CROSS ATTACKS HARRIS IN MEET HELD AT SANDY

County Judge Makes Use of Official Documents to Aid Candidacy of C. W. Kruse at Public Political Session.

SICK COMMISSIONER DEFENDED BY FRIEND

W. L. Cooper Asserts Present Incumbent Handled Affairs According to Regulations.

SANDY, May 17.—(Special)—Fighting County Commissioner W. E. Harris' reelection, Judge Harvey E. Cross at a public meeting here last night charged that Harris had used his position as county commissioner to get large sums of money from the county treasury for Oregon City banking institutions, in one of which Harris is a director. He further charged that Harris put up unlawful and illegal security.

The meeting at the Odd Fellows Hall was attended by a large crowd. Judge Cross gave a detailed and well ordered report of his work as county judge in the past year and a half, saying he "wanted to square himself" as he feared all the facts had not been told. Cross told of his interest in the affairs of this section since 1874 when he taught in the first log school house at Sandy, down to the present time, and deplored the luke-warmness of his old-time friends that has been brought about by trouble brewing in the county commission.

Cross differs with Proctor. Cross said he was not fighting Proctor, saying he had a right to differ without feeling personal enmity. However, he said he was fighting the reelection of Harris, and proceeded in categorical order to give his reasons. He claimed that Harris had used his position to aid the bank, and quoting Section 3259 of the Oregon statutes to prove his assertion that certain securities had been illegally handled.

Judge Cross exhibited original county documents in substantiation of his charges that Harris had plunged the county into debt. He said that before Harris became commissioner the county debt was \$126,000 and that at present it approximates \$410,000. Over drawing of road funds was opposed by Judge Cross.

Cross claimed he was giving the best work of his life in trying to hold down the county indebtedness, and scored the overdraw of road funds. He gave figures to show how the county indebtedness has increased since Harris was elected as commissioner, and said he was not making enough out of the judgeship to pay his own taxes.

Harris is Sick. Harris, being sick in a local hospital was not able to be present and sent a friend, W. L. Cooper, a Portland lawyer, to defend his interests. When Cooper arose, cries of "drag him out" and "this is Clackamas, we do not want anybody from Portland to come into this discussion," and when it looked like the meeting would break up because of the protest of Cross' friends a voice called out from the audience, "let us hear both sides. Harris is sick and not able to talk for himself, let's hear this man." Quiet was restored again and Cooper made a short, though fiery talk in which he scored Judge Cross for "taking original documents belonging to Clackamas county, documents with the file marks on them and carrying them around for campaign thunder."

Cooper also accused Cross of using county stationery for campaign purposes, and exhibited a letter to prove his assertion. Cooper asserted that Kruse was elected he would be only a "tool," and defied Cross to prove that Harris had lost the county a dollar, and claimed Harris had met the requirements necessary to secure the funds he had borrowed, and that the assertions brought against Harris were not worthy of consideration. Each speaker received applause from time to time. Judge Cross asked for the last speech which was granted.

FIFTY-FOUR YEARS AGO

Long Dresses—Where do the make-believe women we have turned loose in our streets come from? Not out of our Boston parlors, I trust. Why there isn't a beast or bird that would drag its tail through the dirt in the way these creatures do their dresses. Show, over dirt, is the attribute of vulgar people. If a man can walk behind one of these women, as she rakes up as she goes, and not feel squirmish has a tough stomach. It is an insult to a respectable laundress to carry such things into a house for her to deal with says Oliver Wendell Holmes.

The scholars of the various Sabbath schools of this city will today combine and attend a picnic above Greenpoint on the Abernethy.
