Middle Aged Lovemaking

By ETHEL HOLMES

Amos Chidleigh sat at his desk one hot July morning mopping his brow. Then he said to himself:

"Why should I stay in this hot town when I can just as well go where it's cool? Tomkins can run the business as well as I. I don't care whether there is any profit for a couple of months or not. Why should I? My securities pay me \$10,000 a year, and that's enough for a lone bachelor without any other income."

The only objection to Mr. Chidleigh's going to the country was that he was too old to join in with the young persons he would meet and he wouldn't know what to do with himself. He was forty-two years old. However, he made up his mind to get a sniff of sea air, and, leaving his business in the hands of his chief clerk, he got into his car and after a hundred miles' spin pulled up in front of a summer hotel overlooking the ocean.

As he went up the steps he noticed a lady sitting on the piazza whose face was familiar to him.

"I do believe," he said to himself, "that's Del Smith."

Del Smith had been a "flame" of Chidleigh's twenty years before. If indeed it were she he need not be lonely. He might get some amusement by remaining here, and making her acquaintance as a stranger. Going to the hotel office, a clerk placed the register before him, and he signed his name so that it looked like A. Chidleigh.

The next day he was sitting on the piazza near the lady he supposed to be his old flame, she being in company with an elderly woman who looked to Chidleigh very much as he remembered her mother twenty years before. They were regretting not being able to hire an auto for a ride.

"Ladies," said Chidleigh, "I have an auto which is at your service, and I will be happy to drive you wherever you wish to go."

After some parleying the offer was accepted, and the trio spent a pleasant afternoon visiting various points of interest in the vicinity. That was the beginning of an acquaintance or, if the lady was Chidleigh's old flame, the renewal of one. On the beach the next morning she sat alone—her mother preferred to remain in her room—and Chidleigh joined her. He did not ask her name, but he propounded some leading questions, the replies to which convinced him that he had been mistaken in the person.

He was disappointed in this, but the lady gave him every encouragement to be friendly, telling him that she and her mother knew no one at the hotel and would be very glad to see as much of him as he liked during their stay. To this Chidleigh declared that he was in the same lonely condition.

Notwithstanding the replies to his leading questions Chidleigh could not divest himself of the feeling that the lady was Adele Smith. Going to the hotel register, he hunted up the name, but not finding a recent arrival of Smiths he asked the clerk for information, and she showed him the name, "Mrs. Turnlee and daughter." This confounded the investigator, but he would not give it up that the daughter was Del Smith.

However, Chidleigh found association with Mrs. Turnlee more and more pleasant every day. He took her and her mother out in his car every day that the mother would go, and when she declined his invitation he took the daughter.

One day when they were driving alone together they left the car and sat on a dune overlooking the ocean. Chidleigh felt that they were drawn nearer together from the fact that they were far from any one else and the expanse of sky and water above and before them were so vast.

"You remind me," he said to her, "of a girl I knew when I was a youngster. I was twenty-two; she was eighteen. I was drawn to her, but at that age there are so many girls for the boys and so many boys for the girls that one is not inclined to choose and pick. I wish now I could be the age I was then. I would provide against my present solitary condition."

"I, too, have such a memory. I know a young man whom I considered the pink of perfection. I wished he would make love to me, but he didn't. You men have a great advantage over us women in that respect."

"Do you remember his name?" "Do you remember the girl's name?" "Yes."

"Let us make an exchange." "Very well; she was Adele Smith." "He was Amos Chidleigh."

Amos turned and looked at her fixedly.

"How is it that you are Miss Turnlee?"

"I'm not; I'm Miss Smith. My mother married a second time."

"Do you know that I am Amos Chidleigh?"

"Of course I do. I recognized you when I saw you come up the hotel steps the day of your arrival."

"Do you regret being a spinster?" "Of course I do. Every spinster does."

"Let's make up for lost time. Will you marry me?"

"I will."

Given a man of forty-two and a woman of thirty-eight sitting on a dune overlooking the ocean in the twilight, a crescent moon overhead, just betrothed, and despite their middle age we may conjecture the rest of the picture.

W. O. W. Attend Church

The annual memorial exercises of the Woodmen of the World lodge of Oregon City will be held at the local M. E. church on Sunday evening. The lodgemen will attend the services in a body and will pay tribute to the memories of departed neighbors.

The Rev. J. K. Hawkins will select a sermon subject fitting to the occasion. Three Woodmen have passed away during the past year and special honor will be paid to these members.

PULP FOR PAPER.

It is Now Mainly Obtained From Wood and Vegetable Fibers.

Paper derives its name from the fact that it was originally made by the Egyptians from papyrus, a rushlike plant formerly common in Egypt along the Nile. Today paper is largely made from vegetable fibers and cellulose.

When it was found that the fibers of the cotton and flax plants were best adapted for making paper and the uses of paper were few the ragman did a flourishing business in buying old rags to keep the paper manufacturers supplied with raw material. The rags were first allowed to rot to remove the substances increasing the cellulose and were then beaten into a pulp to which water was added. The pulp was then placed in a sieve and drained and subjected to heavy pressure which united the fibers and produced paper. By the modern method the rags are boiled with caustic soda, which separates the cellulose fibers, and placed in a machine in which rollers set with knives tear the rags to pieces and mix them with water to make a pulp. This pulp is bleached with chloride of lime and mixed with alum and a kind of soap to give a smooth surface.

The way man's discoveries operate to supply his needs in the progress of civilization is notably illustrated in the production of paper. Under the old method the big supply required today for newspapers and other uses could not have been produced.

The discovery that pulp could be made from the trunks and limbs of trees came to the rescue. It was found that by boiling wood shavings in strong solutions of caustic soda in receptacles that would withstand very high pressure the wood fibers were separated and a very good quality of cellulose for paper manufacture produced. As a result of this discovery paper today is mostly made of wood.—Boston Herald.

STORY OF A SEANCE.

In Which the Medium Predicted a Royal Assassination.

Eleanor Calhoun was an American actress who went to London when James Russell Lowell was United States minister. In 1903 she became by marriage the Balkan Princess Lazarovich Hrebellanovich. Recently she wrote a book which bears the title "Pleasures and Palaces."

The book contains the strange story of a spiritualistic seance held by an Englishwoman, which was attended by W. T. Stead, who afterward went down on the Titanic; the princess and her husband and some others. The princess handed to the medium some sealed envelopes. She selected one, sat for a moment pressing it in her hand, and said, "This is from a person of importance—a king."

Mr. Stead then asked her to describe him. She gave a very good description of King Alexander of Serbia, though she could not tell his name or his country. Suddenly she leaped up, her eyes tight shut, her face white, and, speaking as though she were in the midst of a real scene, she described the assassination of the king and queen. Mr. Stead asked what soldiers they were and of what race, and she answered: "I don't know, I never saw such people. Their uniforms resemble the Russians, but they are not Russians." Then she uttered exclamations of horror and said, "Oh, Mr. Stead, let me not go on!"

Mr. Stead, says the writer, urged the seer, and she proceeded to describe the tragedy. This seance was held in March, 1903, and the murders did not occur until the following June.

Rodin and His Models.

It is one of the peculiarities of M. Rodin, the famous sculptor, that he never poses a model. When a model enters his studio he engages her in conversation upon a subject foreign to art and thus encourages her to forget herself. Meanwhile his attention appears to be engrossed elsewhere, but he is watching her keenly. When the model unconsciously assumes a pose or an expression which he believes would be effective he bids her hold that position, while he sets to work. By this method he believes he avoids stilted and studied poses.

Doubly Criminal.

Mr. Grimes (with great indignation)—I've finished with that fellow Skinner. Absolutely finished with him. He's a bad one. He has a lying tongue in his head. Mrs. Grimes (sympathetically)—Dear me! And only yesterday his wife told me that he had false teeth.—New York Times.

Resemblance.

"I consider my own health and comfort," remarked the intensely self-concerned person. "Public opinion means nothing to me."

"Well," replied Uncle Eben pensively, "dar is sumpin' jes' about like dat de matter wif my mule."—Washington Star.

Innocence Abroad.

Young Actress—Will you tell me one thing about your lovely newspaper work? Interviewer—Certainly. What do you want to know? Young Actress—Is it the makeup man who writes all the fiction tales?—Baltimore American.

Exasperating.

"That man irritates me!" "Why?" "He knows so much that isn't so, and he can prove all his statements."—Judge.

All skill ought to be exerted for universal good.—Johnson.

HAVE YOU BEEN SICK?

Then you realize the utter weakness that robs ambition, destroys appetite, and makes work a burden.

To restore that strength and stamina that is so essential, nothing has ever equalled or compared with Scott's Emulsion, because its strength-sustaining nourishment invigorates the blood to distribute energy throughout the body while its tonic value sharpens the appetite and restores health in a natural, permanent way.

If you are run down, tired, nervous, overworked or lack strength, get Scott's Emulsion to-day. It is free from alcohol.

Scott & Borne, Bloomfield, N. J.

Saturday Shopping Hints for Home Shoppers

The pretty spring season brings renewed stocks to the shelves of nearly every store in the city. White goods season, school graduations, fishing time and summer outings seasons call for special efforts from merchants to please their customers and through The Courier today Oregon City merchants are presenting very attractive offerings to buyers in all parts of the county.

Wm. Schilling is moving his store this month and that is the occasion for special low-prices on optical goods. The coupon in Dr. Schilling's advertisement is a money saver. Clip it out and use it.

The Adams Department store heads the call of spring by placing on sale at reduced prices a great assortment of white goods, including fashionable wearables in shoes and clothing. A visit to the Adams Basement store should prove profitable.

Huntley Bros., through the purchase of the Charman & Co., stock, are able to offer savings of from 1 1/2 to 2-3 on drugs and notions. Their attractive advertisement will give you an idea of the bargains to be found at the Huntley store.

Mitchell, Lewis & Staver are the manufacturers and agents for the popular Mitchell automobile. A pertinent question is asked by that company today. Car-quality and price are among the many answers that could be found to that question.

Bannon & Co., have an appeal to fishermen and pleasure seekers, as well as others, who would properly equip themselves by dressing their feet against water with the popular line of boots that is on display at the Bannon store.

Burmeister & Andresen have supplied their store especially for the graduation season. The array of attractive and sensible gifts for boy or girl graduate at this popular store is practically unlimited and any taste can find satisfaction there.

The Courier and the Daily Journal \$4.75.

COUNTY BUYS PLANT.

Machinery and Equipment at Paying Plant is County Property

An appropriation of \$800 was authorized at its meeting on Wednesday by the county court for the purchase of the paving plant and equipment that the county at present operates under lease from the Columbia Digger company.

The purchase price includes the machinery of the plant in operation at Parkplace as well as five dump wagons and other equipment in use. The county has had the property under lease for some time with a contract option clause.

The purchase of the plant is significant. It means, according to members of the county court, that the county will go ahead with hard surface improvement on the roads of the county and as soon as the Parkplace project is completed another will be started. The operation of the plant by the county has been found successful and economical and for these reasons the purchase was authorized.

ORPHANS REMEMBERED

(Continued from Page 1)

who visited them and brought them play toys."

One of the sisters at the St. Agnes home praises little William with these words:

"This beautiful example of bringing up children with the noble idea of giving pleasure to less favored ones surely brings blessings on many families and is always appreciated by every institution, especially when the young are taken care of. Little William is certainly the friend of the orphans and when he becomes a man, no doubt, he will continue to have admirers among the younger generation."

New Store at Molalla

The Huntley brothers of Oregon City have added another to their chain of drug stores through this section of the state by the purchase of the business of J. H. Vernon and the Busy Corner store. Huntley Brothers will combine the two stocks at the present location of the Busy Corner store and when the new Odd Fellow's hall is erected will occupy the corner store room in that building. M. J. Cockrell, owner of the Busy Corner store, will retain an interest in the business and will be manager of the new store. This purchase makes the fifth store in the Huntley Brothers' chain, including stores at Oregon City, Portland, Canby, Hubbard and Molalla.

The Courier and the Daily Journal \$4.75.

New Pavement Approved

Automobile men and others who have been over and who have inspected the new stretch of paved road leading from Oregon City to the Southern Pacific tracks, are satisfied that the work is successful, and hope that the county will continue in the work of paving roadways in Clackamas county. The roadway is being paved to Parkplace, which is a little over a mile from Greenpoint, where the paving begins.

"We love him for the enemies he has made," was said of Grover Cleveland. It may be said of Woodrow Wilson, "We love him for what his enemies say about him."

The Courier and the Daily Journal \$4.75.

Forced to Vacate

After being in my present location only FIVE months, I have been forced by circumstances beyond my control to vacate the

First of June

My new location will be opposite my present one, at 612 Main St.

To more fully introduce my work and to convince the public that I can give better service at lower prices than can be had in Portland, I am making a remarkable offer.

In addition to first class service and workmanship at reasonable prices, I will allow to anyone (this includes OLD customers as well as NEW) bringing in the attached coupon, 20 per cent discount on each cash purchase, irrespective as to whether an entire new pair of glasses is wanted, or only one new lens.

This offer also includes frames, chains, mountings, etc., in fact anything which we have in stock, from the

5th of June to 30th

You will have your glasses fitted and made by us eventually; why not NOW?

CUT OUT THIS COUPON

This coupon is good for 20 per cent of purchase price on any cash sale of any article in our stock, including fitting of new glasses, any time between and including the FIFTH OF JUNE, 1916, to the THIRTIETH OF JUNE, 1916.

TWELVE GRADUATE

(Continued from Page 1)

tire class of twelve pupils passed the state examination and received diplomas. This class is the first which has held such graduating exercises for several years and a large audience turned out to greet and congratulate the members.

The church was beautifully decorated with tub palm trees, the national colors and roses, the class flower. The class owes its hearty thanks to Mr. Herbert, of the local green house for the fifteen beautiful palm trees which he sent for decorative purposes. The program was good and was received by the audience with much applause. Following is the program:

March—played by Miss Grace Herbert; class yell—Bernard Moore yell leader; invocation—Rev. Mr. Coleman; song, "Vacation"—class salutatory—Clara Johnston; class history—Roy Johnston; class poem—Vera Flanery; song, "Voices of the Woods"—by girls of the class; address—Rev. C. M. Smith; class yell; class prophecy—Mildred Dedman; valedictory—Harlie Brower; song, "America"; class yell.

The members of the class are: Harlie Brower, president; Clara Johnston vice-president; Vera Flanery, secretary and class poet; Burley Reynolds, treasurer; Mildred Dedman, class prophet; Ray Johnston, class historian; Georgia Potter, Margaret Robinson, Bernard Moore, James Umiker, Elmer Gray and Theodore Wold.

The class colors were purple and gold. The class motto, "Rowing, Not Drifting," upon which was based the class yell and class poem, written by Vera Flanery, a member of the class, follows:

Row, Don't Drift

If success in life you'd win,
Row, don't drift;
If a task you once begin,
Row, don't drift;
If there is a thing to do
That is clearly up to you,
Shed your coat and "buckle to,"
Row, don't drift.

If to you a task's assigned,
Row, don't drift;
Start at once or fall behind,
Row, don't drift;
Do not for some others wait,
Ore you'll surely be too late,
And disappointment be your fate,
Row, don't drift.

Though the task most tiresome seems
Row, don't drift;
Twill not be helped by idle dreams,
Row, don't drift.
Reach right out and grasp an oar,

And though your hands be chafed and sore,
Row, don't drift.

Your work will bring you safe to shore
Row, don't drift.
If you would keep in the lead,
Row, don't drift;
Other's help you will not need,
Row, don't drift;
The path to success is not a span,
Go to the task, then, like a man,
And show the others that you can.
Row, don't drift.

And if happiness you'd find,
Row, don't drift;
If regret you'd leave behind,
Row, don't drift;
Honor comes for work well done,
And for you at set of sun,
Peace will crown what effort won,
Row, don't drift.

Geneva Benson Dies

Geneva Benson, the 13-year old daughter of Mrs. James Linn, of Lind's Mill, died at the Oregon City hospital on Wednesday morning as a result of meningitis. The little lady was born at Canyon City, Grant county, August 3, 1903 and before her illness was a pupil at the Maple Lane school near the home where the family has lived for some time. She was in the hospital for nearly two weeks before her death. Funeral services were held this morning from the Myers and Brady parlors and interment was in Mountain View cemetery. The Rev. Mr. Ware officiated at the services.

C. E. Elects

The Christian Endeavor society of the M. E. church elected officers for the ensuing year at a meeting in the church on Tuesday evening. Stearns Cushing will act as president for the year and other officers are: Maude Kennedy, first vice-president; Edith Newton, second; Mrs. Stearns Cushing, third; Era Kennedy, fourth; Cecil Hooper, secretary; Harold Miller, treasurer; Elva Blanchard, chorister and Dorothy Stafford, organist. Reports of retiring officers showed the condition of the society to be excellent, financially and otherwise.

Best For Bilious Headaches

Indigestion quickly develops sick headaches, biliousness, bloating, sour stomach, gas on stomach, bad breath or some of the other conditions caused by clogged or irregular bowels. If you have any of these symptoms, take a Foley Cathartic Tablet this evening and you will feel better in the morning. W. B. Vandigrift, Smyrna, Ga., says: "We find Foley Cathartic Tablets the best we have ever used for bilious headaches and I am praising them up to all my friends."—Jones' Drug Co.

CENSUS IN OREGON

Summary of Report in State by Government for 1914

A preliminary statement of the general results of the census of manufactures for Oregon has been issued by Director Sam L. Rogers of the Bureau of the Census, Department of Commerce. It consists of a summary comparing the figures for 1909 and 1914, by totals, prepared under the direction of William M. Stewart, chief statistician for manufactures.

The figures are preliminary and subject to such change and correction as may be found necessary from a further examination of the original reports.

The census of 1914, like that of 1909, with reference to manufactures, excluded the hand trades, the building trades, and the neighborhood industries, and took account only of establishments conducted under the factory system. In the last census, also, as in that for 1909, statistics were not collected for establishments having products for the census year valued at less than \$500, except that reports were taken for establishments idle during a portion of the census year, or which began operation during that year, and whose products for such reason were valued at less than \$500.

The word "establishment" as used in the census reports may mean more than one mill or plant, provided they are owned or controlled and operated by a single individual, partnership, corporation, or other owner or operator, and are located in the same town or city.

The reports were taken for the calendar year ending December 31, 1914, wherever the system of book-keeping permitted figures for that period to be secured, but when the fiscal year of an establishment differed from the calendar year a report was obtained for the operations of that establishment for its fiscal year falling most largely within the calendar year 1914.

The population of Oregon at the census of 1910 was 672,765, and it is estimated that it was 783,000 on July 1, 1914.

The summary shows a consistent increase for the census of 1914, as compared with that for 1909. In the order of their importance, from a percentage standpoint, the several items rank as follows: Capital, 56.6 per cent; salaries, 40.4 per cent; salaried employees, 27.6 per cent; primary horsepower, 25.3 per cent; cost of materials, 25.1 per cent; value of products, 18 per cent; value added by

manufacture, 9.5 per cent; wages 5.2 per cent; number of establishments, 3.3 per cent; and wage earners, 0.3 per cent.

The capital invested, as reported in 1914, was \$139,500,000, a gain of \$50,418,000, or 56.6 per cent, over \$89,082,000 in 1909. The average capital per establishment was approximately \$60,000 in 1914 and \$40,000 in 1909. In this connection it should be stated that the inquiry contained in the census scheduled calls for the total amount of capital, both owned and borrowed, invested in the business, but excludes the value of rented property, plant, or equipment, which was employed in the conduct of manufacturing enterprises. In the final bulletins and reports the rental paid for such property will be shown separately.

Salaries and wages amounted to \$26,614,000 in 1914 and to \$23,949,000 in 1909, the increase being \$2,665,000, or 11.1 per cent.

The number of salaried employees was 4,431 in 1914, as compared with 3,473 in 1909, making an increase of 958 or 27.6 per cent.

The average number of wage earners was 28,829 in 1914, and 28,730 in 1909, the increase being 79, or 0.3 per cent.

The maximum number of wage earners (31,596), for 1914 were employed during May, while the maximum number (30,978), for 1909 were employed during September.

The minimum number of wage earners (24,815) reported for 1914 were employed during December, and the minimum number (23,354) for 1909 were employed during January.

How to Get Rid of a Cold

Summer colds are serious. Read how C. E. Summers, Holdrege, Neb., got rid of his: "I contracted a severe cough and cold and could hardly sleep. I got a bottle of Foley's Honey and Tar and the very first dose relieved me. I took a second dose before going to bed and can truthfully say I did not cough all night. By using as directed the next two days my cough was entirely cured and I give Foley's Honey and Tar full credit for my speedy recovery." Foley's always soothes and heals. Children love it.—Jones' Drug Co.
