Business Methods Urged for Farming

SANDY, Feb. 20.—A strong plea was made at the local Farm Bureau meeting here yesterday to put farming on a strictly business basis, and co-operation was the only sound way to get at it, according to speakers Love and Thompson. Mr. Love claims that the Farm Bureau is stepping right up toward a national distribution of all products, and that the time will come when all prices will be based on the cost of production. This was followed with an addition, to "stop knocking" the workings of the Bureau and the Oregon Dairy league was used as an example of how dissection from within can cause an organization to liquidate even when it has a no real cause to do so. It was shown that milk prices dropped almost immediately for the producer when the league went down, and certain dairy-men between Sandy and Portland who refused to join the league and had the benefits of good prices while it was in operation, say they would "join any kind of a league" now, since they have to take what the city buyers want to pay. Tests and weights are also pronounced "rotten" now, and there is no way to help it since the league is out. It was brought out that the Farm Bureau with its two million members is the greatest success in existence for the farmer, and Uncle Sam came in for a share of praise because of the extension service which has put the agricultural interests on such a strong base. The next meeting will be held the Third Friday in March at 1 P. M.

Roads No Bar to Enjoyable Party

SANDY, Feb. 20.—Walter Krebs says he has not yet recovered from the shock of the surprise party that was "sprung" on him and Mrs. Krebs a few nights ago. Bad roads, but two "Tin Lizzies" carried sixteen people up from Sandy. Games were played, a midnight supper served and at 12:30 the following guests departed for their homes happy for the evening's entertainment: Mr. and Mrs. Henry Perret, Mr. and Mrs. Chas. Scharke and Carl Scharke, Mr. and Mrs. W. Bosholm, and Mildred Bosholm, Mr. and Mrs. Will Carow, Herman Krebs, Charles Krebs, Mr. and Mrs. Thomas Kubitzka, and Eva Krebs and Mrs. Marie Krebs.

Sandy Girls Take Basket Ball Game

SANDY, Feb. 20.—The Sandy girls' basketball team is stepping high because of "wallowing" the crack Peninsular team at a double header game here Saturday night, the score standing 18 to 11 in favor of Sandy. The Peninsular girls' recently won three successive games over the Multnomah Club girls, and have won over several other good teams in the state. The mascot of the Sandy team was "Sprut-rum" a bull dog belonging to the R. E. Esson family. The dog was dressed in yellow ribbon, the team color, and every time the Sandy fans yelled the dog would bark. The girls served refreshments after the games were over, and said they liked their opponents.

very much, and will play a return game soon.

Vital Questions Discussed At Club

SANDY, Feb. 20.—The regular meeting of the Sandy Community club was held at the Odd Fellow's hall Thursday night. The attendance was not large owing to the stormy night, but the meeting was interesting because of the vital subjects that were discussed, among which was the high school question. R. E. Esson reported for the site committee, and said their labors were finished since the Bruns donation was accepted. The high school board will probably meet soon, according to the chairman, Casper Junker, who reports the board as all being in harmony, and desirous of doing the best thing possible for the education of the young people of this section. The immediate need of a building is vital, and the opinion of all present, and members of the club will do all in their power to help get things started.

A motion was made and carried that the secretary be instructed to express the thanks of the club to the Weekly Enterprise for the many favors received in this vicinity from the Enterprise.

Paul Dunn reported that the prospect of the Markets road being granted was very favorable. The next club meeting will be held the third Thursday night in March.

Pleasant Home Cow Rated With Leaders

SANDY, Feb. 20.—A party of four Sandy people made a call a few days ago at the Mullenhoff dairy farm which is situated one-half mile this side of Pleasant Home on the Bluff road. Mr. and Mrs. Mullenhoff are the proud owners of the celebrity "Stanhope Belle Johanna," which handsome Holstein cow recently finished a test that puts her fourth in the United States and sixth in the world as a milk producer. The figures given by Mr. Mullenhoff are: 32,454 pounds milk, 1242½ pounds butter in 365 consecutive days, and 995 pounds butterfat. The cow is seven years old and has received no special advantages save in the fact that she was milked every six hours. The highest milk production for one day was 138 pounds.

The Mullenhoffs keep a herd of about fifteen Holstein milk cows, have their own electric light plant and have lived at their present location for twelve years.

Pools Signed Over By League Members

SANDY, Feb. 21.—Members of the dairy league got together last night at the city hall at the request of Secretary Mackey and three trustees of the Oregon Dairy League and waited till 9:30 before the speakers arrived as they got on the wrong road to Sandy and were delayed till the crowd was almost ready to go home.

These men got practically all the members of the league to sign over their pools and take preferred stock so as to save the Portland plant. To liquidate on a cash basis would lose all and the preferred stock will pay so much on the dollar.

Small communities are coming together now and later there will be a big meeting in Portland to talk over plans, and it may be possible to reorganize on a co-operative basis, with the Portland plant saved, and get the plan worked out satisfactorily.

Hi School Finance Plans to be Talked

SANDY, Feb. 22.—Saturday, Feb. 25, there will be a big meeting of the high school and grade boards of the union high districts to lay out plans for the financing of a high school building. It is hoped a plan can be voted to begin construction this spring. A date will be decided upon for a special election. It is hoped that every-

one who is interested in their own community welfare and the welfare of their own children will stand together and work together for a new high school building as the union high school is so hampered it will be almost disastrous to the school interests of this section if a new building is not forthcoming this season.

FIREMAN ON JOB

SANDY, Feb. 20.—The Sandy Volunteer fire department surely did some quick work when the Sandy hotel fire made such a spectacular display. The engine was on the spot about as quick as one could say "skat." The church bell rang after the siren sang its alarming song and everyone came pell mell up town only to find the danger over, but a thrill now and then stirs up circulation some of the excited ones said.
