MODEL 295--Smart model of white brocade in neat designs. Topless corset with elastic waist, best quality, high-grade finish. Special price **\$2.19**

Such tobacco enjoyment

as you never thought could be is yours to command quick as you buy some Prince Albert and fire-up a pipe or a home-made cigarette!

Prince Albert gives you every tobacco satisfaction your smoke-appetite ever hankered for. That's because it's made by a patented process that cuts out bite and parch! Prince Albert has always been sold without coupons or premiums. We prefer to give quality!

PRINCE ALBERT

the national joy smoke

has a flavor as different as it is delightful. • You never tasted the like of it! And that isn't strange, either.

Buy Prince Albert everywhere tobacco is sold in top-quality bags, 5c; tins, 10c; handsome pound and half-pound tins; humidor—and that corking fine pound crystal-glass humidor with sponge-moistener top that keeps the tobacco in such clever trim—always!

Men who think they can't smoke a pipe or roll a cigarette can smoke and will smoke if they use Prince Albert. And smokers who have not yet given P. A. a try-out certainly have a big surprise and a lot of enjoyment coming their way as soon as they invest in a supply. Prince Albert tobacco will tell its own story!

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

JUVENILE CASE HEARD

Crumm of Oak Grove Complains About Parental Neglect

Taking as testimony the word of neighbors that Ralph Hamlin, 14, Lloyd, 16 and George, 17, were not receiving proper parental care, Judge H. S. Anderson on Saturday heard delinquency charges against the three youths and took the case under advisement.

The children have been living with their stepfather, Wayne Bunnell, at Oak Grove, and the examination on Saturday was directed more at Bunnell than at the children, whom neighbors want to have sent to relatives. Bunnell admitted using improper language in the presence of the children and testified that he had not made more than \$200 in the last year to go toward the support of a family of seven.

W. A. Crumm of Oak Grove was the complaining witness. He was formerly officially connected with the juvenile court work in Portland. Mr.

Crumm, Justice of the Peace Lewis of Oak Grove and other neighbors of the Bunnell family testified from the stand Saturday.

LITTLE MINERAL HERE

Department of Interior Reports on Metal Ore Production

In the matter of the production of gold, silver, copper and lead in Oregon during 1915, Clackamas county stands third from the cellar position in a list of thirteen mineral producing counties in the state. In other words, there are ten counties which produce a great deal more of these metal ores than does Clackamas. This is information gathered from a report of the U. S. Geological survey of the Department of the Interior.

The sole production in this county was 29 short tons of gold from deep mines, valued at \$744, and 41 ounces of silver, valued at \$765, or a total valuation for all minerals produced of \$1509. The increase in the value of gold produced in the entire state for

1915 as compared with 1914 amounts to \$270,335 and for silver, copper and lead to \$327,356.

Baker county produced more metal ores than all other counties in 1915, just as it has done for many years. Baker county's mineral production in 1915 totaled \$3,496,178, of which \$1,685,382 was in gold and the remainder, \$1,810,796, in copper, silver and lead. Only Union and Marion counties are credited with less ore production than is Clackamas county.

Our Jitney Offer—This and 5c DON'T MISS THIS. Cut out this slip, inclose with 5c and mail to Foley & Co., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound, for coughs, colds and croup; Foley Kidney Pills, for pain in sides and back; rheumatism, backache, kidney and bladder ailments; and Foley Cathartic Tablets, a wholesome and thoroughly cleansing cathartic, for constipation, biliousness, headache and sluggish bowels.—Jones Drug Co.

Passing in Review

News of the Week from War Zones of Europe and Mexico

The Daily Chronicle of London printed a dispatch from Athens asserting that King Constantine is understood to have expressed himself in favor of Greece abandoning her neutrality in favor of the allies. The dispatch adds that Greece has officially accepted the demands of the allies, namely that control of the mails and telegraphs shall be vested in the allies; secondly, the immediate expulsion of German agents; thirdly, that necessary measures shall be taken against Greeks who are accomplices of the hostile agents and supply the German and Bulgarian armies with information.

After six months of military efforts unparalleled in the world's history, Verdun remains well outside the German grasp. Half a million men sacrificed by Germany in this attempt have gone into the useless holocaust. Having had an opportunity of thoroughly inspecting the whole Meuse battlefield from an exceptionally fine vantage point, it seems certain that Verdun will never fall into the hands of the enemy. At the same time there is plenty of evidence that this greatest battle in the world's history is by no means over.

The report that King Constantine had abdicated and that Greece would enjoin the entente allies at once has not been borne out. The newly formed Greek committee of national defense has proclaimed a provisional government of Macedonia.

Lively fighting is in progress between the Germans and the French and British in the region north and south of the river Somme, in France, says the official statement issued Saturday by the German army headquarters staff. The Germans recaptured from the French a trench near Estrees. The official statement says: "North and south of the Somme lively fighting continues. Southeast of Maurepas a French attempt to advance was unsuccessful. Friday night a trench which was still in the hands of the enemy near Estrees was recaptured."

The Roumanian advance in lower Transylvania has been checked by the Teutonic forces, an official statement from Vienna reports. This announcement relates the repulse of the Roumanians near the iron gates of the Danube, in the vicinity of Orsova. Farther north the Austrian evacuation of Transylvanian territory is being carried out without serious fighting. Vienna announces the abandonment of Hermannstadt, one of the most important towns of Transylvania. The Austrian communication indicates that the new offensive of the Russians in Bukovina and eastern Galicia was inaugurated over a wide front. Most of their assaults failed, Vienna announces. The Bulgarians renewed their attacks along the western end of the Macedonian front. The French war office asserts they were repulsed by the Serbians.

The first preliminary meeting of the American-Mexican peace commission was Monday at New York. Alisco Arrendondo, the Mexican ambassador-designate, performed the ceremony of introduction between the Mexican and American envoys, and also introduced Secretary of State Lansing. Monday was mostly given up to social functions. Secretary Lansing gave a luncheon for the conferees and Arrendondo, while Mrs. Lansing entertained the commissioners' wives and Senora Arrendondo.

Twenty-five constitutionalist soldiers and 20 civilians were killed when bandits wrecked a train between San Luis and Tampico Thursday, according to advices received at El Paso on Monday.

German positions over a front of 3000 yards and 800 yards deep, between the Acre and Somme rivers, have been smashed by the British and more than 800 prisoners taken, according to an official statement issued in London Monday. Guillemont is completely in British hands. Strong German counter attacks were all repulsed, except in the Finch sector, where the British yielded some captured ground.

The British at one time occupied all the village of Ginchy, but later were forced to give ground. Despite enemy counter attacks, they retain their hold on part of the village and on the strongly fortified town of Guillemont, won at the beginning of Sunday's drive.

All the Zeppelins participating in the Sunday morning raid on London returned, undamaged, said an official statement issued by the German admiralty, despite the fact that one of the dirigibles was shot down near London. The press bureau, in commenting on this statement said that not only was one Zeppelin destroyed, but there is good reason to believe that another was "very seriously damaged." A supplementary statement issued at Berlin said that in an attack on London Sunday night one of the Zeppelins was shot down.

"King Ferdinand of Bulgaria," says a wireless dispatch from Zurich, "sleeps in a cellar to avoid danger from allied airmen belonging to the Saloniki armies." The dispatch adds that the king's alleged fear is similar to "cowardice" in the Balkan war of 1912-13, when "he earned the contempt of his staff." The cellar, which forms the king's present alleged hiding place, is said to be luxuriously furnished. It has a ceiling of steel plates which are bomb-proof.

Greek Premier Zaimis has notified the diplomatic envoys of the allies that Greece accepts the demands of

the entente allies, according to a Central News dispatch from Athens received at London Monday. The demands were: Taking over the Greek wireless system, mail and telegraph services and expulsion of German agents from Greece. Another Athens dispatch said British and French agents had already taken over control of the postal and telegraph communications. This practically gives the allies supreme control of the Greek government.

Colonel Alfredo Breceda, former private secretary to General Carranza, arrived at New York Monday on the Spanish steamer Montserrat from Vera Cruz. He said he was going to Spain and France on a diplomatic mission for the de facto government, the nature of which he declined to discuss.

About the State

Resume of the News of the Week from All Parts of Oregon

McMinnville wants to hold a round-up in October and has held a meeting for the purpose of arousing enthusiasm in the venture. Philomath, Albany and Eugene are among the Willamette valley round-up towns.

H. A. Lewis, president of the fair association, assisted by M. O. Wilkins, editor of the Automobile Record, and several other motor car enthusiasts, are planning to make an automobile exhibition at the coming Multnomah fair at Gresham.

Ed. Schoel, of Tangent, is off on his annual tour of the fairs of the northwest. Late last week he shipped over the Oregon Electric to Spokane a car of high-grade registered hogs and sheep which will start the circuit at the Spokane Inter-state fair.

The 1916-17 session of the Forest Grove public schools will commence Monday, September 18th. This is about a week later than the usual time of beginning, but has been chosen to accommodate those pupils who will still be employed in the harvest fields or in the hop fields.

Coos county last week sold an entire issue of county road bonds totalling \$362,000 at par, accrued interest and \$13,915.61 premium. The money was deposited in a Coos Bay bank and the sum, \$374,437.26, formed the largest deposit ever recorded in an Oregon coast bank.

The committee of Sheridan citizens having in charge the raising of funds for the hard surfacing of the McMinnville road leading east from Sheridan and the lateral road in Gopher valley, met with the county court and went on record as having met all conditions imposed by the state board of control and the county court. In Sheridan's

application for the building of this road the state agreed to appropriate \$5000 and the county court set aside a like amount and the citizens of Sheridan would give \$5000. In a few days' time this amount was raised, and the First National bank of Sheridan, through its president, S. L. Scroggin, guaranteed its payment.

Harry Hildebrun, Roseburg contractor who has charge of the rock-crushing contract on the summit of the Siskiyou mountains to furnish crushed rock for the Pacific Highway over the mountain, commenced operations recently, and is crushing about 150 yards per day. About fifteen men are at work. The state is hauling and placing the crushed rock and gravel under the direction of Engineer T. M. Davis.

In anticipation of the embargo on perishable goods, large quantities of fish are coming into Eugene from coast points. Recently the Siuslaw train brought in over 2200 pounds of salmon from the Umpqua Fish, Storage and Supply company, for Portland, and nearly as much for San Francisco. About 1000 pounds of sturgeon came in from the Coquille river for Portland.

An enthusiastic and well attended meeting of the Woodburn Retail Merchants' Association was held after a banquet at the Woodburn hotel last Tuesday night. Among other business of importance transacted was the decision to hold another corn show in this city in October, to observe National Pay-Up Week October 2 to 7, appointment of a committee to look after putting up signboards directing travelers' attention and showing distance to Woodburn.—(Independent.)

The Cottage Grove grange fair to be held there Thursday, Friday and Saturday, September 14, 15 and 16, will be the greatest agricultural exhibit in the history of southern Lane county, in the opinion of the committees who have the arrangements in charge. On Friday and Saturday afternoons there will be good, clean sports for the boys and girls and on Saturday there will be the usual baby show, at which mothers will exhibit Lane county's most valuable crop.

Last week the brief announcement that the president had named Mrs. Mary O. Vail to be post-mistress at Carlton, was published, thus ending a long period of suspense for the numerous candidates. There is no doubt that Mrs. Vail will fill the office successfully, and it is hoped will comply with the request of the board of trade to keep the office open at noon, as do business houses where two or more persons are employed. It may be several weeks before Mrs. Vail takes office.

W. E. Parker of Albany seems to be a winner at everything he puts his hand to. His vetch reported some time ago went about forty bushels to the acre, an enormous yield. Now he

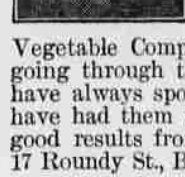

A Woman's Problem

How to Feel Well During Middle Life Told by Three Women Who Learned from Experience.

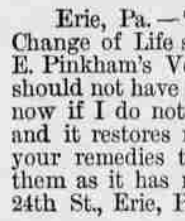

The Change of Life is a most critical period of a woman's existence, and neglect of health at this time invites disease and pain. Women everywhere should remember that there is no other remedy known to medicine that will so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs. Read these letters:—

Philadelphia, Pa.—"I started the Change of Life five years ago. I always had a headache and backache with bearing down pains and I would have heat flashes very bad at times with dizzy spells and nervous feelings. After taking Lydia E. Pinkham's Vegetable Compound I feel like a new person and am in better health and no more troubled with the aches and pains I had before I took your wonderful remedy. I recommend it to my friends for I cannot praise it enough."—Mrs. MARGARET GRASSMAN, 759 N. Ringgold St., Philadelphia, Pa.

Beverly, Mass.—"I took Lydia E. Pinkham's Vegetable Compound, for nervousness and dyspepsia, when I was going through the Change of Life. I found it very helpful and I have always spoken of it to other women who suffer as I did and have had them try it and they also have received good results from it."—Mrs. GEORGE A. DUNBAR, 17 Roundy St., Beverly, Mass.

Erie, Pa.—"I was in poor health when the Change of Life started with me and I took Lydia E. Pinkham's Vegetable Compound, or I think I should not have got over it as easy as I did. Even now if I do not feel good I take the Compound and it restores me in a short time. I will praise your remedies to every woman for it may help them as it has me."—Mrs. E. KISSLING, 931 East 24th St., Erie, Pa.

No other medicine has been so successful in relieving woman's suffering as has Lydia E. Pinkham's Vegetable Compound. Women may receive free and helpful advice by writing the Lydia E. Pinkham Medicine Co., Lynn, Mass. Such letters are received and answered by women only and held in strict confidence.

PICKING EARLY

Many May Abandon Hops Because of Mold that Has Attacked Them

Herman Smidt, who is a partner in the large hop farm of Smidt and Mueller near Aurora and who also controls personally an extensive planting, while in Oregon City on Monday reported that mold had attacked many of the vines in his fields and that picking was started several days before the time originally set because of this condition. The hops formed faster, too, than had been anticipated, but they would have been picked early at any rate because of the mold.

It is also reported that a number of growers in the Aurora neighborhood have abandoned their yards because of the mold and will not strip the vines this year. This is taken to mean that a certain number will plow up the fields and plant some other crop for next season.

The loss by mold has not been great enough to make necessary the abandonment of many yards, but evidence of the attack of mold has been generally noted. Weather conditions have been particularly unsuited to the greatest success of the hop growers, say some of them, and they are of the opinion that moldy hops will be found in most fields of the state this year. The mold appeared very suddenly. Growers in the Aurora district reported a fortnight ago that they were promised the best hop harvest in many years and even in those yards where picking started some time ago fear of loss by mold is felt.

Some yards started picking a full week ago, and by the end of the present week the majority of growers will have crews in the field. A shortage of pickers has been troubling growers and crews in many fields are very short handed.

C. E. INSTITUTE OVER

The last program of the second annual institute of the state Christian Endeavor societies was concluded at Oak Grove Monday evening with all participating in recreation and sports. The institute opened on Friday night at the Oak Grove Community church with a large dinner and a general meeting for the discussion of plans for the work that is to be carried on during the coming year.

David M. Jack of Portland has been directing the program at the institute, which is under the management of Emel Swanson, vice-president of the Multnomah County C. E. Union. Many members of the Clackamas county union took part in the business and festivity of the three days.

CATARRH IS STAGNATION PERUNA IS INVIGORATION

Catarrh means inflammation. Inflammation is the stagnation of blood—the gorging of the circulation with impure blood. Of course you can't be well under this condition. It means, headaches, indigestion, kidney trouble, coughs, colds, etc.

Peruna By assisting circulation, invigorates the system, removes the waste matter and brightens you up.

Over 44 Years Of service to the public entitles it to a place with you.

It Makes Good The Peruna Company Columbus, Ohio You can get Peruna in tablet form for convenience.
