LOGAN

The recent Live Wire meeting at the grange hall has already received notice in the Courier so we will only say from our end of the line that the visit was very interesting and highly appreciated. It was to be a get-together meeting to promote good will, but we must not expect entire success in our undertakings. We notice by the vote on the bonding question that the Live Wires want to get together by having the farmers come over and stand with them. Maybe they will, but the surer way would be to meet on common intermediate ground.
