100,000,000 DOLLARS—WHY?

Oregon, outside Portland, must subscribe \$400,000 of the \$100,000,000 emergency Red Cross war service fund during the week of June 18-25 in order to meet the expectations of President Wilson, who has appealed to the nation for this fund.

Prompting the President's appeal are the thousands of Red Cross ambulances on the firing line that must be maintained. Other thousands of ambulances must be built and sent to the front. Forty-five base hospitals already have been established and their work must be supplemented with that of many more hospitals in order to treat the wounds and save the lives of thousands of soldiers, including our own home boys.

The force of Red Cross physicians and nurses must be greatly increased and kept on duty.

British, French and Belgian soldiers can be sent home when, under hospital care, they have commenced to recover from wounds or sickness, but for Uncle Sam's soldier boys convalescent hospitals must be built by the Red Cross.

Mothers and wives who have given up sons and husbands and who have no other support must be cared for by the Red Cross organization.

Vocational schools for soldiers incapacitated by wounds for ordinary work must be organized and financed.

From the front line trenches to the mothers left at home the Universal Service of Mercy must maintain a vast organization and spend tremendous sums in order to meet an almost overwhelming emergency growing out of United States participation in the World War. Nor can the work be delayed one day. Bullets will not wait on tardy dollars. The man who offers his life on the battlefield for the defense of his country must not be left to bear the burden alone.

Why does the government not finance this relief work? The question is often asked. The American Red Cross is ranked as a neutral, as long as it is maintained by private subscriptions. The administration of the Red Cross cannot be carried on as are the national and naval military operations. Relief work, also, must cut red tape, must be promptly ready for every emergency, must be governed by humanitarian principles and quick decisions and must not be hampered by the restrictions of governmental machinery. At the same time the Red Cross is the only relief agency formally authorized by the government. Its head is the president of the United States. Its accounts are audited by the war department. It is chartered by congress. President Wilson declares:

"A large, well organized and efficient Red Cross is essential. It is both a patriotic and humane service that is rendered by every citizen who becomes a member of the American Red Cross."

Red Cross subscriptions need not be paid all at one time. One-fourth will be due July 1; one-fourth, August 1; one-fourth, September 1, and the balance, October 1.

A task as great as that of getting the subscriptions is to inform every man, woman and child of the purposes and emergency character of the campaign before Red Cross Week, as proclaimed by the president, which begins June 18. Community committees are urged to have a forceful speaker present at every gathering, whether small or large. Ministers are asked to present the subject to their congregations. Newspapers are called on for liberal space. Let every patriotic citizen speak of the campaign to every other person he or she meets.

In this world war some must give their lives, others their money. No patriot at home could bear to think that a patriot bled to death on the battlefield because he or she failed to contribute his dollar to the Red Cross. You have no right to say you are patriotic unless you give your utmost in service, no matter what it may involve in personal sacrifice.

BRITISH EXPERT

LAUDS RAILROADS OF UNITED STATES

Tells Congress Committee That They Lead World.

NO GOVERNMENT OWNERSHIP

It Would Mean Political Control and Loss of Efficiency—Declares That Crisis Confronts Country on Account of Transportation Situation—Lowest Freight Rates to Be Found in United States.

Washington, D. C.—That the United States is face to face with a serious crisis in its commercial affairs, due to the conditions by which its transportation system is confronted, was the opinion expressed by W. M. Acworth, England's leading authority on railways, before the Newlands joint committee on interstate commerce at a special session held here to enable the committee to hear his views before his departure for London. Two steps are necessary, according to Mr. Acworth, to avert this crisis and to solve the threatening railroad problem confronting the country.

The first is to allow the railroads to charge freight rates sufficient to meet the great advance in operating expenses which is taking place and to enable them to command the credit necessary to provide the extensions and improvements needed to meet the growing demands of business. The second is to do away with the multiple and conflicting systems of regulation that now hamper railway operation and to provide one centralized regulatory agency with such local subdivisions as may be necessary.

Higher Rates a Public Necessity.

Mr. Acworth's views on the transportation situation in the United States were expressed in answer to questions by members of the committee, who asked him to apply his knowledge of railway conditions throughout the world and of the experience of other countries with government ownership to the present problem before the United States.

"The fundamental factor in the situation is very simple," said Mr. Acworth. "It lies in the fact that you cannot get three-quarters of a cent's worth of work done for less than three-quarters of a cent, no matter whether the agency performing it is a government or private enterprise. Freight rates must advance when the cost of performing the service advances as it is doing at present, just as the price of bread or meat or any other commodity increases with increased cost of production."

In answer to a question Mr. Acworth said that he thought American freight rates had been at much too low a level for several years past, that they had reached this low point during the period of cutthroat competition among the roads and had since been held there by regulating bodies. Unless relief were afforded to the carriers very promptly, he said, the result would be a tremendous loss to the people of the whole country through insufficiency of transportation facilities.

Weakness of Government Ownership.

On the subject of government ownership of railways Mr. Acworth said: "It is impossible to obtain satisfactory results on government railways in a democratic state unless the management is cut loose from direct political control. Neither Australia nor any other country with a democratic constitution—perhaps an exception ought to be made of Switzerland—has succeeded in maintaining a permanent severance. In France, in Belgium, in Italy, parliamentary interference never has been abandoned for a moment. The facts show that government interference has meant running the railways not for the benefit of the people at large, but to satisfy local and sectional and even personal interests."

Prussia, Mr. Acworth said, was the best example of an efficient government railway system, and he pointed out that military considerations were treated as of paramount importance in the Prussian railway system. While American freight rates had been reduced nearly 40 per cent in thirty years, rates in Prussia were nearly as high as at the beginning of the period. While the charge for moving a ton of freight one mile in the United States was a trifle over three-quarters of a cent, the rate in Prussia was 1.41 cents.

As illustrating the difference in rates between government and private roads Mr. Acworth compared the railways of New South Wales, Australia, with those of Texas. While the amount of traffic to each mile of line was about the same in both cases, he pointed out, the Texas railways performed for the public four times as much service as the government owned roads of New South Wales. The charge in Texas for hauling a ton of freight one mile was less than 1 cent, while in the Australian state it was well over 2 cents. "American railways lead the world," said Mr. Acworth. "Nowadays when men in any other part of the world want to know how to run a railway they come to the United States and study our railways here. The American railways are entirely the result of private enterprise, and I think they go a long way toward proving the case against government ownership."

boiler of the engine on which he was working exploded.

He was the son of the late Charles and Ellen Hubbard, grandson of Charles and Margaret Hubbard (for whom the town of Hubbard was named), also grandson of John and Frances Killin, all old pioneers of the early '40's. Bert was a brother one could be proud of. He was of a happy disposition and his kind deeds will always be in our remembrance of him.

The funeral services were the most beautiful I ever heard. There were

many flowers and a large gathering of the neighborhood (where he spent his boyhood days) and the surrounding country.

He was laid to rest June 1st beside his father and mother in the Colton cemetery.

A deceased sister, Effie, died and was buried at Weston, Umatilla county, Oregon, in 1883. Those who survive are seven sisters and one brother: Mrs. Roy Eby and Mrs. Leo Herman, of Portland; Mrs. L. W. Durant and Mrs. Arista Nendel, of Woodburn; Mrs. J. W. Marrs, of Estacada; Mrs. Will James, of Seward, Alaska; Miss Bessie Hubbard, Forest Grove, and L. C. Hubbard, of Molalla.

A FRIEND.

DOLLARS THAT ARE SAVED

When Properly Invested They Help to Develop Our Country.

What work does the saved dollar do to help make this country a better place for the saver? At a meeting of the American Bankers' association an intelligent answer was made by a man who is well qualified to speak. He said:

"While a dollar saved by a workman helps to give to some workman a job, so does every other dollar of savings, whether it comes from wages, interest or profits.

"The economic effect of a dollar saved and invested is just the same, whether the owner is a wage earner, an employer or an heir of inherited wealth. Income, however it originates, that is saved and put to reproductive uses performs an inevitable service for society.

"Every form of savings finally seeks investment, and if you will follow the investment through its ultimate reaction you will see it putting men to work; you will see it enlarging the agricultural, the industrial or the transportation equipment of the community; you will see it creating new demands for labor, raising the rate of wages and increasing the production of things which men desire.

"If savings are devoted to reproductive purposes, it makes no difference whether they are the savings of the workman or of the millionaire, they ultimately accomplish the same result—they increase the supply of things that the whole community wants."

F. A. Vanderlip said that. It is true. Your \$50 in the savings bank works at the same jobs to which the \$50,000 of the rich man is sent.

If the men who manage the work are honest and capable they use our saved dollars to make this country worth living in, worth working in, worth being proud of, worth fighting to preserve.—John M. Oskison in New York Globe.

THE BURDEN OF WORRY.

Today's Is Enough; Never Mind Yesterday's or Tomorrow's.

A wayfarer carried a heavy sack, under which he toiled and complained unceasingly. From none could he get help or comfort.

And as he slowly journeyed, groaning under his burden, the Angel of Opportunity came to him and spoke kindly, saying:

"Brother, what earnest thou?"

The man answered surlily. "My worries."

The angel smiled pityingly upon him and said, "Let us look into thy burden and examine thy worries."

And so they looked in. But, lo, the sack was empty!

"Why, surely," cried the man, "there were two great worries, too heavy for man to bear! But—ah, yes, I had forgotten—one was a worry of yesterday, and so it is gone."

"And the other?"

"That—why, that was a worry of tomorrow, and it—it has not yet come."

Then the angel smiled with infinite pity, saying:

"Heaven. He who bows himself down under the worries of yesterday and tomorrow wears himself out for naught. But he who carries only the worries of today has no need of a sack for his sorrows. If then with cast thy strength and cheer and courage to the things of today real misfortune never can burden thee."

Wonderful, the man did as the angel commanded.

And as he took up his journey and went lightly, swift of foot, his heart and his hands were free to relieve many a brother wayfarer of his burdens and to pluck sweet fruits and flowers along the wayside.

And when he came at last to the setting of the sun it was with smiles and a song.—Christian Herald

IRRITABLE NERVOUS

Was Condition of Indiana Lady Before Beginning to Take Card-u-i, the Woman's Tonic.

Kokomo, Ind.—Mrs. H. Hankemeier, of this town, says: "I look so well, and am so well, that it does not seem as if I ever needed Cardui. But I was not always this way. I think I have taken a dozen bottles. . . before my little girl came.

I was feeling dreadfully bad, had headache, backache, sick at my stomach, no energy. . . I was very irritable, too, and nervous.

I began taking Cardui about 6 months before my baby came. As a result all those bad feelings left me, and I just felt grand, just as if nothing at all was the matter, and when the end came I was hardly sick at all.

Since that I have never taken Cardui at all. . . It has done me good, and I know it will help others, if they will only try it."

Many women have written grateful letters like the above, telling of the good that Cardui has done them. Why should it not help you, too? If you suffer from any of the ailments so common to women, and feel the need of a safe, reliable, strengthening tonic, we urge you to begin today and give Cardui a fair trial. Your dealer sells Card-u-i. EB-10

Champion

The Old Time Favorite
The Choice of the Modern Farm
MOWERS

Champion Mowers have features which you as a buyer cannot afford to overlook. They mean increased length of service and greater satisfaction to you.

Wide Substantial Yoke.
Extra large case hardened yoke pins.
Extra long case hardened wearing plates.
Extra wide and strong wrought knife head.
Extra light draft and easy of operation.
These are but a few of the reasons why a Champion is an extra good mower to buy.

RAKES

No change has been necessary in the Champion Rake for several years, which is proof that it has reached as near perfection as it is possible ever to obtain in machinery. Reversing axle stubs, when reversed is like new. Reversing wheel ratchets. Removable and renewable wheel boxes. Best quality spring steel teeth. Sure working self dump.

Come and study the sturdy construction of the Champion Rake.

TEDDERS

The Champion Tedder has often saved its cost in a single season. One has but to see the Champion work to learn of its excellent service. It is light draft and smooth operating. No matter what you need in cutting machinery, come in and look over what we offer in the Champion. You will find no better on the market and we can make you right prices.

MARIS PROMOTES FOOD CONSERVATION IN COUNTY

N. C. Maris, active leader in this county in the campaign for the conservation of food and who is working with the National council of defense, visited various groups this week in the interest of food conservation. He held meetings at the following places:

Wednesday—Molalla, 9 a. m., O. W. Robins, leader; Molino, 2 p. m., Albert Erickson, leader; Beaver Creek, 3 p. m., A. Thomas, leader.

Thursday—Boring, 9 a. m., O. W. Boring, leader; Estacada, 2 p. m., E. W. Bartlett, leader.

The program for the rest of the week follows:

Friday—Wichita, 9 a. m., T. Stratton, leader; Milwaukie, 2 p. m., Philip Streib, leader; Clackamas, 8 p. m., H. Deamue, leader.

Saturday—Concord, 9 a. m., H. G. Starkweather, leader; Gladstone, 2 p. m., O. E. Freytag, leader; Parkplace, 8 p. m., E. L. Pope, leader.

CONCRETE FOR SILOS

June, July and August Best Time to Build

In the June Farm and Fireside a writer says:

"Regardless of the material of which a silo is constructed, concrete has been accepted as best for foundation and floor at the bottom. The customary excavation is four feet to get the foundation well below the frost line. For the construction of the silo itself, here are the principal materials that have stood the test of usage: Wood staves of cypress, redwood, Oregon fir, and yellow pine, reinforced concrete blocks, reinforced solid concrete, glazed hollow tile, non-porous brick, pure iron, alloyed metal and stone. There are various modifications and combinations of materials, such as cement stave silos, wood silos plastered inside with cement and various paneled and patent silos of special construction. But if the inside wall is smooth, vertical and airtight, any silo will keep its contents in satisfactory condition.

"June and July and the first part of August are the best months for making the foundation, because the ground is dry and easily excavated. And by the time the foundation has hardened it is well to have the rest of the material already on hand so it will be ready when needed."

300 GALLONS WATER USED

Daily Average Here is Above Other Cities, Says Oreg.

The people of Oregon City are using three times as much water as the average for other cities, or the city's plumbing is faulty and causes considerable waste, according to the report of the water commissioners, who have sent out notices to consumers calling attention to the need for conserving the water owing to the near approach of the dry season. The report says the average consumption for other cities is about 100 gallons daily for each inhabitant but that there are about 300 gallons used per capita in Oregon City.

Optometry means eye service.

PAINTERS WILL DEMAND \$4 PER DAY STARTING JULY 1

It was announced by the newly formed Painters' and Paperhangers' union, local No. 220, A. F. L., effective July 1 that the scale of wages outside the mills would be \$4.00 a day instead of \$3.50, the present scale. Officers of the union were installed Thursday night. They are: C. Osborne, president; A. J. Bell, vice-president; C. G. Green, secretary; R. S. Brumley, recording secretary; R. S. Colebank, treasurer; E. W. French, W. G. Campbell, W. W. Campbell, W. W. Hamilton, trustees; Clarence M. Fairbrother, warden.

\$40 FOR RED CROSS

Entertainment Given by Gladstone Branch Nets Tidy Sum

The entertainment given by the Gladstone branch of the Red Cross society, Wednesday night, was an entire success. More than \$40 was raised for the benefit of the society. A musical selection entitled "Knitting Song," in which a chorus of elderly ladies were led by Miss Georgia Cross, soloist, was a pleasing feature.

Mulino School Graduates

Graduation exercises were held at the Mulino school last week. The program included the following numbers: Class march, Mrs. Atmine;

recitation, "Aunt Doleful's Visit," Stella M. Vicker; piano solo, "Il Trovatore," Shirley Park; recitation, "Kentucky Belle," Ruth Truscott; "Class of 1917," Minnie Roethe; presentation of diplomas, Mr. Gill; class address, F. J. Toozie; cantata, "The National Flower."

Organize Red Cross Branch

A number of Mulino women met at the homes of Mrs. Leslie Holiday and Mrs. Joe Daniels in that town this week and organized a Red Cross society branch. There will be a speaker from Portland go to Mulino to acquaint the ladies with their duties in the new organization.

Mase Hutchinson Released

Mase Hutchinson, who was fined \$25 for drunkenness Monday, was released Tuesday when his fine was reduced to \$10, which he paid.

State of Ohio, City of Toledo, Lucas County, ss.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of HALL'S CATARRH MEDICINE. FRANK J. CHENEY

Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1916. A. W. GLEASON, Notary Public.

Hall's Catarrh Medicine is taken internally and acts through the Blood on the Mucous Surfaces of the System. Send for testimonials, free.

F. J. CHENEY & CO., Toledo, O. Sold by all druggists, 75c.

Hall's Family Pills for constipation.
