ARTHUR WEBSTER IS VICTIM OF ROBBERS

Arthur Webster was the victim of a daring trio of robbers who had, early Saturday evening, robbed a Mr. Mendonhall of Portland of all the cash he had and compelled him to run his car and take them over roads they wished to go looking for people to rob. Mr. Webster was returning to his home along Harrison street when he noticed a car pull up to the curb but did not think anything of it until he was looking at two revolvers in the hands of masked men.

After taking \$22. from him the robbers made him get in the front seat of the car with Mr. Mendonhall and go with them for about two hours' ride when they ordered the car stopped on the north end of the bridge over Johnson Creek where they left the car and turned into the brush.

No clew to the robbers has been discovered yet.

PORTLAND BOY MEETS DEATH BY DROWNING

Emanuel Arvito, employed in one of the steel shipyards in Portland, was drowned in the Clackamas river near the State Fish Hatchery about one o'clock this afternoon.

Notice of the accident was phoned to Oregon City immediately following the accident and Dr. Guy Mount, John R. Lowthwaite and Harry Draper rushed to the scene and endeavored to revive the young man by the use of the pulmotor belonging to the Crown Willamette Paper company. All efforts at resuscitation proved fruitless, however, the body having been in the water for more than a half hour when recovered.

The body was brought to this city and placed in the undertaking parlors of Holman & Pace pending the receipt of instructions from the relatives of the young man, who reside in Mammoth, Arizona.

Mr. Arvito has been employed in shipyard work for the past several months and was enjoying a short vacation on the river during the two-weeks' shutdown of the yards which was called last week.

SAFETY FIRST FOR SAWYERS

SALEM, July 11.—Labor Commissioner Gram returned Thursday from Olympia, Wash., where he had been in conference with C. H. Younger, Washington labor commissioner, in an effort to arrive at a standardization of guards for power driven edgers. Numerous accidents in sawmills throughout the Northwest due to improper guarding of edgers, has led the labor bureaus of the two states to seek some means for safeguarding employees engaged in the operation of edgers according to Mr. Gram. A device has been agreed upon and guards are now being manufactured with a view to testing them out to determine their feasibility before they are adopted as the standard of the two states.

FOOD SUPPLY IS CONTROLLED BY MEAT PACKERS

WASHINGTON, July 11.—The nation's food supply will soon be dominated by the "Big Five" meat packers unless steps are taken to prevent it, the federal trade commission stated in a report to the president on its investigation of the meat industry, made public today. The report, which is part one of a series, treats on the "Extent and Growth of Power of the Five Packers in Meat and Other Industries."

"A fair consideration of the course the five packers have followed and the position they have already reached must lead to the conclusion that they threaten the freedom of the market of the country's food industries and of the by-product industries linked therewith," says the report. "The meat packer control of other foods will not require long in developing." It adds.

Declaring that the history of the packers' growth is interwoven with "illegal combinations, rebates and with undisclosed control of corporations," the commission urges the importance of the full publicity of corporate ownership for all industries.

In the absence of adequate laws, the commission points out, "unfair competition may run its course to the goal of monopoly and accomplish the ruin of competitors without the secret ownership being suspected and consequently without complaint to the commission or investigation of facts. The competitor is in jeopardy so long as he has not the knowledge of true ownership and the public is entitled to such knowledge."

LARGE FIRE IN PORTLAND VERY DESTRUCTIVE

A spectacular fire which broke out at 11:45 o'clock last night in the stable of the old Lewiston Milling Company, 348 East Oak street, spread rapidly to adjoining buildings, causing a loss estimated at between \$10,000 and \$15,000. The milling company property was totally destroyed.

From the buildings of the milling company the flames reached and destroyed the Burt Hicks machine shop and then spread to the old East Portland jail, used as a warehouse. The jail building was one of the city landmarks, having been erected in 1870. The structure was moved from East Seventh street many years ago.

All the buildings in the entire block between Third and Second streets and East Oak and East Stark streets were wiped out.

BERRY TAX IS EXCESSIVE

Manufacturers of loganberry juice in Oregon have appealed to the Portland and State Chambers of Commerce asking them to use their influence with the Oregon delegates in Washington in obtaining the removal of the 10 per cent tax on value of the product imposed at the last session of congress. A 20 per cent tax proposed before the last session of congress for fruit juices was eliminated but later substituted by the conference committee on taxation.
