

OREGON CITY ENTERPRISE

FIFTY-SIXTH YEAR NO. 47.

OREGON CITY, OREGON, FRIDAY, NOVEMBER 24, 1922.

ESTABLISHED 1886

RALPH SHEPHERD IS SELECTED AS LIVE WIRE HEAD

L. A. Henderson Named Sub Trunk; Rev. H. G. Edger Is Guy Wire; Rev. Caradoc Morgan, Insulation Wire.

COMMUNITY CHEST IS PROJECTED FOR CITY

Committee to be Chosen Soon To Investigate Plans For Charity Work In District.

Ralph Shepherd traffic manager of the Hawley Pulp and Paper company, was Tuesday elected Main Trunk of the Live Wires, from organization of the Oregon City commercial club, succeeding for the coming three month term, A. A. Price.

L. A. Henderson, local abstractor, was elected sub-trunk, Charles Gratke, Oregon City Enterprise, transmission wire, H. G. Edger, pastor of the Presbyterian church, guy wire and Rev. Caradoc Morgan, pastor of the Congregational church, insulation wire.

Committees are Named

Committee appointments made by Main Trunk Shepherd yesterday afternoon were: Feed Wire, Raymond Caulfield; Program committee, Hal Hoss; Resolutions Committee, Arne G. Rae.

Irving T. Rau drew the attention of the Wires to the fact that the street signs on the majority of the Oregon City thoroughfares have become so ageworn that where the remaining few exist it is impossible to read them. Considerable approval of the plan to ask the city to take the matter in hand, was voiced and Main Trunk Price, then acting, appointed Rau as a committee of one to handle the matter.

Percy Caulfield urged the erection of a sign upon the elevator with the words "Oregon City Free Municipal Elevator to Residence Section of City," so that it would be visible from the railroad right of way. The matter was referred to the publicity department of the commercial club, with the recommendation that they take care of the matter without asking the city for any aid.

Fake Schemes Scored

Spurious advertising schemes which are being presented to the merchants of the city were scored by Ralph Shepherd, pointing to two fake "railroad" magazines for which advertising space was being sold. A. G. Beattie, secretary of the local business men's association called attention to the checking service that organization provides for all solicitation and urged greater cooperation to safeguard legitimate enterprise. He also described the workings of that department of the association.

Th question of community relief work was broached by Al Price, pointing to the work of the Elks during the Thanksgiving season. From the idea of aiding the order in their humanitarian activities, plans for a community chest to take care of all Oregon City benevolent work were discussed. Main Trunk Shepherd was empowered to appoint a committee to investigate the feasibility of the idea and report next Tuesday.

TAXPAYERS NAMED TO DRAFT COUNTY BUDGET

Joe Thornton, Wilsonville, A. R. Gribble, Canby and H. W. Kanne, of Ardenwald, were selected by the county clerk yesterday as the taxpayers to sit with the body that frames the 1923 budget. The total county budget for all purposes amounted to nearly \$1,000,000 last year, and if the six per cent limitation is invoked, the amount to be levied for the coming year will reach seven figures. Work upon the framing of the city budget for the coming year is practically completed. It is expected that the final work of the committee will be placed upon the plan before the end of the week. The large part of the detail work is finished, but decision as to the road improvements is yet to be made, and to some degree is contingent upon the action at the tax payers meeting next Saturday upon the proposed 2 1/2 mill levy.

The increasing of the levy road purposes to 3 1/2 mills has been talked but the heavy burden of city taxes is expected to preclude action. The passage of only the millage necessary to provide for Oregon City's portion of the payment upon the new Willamette river bridge is to be asked, unless the present plan is changed.

Shakespeare was the fire man to use the word "hurry," and he also coined the word "dwindle."

A man should never be ashamed to admit that he has been in the wrong, which is but saying that he is wiser.

The Bank of England was founded by a Scotsman who died in poverty.

COMMITTEE COMPLETE FOR OPENING OF BRIDGE

Men to Handle Dedication are Selected; Two Cities to Act On Steering Board.

The complete organization to stage the ceremonial attendant upon the dedication of the new Willamette River bridge on the Pacific Highway was perfected at a meeting last night of the Oregon City commercial club body. Harry L. Groves, J. W. Moffatt, Charles Shields, John A. Ream and John W. Draper were named to represent West Linn.

The program committee was named consisting of T. W. Sullivan, H. A. Kirk, J. E. Hedges, H. E. Nose, R. E. Furrow, Draper and Ream. Furrow, resident bridge engineer was included as a member of the general committee as was Mayor James Shannon who is to appoint four with himself to represent the city. The county court was also included.

A committee on decoration consisting of O. D. Eby, Shields, H. Mount, Furrow and Elbert Charman was named and a board composed of Gilbert Hedges, Wm. Andersen, Moffatt, and Groves named to handle the financing of the affair. M. D. Latourette, chairman of the general committee was made an ex-officio member of all of the sub-organizations.

Sullivan, Mount and Moffatt were named as a delegation to attend the highway commission meeting in Portland today to attempt to secure state aid in the completion of the rest rooms in the new bridge piers.

Inclusion of a banquet in the plans for the celebration and the holding of a complete holiday in Oregon City and West Linn was discussed. It is expected that the bridge can be opened by the fifteenth of December.

Participation of cities throughout the Northwest is to be asked and mayors of towns over the state will be asked. The presence of the governor and members of the state highway commission is to be requested.

MAN HUNT IS STARTED IN MYSTERIOUS MURDER

Ventura, Cal., Nov. 16.—Every officer of the law in Ventura county was working today upon solution of the mysterious shooting, late last night, of Buell Barrows, 21-year-old youth, while his pretty 17-year-old sweetheart, Hazel Hilton, looked on. The shooting occurred near Ventura Beach, about a mile from town, shortly after 11 o'clock last night.

Officers who had worked on the case all night reported this morning that they had made no progress in apprehending the murderer. However, after questioning the girl, the officers stated their theory of the shooting is that young Barrows was the victim of mistaken identity and that he and Miss Hilton had been mistaken for some other couple.

According to the girl's story of the shooting, Barrows had stopped his machine to investigate what he thought was motor trouble. Simultaneously, the girl said, she remarked she heard someone behind the machine. A shot followed close on the heels of her remark and young Barrows fell dead beside the automobile. The girl declares she did not see the assailant other than she "thought a man with a cap, or perhaps it was a shadow, run away after the shot was heard."

Both Barrows and Miss Hilton are of prominent Ventura families.

JAPANESE JINGO PRESS RAPS SUPREME COURT

TOKIO, Nov. 16.—The better newspapers of Japan remain surprisingly calm in their comment on the decision of the United States supreme court holding Japanese ineligible for citizenship in the United States because they are not of the "white race."

The only bitterness exhibited in the comment is over the implication that the decision may have been based on the belief the yellow race is inferior. Hopes are expressed in many leading editorials that the decision is for the best and that radical understanding will eventually wipe out the inferred implication of inferiority.

The jingo press, however, is typically bitter the Yoronozu berating Chief Justice Taft as "up holding the Republican attitude toward Japan," and declaring the decision can only serve to injure diplomatic relations between the two countries.

Property Bought In Clackamas County

H. Nutt, who has engaged in farming on an extensive scale at Willamina, has purchased property in Clackamas county. With his family, Nutt has taken possession of his new home, which is located near the South End road. His farm at Willamina consisted of 300 acres.

KU KLUX KLAN AT AURORA FORMED; 80 ARE ENROLLED

New Branch of Esoteric Order Installed; Meeting Held to Elucidate Aim of Cryptic Group; Dean Hicks Talks.

COUNTY MEMBERSHIP NOW IS SAID 1280

Establishment Of Reign Of Invisible Empire is Planned At Gresham Soon, Rumor.

That a branch of the Ku Klux Klan has been organized at Aurora, embracing a considerable territory in that section, became known here yesterday. The Klan at Aurora at present has some 80 members it is understood.

A public meeting at Aurora last Wednesday at which Dean Hicks of Portland spoke on the Klan and its activities, was conducted under the newly organized Klan, it is understood. Forty two members of the invisible empire were on the stage at the meeting in full regalia. Some 350 people packed the Pythian hall to hear the discussion of the esoteric order.

Rumors of a move to organize a Klan at Gresham are current. The organization of this branch would decrease the territory covered by Oregon City Willamette Falls Klan number 6. The Oregon City Klan is understood to have 300 members in this city, and it is said that they have in a increased their membership in the county to 1280.

Heavy Damages Asked In Suit Of State Bank

PORTLAND, Nov. 17.—Damages totaling \$130,000 were demanded of the Federal Reserve bank of San Francisco in a suit filed this morning in the federal court here by the Brookings State bank, of Brookings, Curry county, Oregon.

This suit is an outgrowth of the nonpar exchange controversy between the two banks, which resulted last June in a victory for the Brookings bank when Judge C. E. Wolverton granted an injunction against the federal reserve bank restraining it from sending out notices of dishonor when the Brookings bank refused to cash a check at par.

In its suit today, which was filed by T. T. Bennett of Marshfield, the Brookings bank alleged that the federal reserve bank maliciously maintained an agent at Brookings to collect checks over the counter at par, in an effort to destroy its business. It also alleges that the 42 notices of dishonor sent to Brookings bank depositors, which were introduced in the other trial, were another attempt to wreck its business. The main point of contention, however, hinges on the alleged libelous act of a woman employee in the Los Angeles branch of the federal reserve bank, who wrote "bank closed" on the face of the check. During the injunction trial last summer the reserve bank admitted this, but denied it was intentional, claiming it to be a clerical error.

The present mill was established here in 1908 and began operation the following year. The last addition to the plant was made in the construction of their biggest unit in 1917. Hawley, who built the mill, was superintendent of the old Crown paper company in 1892 and was resident manager of the mill for a period of 18 years.

Conscience Is Cause Of Second Marriage

SAN FRANCISCO, Nov. 18.—Wedding bells are going to ring again today for Jake McKinley Traxler, 31, and Carrie Rock Trout Traxler, 70. The first time the bells rang for them was at St. Anthony, Idaho, a few years ago.

"But I gave the name of Traxler," Jake explained today, "and four days ago I got religion."

"My conscience is in a mighty delicate condition and, you know, it won't heal up until I get married again under my right name and fix everything up straight."

So the ceremony will be performed at the Pentecostal mission this afternoon.

Steps to Protect Mexicans Is Asked

AUSTIN, Tex., Nov. 18.—A request that steps be taken immediately to protect Mexicans at Hidalgo and Weslaco, Tex., was received from Secretary of State Hughes by Governor Neff yesterday. The request was the second received concerning alleged mistreatment of Mexicans, the first regarding recent disturbances at Breckenridge. Steps already have been taken by investigating the lynching of a Mexican on November 11, it was officially stated.

If you are always straightforward you will always go straight forward.

Gigantic Incomes Rapped By Governor

PORTLAND, Nov. 17.—Laws that permit individuals to become multimillionaires and pass their fortunes on intact, to increase in size by imperious alone, will bring starvation to the common people and later on destruction, C. M. Pierce of Los Angeles and a brother of Governor Elbert Walter M. Pierce told an audience in Library hall last night.

Pierce advocated the establishment of endowment funds for the maintenance of orphan homes, created by voluntary bequests, and suggested heavier inheritance taxes where nothing is left to charity.

Pierce is touring the country in behalf of orphans' homes of all denominations and will remain in Portland to assist in the Community Chest campaign.

NEW MACHINE TO DOUBLE CAPACITY OF PAPER MILLS

WATER POWER OPTIONS SECURED; \$1,500,000 IS TO BE SPENT UPON DEVELOPMENT PLANS.

Plans for the addition of new paper machine, with a capacity of from 85 to 90 tons a day, at a cost between \$1,500,000 and \$1,750,000, were announced Thursday by the Hawley Pulp and Paper company of Oregon City. Options upon the necessary power for the operation of the new machine have been secured, according to W. P. Hawley, president of the company.

The power options include sufficient high-water power for the manufacture of seventy-five tons of pulp a day, and electric power aggregating 1000 horse power for the operation of the machine.

The plant at present is employing about 550 men and the new machine will increase its payroll between 200 and 250, according to Mr. Hawley.

The exact date for the installation of the new machinery has not been determined, Mr. Hawley states. The company, however, has not definitely determined where the new mill is to be built.

The increase, which will include the construction of another pulp mill to supply the new machine, will almost double the output of the plant. Its present capacity is about 110 tons a day. The addition, according to Hawley, is made necessary by increased business, a greater output being needed to take care of the trade.

The options upon the necessary power for the handling of the new equipment which owns the rights to the water power at Willamette Falls. Rumor of the contemplated additions have been current for some time. The announcement of the securing of the power options is the first formal statement from the company concerning its plans.

The present mill was established here in 1908 and began operation the following year. The last addition to the plant was made in the construction of their biggest unit in 1917. Hawley, who built the mill, was superintendent of the old Crown paper company in 1892 and was resident manager of the mill for a period of 18 years.

WORK TO START SOON ON MILL ADDITIONS

Board of Directors Give Authority To President For Plans of Expansion.

A meeting of the board of directors of the Hawley Pulp and Paper company was held here this afternoon at which time W. P. Hawley, Sr., president, was authorized to proceed with the proposed addition to their mills here at a cost of between \$1,500,000 and \$2,000,000.

These plans call for the addition of paper machines with a capacity of 85 to 90 tons per day and option for power to operate these new machines has already been secured, according to announcement.

New mills will be built to accommodate the additional machines and when completed will almost double the output of the present plant. Between 200 and 250 men will be added to the payroll.

This will be the first material addition to the plant since 1917, when the largest unit was built.

ONE ERROR Doctor—"With care your husband will recover in a week. You don't seem very pleased!" Wife—"You told me he would die a week ago—and I have sold his clothes!"

OREGON ALUMNI TO GIVE BANQUET NOVEMBER 28TH

Mrs. J. S. Risléy Is Named As Head of Association Here For Coming Year; Mount Elected as Vice President

L. A. HENDERSON WILL SERVE AS SECRETARY

Wallace Caulfield Chosen For Treasurer; Ex Students of University To Hold Fest.

Plans for a permanent county organization of the alumni of the University of Oregon were formulated last night at a meeting of the alumni association committee held in the Commercial Club rooms. Mrs. J. S. Risléy was elected president of the association for the ensuing year. Dr. Frank Mount was named vice president, L. A. Henderson, secretary and Wallace B. Caulfield, treasurer.

Plans for a banquet of all former students of the University were made. The dinner is to be given on the evening of November 28. The banquet is being held at the request of President Prince L. Campbell of the University, at which the alumni will meet with representatives of the university to discuss plans for the betterment of the institution. It is probable that President Campbell will be the guest of honor at the banquet.

Card invitations to those former students whose names are on the list of the alumni association, will be placed in the mail today. Owing, however, to the fact that the lists are not complete, information concerning any of the former students is desired by the committee. The list of present of the students in Clackamas county includes 103 graduates former students and correspondence students.

The alumni association has not been active for the past two years and the dinner a week from Tuesday next is expected to add new life to its activities. The presence of all former students, the committee states, is requested whether or not their names are at present on the list.

Suit on Gaffney Will Is Ended In Probate Court

Contest of the will of the late Bridget Gaffney, ended abruptly in the probate court Thursday with the filing of a stipulation by John Gaffney, Jr., admitting the competency of the testator and the fact that the will was signed. The contest over the will was begun by John Gaffney Jr., about two months ago, alleging that his mother the time that the document was made was incompetent and that she did not sign it.

In the will covering the estate of personal property valued at \$5,000, John Gaffney Jr. was left \$1, his brother Daniel W. \$2,000 and Michael E., the remainder of the estate. Mrs. Gaffney died in August, 1920 and the probate of the estate was begun the following year. The trial of the contest was scheduled for a hearing in the probate court Thursday. Filing of the stipulation ended the case and the final account of the administrator approved. William Hammond represented the estate.

Permit Is Asked To Issue Stock To Employees of Ford

WASHINGTON, Nov. 18.—The Detroit, Toledo & Ironton railway owned by Henry Ford, applied today to the interstate commerce commission for authority to issue \$1,000,000 in employees' investment certificates. These certificates are to be sold to workers for the purpose of fostering a spirit of loyalty and efficiency, the petition stated.

The certificates are to be issued in denominations of \$100, \$500 and \$1000. The application stated that by selling stock in the road to the workers the owners hoped to "promulgate a feeling of participation in the earnings of the company," and in general arouse a spirit of interest that will increase the efficiency of the line and thereby profit the workers, the railroad and the public.

S. P. May Abandon Depot At Liberal

Abandonment of the Southern Pacific station at Liberal, Oregon, near Molalla, will be allowed under the ruling of the public service commission Tuesday. The commission held that it was not necessary for the company to maintain depot facilities there.

COUNTY SCHOOLS TO AID CHRISTMAS SEAL SALE

Teachers To Handle Big Part Of Campaign This Year; Quota 5 Cents Per Pupil

County School Superintendent Brenton Vedder and Public Health Officer Dr. Frank Mount have endorsed the Christmas seal sale of the Oregon Tuberculosis Association for December 1922.

The per capita apportionment for each person of Clackamas county is five cents. If the population of a district is 100, the share to be raised from that district will be \$5.

It is the plan of County School Superintendent Vedder to have each teacher take the responsibility for the sale of \$5 worth of seals, and in this manner the campaign can be put over in a few hours' work.

A report shows that in 1920 the American people spent \$1,000,000,000 on candy; \$800,000,000 on cigarettes; \$750,000,000 on perfume and cosmetics, but in the same year the total amount of money spent on education was only \$984,000,000. This report is from John J. Tigert, United States commissioner of education.

Mrs. Mary R. Caulfield, of this city, is chairman of the Clackamas county seal sale. This starts on the first day of December and closes Christmas eve. Mrs. Caulfield is a member of the Clackamas County Health Association that was formed several years ago. The officers are Rev. H. C. Edger, president; Mrs. R. W. Kirk, secretary; Mrs. Miller, of Grove, treasurer.

The Clackamas County Health Association receives 35 per cent of the proceeds from the sale of these seals. The money derived by the local organization is for health purposes.

EARTHQUAKES CONTINUE ALONG CHILEAN COAST

SANTIAGO, Chile, Nov. 17.—Earth shocks in the afflicted zone still continue. Copiapo reports three strong shocks during the night, which shook down a number of the ruined walls and caused a panic among the residents.

The Chilean authorities characterize as groundless the report regarding the disappearance of Easter Island. They say the fact that no answer has been received from wireless calls is not surprising as there is no wireless station there.

Revised figures given out by the minister of the interior place the total of those killed Saturday at 548. The number of injured is only partly estimated, the total being set at 337, but those coming under this category in Valparaiso and Chanares are described in the reports as "innumerable."

Valparaiso City is in ruins with 323 dead and the injured estimated at around 600.

The entire lower section of Chanares was razed. Seventeen are dead and many injured.

At Copiapo approximately half the houses were destroyed. The dead there number 64.

At Caldera the tidal waves carried away the railroad station, workshops and customs house and destroyed the mole. There were no casualties.

Freilina was destroyed. Eighteen were killed in the town and sixty in the district. At Hualco the tidal wave caused eight deaths. At Huasco Sajo, twelve are dead.

NEWBERRY RESIGNATION TO BE EFFECTIVE TODAY

WASHINGTON, Nov. 20.—The resignation of Senator Truman H. Newberry, of Michigan, the central figure of a long and bitter senate controversy will become effective tomorrow. Vice President Coolidge was unable at today's brief session to present Senator Newberry's letter of resignation and the Michigan senator's name remained temporarily on the rolls.

Forwarded to Governor Groesbeck of that state under date of November 18, Mr. Newberry's letter of resignation requesting that it become effective immediately, was made public here last night after a copy had been transmitted to Vice President Coolidge with the request that it be read into the senate record as soon as possible.

Physicians Attempt To Save Lad's Sight

Graham Morgan, four-year-old son of Rev. and Mrs. Caradoc Morgan, who was severely injured by an explosion of dynamite caps several weeks ago, underwent an operation on his eye Friday. The operation was performed in Portland by an eye specialist of that city, who removed a portion of brass that had penetrated. It is believed by the attending physicians that a portion of the vision may be saved.

The lad is also suffering from mangled fingers.

\$7,000 CUT FROM ESTIMATES UPON SOUTH END ROAD

Bids on Bluff Route Opened By State Commission; No Action Is Taken Pending Full Report From Engineer.

PLAN OF FINANCING NEARS AGREEMENT

Definite Date For Opening Of New Span Here To Be Fixed To Aid Dedication.

The cost of constructing the Fifth street South End Road connection on the Pacific Highway between Oregon City and Canemah will amount to \$98,610, according to bids opened by the highway commission in Portland Tuesday. This cuts \$7,000 off of the estimates made a year ago by the engineers. The low bid, that of Rejotte and Winters, was referred by the commission to the engineer, and definite action upon the matter will be held.

The final difficulties in the financing of the project are practically solved. The Portland Railway Light and Power Company, Hawley Pulp and Paper Company, Southern Pacific and Crown Willamette are to pledge the funds for the road in return for franchise and easement considerations on the part of the city. Following a series of recent conferences, the details are now practically arranged, and the question of the routing and minor objections to the plan are expected to be settled within the coming week.

The opening of the new Willamette river bridge will to a large degree be dependent upon the arrangements for the approach at the west side. Bridge Engineer McCulloch indicated. The state has been unable to agree to the purchase of private property for the widening of the approach and a price of \$18,000 has been set on the store corner there, which the state considers too high. The engineer was instructed by the commission to fix a definite date for the opening of the span so that plans for the holding of dedication ceremonial here can proceed.

A request was made to the commission that the river road between Milwaukie and Gladstone be placed on the state highway map. It is now considered only as a temporary route. The matter was taken under advisement.

MANY AWARDS MADE TO COUNTY AT STOCK SHOW

Five first prizes, two third prizes, and one fifth prize were the awards made to Clackamas County exhibitors at the Pacific International Live stock Exhibition, according to a letter received by County Agricultural Agent W. A. Holt, from the Oregon club leader.

Melville Richey of Boring won first place among the county exhibitors by picking off four first prizes. He was awarded prizes for following. Class 640 senior heifer or bull calf Guernsey breed; class 650 Chester White sow under six months; class 660 Fat Chester White; and a special prize.

John Bliss won third prize in class 656 Duroc sow under six-months. Melvin Stewart won the third prize in the special prizes given by the Union Stock Yard Company. Adrian Jones took fifth place for class 656 Duroc sow under six months.

In addition to the prizes awarded, Melville Richey sold his four fat hogs, 850 pounds at 11 1/2 cents, and Melvin Stewart four hogs 900 pounds at 10 1/2 cents.

The Clackamas County Judging team consisted of Adrian Jones, Melvin Stewart and Richard Gwillim. Corwin Hein won \$10 as first prize for the best ten ears of white dent corn.

New Cabinet Formed By Wilhelm Cuno

Berlin, Nov. 16.—Wilhelm Cuno, director general of the Hamburg American Steamship company, today accepted the offer of President Ebert to organize a new German cabinet. It is believed Cuno's selection of associates will be made from industrial ranks and that he will invite into the cabinet men high in the business world.

Herr Cuno was born in Suhl, Thuringia, July 2, 1876. Since 1907 he has been connected with the government in some capacity or other. His first position was in the treasury department. During the war he devoted his time to solving the various economic questions brought about by the conflict. Then he became director of the German grain office. He organized the empire food department. He was an expert in the armistice meeting at Treves, Belgium, and at the peace meeting at Versailles.
