MANY FROGS KILLED BY SPEEDING AUTOS

THOUSANDS ON NEW HARD SURFACE NEAR PARKPLACE ARE CRUSHED.

Thousands of frogs, the size of a thumb nail, have been killed by automobiles on the Oregon City-Parkplace hard surface road near the Clackamas bridge during the last few days.

The frogs, according to the theory advanced by those living in that district, were recently hatched out in nearby pools and in the Clackamas and found their way to the pavement where speeding automobiles crushed them.

The small frogs were so thick on the pavement near the Clackamas bridge that it was almost impossible yesterday to walk across the road without stepping on them. All the frogs were about the same size and evidently were hatched out at the same time. The pavement for some unknown reason, seems to hold an attraction for them, for there are few frogs on the grass at the edge of the road or in nearby fields.

Small frogs have appeared in great numbers before on the county road near the Clackamas bridge.

WHY WOMEN WRITE LETTERS

To Lydia E. Pinkham Medicine Co.

Women who are well often ask "Are the letters which the Lydia E. Pinkham Medicine Co. are continually publishing, genuine?" "Are they truthful?" "Why do women write such letters?"

In answer we say that never have we published a fictitious letter or name. Never, knowingly, have we published an untruthful letter, or one without the full and written consent of the woman who wrote it.

The reason that thousands of women from all parts of the country write such grateful letters to the Lydia E. Pinkham Medicine Co. is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives, once burdened with pain and suffering. It has relieved women from some of the worst forms of female ills, from displacements, inflammation, ulceration, irregularities, nervousness, weakness, stomach troubles and from the blues.

It is impossible for any woman who has never suffered to realize how these poor, suffering women feel when restored to health; their keen desire to help other women who are suffering as they did.

Mrs. Mary C. Wells Sues For Insurance

Mrs. Mary C. Wells, aged 76 years, who was recently acquitted in the circuit court on a charge of attempting to defraud an insurance company, Thursday filed a suit for \$1400, the amount of a policy carried on her three Oswego houses which burned August 18, 1915, against the Firemen's Insurance company, of Newark, N. J. George C. Brownell and Charles T. Sievers appear as Mrs. Wells' attorney in this action.

Three houses in Oswego burst into flame early on the morning of August 18, 1915, in such a manner as to arouse suspicion as to the origin of the fire. Several months later William H. Newman was arrested on a charge of firing the houses. He confessed and was sentenced to serve seven years in the state penitentiary.

Two weeks ago Mrs. Wells filed a suit against the Firemen's insurance company, Mrs. Carrie Pickner, C. H. Lloyd and J. W. Greenman for \$30,000, alleging slander.

In the suit filed yesterday, Mrs. Wells declares that the value of the property destroyed far exceeded \$1400, the face of the policy. This suit may bring into the courts again some of the evidence which was introduced at the time Mrs. Wells faced a criminal charge.

However, a close examination of newspaper files and of official records failed to reveal a trace of the death.

John Dickens, proprietor of a lodging house on Fourth and Main streets, read of the case in The Enterprise and told Chief Burk where he could find friends of Voeth. From them Chief Burk learned that Voeth went to North Yakima over a year ago and, as far as they know, is still in the Washington city.
