A short time ago I would have laughed at such a thought. What? Exchange the Talking Machine that we had taken such pains and care to select and which we thought was the best of all the different makes.

But now we have found something more than a talking machine—a wonderful new instrument, that is something greater, far greater. An instrument produced by one whom we would expect great things of—Mr. Edison.

This is how I became convinced. I went to see the New Edison the other day and had them play a familiar record for me. When I heard that record I awoke to the shortcomings of my talking machine. Here was a genuinely better tone.

It was deep and rich—very musical and very natural. It re-created music life-like, not mechanically. I realized then what a wonderful instrument the New Edison was and what an improvement it was over my talking machine.

Can you wonder, then that I wanted the wonderful New Edison? We rarely realize the inadequacy of anything we are accustomed to until we meet something better.

Won't you then permit us to show you the wonderful superiority of the Edison? We are sure your verdict will be the same. Visit our large and spacious music rooms and let us play the Edison for you. We will gladly abide by your decision.

Saves Eggs

Royal Baking Powder makes it possible to produce appetizing and wholesome cakes, muffins, cornbread, etc., with fewer eggs than are usually required.

In many recipes the number of eggs may be reduced and excellent results obtained by adding an additional quantity of Royal Baking Powder, about a teaspoon, for each egg omitted. The following tested recipe is a practical illustration:

SPONGE CAKE

1 cup sugar
1/2 cup water
2 eggs
2 teaspoons Royal Baking Powder
1/4 cup flour
1 teaspoon salt
1/2 cup cold water
1 teaspoon flavoring

The old method called for 6 eggs and no baking powder

Made from Cream of Tartar, derived from grapes, adds none but healthful qualities to the food.

COURT SIGNS CONTRACT

Terrill Silica Mines Will Supply County Roads This Year

Clackamas county's new pavements in the north end of the county during the coming summer will be supplied with sand, crushed rock and gravel by A. N. Willis, as a result of the contract entered into on Saturday by the county court. The county gets this material from Mr. Willis at 37 1/2 cents a cubic yard, and is also granted permission to use a spur track for unloading supplies and equipment.

The court on Saturday signed a contract with C. F. Terrill to furnish silica for the hard surfaced roads this summer. The figure involved is about the same as that charged by Mr. Terrill last year. Mr. Terrill is the man who, while digging a basement under his house more than a year ago, struck a rich deposit of silica. The Silica Kings Mining company has been organized to handle the product.

APPROVED SCHOOL BONDS

West Linn Voters Authorize Board to Proceed With Plans

At the special school election held at West Linn on Saturday, 94 voters turned out to decide the question of issuing bonds for the construction of a new and modern grammar school building. The vote was 68 for and 26 against the measure. The board of school directors, under the authority granted them at this election, plan immediate work on the proposed building to insure its readiness when school opens again next fall. The bonds will be issued as soon as the details can be arranged.

The bonds authorized Saturday will total \$14,000, all of which will be used in building the one-story, four-room school house. The structure is to be of brick and tile and will have a full basement, with shops and storerooms, four class rooms on the first floor and a spacious auditorium. The bonds are to be fully paid off in 15 years.

Fruit Growers Organize

The Willamette Valley Fruit exchange, representing 12,500 acres of apple and pear orchards, and designed to promote the most modern methods of growing, spraying, packing, grading, inspecting and marketing apples and pears in the Willamette valley, was organized at Corvallis on March 6, with E. L. Kiemer, Alvadore, president; R. W. Ewing, Dallas, vice-president; and W. B. Johnson, Corvallis, secretary-treasurer. The organization was the result of a meeting called by Prof. C. I. Lewis, of the Oregon Agricultural college, who invited a number of growers from various parts of the valley to come together to discuss the advisability of organizing a company whose object should be to unify the apple and pear industry of the Willamette valley. The organization, which has a capital stock of \$2,000, aims to affiliate all progressive growers of the valley.

In the Divorce Court

A divorce decree separating Adeline B. and Guy G. Willis was signed by Judge Campbell on Saturday. The order restores to Mrs. Willis her former name, Elizabeth Bryan. Tyler was dismissed in view of the fact that Mrs. Tyler has a divorce suit pending in the Multnomah county courts. Fred Seely, divorced from Maggie Seely on September 15, 1916, was cited to appear before Judge Campbell and show cause why he should not obey a court order and pay to his former wife \$12.50 a month.
