STAFFORD

Clover hay is being secured in better shape this year than for years past. The sun and wind combined to cure it quickly, and stock will leave green pasture to eat the dry hay.

Stafford was called upon Sunday afternoon to pay the last sad rites to William Weltner, who died near Dorris, California, after only two days' illness. His brother and himself had taken up homesteads in the mountains, and one worked out and the other staid to look after things, and he was stricken with erysipelas while alone. His mother and sister went down and brought the body home, the brother accompanying them. The mother, Mrs. Weltner, is a daughter of the late Michael Shafer, of Shafer's mill, near the mouth of the Tualatin. Many and beautiful were the floral offerings, of which a cousin took pictures for the grieving relatives.

The Fourth and the strawberry season are things of the past and haying time is on. If we don't get a good rain this week, the late grain will be a failure; one good thing, it won't cost so much to twine them.

The Fourth of July picnic the Farmers' union gave at the Clarkes grange hall was a success. The Business of Getting On in the World

WHATEVER the future holds for you, your everyday actions are increasing the amount of it.

If your attitude toward money today is one of reckless disregard for the future, undoubtedly you are storing up trouble.

If it's the same tomorrow, more trouble.

But, if your thoughts are turned toward the sensible things that mean, finally, more money in your savings account, the danger of trouble, sometime in the future, diminishes.

Have you a savings account? Is it always uppermost in your mind? Does it receive a fair share of your income? Are you doing everything a sensible person should to avoid the troubles that overwhelm so many people, almost within speaking distance of you every day?

Have you a regular "bank day"?
