

MILLION MEN ARE TO STRIKE TO AID MOONEY

SAN FRANCISCO, July 2.—One million men will quit work Friday for four days in the first demonstration in behalf of Thomas Mooney, Selig Schulberg of the International Workers' Defense league told the press today. This number represents all organized trades, and will affect practically every city and town in the United States.

"The approximate union vote cast on the demonstration was 128,000 to 22,000," said Schulberg. "Considering that union meetings usually draw 20 per cent of their attendance, and that this does not include a number of heavy radical labor organizations not affiliated with the A. F. of L., the number of workers affected is at least on million."

"A tally of the vote shows the best response to be likely in Detroit, Minneapolis, Chicago, Butte, Seattle and Tacoma, Great Falls, Mont., and Terre Haute, Ind. The biggest single craft ready to walk out is the United Mine Workers, with a heavy membership in Pennsylvania, West Virginia, the Middle West and Far West."

The strikers will remain out four days as a protest against Mooney's conviction. They will then return to work, and if the new trial is not granted will walk out again Labor day for four days. There is no general leader for the strike, Schulberg said, each union handling its own walkout.

Society Girl Became Secret Bride of Aviator

Mrs. William Barrett

Miss Alice Gordon Drexel, who since her introduction to society six years ago has been prominent in New York, Philadelphia and Newport, is now the wife of Captain William Barrett of the army air service. They were married quietly in New Rochelle, N. Y. Her parents, Mr. and Mrs. John R. Drexel of New York City, knew nothing of the wedding until the next day. Captain Barrett served in France for eighteen months and was wounded several times.

BOAT LOADED WITH VALUABLE CARGO OF WHEAT STRIKES ROCK

PORTLAND, June 27.—Laden with 7300 tons of wheat valued at \$654,000, the new steel steamer West Harlan, outbound from Portland to the Atlantic coast, struck a rock 18 miles east of Astoria and sustained damage to her bow and steering gear. According to word received early today by her operators and C. D. Kennedy, chief of the division of operations of the Emergency Fleet corporation.

The cargo is said to be safe although the forepeak of the vessel is filled with water. An attempt to tow the ship off her resting place was scheduled to be made at high tide at 3 o'clock this afternoon.

That the accident was due to a defect in the steering gear is the belief of marine experts.

The accident took place at 12:30 o'clock this morning, according to a report from G. R. Smith, United States shipping board inspector of Astoria, who visited the scene of the mishap.

ALDERMEN TRANSACT BUSINESS FOR CITY

Disposing of a mass of routine business in record time Wednesday night, the council passed the ordinance leasing the lower floor of the city hall building to Frank Busch and the ordinance authorizing the sale of lot 6, block 138, to W. J. Wilson, for \$400.

William H. Howell, newly elected water commissioner, was present and in a brief talk he indicated a desire to work in harmony with the council, suggesting that in the event of a shortage of water during the summer months, the elevator trips except during the rush hours be at 5-minute intervals. Mr. Howell also referred to the waste of water in flushing streets. The council instructed the street committee to have a call bell installed on the municipal lift, to save unnecessary trips.

Councilman Tobin reported that 120 feet of concrete pavement had been laid on Washington street by J. W. Moffatt and said the work is progressing satisfactorily. The city, under the direction of Street Superintendent Christensen, took care of the excavation at a cost of \$612.90, as against the contractor's proposal of \$640. Councilman Kelly hoped the day would come, in his lifetime, when every principal thoroughfare in the city would be improved with a concrete pavement.

The city will proceed to lay a new sidewalk, 1900 feet long, on Linn avenue, which is the old Fifth street road. Property owners contributed about \$135 toward the improvement. Councilman Bridges referred to the bad condition of Seventh street, and was assured that the street would be scarified as soon as practicable. The Southern Pacific crossing at the foot of Sluger Hill also came in for criticism, and the recorder was directed to notify the railroad company to plank the crossing.

Improvement of the road from Mount Pleasant to Molalla avenue was discussed. An arrangement has been entered into, under which the county is to do the work, the city, the county and the property owners each paying one-third of the estimated cost of about \$3500.

Permission was granted to the Farley Auto Sales Co. to install a gasoline filling station in front of the Moose building.

Reports of the water board and of the city treasurer were presented and will be published. Total receipts of the water commission for six months amounted to \$17,127.74, with disbursements of \$15,654.75.

MOTOR TRANSPORT TO TOUR PACIFIC COAST OVER NEW HIGHWAY

WASHINGTON, June 26.—The war department has completed plans for a transcontinental tour of the motor transport corps under actual war conditions, starting from Washington on July 7 and proceeding along the route of the Lincoln highway to San Francisco, a distance of 3030 miles.

The war department will utilize two complete truck companies to operate the corps. It will consist of approximately 60 trucks, accompanied by auxiliary trucks and equipment of anti-aircraft, engineer, medical, field artillery and air service units.

The personnel will comprise 10 officers and 210 men of the motor transport corps, two officers and 30 men of the engineer corps, in addition to officers and men of the auxiliary detachments accompanying the convoy.

This is the first time that the government has provided a train of this character for crossing the Rockies and Sierra Nevada to the Pacific coast.

It is proposed that President Wilson start the convoy off from Washington by appropriate exercises to be held in Lafayette park, opposite the White House. In the park a monument will be dedicated as the starting point for all national highways.

Equipment of the Spruce Division Is Offered For Sale

PORTLAND, June 27.—Over \$2,000,000 worth of property belonging to the United States Spruce Production corporation is being offered for sale from the office of the corporation in the Yeon building. Sealed bids on the mills, trackage and equipment at Port Angeles, Wash., and Toledo, Ore., will be opened at 2 P. M., September 2, at the Portland office of the corporation.

To create interest in the sale among lumber manufacturers both in the United States and in foreign countries, approximately \$100,000 is being spent in an advertising campaign. Liberal space is being used in newspapers and trade papers in this country, South America and Northern Europe, and to carry full details of the development of the two properties to prospective bidders, an elaborately printed 64-page catalogue has just been issued by the officials of the spruce production corporation.

Ford and His Money

Among the mass of "publicity" coming to the desk of the Enterprise are reports of the libel suit of Henry Ford, multi-millionaire manufacturer of tin lizzies, against the Chicago Tribune for one million dollars. These reports are signed by E. G. Pippas, presumably an employee of Mr. Ford, who gives 124 Blaine Avenue, Detroit, Mich., as his address.

Mr. Ford contends that his character was damaged in an editorial in The Tribune, in which he was termed an anarchist.

Not long before we declared war on Germany, Mr. Ford, who was and probably still is an avowed pacifist, sent, at his own expense, a "peace ship" abroad, and became the laughing stock of the whole world, and he has been smarting under the eyes of the world ever since. His ill-advised stunt did this government no good, and Mr. Ford had the satisfaction of parting with much of his excess profits, though he has plenty of money left.

Bringing suit against a newspaper is an easy proposition for a man who has as much money as Mr. Ford. He can well afford to drop a few hundred thousand in attorney fees. Not long since he was a candidate from Michigan for United States senator, but his people defeated him. Presumably this escapade cost Mr. Ford some of his money.

Of course so long as Ford can make motor vehicles and sell them at a long profit, he can afford to indulge in peace ships, senatorial fights and even newspaper libel suits, but we do wish he would keep his publicity stuff away from our desk. We don't want it.

BIG DIRIGIBLE HUNS TO RATIFY STARTS ON TRIP PEACE TREATY OVER ATLANTIC EARLY IN WEEK

LONDON, July 2.—The British dirigible R34, which left East Fortune, Scotland, at 1:48 o'clock, Greenwich fly across the Atlantic, had reached 53 degrees 50 minutes north latitude, 17 degrees 50 minutes west longitude (approximately 400 miles off the southwest coast of Ireland) at 2 o'clock Greenwich time this afternoon (10 o'clock New York time).

Major Scott, commander, in his wireless dispatch, said the dirigible was making 32 knots an hour in a thick fog. He added all was well.

The position of the R34 at 12 o'clock Greenwich time was approximately 300 miles west of Penzance, England, indicating the big airship had traveled in a southerly direction along the coast of Ireland since she made her previous report at 8 o'clock Greenwich time. The mail carried by the R34 includes a letter from King George to President Wilson.

GENERAL J. S. COXEY CLAIMS GOMPER'S IS IN FOR HOT TIME

WASHINGTON, June 26.—"Samuel Gompers, president of the American Federation of Labor, is sitting upon a volcano brewing in the labor ranks," Jacob S. Coxey of "Coxey's army" fame, told the house banking and currency committee Wednesday.

The "general" added that a revolution, against which he is working, is threatening in the United States. He was testifying in support of a bill providing public improvements and work for the employment of soldiers out of jobs.

Members of the committee suggested that use of the word "revolution" might incite ignorant workers to violence. The witness admitted that such might be the case. The committee then called the "general's" attention to some of his remarks in a pamphlet to this effect:

"Falling in this peaceful and desirable mode, then revolution. Think it over; is there anything else left for us to do?"

"General" Coxey gave these as the causes of the threatened outbreak, which, he said, he fears will be accompanied by violence: Prohibition, the high cost of living, hindrances on freedom of speech, and general unrest.

EX-CROWN PRINCE IS REPORTED IN GERMANY

PARIS, June 26.—Frederick William Hohenzollern, the former German crown prince, has escaped from Holland and made his way into Germany.

News of the escape of the ex-crown prince caused a considerable stir in peace conference circles. While it is not felt that he is a figure around which the reactionaries and monarchists would gather enthusiastically, nevertheless his act is regarded as an event of considerable importance.

WASHINGTON, June 25.—Confidential reports that the former German crown prince and probably the former emperor would attempt to re-enter Germany after the signing of the treaty were received recently by government officials here. This became known today after an Associated Press dispatch telling of the escape of the crown prince had been received.

PARIS, July 2.—The Germans expect to ratify the peace treaty the first of next week, according to a note sent to the allies. The note was one acknowledging the allies' stipulation that the blockade will be raised when the treaty is ratified. The Germans also expressed the hope that German war prisoners would be released at the same time.

The Turkish situation is giving the peace conference much uneasiness. Reports received here indicate that there have been organized in Asiatic Turkey three Turkish armies whose generals refuse to obey orders from Constantinople.

As the position of Constantinople has been much weakened by the refusal of the conference to consider proposals from the Turkish delegates immediately. It is feared that independent movements will develop throughout Asia Minor.

Conley Is Arrested At Los Angeles

LOS ANGELES, Cal., June 26.—Charles Conley, 24, of Camas, Wash., arrested here on suspicion of having robbed a bank at Beaverton, Ore., June 10 last of \$3800, will be taken north to face the charge. Local police received a wire from the sheriff at Beaverton today to hold the man.

In a room in a local hotel where Conley was arrested \$1700 was found secreted in the mattress of his bed. Six hundred dollars more was found in his clothing. Conley denies ever having been in Beaverton. He insists he saved the money working at his trade as an electrician. His wife, formerly Leta Henry, of Camas, corroborates his statement. Both say they came here for a vacation.

According to the police, Conley, working at his trade as an electrician, gained entrance to the bank as a repairman, and was able to rifle the depository at his leisure.

SYMPATHETIC STRIKE IS VOTED DOWN BY CARMEN OF PORTLAND

PORTLAND, June 28.—With the action of the street car men in deciding not to join the Thomas Mooney sympathetic strike set for July 4, it is now believed that there will be no general participation in the movement on the part of the Portland unionists. A count of the ballots yesterday showed that out of 888 cast 551 were against the strike and 338 in favor of the five-day walkout. Eleven ballots were improperly marked and were thrown out. It is said that orders issued recently by the international organization advising against the sympathetic strike had a direct influence on the result of the balloting.

Plans for an open meeting to discuss the Mooney case are being made by the Central Labor council. If the Auditorium can be obtained the meeting will be held there the first part of next week.

OPERATORS OF NEWS ASSOCIATIONS ARE TO GET MORE PAY

NEW YORK, July 2.—Announcement was made today that contracts have been concluded between the management of the United Press and its operators, including a new wage scale under which the operators receive an aggregate annual increase approximating \$100,000.

The contract, which also covers conditions of employment, was made effective Monday, June 30, and covers a period of one year.

A contract containing an identical wage scale was signed by the International News Service and its operators. At the same time, it was announced that the Associated Press had granted what amounted to practically an identical increase to its operators.

NEW YORK CITY'S COURT OF APPEALS UPHOLDS DRY LAW

NEW YORK, June 26.—The war time prohibition act under which no liquor may be sold after July 1, was upheld today by the United States circuit court of appeals. The court virtually dissolved the injunction Judge Mayer granted the brewers, restraining the federal district and internal revenue collector from enforcing war time prohibition, as applied to 2.75 per cent beer.

The court held the act was constitutional and Judge Mayer had no jurisdiction to enjoin the enforcement of a constitutional act.

The court recommended that the district attorney hasten final determination on the issue in the highest court and in the meantime interfere with the business of brewers as little as possible.
