REV. T. B. FORD HOME
FROM CONVENTION OF
M. E. CHURCH IN EAST

Rev. T. B. Ford returned to Oregon City Wednesday from Ohio, where he has been the past six weeks. He was for some time in Cleveland, where he attended a convention of bishops and district superintendents, a large number being in attendance, and it proved a most successful meeting. From there he went to Columbus, Ohio, where he attended the Centenary Exposition, the first to be held in the United States of its kind. This was given in honor of the 100th anniversary of the missionary society of the Methodist church.

"The exposition was a wonderful affair," says Dr. Ford, "and there were representatives from various nations. Among those being represented were Africa, China, Japan and Korea. These natives attracted much attention, and seemed to enjoy the interest the Americans were taking in them."

While attending this exposition Dr. Ford had the pleasure of listening to the address of Ex-President Taft, who spoke on "The League of Nations" before an audience of 7000 people, and there was a great demonstration after the speaker had finished. He made a most favorable impression, and Dr. Ford says, "I would not be surprised if Mr. Taft would be nominated for President, for he is strong with the people of the East, and I believe one of the strongest men in the Republican party. The audience approved his sentiments in his address, from the ovation he received."

DR. MOODY PREFERS
WHITE HELMET TO
HARD WORKING SQUAW

Dr. and Mrs. Sherman Moody and daughter, Roberta, of Eugene, arrived in Oregon City Thursday evening, where they remained until this morning at the home of Mr. and Mrs. C. I. Stafford, the latter a sister of Mrs. Moody. They are on their way home from a motoring trip in Washington, where they visited Rainier Park, Quinalt Lake, Cosmopolis, and other interesting places. At several of these places the Indians were in large numbers, and seemed to enjoy the visit of the whites on their reservations. One of the incidents noted by Dr. Moody and his wife was where an Indian woman had married a white man, and the former seeing one of the campers working diligently cutting stove wood, walked over to the man and in deep tones inquired why he did not get a squaw, who could do all the hard work for him. The white man raised his head from his wood chopping, gazed at the squaw and scratching his head, thought he preferred a white woman to a squaw, even if he did have to cut the wood, but he didn't tell the squaw this. She informed him that her husband was a white man, and she did all the hard work. Before leaving camp Wednesday, Mr. and Mrs. Moody enjoyed a snowball party on the mountains, and a most enjoyable outing was had in coasting in the snow.

HILL SELECTED SPUDS
TO INCREASE YIELD OF
TWENTY-FIVE FARMERS

County Agricultural Agent Scott has completed his inspection of the field of hill selected American Wonder potatoes grown near Corbett by F. N. Lasley, who has been hill selecting potatoes for 14 years. Twenty-five farmers in as many sections of Clackamas county are planting these potatoes this year, following the method of Mr. Lasley, and it is said that the universal use of hill selecting potatoes in this county will increase the output about 25 per cent.

The Portland & Oregon City Ry. Co. wishes to announce that they have new equipment on their line, for handling both freight and passengers, between 22nd and Powell Streets East Portland, and Baker's Bridge. The passenger train makes three round trips daily. The following is the new schedule:

Week Days	Week Days
Leaving Portland	Leaving Baker's Bridge
9:00 A. M.	6:00 A. M.
2:00 P. M.	12:30 P. M.
6:00 P. M.	4:15 P. M.
Sundays	
9:45 A. M.	8:30 A. M.
2:15 P. M.	1:00 P. M.
6:15 P. M.	5:00 P. M.

AUTOMOBILE THIEVES
GETTING PLENTIFUL
AND GROWING BOLDER

Automobile thieves are getting plentiful in Clackamas county, and several thefts have been reported in the last few days.

Saturday evening Mrs. Fred Webb left her car in front of Swartz's store while she went shopping and when she returned 15 minutes later, her car was gone. Sheriff Wilson picked it up last night at Mulino. It had been run over a bank, but was not damaged. It is supposed some boys took the car to go to a dance at Mulino and were afraid to bring it back, fearing detection.

Hospital Nurse
Loses Motor Car

A car owned by Miss Mary Swales, nurse at the Oregon City hospital, was stolen Wednesday night about 12 o'clock. Miss Swales had been at the Chautauqua, and nearing the hospital ran out of gas about 20 yards from the building on the hill. She left the machine standing near the curb and went to bed, thinking that she would get gas in the morning and drive the car into the garage. The thieves evidently obtained gasoline some place in the city and, filling the tank, drove the car away. The car was found Thursday morning at Vancouver, Wash., and was not damaged.

Thieves Strip
Car of Light

A spotlight on the automobile of C. W. Robey, who lives at 806 Washington street, was stolen by thieves late Wednesday night or early Thursday morning. In taking the spotlight the thieves broke the lower windshield of the car and left the battery cord, which became charged, hanging down next to the metal of the auto. About \$15 worth of damage was done to the auto. Robey offers \$10 reward for the arrest and conviction of the guilty parties.

FIELD OF GRAIN
OVER COUNTY IS
RECORD BREAKER

The grain yield of Clackamas county for 1919 is to be the largest in many years, and the farmers, who have planted much of their land this year to oats, wheat and other grain, are delighted at the outlook for a large harvest. Everywhere in the county the grain stands from four to six feet, while in some localities the stalks have attained a height of six and one-half feet and still growing. The recent rain was a great benefit to the growing crops and assisted in developing the heads of the oats and wheat. Land that was planted to potatoes and other crops last year has been planted this year to grain. Among the farmers of Clackamas county anticipating large yields this year is T. O. Ridings, of Molalla, who is figuring on harvesting 3000 bushels. His grain is now over six feet high.

County Assessor W. W. Everhart, whose farm is located at Molalla, is looking forward to harvesting a bumper crop this year. He has 85 acres in grain, and his crop has never looked more encouraging. He has rented 62 acres, a large part of which he has planted to grain.

In the Stafford county the farmers have devoted much of their attention to growing grain and hay this year. There was a shortage of both last fall, and a large portion of the land is growing its first crop this year, showing the value of the soil, for all kinds that have been planted have taken on a vigorous growth.

Clackamas county is to do its part toward supplying the country with wheat this year.

NEW PLAT FILED

The Oregon Iron & Steel Co. has filed an extended plat of Lake View Villas, located between Goodin station and Oswego. The tract embraces 48 blocks.

IRRIGATION PROJECT
IN IDAHO VISITED
BY FORMER RESIDENTS

In a recent letter received by friends Mrs. R. L. Badger, formerly of Beaver Creek, and one of Clackamas county's most enthusiastic patriots during war time, is enjoying her visit at her former home in Weiser, Idaho. It has been eleven years since the Badger family resided in that city, and many changes are noted since their return to their former home. Among the friends they are visiting is Clarence Burrows, who was with the Rainbow Division in France, and although but 20 years of age, he is wearing service stripes for 15 months' service overseas. He fought on nearly all the great fronts as a machine gun man, and is the young man who was presented with the money raised by selling at auction at the livestock sale in Clackamas county, a swine named "Machine Gun Maggie." It had been the intention of Mr. and Mrs. Badger to forward the money from the sale of this pig to the young man in France, but as he returned sooner than was expected, the discharged soldier is to invest this money toward purchasing a Durham heifer.

Among the places of interest visited by Mr. and Mrs. Badger is the large irrigation ditch, known as the Gallo-way irrigation ditch. This has been enlarged and a huge pipe will carry the water (which will be pumped from the city) up the hill to cover a thousand acres belonging to the Inter-Mountain Institute, and other land on the high land above Weiser about their old home.

Another place visited was the Minidoka dam. "This is a great sight," writes Mrs. Badger. "To our amazement the Snake river above it spreads out into a lake 15 miles long and a mile wide, and it seems like looking out across a bay or ocean. The dam is a mile across, and is a wonderful achievement. At either end (and on the opposite sides of the Snake river) a great ditch comes out, carries the precious water to make the desert blossom as a rose, and makes homes for thousands."

"This part of the Minidoka project, where we are, is a wonderfully prosperous country. Although only about ten years old there are new and thriving towns, plenty of money, with land selling at two and three hundred dollars per acre and renting at thirty to forty dollars an acre. Sugar beets, alfalfa, grain and potatoes are produced in great quantities. The people are making money fast here, but as Lee (Mr. Badger) does not like the irrigation we will probably not settle here. "Our old home spot did not look familiar, as the big house burned down since we lived there, and no one occupies the place now. It seemed sad to walk about the place and among the trees, which were needing water. The flowers are nearly all gone, excepting the shrubbery. "We are to leave soon for Iowa, where we will visit for some time with relatives, and will be at Washington, Iowa, for a number of weeks."

SCHOOL TEACHERS
IN GREAT DEMAND
FOR COMING YEAR

According to a statement issued by County Superintendent of Schools Calavan yesterday afternoon forty school districts in this jurisdiction have not as yet reported the appointment of teachers for the term starting in September, although it is more than probable that a number of the unreported districts have already secured appointees but have failed to report up to this time.

It is reported that there is a dearth of teachers for the smaller schools and that many of these schools are exceptional opportunities from a monetary and social standpoint. The larger schools have practically all been taken care of in the matter of appointments.

STARTING LIFE RIGHT
IN RIGHT COUNTRY
GETS RIGHT RESULTS

Perusal of the records of the County Clerk reveal the fact that many couples from points far distant from Clackamas county are coming to this point to secure their marriage licenses, and but one inference can be arrived at as a result.

Oregon appears to be the objective of many who are looking for a permanent home, and the advice of Horace Greeley to "go West and grow up with the country" appears to be bearing fruit as successfully as when it was first uttered. And many of those who are turning their faces toward the Oregon country have apparently decided to start right by getting married in the land of their choice.

Yesterday at the court house licenses were issued to Lulu May Cremore and Edward A. Howatt, of Paris, France, and to Mabel A. Rowley and William M. Johnson, of St. Louis, Mo.

BULK OF AMERICAN TROOPS
BACK BY AUGUST 30

NEW YORK, July 16.—Brigadier General Shanks, commander of the general embarkation, Hoboken, N. J., announced Monday afternoon that all the troops now in France, with the exception of the army of occupation in Germany, and the source of supply forces, will be back in the United States or on the way between the 20th and 30th of August.

Plain Thieves

There is an opportunity for officers of the law and the courts to do real service in catching and prosecuting automobile thieves. It is getting to be a rather frequent practice for a party of boys to hop into a car, drive it until the gasoline runs out and then ditch it along the roadside, leaving no trace or clew. Occasionally the thieves rip off a few accessories from the car and sell them or appropriate them.

The average motor car has a considerable value. If a man should steal a thousand dollars in cold cash, there would be a hue and cry for his apprehension and conviction, but, if a man makes off with an automobile, he has performed a stunt that appears to be rather popular and excites only passing interest.

Utmost diligence should be exercised in taking a few of these gentry of easy conscience and making an example of them. A good, stiff term in the county jail would be a wholesome lesson to others of the same kidney to let other people's property alone. Whenever joy riding reaches a place where the joyful ones do not have a proper respect for the other man's car, then the culprits become plain thieves and should be handled as such.

MOLALLA FARMER
BUILDS NEW TYPE
OF FARM TRACTOR

O. R. Daugherty, a prominent young farmer of Molalla, was in Oregon City Saturday on his way home from Portland. Mr. Daugherty, who has invented a tractor of large proportions, and who had the machine manufactured in Portland, is on his way to his farm with his new farming implement. This has attracted much attention in this city, and the young farmer is now anxiously awaiting to try it out on the Daugherty farm, which is considered one of the best in the Molalla country.

CHICAGO GASOLINE DROPS

CHICAGO, July 11.—Gasoline was quoted today in Chicago at 21 cents by the Standard Oil company, a reduction of 2 cents on the former price. The entire middle-west district will be benefited by the drop, it was said.

Local garage men believe the price of gas on the Pacific Coast will not be affected by the change in the middle western market.

DESTRUCTIVE FIRE
SWEEPS BROWNSVILLE
BUSINESS SECTION

BROWNSVILLE, July 14.—Fire swept over three blocks in the very heart of town Saturday afternoon. The blaze broke forth in the Hazelwood cream station and before it was noticed gained such headway that the fire department could do nothing to check the flames, which were driven by a high wind and swept the south side of Spaulding avenue clear of buildings for a distance of a block and a half, with the sole exception of a two-story brick store. The flames spread instantly southward as well as east and west, and consumed residences and business edifices clear to the banks of the Calapooia river. The loss is estimated at several hundred thousand dollars, with very little of it covered by insurance.

CUPID ON THE JOB

License to marry was granted Thursday to Ethel Madlyn Strong, 29, and Ebon Ray Hastie, 32, of Monitor. Cupid has been in hiding since July 7, but the warm weather brought him out again Thursday.

MAN ARRESTED
FOR VIOLATION
OF QUARANTINE

Francis Hahan was arrested Wednesday night for violating a quarantine ordinance, and fined \$25. Hahan has property in this city, which is rented by a family afflicted with smallpox. Hahan had taken his children over to the yard of the home rented by the family in quarantine. He was engaged in gardening. The children of the afflicted family were also in the yard. The neighbors of Hahan objected, but this did not seem to worry Hahan, and he continued to garden, and is reported to have told neighbors that it was his own property and he believed he had a right to go there, although he was aware of the fact that the family had the smallpox. Dr. J. W. Norris, city health officer, took up the matter, and directed Chief of Police Woodward to arrest the man.

Hahan had his hearing before Recorder Loder, and a fine of \$25 imposed, but was remitted by Loder. Dr. Norris has been working diligently from morning till night seeing that every precaution is taken to keep the smallpox from spreading, and in several cases families afflicted are not employing physicians, and the heads of the families going to their daily work.

Most of the cases seem to be in the neighborhood of Taylor street. Among those afflicted in that section now are four members of the Smith family, the fourth victim coming down with the disease a few days ago; family of Mr. Robbins, Virginia Ingram and several others, who are recovering.

One case is reported at Gladstone, this having been reported to the county health officer, Dr. Welsh.

Secret Service Man
Was Not Murdered

SEATTLE, Wash., July 15.—After deliberating less than one hour, the coroner's jury impaneled to determine the cause of the death of Frederick A. Dowsey, special agent of the United States shipping board here, May 2, returned a verdict that Dowsey died of natural causes, probably apoplexy, and was not murdered as has been alleged.

Veto of Daylight
Bill Holds Good

WASHINGTON, July 14.—The house failed to pass the agricultural appropriation bill, with its rider repealing the daylight saving law, over the veto of President Wilson.

Thirty Years Ago
Today

Taken From Oregon City Enterprise July 11, 1889.

The Salem was up from Portland Tuesday evening with an excursion. The party illuminated the Willamette Falls.

The oration of L. T. Barn at the U. S. Fish hatchery on the Fourth was highly commended by all who had the pleasure of listening to it.

The Ladies of St. Paul's Guild of the Episcopal church cleared nearly \$200 by the excursion to Vancouver on the Fourth.

Charles Hickman and family spent several days at the New Era camp meeting during the week.

Mrs. James A. Chase and Mrs. J. M. Bacon are among those who have been attending the camp meeting. Their husbands joined them Saturday and spent Sunday at the camp grounds.

The new store of James P. Shaw opposite the postoffice is being stocked with a full line of staple and fancy groceries. Mr. Shaw has already become well identified with the business interests of our city and needs no introduction.

The Oregonian of Sunday says: "We have received two very fine photographs of special points of interest in Oregon City. These are the new court house and new suspension bridge, which together cost the county \$60,000. Both views are clear and fine, and exhibit to a considerable interest the steady progress of Oregon City."

David McArthur, well known resident of New Era, has been laid up for several days, owing to being poisoned by dog fennel weed. Mr. McArthur was engaged in pulling the weed and his hand and arm became infected. He has been using sulphur as a remedy by application.

FORMER OREGON CITY
YOUNG MAN TAKES
BRIDE HERE SUNDAY

Dr. E. Rae Norris, of Bend, Oregon, and Wanda T. Logan, of the same city were married by Rev. C. H. L. Chandler of this city last Sunday afternoon. Dr. Norris is the son of Dr. and Mrs. J. W. Norris and is well known in this city. He has been practicing medicine in Bend for some time past, and the newly married couple have returned to that city after a short stay here.

GARY MOTOR TRUCKS
WIN IN ROAD WORK COMPETITION

GARY 3½ TON TRUCKS

Three Gary 3½-ton Trucks, purchased by Kay County, Oklahoma, for public road work—after a competitive test with five other leading makes of trucks.

We now have twenty trucks on the way like those shown above, all equipped with 3½ yard steel lined bodies, with Hydraulic Hoist, that we are bringing in for road construction work. These will be sold under the factory's absolute guarantee for the full period of one year.

GARY steel products lead the world. GARY Trucks are in the same class. Don't chance an unknown quality.

REPORT OF W. C. NORRIS CO.

Here is the report of the W. C. Norris Motor Sales Company, of Tulsa, Oklahoma, on the three trucks shown above, and covering their experience with motor trucks in general and GARY Trucks in particular.

"We have just closed the deal with the County Commissioners of Kay County for three GARY 3½-ton trucks. We competed with five other makes, and outpulled them all. The performance of the trucks we frankly state is marvelous. The "H" and "HU," 2 and 3½-ton models with four speed transmission outpull, overpower and outclass everything in their rated capacity; while the 3½-ton is even greater in pulling power and load carrying capacity. We consider your worm drive, semi-floating Sheldon axle as the only safe and sure form of construction for hard usage and to withstand the strain and abuse to which a truck is subjected in the oil fields and kindred lines of work. Our observation, experience and knowledge of actual results in meeting oil field requirements, with heavy loads and no roads, convinces us that GARY TRUCKS can be relied upon in every instance and will deliver a long life of service at a nominal upkeep and low cost of operation. We are for the GARY TRUCKS strong and shall concentrate our future efforts exclusively on the GARY line."

R. C. NORRIS MOTOR SALES CO.
(Signed) N. D. Southerland, Gen. Mgr.

Note: The W. C. Norris Motor Sales Company are a million dollar concern, and one of the largest in Oklahoma. After several years' experience with other lines of trucks, they have dropped them all and rely exclusively on GARY Trucks for heavy duty oil field work and for all purpose usage.

There is a Gary Truck for every purpose, one to five-ton sizes. All of the highest quality of design and construction. Certainty of Service is our slogan, and as WEST COAST FACTORY AGENCY we shall always be prepared to supply any duplicate part that may be required, and do any repair or service work necessary.
