About the State

Resume of the News of the Week from All Parts of Oregon

C. J. Hurd, state grange deputy and market master at the Eugene public market, was nominated by the progressives as representative in the state legislature from Lane county, but he declines to accept.

W. F. Cary of Portland, who for years was in business with his brother Roger in Estacada, last week consummated a deal with Harry Snyder of Cananda, whereby he takes over the Casadero Mercantile Co.

A swat-the-fly campaign has been organized in Monmouth by E. M. Ebert, a local barber. He offers a free hair cut to any boy under 10 years of age who during July brings a pint of flies to his barber shop.

W. L. Soehren and N. L. Guy, of Dallas, are selling loganberries from their patch to Pugh's factory at Falls City. On Saturday a half ton of berries was taken from the Soehren place and on Tuesday about a ton.

According to the official postoffice statement for the quarter ending June 30, business is on the up-grade at Albany. The total receipts for that period were \$5,456.67, as against \$4,813 for the same period in 1915. This is a gain of \$643.67, better than 13 per cent.

Indications are now for a good to excellent wheat crop in Wallawa county, with conditions varying considerably sections. The outlook is far brighter than a month ago. Continued good weather is the most necessary element to bring out a satisfactory yield.

The Gresham Fruit Growers' canneries is busy canning red raspberries, many of which come from W. C. Cotton's farm. About 30 men and women are employed in the canning operations. The output runs between 100 and 150 cases of berries per day. Some Royal Ann cherries have also been canned this year.

J. S. Tice was in Molalla for several days this week and accompanied by members of the committee which has charge of boosting the sugar factory were examining the sugar beets being grown for a test and found them doing well. A few neglected to keep the beets as clean as they should be but the majority are giving them a fair show.

Court Reporter Charles E. Runyan is of the opinion that Washington county can learn something of Tillamook in the way of road building. Mr. Runyan visits the coast county often on court business and he says a fine system of concrete highway is being constructed, macadam having been abandoned after it was found

much suffering, and expels the accumulated waste to the great relief of the patient. Following a dose of Fruitola, Traxo should be taken three or four times a day in order to rebuild and restore the system that has been weakened and run down by constant suffering. It is a splendid tonic, acting on the liver and stomach most beneficially.

that it would not stand heavy travel.

The people of the Washington county seat are a little puffed up these fine summer days over the fact that their Uncle Samuel will very soon, about October 1st, install a free delivery system in Hillsboro, the receipts of the postoffice having attained such proportions that the department is justified in making free delivery. It is said that there will be two deliveries daily.

The work of planning for the Washington County fair, which will be held on Pacific University campus Forest Grove, for four days, beginning Wednesday, September 20, is well under way. The premium list is nearly completed and will be issued the last of this month. The officers and committees are busy with the various departments and a lively interest is being taken by the people of the county.

A meeting of the stockholders of the Coquille Valley Creamery company was held in the city hall at Coquille Tuesday morning. The discussion of the company's affairs was earnest and protracted, but the result was a decision to proceed with the work of rebuilding without delay. A one-story building, 40x80, the same size as the one that was destroyed, will be erected on the old site. It's cost is estimated to be about \$3,000. Work will begin the first of next week.

George M. Newman and C. M. Flickinger, two Linn county citizens, have established a skunk farm six miles north of the city of Albany, and will make a business of raising these highly perfumed descendants of the cat family for commercial purposes. Their farm is now stocked with 74 of the most beautiful and strongest smelling skunks that you ever looked at or smelled of, 68 of which were captured near Albany, the balance having been born on the farm. The farm has been established about six weeks.

Here's an Oregon City fact.
You can test it.

Lawrence Nathe, 903 Madison St., Oregon City, says: "Eight years ago I was laid up for several months with inflammatory rheumatism. Most of the time I was perfectly helpless and my whole body was sore. I could hardly bear to have anyone come near my bed as I was so sensitive to the least noise. My kidneys were in a pretty bad way and they were very congested. I took about six boxes of Doan's Kidney Pills altogether and since then I have had but very little trouble from my kidneys and have been feeling good in every way."

RURAL HEALTH

America's First Duty Said to be Health Protection

"The estimated economic loss which our nation suffers each year from typhoid fever and malaria alone aggregates \$928,234,880, leaving out of entire account the sorrow, unhappiness, the misery and the inefficiency which follow in their train," said Senator Joseph E. Ransdell of Louisiana in addressing the senate on the subject of "Rural Health—America's First Duty." "The greatest asset which our country can have," said Senator Ransdell, "is the healthy American citizen, and valuable as it may be to increase the health of livestock and vegetation, it is of far greater importance that we throw every possible safeguard about the health of the man who is responsible for that live-

A WORD FOR MOTHERS

It is a grave mistake for mothers to neglect their aches and pains and suffer in silence—this only leads to chronic sickness and often shortens life.

If your work is tiring, if your nerves are exalted, if you feel languid, weary or depressed, you should know that Scott's Emulsion overcomes such conditions. It possesses in concentrated form the very elements to invigorate the blood, strengthen the tissues, nourish the nerves and build strength.

Scott's is strengthening thousands of mothers—and will help you. No nicotol. Scott & Borne, Bloomfield, N. J.

TRIED FRUITOLA AND TRAXO AND HAS NEVER BEEN TROUBLED WITH GALL-STONES

Mrs. Mary E. Franson, whose address is West Point, Nebr., Box 411, has written to the Pinus laboratories a very strong endorsement of Fruitola and Traxo. In her letter, Mrs. Franson says: "About ten years ago I was about to undergo an operation for gall-stones when I heard of your medicine. Dreading an operation above everything I determined to try Fruitola and Traxo and have never been sorry I did so, as I have never been troubled with gall-stones since."

Fruitola is a powerful lubricant for the intestinal organs, and one dose is usually sufficient to give ample evidence of its efficacy. It softens the congested masses, disintegrates the hardened particles that occasion so much suffering, and expels the accumulated waste to the great relief of the patient. Following a dose of Fruitola, Traxo should be taken three or four times a day in order to rebuild and restore the system that has been weakened and run down by constant suffering. It is a splendid tonic, acting on the liver and stomach most beneficially.

stock and vegetation. Over 900 million dollars lost every year! A sum which is sufficient to put our country into a state of preparedness equal to that of any nation in the world, enough money to give us the largest navy afloat and the most efficient army which the world has ever seen, is annually offered up as a sacrifice to two diseases which are entirely preventable. Enough money to pay the annual expenses of every college student in the United States is absolutely thrown away every year."

Senator Ransdell estimates the grand total loss from typhoid fever at \$271,332,880 per annum, and the loss from malaria at \$694,904,750 per year; the total per capita loss from these two diseases being \$9.46. By comparative estimates it was shown that the United States government appropriated \$5,016,175 for the investigation and prevention of the diseases of animal and plant life and only 1,917,566 for the investigation and prevention of the diseases of man.
