Civil War Veterans Plan Observance of Lincoln's Birthday

Lincoln's birthday will be observed in Oregon City on Monday, February 13, when Meade Post No. 2, G. A. R., will have charge of the afternoon's program. Frank Moore, past commander, has arranged the following program to be given at the Willamette hall, headquarters for the Post, and to be given at 2:30 o'clock: Opening selection, drum corps, composed of Comrades E. B. Grant, J. T. Butler, H. S. Clyde, of this city, and Comrades Brooks and Kellogg of Portland; invocation, Chaplain J. T. Butler; "Star Spangled Banner," vocal solo, Miss Nora Webster; reading, Mrs. Walter Bennett; vocal solo, "Tenting Tonight," Mrs. E. H. Cooper; violin solo, Mrs. Christine Brakel Stone; chords, 20 pupils of Gladstone school; address, Rev. A. H. Thompson, pastor of the Methodist church.

The program will be open to all. As it has been the usual custom of the postoffice and banking institutions as well as the court house to close on Lincoln's birthday, it is probable that all will close Monday.

Meade Post has been extended an invitation to visit the Harmony school on Wednesday, February 22nd, Washington's birthday, when a specially arranged program will be rendered, and a dinner served the veterans of the Civil War. The old soldiers will be given a cordial welcome, for they are to be met at the depot by automobiles and driven to the school house where the program will be given. The Post, from present indications, will be largely represented on that occasion.

STREET PLAN APPROVED FOR RAILROAD AVENUE

Definite approval of the plans for the improvement of Railroad avenue has been given by the city council. The next municipal program to be undertaken. The council at their regular meeting, adopted the specifications for the street as made out by the engineer, but no definite decision as to the date for the commencement of work has been reached.

It is probable that as soon as the weather improves so that construction can go on unhampered, bids will be advertised for. It is understood that negotiations are still pending with the Southern Pacific Railroad company, which will be called on to bear a large part of the expense of the improvement. It is probable that some modifications in the recent order of the Public Service Commission regarding the improvement of the depot here will be allowed as the result of their willingness to aid in the street improvement work.

WILLAMETTE INVENTOR PATENTS MILK BOTTLE

A new design of baby's nursing bottle has been patented by Leo Weideman, of Wilsonville, which the inventor expects will take precedence over all of the present types used. It embodies a thermometer which is built into the glass. The ordinary nursing bottle, it is claimed, gives considerable trouble in warming to the proper temperature. The new device is constructed so that the thermometer registers the temperature of the milk itself rather than the glass. It is applicable to practically any design of bottle.
