

TEACHER'S EXAMINATION

Notice is hereby given that the County Superintendent of Clackamas County, Oregon, will hold the regular examination of applicants for State Certificates at Masonic Building, as follows:

Commencing Wednesday, June 27, 1917, at 9:00 o'clock a. m., and continuing until Saturday, June 30, 1917, at 4:00 o'clock p. m.

WEDNESDAY FORENOON

U. S. History, Writing (Penmanship), Music, Drawing.

WEDNESDAY AFTERNOON

Physiology, Reading, Manual Training, Composition, Domestic Science, Methods in Reading, Course of Study for Drawing, Methods in Arithmetic.

THURSDAY FORENOON

Arithmetic, History of Education, Psychology, Methods in Geography, Mechanical Drawing, Domestic Art, Course of Study for Domestic Art.

THURSDAY AFTERNOON

Grammar, Geography, Stenography, American Literature, Physics, Typewriting, Methods in Language, Thesis for Primary Certificate.

FRIDAY FORENOON

Theory and Practice, Orthography (Spelling), Physical Geography, English Literature, Chemistry, Physical Culture.

FRIDAY AFTERNOON

School Law, Geology, Algebra, Civil Government.

SATURDAY FORENOON

Geometry, Botany.

SATURDAY AFTERNOON

General History, Bookkeeping.

Very truly yours,
J. A. CHURCHILL,
Superintendent of Public Instruction.

GOVERNMENT CROP REPORT

Summary Covering State of Oregon and United States for June

A summary of the June crop report for the state of Oregon and for the United States, as compiled by the Bureau of Crop Estimates and transmitted through the Weather Bureau, U. S. Department of Agriculture, is as follows:

WINTER WHEAT

State: June 1 forecast, 9,100,000 bushels; production last year (final estimate), 13,340,000 bushels.
United States: June 1 forecast, 373,000,000 bushels; production last year (final estimate), 481,744,000 bushels.

SPRING WHEAT

State: June 1 forecast, 6,620,000 bushels; production last year (final estimate), 6,210,000 bushels.
United States: June 1 forecast, 283,000,000 bushels; production last year (final estimate), 158,142,000 bushels.

OATS

State: June 1 forecast, 15,500,000 bushels; production last year (final estimate), 1,251,992,000 bushels.
United States: June 1 forecast, 1,380,000,000 bushels; production last year (final estimate), 1,251,992,000 bushels.

BARLEY

State: June 1 forecast, 6,330,000 bushels; production last year (final estimate), 5,390,000 bushels.
United States: June 1 forecast, 214,000,000 bushels; production last year (final estimate), 180,927,000 bushels.

ALL HAY

State: June 1 forecast, 2,170,000 tons; production last year (final estimate), 2,175,000 tons.
United States: June 1 forecast, 102,000,000 tons; production last year (final estimate), 109,786,000 tons.

PASTURE

State: June 1 condition 95, compared with ten-year average of 95.
United States: June 1 condition 83, compared with the ten-year average of 85.
APLES—AGRICULTURAL CROP
State: June 1 forecast, 610,000 barrels of 3 bushels; production last year (final estimate), 1,285,000 barrels.
United States: June 1 forecast, 25,400,000 barrels of 3 bushels; production last year (final estimate), 67,415,000.

PRICES

The first price given below is the average on June 1 this year, and the second on June 1 last year.

State: Wheat, \$2.44 and 87 cents per bushel. Corn, \$1.33 and 80 cents. Oats, 75 and 45 cents. Potatoes, \$1.90 and 73 cents. Hay, \$18.50 and \$13.00 per ton. Eggs, 30 and 22 cents per dozen.
United States: Wheat, 248.5 and

CLIMBED STAIRS ON HER HANDS

Too ill to Walk Upright. Operation Advised. Saved by Lydia E. Pinkham's Vegetable Compound.

This woman now raises chickens and does manual labor. Read her story: Richmond, Ind.—"For two years I was so sick and weak with troubles from my age that when going up stairs I had to go very slowly with my hands on the steps, then sit down at the top to rest. The doctor said he thought I should have an operation, and my friends thought I would not live to move into our new house. My daughter asked me to try Lydia E. Pinkham's Vegetable Compound as she had taken it with good results. I did so, my weakness disappeared, I gained in strength, moved into our new home, did all kinds of garden work, shoveled dirt, did building and cement work, and raised hundreds of chickens and ducks. I can not say enough in praise of Lydia E. Pinkham's Vegetable Compound and if these facts are useful you may publish them for the benefit of other women."—Mrs. M. O. JOHNSTON, Route D, Box 190, Richmond, Ind.

to try Lydia E. Pinkham's Vegetable Compound as she had taken it with good results. I did so, my weakness disappeared, I gained in strength, moved into our new home, did all kinds of garden work, shoveled dirt, did building and cement work, and raised hundreds of chickens and ducks. I can not say enough in praise of Lydia E. Pinkham's Vegetable Compound and if these facts are useful you may publish them for the benefit of other women."—Mrs. M. O. JOHNSTON, Route D, Box 190, Richmond, Ind.

100.0 cents per bushel. Corn, 100.1 and 74.1 cents. Oats, 69.9 and 42.1 cents. Potatoes, 27.40 and 98.8 cents. Hay, \$15.25 and \$12.46 per ton. Cotton, 20.2 and 12.2 cents per pound. Eggs, 31.1 and 19.0 cents per dozen.

PHYSICAL EDUCATION

CAMP AT OAK RIDGE

The Eugene Branch National association of Physical Education has taken out a special use permit for a tract of land near Oak Ridge, Oregon, on the Cascade national forest, to be used as a summer camp for the boys and girls of Eugene and vicinity, according to the announcement of District Forester Geo. H. Cecil, Portland, Oregon.

The plans call for the erection of a log lodge and sleeping tents with permanent floors. An athletic field for various outdoor sports will be constructed. Timber for building purposes and for fuel will be granted free of charge by the Forest Service. Part of the summer camp will be occupied by groups of girls and at other times by groups of boys, under competent leaders who have had experience in social work.

Use of national forest land for municipal and organization camps is increasing, according to Mr. Cecil. The boys' department of the Portland Y. M. C. A. maintains a summer camp at Spirit Lake, on the Columbia national forest, where the boys enjoy wonderful outings in the mountains. The city of Los Angeles has spent \$8,000 developing a municipal campsite on the Angeles forest in California. A ten-day trip to this camp from Los Angeles can be made at a cost so small as to be within the reach of almost every one.

The Physical Education association summer camp at Oakridge will be the first camp of this sort in Oregon.

FOREST SERVICE BUYS

NEW LOOKOUT HOUSES

District Forester George H. Cecil, of Portland, Oregon, has just placed an order with the Mill Made Construction company, of Portland, for ready cut material for three standard lookout houses to be erected at the summits of Mount McLaughlin, Diamond Peak and Rustler Peak on the Crater National Forest, in July.

These houses are twelve feet square with a cupola six feet square. Both cupola and main part of the building have windows running all the way around. The lower part of the house is the lookout man's living quarters, while the cupola contains the Osborn fire finder, maps and other lookout equipment.

The success in quickly discovering forest fires from lookouts stationed in Mount Hood and other high peaks has turned the attention of foresters to this form of fire protection work. Besides the three houses to be erected on the Crater forest this season, lookout houses will also be placed on several other prominent peaks in Oregon and Washington. Material for a house on St. Helens on the Columbia National Forest was taken nearly to the summit last fall, and will be set up as soon as it is possible to use the Spirit Lake road.

Mount Adams, also on the Columbia forest, will have a lookout station on its summit this summer, as the material is already to be transported up the mountain. This station will be about one thousand feet higher than the one on Mount Hood and will give protection to a large area of valuable timber.

Different—But Satisfactory

Indigestion causes worry, nervousness, sick headaches, biliousness, coated tongue, bad breath, bloating, gas, constipation and constant distress. W. A. McRae, Raleigh, Ga., writes: "Foley Cathartic Tablets cleanse my system thoroughly and do not gripe or hurt at all. I recommend them to others and all find them entirely satisfactory and wonderfully different and more pleasant than anything ever seen." They cleanse the bowels, sweeten the stomach, invigorate the liver.—Jones Drug Co.

PIANO CLASS RECITAL

Miss Eva Benson's Class Will Appear at Congregational Church Monday

Miss Eva Benson and her piano class of Oregon City, assisted by the Ladies' Cardinal quartet, of Portland, will be heard in recital at the Congregational church in this city at eight o'clock Monday evening, June 18. The Ladies' Cardinal quartet is composed of the following named persons: Mrs. E. S. Miller, 1st soprano; Mrs. J. S. Hamilton, 2nd soprano; Mrs. Frank Fleming, 1st alto, and Mrs. W. H. Chatten, 2nd alto.

Gives Birthday Party

One of the most delightful social affairs of the season was given Bert Corless in honor of his birthday anniversary Friday evening, June 8, at the home of his sister, Mrs. Lucy Sherwood, at Logan.

Many useful gifts were received by Mr. Corless. Games and charades were played until a late hour.

Music was furnished by Mr. and Mrs. Frank Schwartz and was greatly appreciated by all present. Refreshments, consisting of ice cream and cake were served by Mrs. Sherwood and Mrs. Corless.

Those present were: Mr. and Mrs. Henry Kohl and son, Charles; Mr. and Mrs. W. L. Burt and son, Arthur; Mr. and Mrs. Henry Tschopp, Mr. and Mrs. Frank Schwartz, Mr. and Mrs. Lester Schwartz, Mr. and Mrs. Frank Hutchins and Miss Margaret Hutchins; Master Francis; Mr. and Mrs. Ned Hutchins and Miss Ethel Hutchins; Mrs. Fred Moser and Misses Gerude, Martha and Josephine Moser; Ben Swales, George Kohl, Mr. and Mrs. Carl Fallert, Mr. and Mrs. Bert Corless and Masters Raymond and Clifford Corless; Mrs. Lucy Sherwood and Miss Lucy Sherwood and Jesse Schwartz.

The Courier and the Daily Journal \$4.75.

LIVE STOCK NOTES.

Do not encourage visits to your barn from the neighbor whose stock is always ailing.
There is a theory that the way to keep a hog well is to keep him and his food and surroundings clean. Worth trying.
When the flock has been eating roots the change to the fresh grass is not so relaxing.
Some five dollar calves may grow into hundred dollar cows; don't send them to the butcher.
The pigs need shade in the pasture. There should be trees as well as shelter.
Do not let the little pigs hang over a high trough or they will grow crooked in the backs and be spoiled.

MONEY IN HOG RAISING.

Next to Poultry Swine Are Most Profitable of Farm Animals.

The meat supply of the country can be increased more quickly by the hog route than by any other. The country's need to augment its supply is great, but prevailing high prices alone should be sufficient inducement to farmers to raise more hogs. The prospect of success never was brighter. The high prices ruling in all markets show that the demand for pork is in excess of the supply.

Hogs fit into the modern scheme of farming on nearly every farm and are one of the most important animals to raise both for meat and for money. They require less labor, less equipment and less capital, make greater gains per hundred pounds of concentrates fed, reproduce themselves faster and in greater numbers and give a quicker "turn over" of money than any other animal, except poultry.

The hog has no rival as a consumer of byproducts, and but for him numerous unmarketable materials might be wasted. Kitchen refuse, not only from farms, but also from hotels and restaurants, when cooked before feeding makes an excellent diet.

The value of skimmilk as a hog feed is known on every farm, though not always fully appreciated. In the neighborhood of large dairies pork production is a very prominent and lucrative supplement to the dairy industry.

The hog is also a large factor in cheapening the production of beef. Hogs following steers have in many cases increased the profit per steer by from \$6 to \$8. But hogs should not be allowed to follow dairy cattle unless the cattle are known to be free of tuberculosis, owing to the disease danger.

KILLING CUTWORMS.

An Effective Remedy Is Poisoned and Sweetened Bait.

Few are the gardeners who are so fortunate as never to have seen their young plants destroyed by cutworms.

It is perfectly possible to destroy these pests, however. A common and effective remedy is the poisoned bait, which is mixed and applied as follows: Take a bushel of dry bran, add a pound of white arsenic or paris green

CUTWORM AT WORK.

and mix it thoroughly into mash with eight gallons of water, in which has been stirred a half gallon of sorghum or other cheap molasses. (Arsenic and paris green are deadly poisons, handle them with great care.) This amount will be sufficient for the treatment of about four or five acres of cultivated crops. After the mash has stood for several hours, scatter it in lumps about the size of a marble over the fields where the injury is beginning to appear and about the bases of the plants set out. Apply late in the day so as to place the poison about the plants before night, which is the time when the cutworms are active. Apply a second time if necessary. Keep children, live stock and chickens away from this bait.

Planting Small Potatoes.

Not many years ago I had seventy barrels of potatoes, all about the size of a small hen's egg, writes a New York farmer in American Agriculturist. The buyer did not want these, so I sorted out a load, and they were planted in the field with others. The small potatoes were bushied up at digging time and the best sorted out for big seed. These potatoes all were planted June 12. The field of two acres yielded 300 bushels to the acre. I prefer a potato of natural size. I cut the potatoes into four pieces. When whole potatoes are planted they start earlier than the cut ones.

Dairy Stable Floors.

Only concrete floors should be permitted in a dairy barn. They cost more, perhaps, originally, but they are the cheapest in the long run. For one thing, they make it possible to save some of the liquid manure, a very valuable item.

Just What She Needed

When women complain of weariness, loss of strength and vitality, backache, pains in sides and hips, dull headaches, dizziness, floating specks, and similar ailments, they too often accept these troubles as their lot because they are women, when the ailments may be the results of disordered kidneys. Mrs. Mary V. Banker, Milton-on-the-Hudson, N. Y., writes: "I am now on my second bottle of Foley Kidney Pills. They seem to be just what I needed." Try them.—Jones Drug Co.

BRIDGE PARTY RAISES \$17.25 FOR THE RED CROSS SOCIETY

A delightful bridge party, at which \$17.25 was raised for the benefit of the National Red Cross society, was given by Mrs. Theo. Osmund at her home here Saturday. Mrs. Frank Mase, of Portland, and Mrs. H. S. Mount, of this city, won the honors at cards. Those present were Mrs. Geo. Grombacher, Mrs. Frank Mase, Mrs. Jack Hickson, Mrs. Edward Schwab, Mrs. Minnie McCracken, Mrs. H. E. Hendry, Mrs. Raymond Caulfield, Mrs. Geo. Swafford, Mrs. Thos. Burke, Miss Fannie Porter, Miss Dolly Pratt, Miss Kate Porter, Miss Cora Osmund, Miss Mona Naucke, Miss Stella Osmund, of Portland, Mrs. E. C. Latourette, Mrs. Livy Stipp, Mrs. L. E. Jones, Mrs. H. E. Straight, Mrs. Clyde Mount, Mrs. J. N. Winer, Mrs. W. E. Pratt, Mrs. E. E. Brodie, Mrs. Nieta Lawrence, Mrs. Geo. Harding, Mrs. E. P. Rands, Mrs. L. L. Porter, Mrs. L. A. Morris, Mrs. W. R. Logus, Mrs. C. H. Meissner, Mrs. Orel Welsh, Mrs. J. Tobin and Mrs. C. D. Latourette, of this city.

About the State

Resume of the News of the Week from All Parts of Oregon

The 29th annual reunion of the Linn County Pioneers and Native Sons and Daughters is to be held at Brownsville on Wednesday, Thursday and Friday, June 20 to 22. Addresses, music, sports, street parades will be among the attractions of the reunion. Wednesday, the first day of the reunion, will be Agriculturists' day, and will be featured by an address by W. J. Kerr, president of the Oregon Agricultural college.

M. A. Miller, United States Collector of Internal Revenue, Portland, and P. H. D'Arcy, of Salem, will speak Thursday. Rev. W. B. Hinson, of Portland, will deliver the annual address on Friday.

Grain warehouse men of Jefferson county perfected organization at Madras Saturday, with Ira Van Tassel, president. On account of high cost of labor the present rate of 75 cents per ton handling charges on grain will be raised from 25 to 50 cents per ton. Warehouse men from Gateway, Metolius, Vanora and Culver were present.

Mrs. Susan Wasson, a Coos Indian, who lived her 72 years of life on Coos bay, died Saturday at the home of her daughter, Mrs. Daisy Coddling, in Marshfield. Mrs. Wasson was first married to James Hodgkiss, who died in 1862. Her second husband, George Wasson, was the pioneer logger of Coos bay, and died nine years ago.

Mrs. Wasson was the mother of nine children. There are eight grandchildren and 19 grandchildren. Mrs. Wasson was a highly esteemed woman, and most of her children were educated at Carlisle.

The second annual Dufur Colt show will be held Friday and Saturday, June 15 and 16. An elaborate program has been prepared and the premium list covers 64 classes, ranging from Percherons to Shetlands. First, second and third-prize ribbons are to be awarded in each class. Governor Withycombe will be present and deliver the opening address.

Sidney Starling, of North Tonawanda, N. Y., who has arrived in Salem, announces that he has taken over the plant of the Multnomah Mohair company with eight acres of ground near Portland and will use the plant in developing products from flax raised in the Willamette valley, especially that in the vicinity of Salem.

The wedding Sunday of Miss Elizabeth Briggs, of Dilley, and Paul Abraham, of Gaston, will be of much interest to the large circle of friends of the popular young couple at Dilley and at Forest Grove, where the romance began while they were students at Pacific University, the bride being a graduate of the 1916 class. The bride is a daughter of Mr. and Mrs. Abner Briggs, of Dilley.

The first slacker in Gilliam county was arrested Sunday by Marshal Sweetin, of Arlington, under order from Sheriff Lillie. He is Sherman Wherley, 23 years of age. He said he didn't know that he had to register, but the authorities say they have evidence to show that he made the statement before registration day that he would not register.

Two or three other suspects have been examined here but were released. One said he was not 21 years of age, but an affidavit on file in the clerk's office shows that he received ship-

Irvine P. Gardner, of Riddle, Ore., has a hen, R. 0744, that has just completed a record of 11 eggs in as many days. Her grandmother laid 670 in three years and she was sired by a grandson of Lady Corvallis and has in her blood of C. H. Latham's first hen, Boston, 1909, and the best of the Corvallis laying strain.

Mr. Gardner believes this hen has beaten the world's continuous laying record.

Because of the fact that the people of Oakland have made elaborate preparations for the Fourth of July celebration to be held there, it is probable that the patriotic celebration which it was planned to hold in Roseburg on July 4 will be abandoned. The Roseburg celebration was to have been held under the auspices of the Fourth company, Coast Artillery, and partial arrangements for the event already have been made. Governor James Withycombe, of Salem, will be the chief speaker at the Oakland celebration.

Kept up to the highest pitch and with a big gallery to edge them on, the members of the La Grande Gun club went out to the traps Sunday to make a name for themselves in the Columbia-Willamette Trappers' association. A total of 123 tarhawks were annexed out of 125 and every one was broken "clean as a whistle," says the referee, A. W. Nelson, who was appointed for the day by the trappshooting editor of the Oregonian. Lou Rayburn, Claud Mackey and Roy Forester each went straight, while Robert Smith and Bert Hughes each missed one out of his 25. Other scores were H. Becker, 23, C. Becker 22, Foley 19, Young 20, Daniels 22 and Curry 24. The team today ended its season shooting against the Capital City Gun club, of Salem, and the Woodburn Gun club, of Woodburn. The La Grande-Salem match was the result of a 123 to 123 tie last Sunday.

Controversy over the appointment of a water commissioner in Silverton has aroused some little contention in the city council. At the first council meeting under his administration Mayor Adams appointed George Custer to fill the vacancy in this office, but the council, contrary to custom, refused to confirm the appointment. At a special meeting he named W. Bowser and the council refused to confirm this appointment also. If the third candidate is rejected he proposes to call a special election.

By the sudden death Saturday of his uncle, Sir Alvon Paxton, in Iowa, Paxton Ridgeway, a young man of 23 years, inherits the income from a large English estate, estimated at from \$40,000 to \$50,000 a year.

Mr. Ridgeway left for Iowa today, but expects to return and reside here.

Father J. A. Vanneval, state chaplain of the Knights of Columbus, died Saturday in St. Mary's hospital in Albany at the age of 62 years. He was active in the formation of the Knights of Columbus in this state and because of this fact and his friendly disposition he was widely known among members of the order in Oregon.

Father Vanneval was born in West Flanders, Belgium, and in 1879 entered the priesthood of the Roman Catholic church. He went at once to the missions on Vancouver Island, B. C., and there spent most of his life. He taught for a number of years in St. Louis college, in Victoria, B. C.

Card of Thanks

We wish to thank our friends and neighbors for their many kind words of sympathy and beautiful flowers at the death and burial of our brother, Bert Hubbard. Also the choir, who sang so beautifully.

Hiersche Arrested Again
Herman Hiersche, who was arrest-

ed by soldiers here recently, and who is said to be suffering with religious hallucinations, was taken into custody again Sunday following the complaint of persons whom he was annoying. A brother came from St. Johns Monday and took the man to

Portland for treatment. When he was first arrested by National Guardsmen here he claimed to be God, but later changed his mind.
