CANBY NOW TO PROCEED WITH NEW LIGHT PLANT

Negotiations Broken Off with Molalla Electric Company; Separate Line to be Built.

Employment of an engineer to draft plans for the construction of a new electric light and power system in Canby, and the making of complete estimates upon the cost of the project, was ordered Thursday night at a special session of the Canby Council. The Molalla electric company has been given to that date to decide whether or not it would accept the city's offer for the present light plant, but no representative of the company appeared at the meeting.

The Canby lighting plans have been in the air for the past year. The city, incensed at the raise in rates, voted a \$10,000 bond issue for the building of an entirely new system. Negotiations for the purchase of the present lines owned by the Molalla Electric company were entered into and a price of about \$7,500 agreed upon. The sale of the lines, however, has been held up by minor detail and the council Thursday decided to proceed itself, and build a separate system. The Molalla company at present is acting without franchise, its agreements having expired.

The plan is to purchase power either from the Portland Light and Power company or from the Molalla company which is supplying a large district adjacent to Canby.

Engineer Secured To Make Survey of Canby Light System

CANBY, Oct. 10.—At a special meeting of the city council on Monday night the electric light system was again brought up for discussion. A contract was authorized with J. H. Ballweg, Portland, engineer to make a survey of the city and to furnish the city council with a blue print for the purpose of placing new poles and installing wires for a new electric light system. The electricity will be furnished by the Portland Railway, Light & Power Company, as was decided at a meeting of last Thursday night.

Clarence Eld, city recorder, was ordered to advertise for bids for installing poles and wires. This will be done as soon as the city is furnished with the survey.

The light system has been occupying much attention of the city council, during the past few months, and since decision has been made to have the electricity furnished by the Portland Railway, Light & Power Company, the work will be rapidly pushed along in installing the new system.

WILLIAM STONE IS TO RUN FOR BERTH OF CITY ATTORNEY

Former Representative Will Be Candidate Against Eby; C. Schuebel Decides Not To Take Part in Contest.

KU KLUX KLAN PLANS TO HAVE FULL TICKET

Aspirants In Sympathy With Invisible Organization to Be Endorsed in November.

William Stone, former representative in the state legislature from Clackamas county, will be the candidate brought out at the November election to oppose O. D. Eby, present city attorney who is seeking re-election. Refusal of C. Schuebel to run for the position has led to considerable speculation over the race.

Petitions to place Stone's name on the ballot have not yet been placed in circulation. Stone Wednesday stated that if those who were urging him to run, wished to undertake to put his name on the ballot, he would make the race. Both Eby and Stone have been prominent in local politics for a number of years.

Klan Plans Ticket.

Injection of a religious element into the entire municipal campaign, is expected with the decision on the part of the Ku Klux Klan to put a complete ticket in the field. The Klan, it is understood will frame their ticket only partially from among their own members. It is expected to endorse candidates for every office, selecting those in sympathy with their standing upon pertinent questions which are being made an issue in the present campaign over the state.

The majority race is still uncontested, with James Shannon a candidate for re-election. Jack Tobban, who ran against Shannon two years ago is being groomed for the run, and although he has intimated that he would not make the race, his friends say that a petition placing his name on the ballot will be forthcoming just before the period for filing ends.

Council Race Quiet.

Now new developments in the council race have marked the past three days. One councilman is to be elected from every ward. Wards four and two, with J. A. Cameron and C. H. Roake filed respectively, are not contested as yet. F. H. Cross is running for re-election in ward three opposed by R. L. Graves for whom petitions are in circulation. R. H. Hodgson and A. L. Beatie have filed for ward one.

The contest for city recorder is considered about filled. C. W. Kelly is out for re-election, opposably J. A. Morris, J. Litzberg and R. E. Woodward. George Swafford is the only candidate for city treasurer.

In the county field, friends of Henry Hannemann, who is to be the independent candidate for county commissioner, say that his petitions will be in at the eleventh hour. He is seeking to oppose C. W. Kruse and Roscoe Gard.

J. WOERNLE MAY BE BANNED BY STATE BAR

SALEM, Ore., Oct. 11.—A demurrer by Joseph Woernle, Portland attorney, facing disbarment proceedings started by the Multnomah County Bar association, has been overruled in an opinion by the supreme court. Woernle is given until October 25 to file an answer to the accusations.

The attorney contended in his demurrer that allegations in the complaint do not constitute grounds for disbarment. Justice McCourt's opinion, on the other hand, read in part: "An attorney who commits perjury, whether committed inside or outside of his professional employment, is subject to suspension or disbarment, without his having been first indicted and convicted."

Woernle, in the complaint, is alleged to have made false affidavits in securing a passport which he is said to have given to Hans W. Boehm, alleged German spy.

Chicago May Lose Premier Standing In Wheat Markets

CHICAGO, Oct. 11.—Liverpool or Winnipeg will become the world grain market center, in case legislation is enacted restricting trading in the Chicago board of trade. John Mauf, secretary of the world's leading grain mart, told the federal trade commission investigators here today.

"Both Liverpool and Winnipeg are keeping a close watch on the movement to restrict the Chicago board of trade," Mauf said, "and in case trading here is greatly hindered the world's grain market will be transferred to one of those cities."

This, Mauf said, would result in serious handicap to American grain producers. Mauf, in answer to question by Victor Murdock, chairman of the federal trade commission, told of the operations of the board of trade.

He explained that the board determines the contested condition of elevators through the work of three experts who are constantly watching conditions.

Portland Must Pay Delinquent Fees On City's Automobiles

SALEM, Ore., Oct. 11.—The city of Portland must pay to the state of Oregon \$7406 in accrued motor vehicle license fees for 1920 and 1921, according to an opinion written yesterday by I. H. Van Winkle, attorney general, to Sam A. Koser, secretary of state. The city owes the state \$3634.50 for 1920 and \$3771.50 for 1921.

The legislature of 1921 passed a law which exempts from this payment the state, counties, cities and other municipal corporations, but this act did not become operative until January 1, 1922 and does not affect fees that had accrued up to that date.

In Portland the suggestion was made that the enactment of the 1921 law repealed the law then existing for licensing and registration of motor vehicles and exempted payment of the fees.

The city of Portland did not pay the license fees for registration of its motor vehicles during 1920 and 1921, claiming exemption. The supreme court held, in the case of the state vs. W. C. Preston, that the city must pay and the city then raised the question of the effect of the 1921 enactment. The attorney general's opinion holds that the 1921 act does not repeal the previous act.
