

## HELPFUL HINTS ON HOME CANNING

Simple Equipment For Preserving Fruits and Vegetables.

### COLD PACK METHOD IS EASY

Long Used With Success by Thousands of Boys and Girls of Canning Clubs. Washbottle Useful in the Process. Time Table For Sealing, Blanching and Sterilizing the Foods.

[From office of information, United States department of agriculture.]

#### CAN SURPLUS FOOD, BUT USE JARS AND CANS WISELY.

- Don't have an empty preserving jar in your home next fall. There may be some difficulty in securing cans and preserving jars.
- Reserve regular tight sealing containers for vegetables, concentrated soups, meats and fish.
- Concentrate products so that each jar or can will hold as much food and as little water as possible.
- Put up jams, jellies and preserves in glasses sealed with cork or paper and paraffin. Pack fruit juices in ordinary bottles.
- Don't can anything that can be kept just as well dried or in other forms. Dry navy and mature lima beans for winter use.
- Produce in your garden lots of cabbage, potatoes and root crops that can be kept for the winter without canning.

#### How to Can by the One Period Cold Pack Method.

Don't let valuable surplus fruits and vegetables go to waste. Adults and children in a very few hours with little other home equipment than a wash bottle and cans and jars can preserve much valuable perishable food for next winter's use. Succulent vegetables and fruits are important to health, the year round. See that your table is supplied.

The simple one period cold pack method described is that taught by the United States department of agriculture for the boys and girls of the canning clubs in the northern and western states. With this method thousands of boys and girls each season put up vast quantities of fruits and vegetables. With this method practically every vegetable and fruit grown in this section can be canned.

The wash bottle method described below is entirely effective. Those who desire may purchase home size water seal, steam pressure or pressure cooker canning outfits, which save time and fuel.

#### Preliminary Preparations For Canning.

Provide a false bottom of wooden lattice work, cross pieces of wood or coarse wire netting for your clean wash bottle or other large, deep vessel to be used for sterilizing.

Fill the vessel with clean water so that the boiling water will cover the

better. Take them out immediately and let them drain. Don't let them soak in the cold water.

From this point on speed is highly important. The blanched vegetables and fruits, which are slightly warm, must not be allowed to remain out of the jars a moment longer than is necessary.

proper size and pack directly into the clean, sealed cans or jars.

Pack as solid as possible, being careful not to bruise or mash soft products.

In the case of fruit fill the containers at once with boiling hot sirup.

## STOCK MARKET REPORT

Cattle Market Dragg; Hogs Open Strong and Active

The receipts for the opening market were about normal for this time of year, in view of the stock conditions throughout the country, being 1250 cattle, 1200 hogs, 800 sheep.

The cattle market opened dragg, with a prospect of a 25c to 50c cut, which developed to a 25c to 75c cut before the close of the market. The run of cattle was on the whole better than the previous week, including several car loads of high bred Hereford and Shorthorn steers. The percentage of well-finished beef stuff in the yards was somewhat increased over last week's offering. The yards were emptied of all marketable stuff except some poorly bred southern stock cattle, which were held over in spite of a fairly active market late in the afternoon. The feature of the cattle market was a car load of beautiful white-faced feeders, weighing about 700 pounds, being almost uniform in size and contour. The prices paid are standing about as follows:

Tone of market, dragg, 25c and 50c; best beef steers, \$8.50 and \$9.00; good beef steers, \$7.00 and \$7.75; best beef cows, \$5.50 and \$6.50; ordinary to good cows, \$4.00 and \$5.50; best heifers, \$5.50 and \$6.50; bulls, \$4.50 and \$6.00; calves, \$8.50 and \$9.25; stoker and feeder steers, \$4.50 and \$6.50; stoker and feeder cows, \$3.50 and \$5.50.

The hog market opened strong and active, with a demand exceeding the supply, which resulted in springing the price back to the old figure of \$15.60 for tops. This means an advance of 15c to 25c over last week's prices. The top price was for eastern Oregon and Durocs, which were very satisfactorily finished for this time of year. Quotations now stand as follows:

Tone of market, strong, 15c and 35c higher; light hogs, \$15.50 and \$15.40; heavy hogs, \$15.40 and \$15.60; mixed hogs, \$13.25 and \$13.75.

There was nothing out of the ordinary in the sheep market. The annual decline continuing and the sales moving off rather promptly at the following figures:

Tone of market, slow, 50c lower; lambs, \$11.00 and \$11.50; yearling wethers, \$8.00 and \$8.50; ewes, \$9.50 and \$6.50.

## SWIMMING IS POPULAR

Favorite Spot for Water Sports Found Opposite Busch Dock

Swimming is rapidly becoming the favorite sport here. An ideal spot for the sport lies on the west bank of the Willamette, opposite the new Busch dock, where there is a gradual incline into the water. Several expert and fancy swimmers may be seen here each day, among them John J. Tobin, of the Electric hotel, who is teaching his son and daughter, John, Jr., and May, to swim. Louis Nobel, Guy Phillips and Miss Verne Curl are among the high divers and experts in the water. Others who frequent the spot are Misses Leota Young, Hazel Cole, Dolly Pratt, Mollie Rose, Mary Swope, Kathryn Sinnott, Eva Calif, Erla Smith and Dooris Reddick. "Weiner" feasts, cooked in bonfires on the banks of the river, are enjoyed in the evening.
