Road Construction
Work Being Rushed

SANDY, May 2.—Work on the Mt. Hood Loop road started the first of the week and with fair weather will be rushed as fast as possible. Dixon and Howett have teams grading west of Sandy this week. Dixon will probably have his grading contract completed on Unit 1 which extends from the Multnomah County line to 5 miles east of Sandy in about 60 days.

Work on Unit 2 which extends from the end of Unit 1 to Brightwood will be underway in a few days as supplies are being sent to the Johnson camps and these will be re-opened soon.

The section of the highway on Unit 2 is impassible in many places and all through travel to the mountain resorts should continue to detour via Marmot road, which is rough, but passable and not dangerous.

Unit 3 from Salmon river to Zig Zag, or the forest boundary, has the grading completed, but the section over the Brightwood hill is not yet open for travel. Because of the soft condition of this grade the old road is still used.

It is expected, with good weather condition, the grading of the entire Loop project should be completed about Aug. 1 and be in good condition for travel.

Work on the rock contract from Sandy to Cherryville is again under way, working from Sandy eastward. Two shifts working daily will rush this contract to completion, weather being favorable.

No other contracts for rock have been let and probably will not be until Multnomah county is able to arrange her portion of the finances, which people in this section feel "somehow" will be done, as the immediate need of a main trunk to the city is keenly felt by this entire section, and another winter of impassible roads will seem almost disastrous to business of all kinds.

RETAIL DIVISION
OF COMMERCIAL
CLUB IS FORMED

Local Merchants Planning to Extend Scope of Activities; Al A. Price Chosen to Head Newly Created Department.

BUSCH AND BUCKLES
ARE ON COMMITTEE

Fourth of July Program to be Considered; Celebration Is To be Widely Supported.

Retail trade extension as a branch of the Commercial club activities was firmly established at the organization meeting of that department in the club rooms Wednesday night. A good delegation of enthusiastic retailers was on the job, with practically every line in the city represented.

Al A. Price of Price Bros., was elected chairman of the department, and thus automatically becomes a member of the governing board of the club. Edward J. Busch, of Busch & Sons, and A. B. Buckles, of Buckles Grocery, were chosen as executive committee to work with the chairman on details of the department's operation.

Advertising Plans Talked. Plans for a huge cooperative advertising and merchandising campaign of two days duration, set for May 28 and 29 were freely discussed, and a meeting next Monday night will hear final details for its promotion.

A feature of the buying carnival will be a day each for the up-hill section and the down town district. Speaking on the proposal were Chairman Price, Ed. Busch, Dr. Freeze, L. J. Legeson, W. A. Allen, B. C. Kirk, Walter L. Little, and Sam H. Clay, executive secretary of the club. A strong plea for the "buy-in-Oregon City" movement was made by Edward Busch, who urged the merchants to set the example for the general public in their dealings with one another.

Cash Sales Favored. A word in favor of recognition of the cash customer, as against the standing of the credit user, was spoken by Dr. Freeze, who stated that too often the man who paid cash for his purchases was not given the same consideration as was the one who used his credit and made a better showing in his purchases by having them go through the books of the retailer.

The matter of a Fourth of July celebration, which had been referred to the retail trade department by the board of governors, was turned back to the board for reference to the publicity and conventions department, it being made plain by Ed Busch and other speakers that the province of the extension department was to promote business for the merchants in a direct way, and that a Fourth of July celebration should properly become a project of the publicity committee.

A resolution urging that the Commercial club get behind the plan for a celebration on Independence day, and pledging their support to it in every way possible, was passed by the department.
