The Boys Have Returned

The world is settling down to peace. Many are the problems to be solved—each and all of us have a duty to perform—in the performance of that duty "opportunity" will knock at our door for admittance and if we are not ready to receive will pass on. Will you be ready? Will you have laid aside a sum which will enable you to take advantage of "opportunity"?

You will find no better way to prepare for "opportunity" than that of opening a Savings Account at this bank and laying aside a little each week. We pay 4% interest compounded semi-annually and

"Will do for you all that any good bank should do."

Two other numbers were by the "Blessed Baby," given by Ralph DeShazer and his sister Mrs. Kitzmiller, and the "Runaway Wedding," Lewis Murray taking the part of the "bride" and Arthur Nelson was the groom. COUNCIL DECIDES AGAINST APPEAL OF PARK DECISION

Oregon City will not appeal the decision handed down by Judge J. U. Campbell restraining the construction of a city hall on McLoughlin Park. The voters, at the coming May election will decide upon the question of locating the city hall on the E. C. Caulfield property, 610 Seventh street, between Washington and John Adams.

These decisions were made at the regular session of the city council last evening.

A petition from the Hill Improvement club containing about 100 signatures asking that the citizens be afforded an opportunity at the forthcoming election to vote on the location of the new city hall on the Caulfield property was favorably passed on by the council.

The cost of this site to the city was mentioned to be in the neighborhood of \$8000. In the course of the debate which followed the reading of the petition many suggestions embracing downtown locations were offered by the councilmen. A motion by Dr. H. S. Mount to rebuild the present building was found to be defective in that it made no provision for housing the fire apparatus. Another bill prospect brought to the attention of the meeting by councilman P. H. Croes who explained that the Singer mill site by virtue of the fact that it is owned by the city would save the expense of buying new lots.

No Appeal Planned

City Attorney O. D. Eby in introducing the question of appealing the recent decision with reference to the McLoughlin Park gave it as his opinion that the chances of reversing Judge Campbell's order were about fifty-fifty. The council however thought that the expenditure entailed in carrying the matter to the Supreme court would not be justified and a motion was passed to the effect that no appeal would be made.

Despite an eloquent plea by Recorder Kelly the civic body ruled that rather than meet an increase of five dollars in the rent of the recorder's office and official and his attendant paraphernalia should be moved from the Masonic building to the vacant quarters in the city hall.

The monthly reports from the various civic departments were read and adopted. The finance report gave rise to some criticism from the point that members claimed they had in sufficient detail with reference to the different expenditures.

The report of the chief of police showed that the city treasury had benefited to the extent of \$45 in fines, while the hospitality of the local jail had been extended to some 112 hoboes during the month. The question of retaining four officers was decisively defeated and it was resolved that the chief and two more constitute the full city force.

Ferry Fund Paid

The city recorder was instructed to draw a warrant for \$500 in favor of the Oregon City and West Linn Ferry company, this being the amount which the city had agreed to contribute toward this undertaking.

A petition for the paving of Molalla avenue was referred to the street committee with orders to report on the matter at the next meeting of the council.

Many instances of garbage being left lying around and general untidiness were commented upon and the chief of police was instructed to proceed against owners of property who being advised failed to comply with the civic ordinance.

A resolution authorizing the city attorney to uphold the city's interest in the case of Doty against Oregon City which is being appealed was adopted.

The city attorney also introduced an ordinance to permit the transfer of \$2000 from the general fund to meet an obligation entailed in retiring a sum of \$2500 principal and \$1800 interest of the \$30,000 refunding bonds voted last year.

What county agent W. A. Holt characterizes as one of the finest series of demonstration lectures ever given in the county, has been completed here by Clayton L. Long, extension horticulturist of the Oregon Agricultural college.

Professor Long gave lectures and demonstrations at both Garfield and Carus on the subject of spraying, or chard pest control and soil management. It was the second of four such demonstrations scheduled this year.

Detailed pamphlets dealing with the sprays and the different methods of orchard pest control, outlined by Professor Long, are in the hands of the county agent for free distribution to the farmers. The necessity of immediate spraying to handle some of the pests, was emphasized.

Mr. Holt is at present conducting a number of meetings at which a series of government motion pictures dealing with agriculture improvement projects, and including a number of scenic views, are being shown. Meetings have been held at Carus, Garfield and Union Hall, and are to be held at Cottrell and Clackamas tomorrow and Saturday nights.

Mr. Wright, who has resided in Oregon City with his family for the past year, made a record for himself when leader of the 26th United States Infantry band that accompanied the congressional party to the Philippine Islands after the Spanish-American war, when the party went to the Islands to investigate the condition of the swine. It was there where his daughter, now Mrs. Fred Waybright, of Onalaska, Wash., was born, she being the second white child born in the Philippines.

Mr. Wright was connected with other military bands as well. When a lad of eleven years of age he was cornet soloist of the Waycroft band of Philadelphia. Mr. Wright has made a specialty of organizing boys' bands, and it was his intention to form such an organization in this city the while. It is his health he has been compelled to abandon the plan.

Mr. Wright's family is also musical, including his wife and two daughters, who are planning on giving a concert in the near future in this city. One daughter is an "excellent" saxophone player as well as vocalist, and the youngest daughter is a pianist and also accomplished flute player.
