We have some boys and a few girls who, on Hallowe'en, took pleasure in deprecations, such as tearing up people's side walks, cutting wire fences, and destroying the seats placed along sidewalks on Seventh street and Molalla avenue. Those seats were made and put into place by the city and belong to the city and should have been let alone.

As they are about all destroyed, there is nothing for next year's deprecations except city buildings, so let them begin on these if we can't have protection. Hallowe'en parties for a good time are all right; ghost parties and masquerade and guessing bees are just fine and ought to find a place in the young people's pastime instead of the means some use in celebrating.
