STAFFORD

The rain of Sunday and Monday caught a few acres of potatoes here. They are still not dug but are of good quality and a fair yield. One man said he was afraid he would not have little ones enough for seed.

E. Milen, after having rented his part of the Hayes place, concluded to move onto it himself and with his wife and little daughter came last week from east Portland. He has made a nice little bungalow of the building already on the place, and moved other buildings.

Almost every family in Stafford owns a "buzz wagon" of some kind. In consequence we see more of the surrounding country than we ever saw before. We attend church in the forenoon and view the beauties of nature in the afternoon and get home by "cow-time."

A majority of the Staffordites owning cows have deserted the creamery and send their whole milk to the condenser at Newberg, thereby saving the work of the separator and leaving the housewife more time for Red Cross work, of which they have been more than willing to do their bit.

The members of the ladies' Circle, which will meet with Mrs. Francis Thursday the 15th, have nearly all paid in their dollar to the Red Cross, but have as yet work to finish and send into the headquarters at Oregon City. They now think of forming a society of their own.

for which he received \$1.50 per sack, and they return the sacks.

Mr. Cole preached Sunday to an attentive audience at the chapel.

One of those "around-the-world" chain cards came to Mrs. Gage recently, this time purporting to be for the Red Cross, asking, as usual, that the recipient send nine cards within nine days. It tried to quote scripture to prove that one who passed it by would wrestle with great misfortune, but those who passed the nine cards on would be free from calamity and at the end of nine days would hear of some great joy. What nonsense!

We have received many in the past and this one will share the fate of others. One cannot see what the object can be. One might better send the amount of postage direct to the Red Cross, but the promise of gain or loss will tempt many, no doubt, who otherwise are considered sane, reliable people.

We hope the trouble will be settled amicably for all concerned, and perhaps the people will know about it after it is over. Too much windy talk and exaggeration of the trouble is not lessening the strain under which all concerned lie.

CLIMBED STAIRS ON HER HANDS

Too Ill to Walk Upright. Operation Advised. Saved by Lydia E. Pinkham's Vegetable Compound.

This woman now raises chickens and does manual labor. Read her story: Richmond, Ind.—"For two years I was so sick and weak with troubles from my age that when going up stairs I had to go very slowly with my hands on the steps, then sit down at the top to rest. The doctor said I should have an operation, and my friends thought I would not live to move into our new house. My daughter asked me to try Lydia E. Pinkham's Vegetable Compound as she had taken it with good results. I did so, my weakness disappeared, I gained in strength, moved into our new home, did all kinds of garden work, shoveled dirt, did building and cement work, and raised hundreds of chickens and ducks. I cannot say enough in praise of Lydia E. Pinkham's Vegetable Compound and if these facts are useful you may publish them for the benefit of other women."—Mrs. M. O.
