety grown, and always has been a beauty spot of Oregon City, was rushing around trying to find something to have the bees settle in, for the rose bush was very little protection. Bach called to get a bee gum, but "bee gum" was French to Mrs. Harding. Any way, she started out to get a bee gum, and at a nearby store she ran and told the proprietor she wanted a "bee gum," whatever that was. The bee gum proved to be a bee hive, and this was soon on the premises and Bach assisted in installing it so the bees could make their permanent headquarters here. Bach is a lover of bees (when they don't sting) and not a sting did he receive while he was handling the hive. They swarmed around him and welcomed their little home, where they are now happily domiciled.

GARY MOTOR TRUCKS WIN IN ROAD WORK COMPETITION

GARY 3½ TON TRUCKS

Three Gary 3½-ton Trucks, purchased by Kay County, Oklahoma, for public road work—after a competitive test with five other leading makes of trucks.

We now have twenty trucks on the way like those shown above, all equipped with 3½ yard steel lined bodies, with Hydraulic Hoist, that we are bringing in for road construction work. These will be sold under the factory's absolute guarantee for the full period of one year.

GARY steel products lead the world. GARY Trucks are in the same class. Don't chance an unknown quality.

REPORT OF W. C. NORRIS CO.

Here is the report of the W. C. Norris Motor Sales Company, of Tulsa, Oklahoma, on the three trucks shown above, and covering their experience with motor trucks in general and GARY Trucks in particular.

"We have just closed the deal with the County Commissioners of Kay County for three GARY 3½-ton trucks. We competed with five other makes, and outpulled them all. The performance of the trucks we frankly state is marvelous. The "H" and "HU," 2 and 2½-ton models with four speed transmission outpull, overpower and outlast everything in their rated capacity; while the 3½-ton is even greater in pulling power and load carrying capacity. We consider your worm drive, semi-floating Sheldon Axle as the only safe and sure form of construction for hard usage and to withstand the strain and abuse to which a truck is subjected in the oil fields and kindred lines of work. Our observation, experience and knowledge of actual results in meeting oil field requirements, with heavy loads and no roads, convinces us that GARY TRUCKS can be relied upon in every instance and will deliver a long life of service at a nominal upkeep and low cost of operation. We are for the GARY TRUCKS strong and shall concentrate our future efforts exclusively on the GARY line."

R. C. NORRIS MOTOR SALES CO.
(Signed) N. D. Southerland, Gen. Mgr.

Note: The W. C. Norris Motor Sales Company are a million dollar concern, and one of the largest in Oklahoma. After several years' experience with other lines of trucks, they have dropped them all and rely exclusively on GARY Trucks for heavy duty oil field work and for all purpose usage.

There is a Gary Truck for every purpose, one to five-ton sizes. All of the highest quality of design and construction. Certainty of Service is our slogan, and as WEST COAST FACTORY AGENCY we shall always be prepared to supply any duplicate part that may be required, and do any repair or service work necessary.
