MINISTERS WILL BE ACTIVE

Methodist Parsons Organize in Connection With League Convention

Methodist ministers in Clackamas county Friday perfected an organization for the advancement of evangelistic activities in the county. The meeting was incidental to the Epworth league convention being held here. The Rev. J. K. Hawkins of Oregon City, the Rev. W. B. Moore of Canby, and the Rev. A. C. Brockmeyer of Gresham, were elected members of an executive committee, and the Rev. J. F. Coleman of Clackamas was selected as secretary.

The proposed work will be divided as to territory and each district will be in direct charge of a captain, according to the plan outlined at the organization meeting. The captains are the Rev. A. C. Brockmeyer, the Rev. E. W. Snyder of Molalla, the Rev. W. B. Moore of Canby and the Rev. J. K. Hawkins of Oregon City. Dr. T. B. Ford, district superintendent and former pastor of the Oregon City church, was present at the meeting.

MRS. FISHER DIVORCED

Woman Involved in Shooting Case Gets Wages from Husband

Mrs. Catherine Fisher of Sandy, against whom a not true bill was found by a recent grand jury on a charge of the attempted killing of her husband, William Fisher, was divorced by Circuit Judge C. U. Gantenbein on Saturday, and Mr. Fisher was assessed \$240 wages to be paid Mrs. Fisher as housekeeper during the time she and Fisher lived together. Judge Gantenbein replaced Judge Campbell on Saturday.

Mrs. Fisher was employed as a domestic by Fisher before their marriage, and in the divorce complaint following the alleged shooting, she asked for \$2500 wages for the time she lived with Fisher after marriage. Fisher met her charges of improper relations with allegations of the same nature. Evidence showed that Fisher had been married three times.

Elks Have Service

Oregon City lodge No. 1189, B. P. O. Elks, held its memorial services at the lodge home here Sunday. Musical numbers were furnished by the quartet composed of Methylene Stites, Goldie Peterson, Norman A. Hoese and Hartridge G. Whipp. Mrs. Leonard Fisher Whipp and Hartridge G. Whipp rendered individual numbers. K. K. Kubl of Portland lodge delivered the memorial address, and the invocation was pronounced by Chaplain B. J. Staats of the Oregon City lodge.

A marriage license was issued here on Saturday by County Clerk Iva Harrington to C. A. Jansing and T. P. Linklater, of 754 Xavier street, Portland.

ASK DISMISSAL

Aged Man's Complaint Against Son May Not Be Taken to Court

A motion to dismiss the case of Fritz Timmerman against his son, Carl, and daughter-in-law, Harriett Timmerman, was filed with Judge Campbell yesterday and he has set it for hearing on Friday. The dismissal is subject to an indebtedness of \$617.50, of which \$500 is for room and board for the old man while an inmate of a home for the indigent.

The complaint filed by Timmerman some time ago alleges that the old man was defrauded of his property by his son, who had him, deed the land away with the understanding that he was only signing a lease. This fraud, it is said, so reduced the elder Timmerman's circumstances, by depriving him of a means of livelihood, that he had to take refuge in St. Joseph's home. Recently the younger man succeeded, through his attorneys, in having her vital parts of the father's complaint stricken from the document.

COUNTY CLERK SUE

Restraining Order Granted in Connection With Special Road Tax Levy

A restraining order was signed yesterday by Judge Campbell to prevent County Clerk Iva Harrington from entering upon the assessment rolls of the county a 10-mill special tax levy said to be void, invalid and unlawful, which was voted in road district 27 recently.

The order was the result of a complaint filed yesterday against Miss Harrington, as county clerk, by J. W. Hobart, in which he charged that the meetings for the adoption of a road budget and for voting an additional road tax levy in the district had not been properly advertised. The ten days between the call for the meetings and the date of the meetings had not elapsed, says the complaint. Mr. Hobart asks that the injunction be made perpetual. The additional tax levy of 10 mills for district 27 was voted in 36 to 24 by the taxpayers of the district.

Threatened Her Life

Mrs. Annie Bzozoski in a divorce complaint says that her husband, Simon, to whom she was married at Hoquiam, Wash., on June 15, 1914; threatened to kill her and forced her to spend the money she earned before her wedding by taking in washing. Cruelty, desertion and non-support are the grounds upon which the woman seeks separation. Judge Campbell Friday ordered Bzozoski to pay \$300 to his wife for attorneys' fees and for her living during the time the suit is pending. She asks for \$1000 permanent alimony, and wants to resume her maiden name, Annie Hudock. She is the mother of two children by another marriage.

Concord Dinner Parties

Mr. and Mrs. James Gill entertained Mr. and Mrs. Walter J. Gill and daughter, Mildred, of Portland; Mr. and Mrs. Ralph Gill and daughter, Isabel, of Newberg; Mr. and Mrs. Charles Landien and Allen and Paul Landien, of Concord, on Thanksgiving day.

T. R. Worthington entertained at his home on Thanksgiving day the following guests: Mrs. O'Brien and daughters, Maggie and Lizzie, of Oswego; Mr. and Mrs. John Wolf and daughter, Lorine, of Portland; Charles Worthington and wife, D. O. Worthington and family, of Oak Grove; Walter Holbrook, of Trimble, Wash.; and Theodore, Rachel, Ellen, Ruth, Harry and Everett Worthington, of Concord.

R. L. Holman, Leading Undertaker, Fifth and Main St.; Telephones: Pacific 415-J; Home B-18.

GROWTH OF THE BODY.

It Comes in Alternate Periods of Filling and Stretching.

That men and women grow in height and weight from birth until maturity, if they live the ordinary term of years, and that, as a rule, men are taller than women are facts of common knowledge. How this growth is accomplished is not so generally known, nor is it commonly understood that the difference in length of the male and female of the species is apparent even at birth. Carefully kept records show that the average boy baby is about two-fifths of an inch longer at birth than is the average baby girl.

Another curious feature of this growth discovered by patient research is the fact that it is not a gradual and regular increase. There are periods in which the youthful body expands rapidly in length, while it seems to become thin and lean.

Then comes a time where there is little increase in height, but the body becomes plump. While there is a slight difference of opinion as to the exact number of years and ages when these alternate growths are in evidence, the general proposition is conceded by the most thorough of the investigators.

Professor Stratiz tabulates this growth of the body as follows: Period of the first fullness of body, two to five years; period of first stretching, six to eight years; period of second fullness, nine to eleven years; period of second stretching, twelve to sixteen years; period of maturing, seventeen to twenty-five years.

Professor Weissenberg, however, divides the time of growth somewhat differently and makes allowance for a difference between the periods of change in girls and boys.

His tabulation is as follows: Period of first fullness, two to four years; period of first stretching, five to six years; period of retarded growth, boys eight to twelve years, girls eight to ten years; period of second stretching, boys thirteen to eighteen years, girls eleven to fifteen years; periods of retarded growth, boys sixteen to twenty-six years, girls sixteen to nineteen years; period of standing still and of the second fullness, twenty-six to twenty-nine to fifty-one years; period of decline, fifty-two to seventy-six years.

Among other interesting features of this growth, it is noted that the changes are not constant within the limits of a year, but appear to depend upon the season.

It has been found that increases in height and girth of chest are greater in summer than in winter. It would seem that the greatest gains in weight are made from August to January, the weight remaining almost constant from February to May.

Of course there are many special causes which in individual cases make exceptions to these rules, but under normal conditions this is the way our bodies grow from babyhood to maturity.—New York American.

A Lament From Japan.

The opening of Japan has brought many new trades, but it has driven others out of existence. One handicraft which is making a long but a losing fight is that of making rude or writing brushes. It might have been expected to increase, seeing that education is ten times as prevalent as in the old days, but the steel pen and the old pencil are formidable competitors and, with their vulgar efficiency, are gradually making the use of rude brushes obsolete. In the primary schools young Japan is taught to wield the brush, but in the middle schools they care but little for the elegance of the Chinese style of writing, and the modern steel pen is much in evidence.—Japan Society Bulletin.

Commodores in Our Navy.

Previous to 1802 the courtesy title of commodore was given to all captains in the United States navy who had commanded a squadron, but no actual rank higher than that of captain existed. In July, 1802, the first captain to hold a higher office were commissioned as commodores. In 1882 the number of commodores on the active list was reduced from twenty-five to ten, and in 1889 the grade was abolished, and the ten commodores on the list promoted to the rank of rear admiral, the members in that grade being increased from six to eighteen.

Something Wrong.

"There was a steep embankment on my right and a high wall on my left," explained the bandaged motorist. "Around a curve swept a big touring car full of intoxicated joy riders. I was between Scylla and Charybdis."

"Hold on," interrupted the interested listener. "You told me just now you were on the road between Perkinsville and Jackson's Gap when this accident happened."—Spokane Review.

Business.

Lawyer—If I bring a suit against your husband I'll be able to get about a third of his income as alimony for you. Prospective Divorcee—Umph! I can do better than that myself. For years I've been getting nearly all his salary out of him.—Lamb.

Religious.

"Is he a religious man?"
"I guess so."
"Does he go to church?"
"I don't think he ever goes himself, but he never kicks on his wife going when she wants to."—Detroit Free Press.

Advice is not disliked because it is advice, but because so few people know how to give it.—Leigh Hunt.

Keller Estate Petitions

Gottlieb Keller yesterday filed a petition in the county court asking that he be appointed administrator of the estate of George Keller, who died intestate in August. The estate consists of 70 acres of land near Scappoose, valued at \$4000.

J. E. Hedges, Oregon City attorney, has been appointed guardian ad litem for Frank W. Campbell, a patient at the State Insane asylum.

The Courier and the Daily Journal \$4.75.

NEW POLICY NEEDED IN GOVERNMENT RAILWAY CONTROL

Helpfulness and Encouragement Urged by Alfred P. Thom.

CREDIT MUST BE IMPROVED

Increase of Transportation Facilities Necessary to Secure Relief From High Cost of Living May Thus Be Provided For by the Railroads.

Washington, Nov. 28.—A new policy of government in railroad regulation, based on constructive principles of helpfulness and encouragement instead of upon principles of repression and punishment, was urged by Alfred P. Thom, counsel for the Railway Executive's Advisory Committee, the first witness on behalf of the railroads before the Newlands Joint Committee on Interstate Commerce, which has instituted a general inquiry into the problems of railroad regulation.

"It is proposed by the joint resolution of Congress," said Mr. Thom, "to go into a comprehensive study of the whole subject of transportation, to make a new assessment, after 20 years of experiment, of its history, its present conditions and its future value. The railroads accept the view that regulation is a permanent and enduring part of government in America and to the first duty of the carriers is to the public. That duty is to afford reasonable facilities on reasonable terms and at reasonable rates, and this must be done before any private interests can be considered."

Certainty, Safety and Sufficiency.

Mr. Thom contended that the real interest of the public is in being assured of certainty, safety and sufficiency of transportation facilities, rather than in rates. The first consideration of the public is to obtain transportation facilities. What the cost is, is in reality a second consideration, he said.

Mr. Thom proposed an increase of transportation facilities as a method of securing relief from the high cost of living. "There have been less than 1,000 miles of new railroad constructed in the United States during the past year," he said, "less than in any year since 1848, except the period of the Civil War, and yet the cost of living is still advancing owing to a shortage of supplies which might be remedied by securing access to new areas of production."

Credit Must Be Improved.

"This leads to the consideration as to whether railroad credit is as good as the public interest requires. It is impossible for railroads to earn enough to supply the necessary new facilities from current revenue. They must be provided from credit. Investors cannot be coerced, but must be attracted."

Among the conditions affecting railroad credit which Mr. Thom mentioned the following:

"First, Railroad revenues are not controlled by investors, but are fixed and limited by governmental authority and not by one but by several governmental authorities, which do not recognize responsibility for assured returns to investors and are uncoordinated.

"Second, Railroads cannot control and the government cannot and does not limit the expense account.

"Third, The present system of regulation is based on a policy of regulation and correction and not on a policy of helpfulness and encouragement.

"Fourth, The outstanding obligations of the railroads have already exceeded the financial ratio of safety and involve a disproportionate amount of obligations bearing fixed charges.

"Fifth, The investor must accept a subordinate obligation or security with no assurance of a surplus of earnings to support it.

"Sixth, Other competitive lines of investment present superior attractions.

"Seventh, The railroad business is largely controlled by political instead of business considerations.

Look Forward, Not Back.

"We may debate about what has caused the present conditions," said Mr. Thom, "but we cannot debate about what the people need. The President has taken the view that we must look forward in this matter and make a fresh assessment of circumstances in order to deal helpfully and intelligently with the problem. Alarms are no more prevalent in the railroad business today than in any other business humbly conducted. The great question now is whether the existing system of regulation gives the public reliable assurance of sufficient present and future railroad facilities."

"Those who oppose any change must make their appeal on the ground that the present systems assure the public of the continued adequacy of transportation facilities. If they do not, no argument based on the desirability of the present dual system of regulation will be accepted by public judgment. The question of states' rights is not involved. If the regulation of transportation facilities privately owned should fall government ownership must follow, and then all power of the state over the railroads would disappear.

"Let us debate this question, then not upon any mere theory or jealousy as to the distribution of governmental power, but upon the large issue of what the public interest requires in respect of the assurance of adequate transportation service."

Repair work has been completed

on Oregon City's pipe line from the south fork of the Clackamas, over a distance of 25 miles, and the line is in condition to stand any weather that the winter may bring. The pipe has been cleaned and the joints and valves inspected and repaired. The new Oregon City 5,000,000-gallon reservoir is full for the first time. Men have been working on the repairs for a month, and the entire job, including the reservoir, will be complete to the last detail as soon as the big water meter arrives.

SOME BASEBALL RECORDS.

Big Shutout Scores in the Modern History of the Game.

In the early days of baseball whitewashing a team was one of the most sensational episodes of the game. The ball was so lively, with plenty of rubber between the covers, the pitcher's delivery so restricted and the fielding, owing to the inevitable tremendous batting, so loose that to prevent a team from scoring was considered almost a miracle. Big scores were the rule, sometimes going into 100 runs. When the Mutuals in 1870 shut out the Chicago, the score being 9 to 0, it created an excitement all over the country, the memory of which lasted for more than a score of years. Occasionally even now we hear of a team being "choked."

Because of the radical changes in the rules of the game it would be rather misleading to measure present standards with the models set up in "ancient" days. "Modern" baseball history begins in 1890.

In the major leagues (National league and American association) big shutout scores had been registered in the ancient days—23-0 in 1883, 24-0 in 1885 and 1887 and 23-0 in 1883. But the record in modern history is 19-0 in the National league and 21-0 in the American.

Three times in the National league a score of 19-0 was turned in. The first was made on July 15, 1893, in a game in Pittsburgh, the Pirates shutting out the Washingtons by these figures.

Three years later, nearly to the day (July 8, 1896), the feat was repeated, the Pirates again shutting out the Washingtons, 19-0.

The third 19-0 game was played at New York on July 7, 1906, Chicago defeating the Giants.

CAPTURED THE AUDIENCE.

Ned Harrigan's Plea at the Critical Point in a Play.

Edward Harrigan once said that the most trying moment in his theatrical career occurred in New Orleans soon after the war between the states. He had gone south with his company and, yielding somewhat to popular request, put on "The Blue and the Gray."

The play had been a success up north, but down south, with the air still full of the bitterness of the war, it was a dangerous experiment. Tony Hart was to represent the Confederate gray, so he hunted up a uniform of the Louisiana Tigers, and when he came marching on, young, stalwart, handsome, the typical soldier boy in the beloved uniform, the house, men and women, cheered and shouted and cried for all their heroes embodied in this boy.

Harrigan, standing in the wings in his northern blue, waiting to go on, had just one thought—"They'll kill me!" Then he stepped out, the embodiment of the enemy, and a cold, dead silence fell upon the house. Not a hand moved for him. The audience was tense with emotion, and there was only an instant to act if the play was to be saved.

Harrigan, big, kindly, good looking, came swiftly down to the front and stepped over the footlight gutter, leaning down to them. "For the love of heaven, won't you give the Yankee a hand?" he exclaimed.

At once the house was caught and all the pent-up feeling turned the right way. There was a yell of applause and the audience was won.

Opening the Stubborn Knife.

Does your penknife blade refuse to open? Here is a certain and easy method of bringing it to terms.

Place one corner of your handkerchief over the back of the stubborn blade and wind the rest of it tightly around the knife. Hold the opposite corner between the first and second fingers of your right hand (if you are right handed) and throw the knife from you with some speed. Go over and pick it up and you will find the blade opened. I have yet to find a knife so rusty that it will not yield to this treatment, and—It does save the thumb nails.—Outing.

Chip of the Old Block.

"There goes a millionaire who brags about his son to everybody who will listen."

"Evidently the young fellow is not like the average heir to great wealth."
"No, indeed. The old gentleman was trimmed in the stock market last week, and when he discovered that his own son had turned the trick he was the proudest man in the United States."—Birmingham Age-Herald.

Think of This.

"Found an honest man yet?" we asked Diogenes.

"Ran across a phenomenon today that interested me almost as much. A lady giving up housekeeping was running around trying to find a situation for a good cook."—Louisville Courier-Journal.

How They Love Each Other.

Agnes (yawning)—Oh, dear, I feel today as if I were thirty years old! Marie—Why, what have you been doing to rejuvenate yourself?—Boston Transcript.

A Fine Distinction.

"Is her husband a medical man?"
"No, I think he's just a specialist, or something."—Cleveland Plain Dealer.

Be just and fear not. Let all the ends thou aimest at be thy country's, thy God's and truth's.—Shakespeare.

Marriage License

A marriage license was issued Monday by County Clerk Iva Harrington to Elma Cantrill of Mulino and Raymond E. Critser of Oregon City.

All Stars Lose Game

With nine men on a side the Oregon City Athletic association football team Sunday defeated a picked team by a score of 12 to 0. The game proved to be more of a practice than anything else.

Colds Coughs Catarrh

A trinity of evils, closely allied, that afflict most people, and which follow one on the other, in the order named, until the last one is spread through the system, leading to many evils. But their course can be checked.

PERUNA CONQUERS

It is of great value when used promptly for a cold, usually checking it and overcoming it in a few days. Ample evidence has proved that it is even of more value in overcoming chronic catarrh, dispelling the inflammatory conditions, enabling the diseased membranes to perform their natural functions, and toning up the entire system.

The experience of thousands is a safe guide to what it may be expected to do for you.

Liquid or tablets—both tested by the public and approved.

THE PERUNA COMPANY, COLUMBUS, OHIO

Tower of Hercules.

Travelers may still see on the coast of the English channel at Dover the ruins of a Roman lighthouse that was built at the time of the Roman conquest of Britain. Another ancient lighthouse, built less than a century after the tower at Dover, is still serving its original purpose. It was partly rebuilt, and some alterations were made in it, but in the main it is the same old structure that guided the Roman galleys as they skirted the coasts of the bay of Biscay, making their way to the Roman port of Brigantium. This is the modern harbor of La Coruna, and the lighthouse is the most ancient thing about it. The Romans called it the tower of Hercules, and the moderns have perpetuated the name. The exact date of its erection is not known, but inscriptions and other evidence show that it was built in the time of Trajan, between 98 and 117 A. D.

Got a Response.

In the second act of a certain play the curtain rises on an empty stage. Then presently a meek looking young man with a raincoat over his arm comes on and loudly calls: "Uncle! Uncle!"

According to the book of the play, he should receive no answer and, after a pause, should proceed with a monologue. One night, however, a voice was heard from the gallery. "All right; I'm coming in a moment. How much do you want on it?" amid shouts of laughter from the audience.

Carved by Giants of the Past.

The strange stone carvings on Easter Island are one of the mysteries of the world. They range in size from a colossal seventy feet in height to a pygmy standing three feet. There are 555 of them. The theory has been advanced that they were made by the race of wicked giants mentioned in Genesis, for whose punishment the flood was brought about.

"Mugwump" a Great Man.

The term "mugwump" is said to be derived from the Delaware Indians, and in its pure state meant "a great man," according to the San Francisco Argonaut.

It is to be found in Elliot's Bible, where it is given as "mugump."

Weighing a River.

A cubic mile of river water weighs approximately 4,205,000,000 tons and carries in solution on the average about 420,000 tons of foreign matter. In all about 2,735,000,000 tons of solid substances are thus carried annually to the ocean.—Exchange.

Old Legal Fees.

Records of a justice of the peace in Butler county, O., from more than a century ago show that the magistrate's fee was then 12½ cents in all cases and that civil actions often were brought for judgments of less than \$1.—Exchange.

By desiring what is perfectly good we are part of the divine power against evil.—George Eliot.

Saturday Shopping Hints for Home Shoppers

The greatest shopping season of the entire year—and one of the greatest years we have ever known—is upon us again. Christmas always brings with it the business of shopping, and the merchants of Oregon City are alive with the idea of keeping trade at home by stocking their stores with the best that American factories and mills can provide. Just visit a few of the stores in this city and see what little effort he has had upon the extent of the beauty of the displays, and, above all, while your purses bulge with prosperity money, buy early. You may as well buy Christmas wares today as on December 23.

Frank Busch has an attractive advertisement this week listing many special holiday offers and making practical gift suggestions that deserve attention from every reader of the Courier.

Huntley Drug Co. tells of the tungs-tone needle which is a feature of the Victor talking machine. Talking machines are a staple Christmas gift and Huntley's show a wide range in styles and prices.

Adams Department store is stocked heavily for the holiday buyers. Today Mr. Adams advertises "Make Your Glow" bath towels. Isn't that a sensible Christmas gift?

Miller & Obst, popular furnishers of gentlemen, tell a great deal in a little space. When buying Christmas goods for the men the ladies will do well to let Miller & Obst's stocks be their hunting ground.

One naturally turns to the leading jeweler for some of the many Christmas gifts one must buy each year. Surmister & Andersen have a list of suggestions for the entire family in their advertisement this week—and not all are high priced as jewelry usually is.

Bannon & Co. have received a shipment of Merite pearls, said to be the best artificial gem on the market. A neat string of pearls for the neck of mother, wife or best friend—enough said!

HIGH SCHOOL ENTERTAINS

Featured by a program of music and the readings which have made John Mason of the high school faculty a popular entertainer throughout the northwest, the Oregon City high school will entertain its friends tomorrow evening in the high school auditorium. The high school orchestra, led by Gustav Flechter, will entertain and Miss Marie Churchill will sing several numbers.

Kipling's "Gunga Din" and "Boots" are two of the popular numbers on Mr. Mason's part of the program. "I've Got a Pain in My Sawdust" is an odd offering that has elicited much praise for Mr. Mason in the past and which will be one of his numbers.
