FIFTY-SIXTH YEAR. No. 2.

OREGON CITY, OREGON, FRIDAY, JANUARY 13, 1922.

ESTABLISHED 1866

BIGGEST BOOZE PLANT ON RECORD HERE DISCOVERED

One Jailed; Officers Seek
Second Man on Charges of
Making Liquor After Raid
of Ranch Near Sunnyside.

WHISKEY AND WINE IS FOUND IN CELLAR

Alex Becker Faces Action In
Court; Owner of Farm
Sought by Deputy Sheriff.

The largest moonshine outfit found
in Clackamas county for many months
was discovered by the officials Tues-
day afternoon on the A. Alder ranch
two miles east of Sunnyside.

The outfit consisted of two stills,
one 40 and one 20 gallon, each oper-
ated by a pressure gas tank and burner.
Sixty-two gallons of finished moon-
shine were found and thirty gallons
of wine. Mash, totaling more than
150 gallons was destroyed.

The raid was made by Sheriff W.
J. Wilson, Deputy Long and Hughes,
Constable Lowe and two revenue men.
The found the stills and the liquor in
the basement of the Alder house on
the 25 acre ranch. Alex Becker, em-
ployed on the ranch was arrested and
is being held in jail pending a hear-
ing in the justice court. A warrant
for Alder's arrest has been issued as
he was not at home at the time of the
raid.

Sheriff Wilson declared the stills
to be among the finest that he has
ever secured. They were made com-
pletely of copper with pressed rather
than soldered joints.

Court May Settle County Health Job

Virtual agreement that Dr. Orel A.
Welsh will remain health officer of
Clackamas county is the interpreta-
tion given an order filed Monday
by the county court, fixing the salary
for that office at the minimum of \$25
a month allowed by law. This marks
the beginning of the end of an official
fight which has been waged here for
the past six months.

July 1, the county court attempted
to combine the offices of county phy-
sician and health officer under Dr. W.
E. Hempstead. It was found that
Welsh could not be removed without
action before the state health board.
Under pressure Welsh refused to re-
sign, and his bill for salary were
stopped. The county court refused
payment, contending that Hempstead
was the legal health officer. The state
board upheld Welsh, and for the last
six months of 1921, the position was
disputed.

MINIMUM IS SET
Due to the statement of County
Judge H. E. Cross, that if Welsh were
not removed the salary would be re-
duced to the legal minimum, the order
filed Monday is regarded as an indica-
tion that the court has concluded
that Welsh will retain the office.
The change, according to the judge, is
made in the interest of economy,
which he says, was the reason for the
attempt to combine the offices origi-
nally.

Welsh, who has served nine years,
being reappointed after an absence
while in the army, has been receiving
\$68.33 a month and expenses. No or-
der was ever made fixing this salary,
but because a \$700 allowance was
obtained by dividing by 12. The order
of the court, however, is retroactive
to January 1, 1921. There is a doubt
as to whether this provision of the
order will hold, and reduce the re-
maining bills for the last six months
of 1921, or whether Welsh will be
forced to refund to the county for this
period. Judge Cross refuses, in this
regard to "cross bridges until he
comes to them," and the indications
are that Welsh may institute suit to
collect at the rate of \$68.33 for the re-
mainder of the past year.

MILEAGE CHARGE DISPUTED
Under the order, the remainder of
the \$1000 provided in the budget for
1922 will go to defray the expenses of
the office. A dispute has arisen over
the charges made for mileage. Until
a reduction was ordered by the court
Dr. Welsh had been charging from 20
to 25 cents a mile. Judge Cross states
that this difference over 10 cents has
added \$2,000 to the expenses of the
office during the last nine years. Dr.
Welsh states that the charge was
made under a verbal agreement with
the court at the time he first took
office.

At the present time, Dr. Hempstead
appointed by the court, is conducting
the county physician's office, but has
stepped out of the fight over the
health officer when the controversy
loomed. He said that in the interest
of public health he preferred to see
on man handle the work, and save way
to Dr. Welsh who was making reports
to the state board, pending the settle-
ment of the question.

MULTNOMAH MUST PAY FOR LOOP, IS DECISION

Demand Voiced at Meeting of
Highway Commission; No
Compromise Is Accepted.

PORTLAND, Jan. 10.—At the meet-
ing of the state highway commission
today, John B. Yeon and his colleague,
Commissioner Parratt, let it be known
that the highway commission expects
Multnomah to make good on its gen-
tlemen's agreement relative to the
Mount Hood loop.

The commission doesn't care what
sort of county money Multnomah puts
into the loop so long as the state is
reimbursed for what it has advanced
for the county. Multnomah county
commissioners are not held responsi-
ble for the failure to make good on
the agreement, the responsibility be-
ing placed on the decision of the tax
superintendent and conservation com-
mission.

All in good time, the highway com-
mission intends taking steps in the
matter and the commissioners haven't
the slightest doubt as to the ultimate
liquidation of the obligation.

The tax commission recently disap-
proved of the agreement of Multno-
mah county for the spending of funds
in each state thru a plan of the national
highway, of the American legion,
details of which have been received
by the local post.

Veterans who do not need the
money that would come to them from
payment of government; adjusted com-
pensation would contribute their busi-
ness to a big rotating fund. Service of-
ficers of the legion in each state
would lend it out.

"Our buddies broken in health who
want to take care of themselves and
their families and keep their self re-
spect while battling through red tape
for their just disability compensa-
tion," will be the principal benefi-
ciaries of the fund, according to the
statement of the legion.

There are many instances in which
sick and wounded ex-service men, un-
able to get government aid, have had
to depend upon charity while their
claims were being reviewed. The leg-
ion reports show. Tubercular veter-
ans who owe their condition to poison
gas or to exposure have gone to san-
itariums in the west, there been denied
immediate admission or treatment
and have become public charges, it is
declared. Other young veterans, un-
able to work because of their wounds
or sickness and unable to satisfy the
demands of government bureaus for
their compensation are in a pitiable
condition and their dependents like-
wise are suffering, the legion declares.

PLAN ADVANCED TO AID
NEEDY WAR VETERANS
Loans without security and at nomi-
nal rates of interest will be provided
needy sick and wounded ex-soldiers in
each state thru a plan of the national
headquarters, of the American legion,
details of which have been received
by the local post.

Veterans who do not need the
money that would come to them from
payment of government; adjusted com-
pensation would contribute their busi-
ness to a big rotating fund. Service of-
ficers of the legion in each state
would lend it out.

"Our buddies broken in health who
want to take care of themselves and
their families and keep their self re-
spect while battling through red tape
for their just disability compensa-
tion," will be the principal benefi-
ciaries of the fund, according to the
statement of the legion.

There are many instances in which
sick and wounded ex-service men, un-
able to get government aid, have had
to depend upon charity while their
claims were being reviewed. The leg-
ion reports show. Tubercular veter-
ans who owe their condition to poison
gas or to exposure have gone to san-
itariums in the west, there been denied
immediate admission or treatment
and have become public charges, it is
declared. Other young veterans, un-
able to work because of their wounds
or sickness and unable to satisfy the
demands of government bureaus for
their compensation are in a pitiable
condition and their dependents like-
wise are suffering, the legion declares.

PORTLAND MEN SPEAK AT LIVE WIRE DINNER

Bearing a message of the need of
increased mutual understanding in the
commercial world for the solution of
economic and industrial problems,
four members of the Portland Cham-
ber of Commerce were guests at the
Tuesday luncheon of the Live Wires
of the local commercial club. John
T. Douglass, chairman of the Portland
Member's Forum, William J. Piepen-
brink, H. A. Whitney and C. J. Mathis
were the guests. In the absence of
Main Trunk Grant Dimick, L. A. Hen-
derson presided over the meeting, and
the speakers were introduced by R.
J. Toole, chairman of the program
committee.

Farmers Petition District Division

Farmers from the Elwood, Clackamas
and Highland district appeared before
the county court Tuesday and peti-
tioned for the division of Road Dis-
trict 27, which at present is divided
about Clackamas, including the other two
sections. The Elwood and the High-
land people asked that they be sepa-
rated from the Clackamas district, and
the latter favored the retention of the
district in its present unified form.
A number of local grievances were
urged. The matter was taken under
advisement by the court.

LICENSE IS ISSUED
A marriage license was issued here
Monday to Albert N. Widner, 23, and
DeEtta Shaw, 17, both of Beaver
Creek.

2 FREIGHT CARS DEMOLISHED IN RUNAWAY SMASH

Leaky Brakes Release Train
On Grade Near Lakewood
While Crew Is at Work In
Siding of Lumber Yard.

NONE ARE INJURED; TRAFFIC IS DELAYED

Service Interrupted from Four
Until Twelve Sunday on
P. R. L. and P. Electric

Two freight cars on the P. R. L. and
P. line were reduced to kindling wood
in a crash on the company electric
line at Lakewood at four o'clock Sun-
day morning.

The night crew left part of their
train standing near the Lakewood sta-
tion while the locomotive was taken
to the L. B. Menefee Lumber com-
pany's yard to shunt some cars. The
air leaked out of the brakes on the
standing cars which started down the
steep grade and crashed into some
cars on the siding. The impact
wrecked the two freight cars which
met in the collision and derailed sev-
eral others.

None of the crew were injured.
For some time the traffic on the
road was delayed and passengers were
transferred around the point of acci-
dent, walking for about a quarter-mile
between cars. Service was restored
about noon. At the time of the
smashup only one car was at Oregon
City and it was necessary to take two
Willamette Valley Southern coaches
up to convey the passengers to this
end of the line.

The P. R. L. and P. has had consid-
erable trouble with its trolley. Service
was interrupted several times both Sun-
day and Monday.

\$3,000 DAMAGE DONE BY FIRE AT WITHAM STORE

Cause of Blaze Is Unknown;
Building Total Loss; No
Insurance Carried.

Fire broke out at 8:30 Thursday
night in the warehouse of the W.
O. Witham Furniture company, 514
Railroad Avenue, did approximately
\$3,000 damage.

The cause is unknown.
The blaze started in the upper story
of the frame building, back of the
store. Furniture on the top floor was
destroyed. The building is practically
a total loss.

Two automobiles on the lower floor
were saved from damage.
There is no insurance on either the
stock or building.

Estimate of the damage was made
by Fire Chief William Priebe following
a hurried inspection after the fire.

HOUSES ARE SAVED
The structure is owned by the Jag-
gar estate, and projects into Railroad
avenue. It is entirely separate from
other buildings in that vicinity and
the fact that the wind was comparatively
light saved the other structures. The
store proper fronts on Main street.

It is probable that the building will
not be rebuilt upon its present site,
as it obstructs Railroad avenue, which
the city is contemplating improving.
The building, which was an old frame
structure, had formed one of the
stumbling blocks in the way to an
agreement upon the opening of Rail-
road avenue.

FIREMEN ARE QUICK
It took the fire department little
more than five minutes after the
alarm was in to get to the scene with
hoses in action. Due to the fact that
there is only one hydrant on the cor-
ner of 6th street, the engine pumps
were used, giving a pressure of 120
pounds through 700 feet of hose.
The building was very dry, and
burned like tinder, making compara-
tively little smoke.

A crowd of several hundred persons
gathered to watch the blaze.
The fire was under control at 9:30
o'clock. At 10 o'clock the engine re-
turned to its station.

Scalp Bounty for 1921 Totals \$256

Bounty on six wildcats was paid by
the county clerk's office Wednesday
to Joe Doherty, of Molalla. The
bounty amounted to \$2.
During the year of 1921, according to
the clerk's records, \$256 was paid in
scalp bounties.

RECOGNITION ASKED
BERLIN, Jan. 10.—Formal request
for recognition by Germany was made
by the Russian soviet government to-
day. Russia proposed the mutual
cancellation of all war claims.

County Court Is Considering Cut In Laborer's Pay

Reduction of wages paid to laborers
on road work, is being considered by
the Clackamas county court. Although
no definite decision has been reached
it is understood that some cut will be
made.

A farmer from the Wilsonville sec-
tion who appeared before the court,
urged the reduction of common labor
to \$2 a day and the cutting of pay for
a man with a team to \$4 a day.

Common laborers in the county pay
are now drawing \$2 a day for prac-
tically all types of unskilled labor.

GRANGES MAY WITHDRAW BOND RECALL ACTION

REFERENDUM NEARING COMPLETION

Pomona Fails to Score Moral
Victory; Action Not
Held Probable.

That the movement started by the
Clackamas county Pomona grange to
recall the issue of \$1,700,000 bond
will not be carried to conclu-
sion, is the indication of recent devel-
opments.

A referendum upon the action, taken
among the different granges of the
county has been practically completed
and has shown that sentiment is far
from overwhelmingly in favor of the
recall. Although definite figures are
not available it is believed that the
division is about equal.

MOVE IS OPPOSED
Officials of the grange have indi-
cated that unless there is a prepon-
derance of sentiment in favor of the
prosecution of the recall, no action
will be taken. The move was to re-
pudiate the unpaid portion of the bond
debts, amounting now to about one
and a quarter million. An attempt
to place the recall measure upon the
ballot met with immediate opposition
from civic clubs, and other organiza-
tions throughout the county and the
Pomona grange decided to determine
sentiment among the individual
granges of the county.

Considerable legal question is in-
volved in the fight, and attorneys differ
in opinion as to whether the re-
call would be upheld even if passed
by a vote of the people. They have
contentions upon the fact that a por-
tion of the issue has been sold, and
that it will be impossible to hold up
the remainder.

PETITIONS MAY DIE
The grange petitions calling for the
placing of the recall upon the ballot
were withdrawn from circulation at
the time that the matter was placed
before the granges, and it is under-
stood that they will not be resubmit-
ted.

Definite word from the Pomona
grange to the effect that no further
action will be taken in the matter is
anxious awaited by proponents of
the road building program which was
contemplated under the bonding act.
It provided that the major road dis-
tricts were to lay the base, and the
county, using the bond funds, was to
lay a hard surface pavement. Pend-
ing definite settlement of the propo-
sition, the county court has withheld
from the spending of further funds
under the act. It is also contended
that the present high costs of paving
make it impossible to do the work un-
der the specifications of the bonding
act.

PETITIONS FOR WATER ELECTION CIRCULATED

OAK GROVE, Ore., Jan. 10.—(Sp.)—
Petitions for a special election to
create a water district in the vicinity
of Oak Grove, were put in circulation
at a mass meeting held in that city
last night. A slight change in the
boundaries of the district, so as to ex-
clude about a dozen families at pre-
sent receiving their supply from Mil-
waukie, was made.
Approximately 300 names will be
necessary on the petitions to the
county court, and about half this num-
ber were secured last evening. The
meeting also authorized the purchase
of a few private water systems within
the district which will be used in con-
junction with the contemplated Bull
Run system.

Marriage Licenses Issued to 2 Couple

Marriage licenses were issued here
to two couples by the county clerk.
They were:
William E. Spencer, 23, and Lulu E.
Hedden, 25, both of this city.
R. Charles Mewber, 25, and Jewel
A. Wright, 21, both of New Era.

POSTAL GAIN IN OREGON CITY FOR 1921 IS RECORD

Business Increase More Than
Nineteen Per Cent; Report
For Year Now Completed;
Total Amounts to \$32,500.

SALES JUMP \$5349 IN 12-MONTH PERIOD

Local Department Ranks High
Compared With Record of
Other Cities In State.

The largest gain in postal receipts
ever made in Oregon City was record-
ed at the local postoffice for the year
of 1921. The gain is 19.7 per cent over
last year and places the office high
among the others of its class in the
state.

"The increase," said Postmaster
John Cooke, "is of greater proportion
than in the majority of the offices
throughout the country, whose reports
I have seen." The local gain is ex-
ceptionally creditable in the face of
the fact that some offices in the coun-
try show a slight decrease.

The total postal sales, upon which
these figures are based, amounted to
\$32,513.82, according to the records of
Assistant Postmaster William Howell.
This is a gain of \$5349.76 over 1920.
The entire increase in the business
of the office has been handled without
the addition of either more clerks or
carriers.

At the present rate of increase, in
another two or three years, Oregon
City will boast a first class postoffice.
At present the local office is in the
second class classification. An annual
business of \$40,000 is required to give
an office a first class rating. The busi-
ness for the year of 1921 represents
the largest volume on record and the
postal sales have even gained over the
time when the three cent postage was
in effect.

EASTERN CUT IN MILL WAGE NOT EFFECTIVE HERE

Independent Companies Make
Agreement In New York;
8 Cent Slash Set.

The local paper mills will not be af-
fected by the wage reduction an-
nounced in New York as the result of
arbitration among seven independent
paper manufacturing companies, ac-
cording to A. J. Lewthwaite, manager
of the Crown-Willamette company.
The eight cent an hour decrease,
cutting wages of unskilled workers to
32 cents an hour, was the result of
the findings of the arbitration board,
named to pass upon the company's
proposals for a 25 per cent decrease.

10,000 MEN AFFECTED
This reduction will affect approxi-
mately 10,000 men in the eastern
states, which represents approxima-
tely two-thirds of the employees, it was
said.

The change in the New York scale
does not, it is said, affect the prevail-
ing wage of the International paper
mills which is generally regarded as
an index to local conditions. No of-
ficial announcement regarding wages
has been made at the Hawley mill,
owing to the absence of W. P. Hawley,
Sr. It was stated some time ago how-
ever, that this plant did not contem-
plate any reduction, and Mr. Hawley
denied rumors then current that a cut
was slated for about the first of the
year.

CUT HERE RECALLED
December 1, wages in the mills
over the coast were cut, and the local
institutions followed the general scale
which reduced unskilled pay from 43
to 35 cents an hour and boosted the
day's work from 8 to 9 hours.

Under the agreement which af-
fects the New York mills, no skilled
workers will suffer a reduction. They
will continue to receive 54 cents and
upward. The eastern agreement will
go into effect January 9 and will con-
tinue until May 1. A readjustment at
that time is expected.

Grand Jury Returns Non-Support Charge

An indictment, charging non-sup-
port was returned by the grand jury
Saturday against Frank Johnson. The
indictment alleges that from January
1 of last year until November 8, he
failed to provide for his wife and two
children, aged 11 and 12 years.

RAIL RULES DRAFTED

CHICAGO, Jan. 10.—Final consid-
eration of rules governing working
conditions of 300,000 employees on rail-
roads, over which disputes have
arisen, was started by the United
States railroad board today.

THUGS ROB WOMAN ON DARK ROAD AT BOLTON

Telephone Operator Held Up;
By 2 Men and Roughly
Treated; Robbers Escape.

Mrs. Faith Schultz, an employee of
the local telephone company, was at-
tacked and robbed near Bolton at 10
o'clock Tuesday night.

Mrs. Schultz was on her way home
from work, and had left the Bolton car,
when she was accosted by two
masked men. One, with a gun ap-
proached her in front, while a second
man, behind her back, snatched her
purse, and then threw her to the
ground.

Mrs. Schultz lost a \$10 bill, approxi-
mately \$3 in silver and some legal
papers. The men escaped. They were
described as being tall, but it was
very dark, and they could not be easily
described. One wore a light cap.

A. Marchese, who heard the woman's
cries, notified the officers. Constable
Lowe and Deputy Sheriff Hughes
long investigated immedi-
ately, but were unable to find any
trace of the public nuisance.

Mrs. Schultz left the Portland Tele-
phone and Telegraph office at 9:30
o'clock, taking the 9:45 car from West
Linn. Alighting, she started down the
hill to her home in Maghones Park,
and about half way down the grade,
she was stopped. Although badly
frightened, she was not injured.

COURT FINES SHOW BIG GAIN DURING PAST YEAR

Fines collected in the nine justice
courts in Clackamas county during
1921 nearly tripled those for 1920, ac-
cording to the reports compiled by
County Treasurer Albert L. Dunn.
During the past year, the total fines
amounted to \$12,072.10 while in 1920
they aggregated but \$4,323.65.

The main reason for this is the ac-
tive enforcement of the Volstead act
which has resulted in heavy fines. The
chief gain in the individual justices
courts is at Oregon City, district 4,
of which E. J. Noble is judge which
practically doubled the estimates
made for fine receipts, totaling in 1921
\$8,932.10.

Other receipts in the individual
courts are given in Miss Dunn's re-
port as follows:
District No. 2—L. L. Savage, Oswego,
Oregon, \$107.00.

District No. 3—Geo. T. Parry, Mil-
waukie, \$2,786.50.
District No. 5—C. A. Lewis, Oak
Grove, \$15.00.

District No. 6—Wm. Knight, Canby,
\$15.00.
District No. 8—W. A. Beck, Molalla,
\$45.00.

District No. 13—J. M. C. Miller,
Sandy, \$25.00.
District No. 14—S. E. Wooster, Es-
tacada, \$129.00.

District No. 15—Jno. S. Owings,
Hubbard, \$7.50.

503 ACCIDENTS LISTED IN COUNTY DURING 1921

During the year of 1921 there were
503 automobile accidents in Clackamas
county according to the records in
the sheriff's office. This is an av-
erage of more than forty a month.
During December, according to the
reports, there were 47 accidents. Dur-
ing the year, there were 26 accidents
which resulted in injuries and during
December, three of these were record-
ed.

Although the law requires that the
accidents be reported, a large number
of the minor smashups, which result
in neither controversy nor serious
damage, never find their way into the
records and there is no way for the
officials to check up on them. Figures
on the accidents in 1920 are not avail-
able.

1925 EXPOSITION TO BE HELD, IS FINAL DECISION

PORTLAND, Jan. 5.—(Special).—
The Oregon 1925 Exposition will be
held. This was the decision reached
at a meeting of the state committee
of the exposition held here today.
New plans for the financing of the
fair are to be worked out as the legis-
lative measures are conceded dead
beyond resurrection.

Sentiment in favor of the World's
Fair was strong. Reassurances were
received from every portion of the
state that Oregon as a whole will
adopt some scheme for financing the
exposition which will let the entire
state share the burden.

Man to Serve Out Term In City Jail

Rather than pay a fine of \$20 on a
charge of being drunk, E. Stannifer
will serve ten days in the county jail.
Stannifer was arrested by the local
police and tried before Recorder C.
W. Kelly.

LEGION PLANNING ERECTION OF BIG CLUB HOUSE HERE

Committee to Study Method
of Finance and Details,
Appointed; Work of Posts
In Other Cities Is Followed.

STRUCTURE TO HOUSE STORES AND OFFICES

Business Men's Support Urged
at Meeting of Live Wires of
Commercial Club.

for the erection of a club
house, which will probably be large
enough, to include a store and office
building, were laid by the American
Legion at their meeting Monday night.

A committee composed of Wm. Lo-
gus, Ben Harding, Ray Cooper, L. A.
Henderson and Stephen Mead was ap-
pointed to investigate into the plans
and methods of financing used in the
erection of other club houses through-
out the state.

Until the committee has conducted
exhaustive research regarding the
erection and operation of legion clubs,
no definite action will be taken by the
post. They hope, it is said, to con-
struct a building which will include
a natatorium, gymnasium, and possi-
bly living accommodations for members
or the organization. It is also hoped
to make the building the headquarters
for all patriotic organizations in the
city.

It is probable that the sale of bonds
will be used for financing the im-
provement. Members of the commit-
tee point out the need for the erection
of more modern buildings in the city.
They state for this reason that the
legion should not consider anything ex-
cept a first class structure, large
enough to form a business property
from which an income, sufficient to
maintain the club could be secured.

L. A. Henderson, of the committee,
laid the matter before the Live Wires
at their meeting Tuesday noon. He
asked for no definite action, but urged
the members of the organization to
offer their support in the furtherance
of the project here.

ROW OVER STREETS IN BOLTON COMES TO END

The squabble over the improvement
and assessment of Buck and Barlow
streets in Bolton ended Wednesday
night when the West Linn council at
its regular session, passed the ordi-
nance providing for the levying of the
assessment.

Buck and Barlow streets were re-
cently macadamized. The improve-
ment was originally contested, and
after the legal formula was completed
and the work done, property owners
protested against the assessment. The
council, as a committee of the whole
reviewed the assessments, as they
now stand approved. The street is
to be paid for under the Bancroft
bonding act.

The council also ordered that tele-
phones be installed in the fire stations
on the
