Officers Named by Endeavor Division

The Intermediate division of the Christian Endeavor held a most enjoyable meeting at the church parlors Tuesday evening. The election of officers was one of the important events. The following officers were elected: Miss Grace Owens, president; Miss Leona Fox, vice-president; Robert Ellis, secretary. It was planned for the newly elected officers to hold a meeting in the near future and appoint their various committees. After the business meeting a get-together social evening was spent. Mrs. Thomas E. Gault and Rev. Samuel Kimball were in attendance. Refreshments were served by Miss Mabel Whitcombe, Miss Dorothy Fox and Miss Dorothy Barlow.

Gladstone Council Transacts Business

A special meeting of the Gladstone city council was held Thursday evening. The purpose of this meeting was the second reading of the ordinance to make the city reservoir waterproof and appropriating \$500 for this purpose. It was agreed to employ Guy Diggins to patch up the leakage under the direction of the council and not let the work be contract. The water commission brought in several recommendations as to the tapping of the city mains. It was agreed that property owners, hereafter are to pay the regular fee when the mains are tapped regardless of date of commencing service from the same. A petition from J. W. Williams of Fern Ridge to install a water meter in place of the regular monthly rates was denied and he was permitted to get water from the City of Gladstone at the regular rates. All councilmen except Dr. J. G. Nash were present. The possibility of the citizens of Gladstone forming a corporation to sink a test well, to obtain better water was discussed, also the advisability of appropriating two hundred dollars for this purpose. At present no action was taken either way.

PREMIERS PLAN TEN YEAR TRUCE FOR ALL EUROPE

BOULOGNE, Feb. 25.—Lloyd George, in his private conferences with Premier Poincaré which began here this afternoon, will propose a 10-year truce in Europe, it was learned today. The British premier has a plan for limitation of land armaments somewhat similar to the Washington proposals of Secretary of State Hughes concerning navies, which he will urge upon Poincaré if initial conversations which deal with the Geneva conference are successful.

NAVY CUT OPPOSED WASHINGTON, Feb. 25.—President Harding is understood to have told Republican members of the house naval committee at a White House conference today that while he felt some reduction should be made in the navy personnel, the total number of enlisted men ought not to be cut under 30,000.

The president also is said to have strongly urged legislation for conversion of two battle cruisers into airplane carriers.

While the question as to whether the 540 members of the first year class at Annapolis, to be graduated in June, should be commissioned, not considered in detail, it was stated that the president advocated a sharp reduction in the number of men to be admitted to the academy each year in the future.

SALES TAX IS KILLED WASHINGTON, Feb. 24.—The proposed sales tax to produce funds for the soldiers' bonus is as dead as a mackerel. In fact there is increasing doubt that any bonus legislation will pass both houses of congress for some months.

Appraising the Home

To make the best success of any enterprise one must know exactly why it exists, what is to be expected of it, what are its ideals, what is its goal?

This is as true of the home as of any other institution and will make the best home-keeper who has all the specifications of her job clearly in mind. To arrive at a very definite understanding of this why not sit down, pencil in hand, and ask yourself the following questions:

Why is this home? Is it a place to rear children in? Is it a place to entertain guests? Is it a place to relax and seek comfort? Is it a place to work? Is it a place for play and recreation? Has it a social significance? Does it add to the dignity and beauty of the neighborhood?

Is this home, for each member of the family, a place of joy; of development; of love and confidence and sympathy; a place where one may bring his friends; where inspiration soars; where rest brings new strength; where big ideas are discussed and thought out; where real life may be lived to the fullest?

If your answers to these questions are not satisfactory, there is a chance to remodel the home. If they are, whether the house is a palace or a cot, whether or not it suits Madame Grady, it is Home Sweet Home and the dearest place on earth for each member of the family.

Straighten your edges, lay it on the table and pin your pattern to it taking care to have folds and seams come on the proper sides and to have the pattern lay the right way of the goods; mark notches, seams and folds; then cut out.

Baste the garment together being careful not to stretch bias edges. Try it on and make any alterations necessary to fit your figure. The fellow seam is good for underwear. One side of the seam is wider than the other and this is folded under and hemmed down flat.

Lace and embroidery are used this year, but the tendency is for the tailored effect with bias strips of a harmonizing color for trimming, or simple hems. Most of the garments are slipover or step in and require no troublesome fastenings. A ribbon gathers the fulness at the top and an elastic holds it in at the waist. A new invention is elastic shoulder straps. These yield and permit freedom in slipping down over the arms as they have an annoying habit of doing.

THE WOMAN CITIZEN

Give the Country Child a Fair Chance. For every hundred days of schooling received by the city child, the country child gets only sixty-five, and besides this city schools offer advantages which are not equalled by country schools. Is that one reason why the boys and girls leave the farm?

The National Child Labor Committee explains this poor attendance at school by the country child. It is due to CHILD LABOR on farms and ranches. Do not blame the heartless manufacturer, farmers and mothers, if you let your own child be thus deprived.

This child labor on farms and ranches causes as much absence from schools as illness, bad weather, bad roads, distance of home from school, and influence of parents and children all combined. And this is not all.

Medical inspection and Health Nurse care is bringing up the health of city children so that they are healthier on an average than country children.

Happy, independent dweller in God's free country, the farmer. But—are you giving your children a fair start in life? How will they be able to compete with the city children who are getting forty per cent more and a considerable per cent better education than they are each year?

What To Do

For SCAB in the HEAD, or TOO MUCH DANDRUFF.—Moisten scalp with olive oil, rubbing into the skin. Let the scalp remain oily several hours, then wash with soap and some disinfectant. Wash brush and comb with soap and disinfectant whenever head is washed.

RECIPES

Martha Washington Pie. This is an inexpensive and simple dessert. It will serve twelve or sixteen persons.

Beat two eggs until foamy; add cup granulated sugar and four tablespoons cold water. Into a level cup of unsifted flour put two teaspoons baking powder and sift into above ingredients. Use any desired flavor. Bake in two layers.

Cream Filling. To a generous half cup sugar add three-fourths cup milk. Thicken with a tablespoon cornstarch and boil one minute. Flavor.

When the cake is cold, put this cream filling between layers.

On each piece when cut, put whipped cream and a preserved cherry.

Prune Salad. Cook prunes until the liquid is syrupy. Remove the pits and put in their place halves of walnuts. Arrange the stuffed prunes on lettuce leaf and serve with mayonnaise dressing over them.

MRS. SOLOMON SAYS:

Fresh-Air sleeping is fine for the health, but, br-r-r-r, it takes courage these chill winter months. Why waste bodily heat by retiring to a cold bed? Why not warm it up by artificial means so all you have to do when you get in is to cuddle up and go to sleep? A hot water bottle is a friend that is not to be sneezed at.

Heels

It is not often that Dame Fashion and Hygiene pull in the same direction, but this year they are working together to lower the high French heels. Except in dancing shoes and slippers and with party frocks, the unstable high heels are tottering into disfavor the most popular heel being not over an inch and a half high. It is not the wide, but is a substantial heel shaped for grace. This heel is found on house and dress shoes, while a lower and broader heel is worn for street, business and sports. High heels may lead for the dance, but they are at the foot for the rest of life.

Undergarments

However severely tailored midday may step out upon the street, her feminine heart delights in the finest and daintiest of underthings. This is the time of the year when she is laying in her supply for the summer. These used to be passed over the counter in the "White Sales," but today they are rarely white, but mostly pink, blue, lavender, black, navy and taupe.

They were never so easy to make and many thrifty women are making two for the price of one; or are using left-overs from summer's dresses for chemises, camisoles and step-ins. If you are in a mind to make your own, buy a pattern according to your bust-measure. Read directions carefully, then hold the pattern up to you to be certain it is the right measurement in every direction. If it must be shortened, fold a tuck in the pattern at the middle; if lengthened, cut in the middle and insert a piece of paper to make it the right length.

Materials are of the softest to correspond with the long flat lines of the undergarments. There are silk crepe, rayon silk, wash satin, striped silk shirtings, dimities of all patterns, batiste, fine handkerchief linen, and the most practical as well as dainty—nainsook. Buy just as much as your pattern calls for.

International Council of Women.

Think you women are not organized? If you do, you should think another thought. Have you ever heard of the U. S. National Council of Women made up of more than thirty great national organizations and boasting ten million members? Mrs. Philip N. Moore is its President.

Have you heard of the International Council made up of the organized National Councils of twenty-five countries? It claims twenty-five million women members. Lady Aberdeen of England is its President. It held its Quinquennial meeting in Christiania, last September.

SMILES

"May I call you by your first name?" asked he.

"What's in a name," responded she. "Such trifles between us should be past."

If you wish you may call me by your last."

Too Good To Be True.

"And each successive year," asked he, "Do I get a raise in salary?"

"Provided your work is honest and fair."

"Humph, there's always a catch somewhere!"

HAPPY THOUGHT

Lincoln's Recipe for Happiness. Do not worry, eat three square meals a day, say your prayers, be courteous to your creditors, keep your digestion good, steer clear of biliousness, exercise, go slow and go easy. Maybe there are other things that your special case requires to make you happy; but, my friend, these I reckon will give you a good lift.

NEW DRAFT MADE OF RESERVATION ON 4 POWER PACT

WASHINGTON, Feb. 23.—Another move for a compromise on reservations to the four-power Pacific treaty failed of immediate success today after it had stirred up a spirited debate in the senate foreign relations committee.

Coming directly from a conference with President Harding, Chairman Lodge laid before his colleagues a revised reservation declaring in specific terms that the treaty does not contemplate "an alliance" and was drafted to take the place of the blanket reservation to which a majority of the committee members previously had indicated their support.

Those who had sponsored the original blanket qualification immediately opened fire on the new reservation and the hour of debate which followed was described by senators present as the stormiest passage witnessed in the committee since the days of the Versailles treaty fight.

Without taking action the committee adjourned until tomorrow, and various groups began conferences in the hope that more satisfactory ground for compromise might be found to prevent a long reservation debate in committee consideration of the treaty. Tonight the opposing elements apparently were no nearer together than before.

AIR APPROPRIATION CUT WASHINGTON, Feb. 23.—Construction of any other large dirigible by the army or navy will be strongly opposed by Representative Madden of Illinois, chairman of the powerful Illinois appropriation committee. Because of the Rama disaster, Madden had called at the White House, said he had definitely decided to take steps through his committee to stop all appropriations for dirigible development.

MISSIONARY IS HELD PEKIN, China, Feb. 22.—Mrs. Howard Taylor, wife of Dr. Howard Taylor, noted British missionary, today appealed to British Minister Beltray Alden to save her husband, who is held prisoner by bandits in Northern Yunnan province.

Mrs. Taylor herself was captured with her husband, but was released with instructions to carry to their friends a demand for \$20,000 ransom as the price of her husband's freedom.

MOTHER OF 5 CLEARED CHICAGO, Ill., Feb. 23.—Members of the coroner's jury have signed a statement exonerating Mrs. Edward Rhodes from responsibility for the death of her five children, victims of strychnine mixed in Epson salts.

The juryman signed the statement after they had had official returned a verdict fixing the cause of death as poison from some unexplained source.

Neither the statement, nor the verdict, or any of the developments in the case, however, appear to bring the mystery any nearer solution than it was the day the children died.

2 DROWN IN LAUNCH SEATTLE, Wash., Feb. 23.—Two men were drowned and a third almost lost his life when a launch, said by the police to have been a liquor runner, capsized off Apple Tree point sixteen miles north of Seattle, Sunday afternoon. The men drowned were Edward Church, 37, Seattle, and Joe Josephson, 35, Ballard.

GIRL SHOTS MAN AT TRIAL VASCO, Texas, Feb. 24.—While a crowded court room looked on in horror, J. S. Crosslin, on trial here for criminal assault, was shot and killed today by the girl who he is alleged to have wronged.

The shooting occurred shortly after Miss Marcia Matthews, 17, the complaining witness, had taken the witness stand to tell her story of the wrong. Crosslin, almost hysterical, drew an automatic pistol from a pocket and shot Crosslin three times. He fell from his chair dead.

It was Crosslin's second trial for the alleged crime. At the first trial he was convicted and sentenced to nine years in prison, but the conviction was reversed by the criminal appeals court and a new trial granted.

TAX MAY CAUSE DEATHS VANCOUVER, B. C., Feb. 22.—Peter Veregin, head of the Russian religious sect known as the douk-holous, today confirmed reports that he had suggested a plan whereby the children of the colony under 10 years of age, together with the aged and infirm, be drowned as a protest against exorbitant taxation. Once rid of those unable to travel, Veregin proposed that his followers abandon their farms and wander over the country preaching the coming of Christ and living as the "vagrant working class."

WOMAN-TORIALS

New Mexico is making good use of its woman power. It has twenty-six women serving on important State Boards.

Oklahoma girls, led by their Home Demonstration Agents, claim that darning and patching is as interesting as embroidery work.

A few days millinery school has been held in many localities and as a result hundreds of homemade hats will blossom out this spring.

Indiana Women's Clubs.

The Federation of Women's Clubs in Indiana is stressing three lines of work; the loan educational fund for girls, aid to the blind in which Indiana excels all the states, and the purchase of the Fauntleroy home at New Harmony, where the first Women's Club in America was organized.

A Sign of Advancement

The world is becoming better, less selfish, and more spiritualized. Evidence of this is found in the fact that the public is no more so much interested to read in our news columns that the Four Hundred Club met and the women were dressed in appropriate clothes, as that the Progress Club met and discussed plans for serving a warm school lunch or giving a benefit for the hospital.

International Council of Women.

Think you women are not organized? If you do, you should think another thought. Have you ever heard of the U. S. National Council of Women made up of more than thirty great national organizations and boasting ten million members? Mrs. Philip N. Moore is its President.
