### MRS. WRIGHT TRAVELS

Estacada Woman Covers 3000 Miles on Auto Trip

A plucky Oregon woman has just completed a 3000-mile automobile trip through the wildest kind of western scenery, and for the greater part of the distance alone, save for her trusty watchdog. The recital of her story of the trip is like a chapter from one of Jules Verne's novels, filled as it is with stories of rattlesnakes, fugitives, digging for opals, alkali deserts and towering mountains.

The woman in question is Mrs. Irwin D. Wright of Estacada, who left home in her new automobile May 5, reaching home again July 9, after having made a 3000-mile circuit which covered part of three states. Mrs. Wright's objective was Winnemucca, Nev. Leaving Estacada she followed the Columbia to The Dalles, thence motored south over the highway that cuts through the great Eastern Oregon empire, passing through Wasco and Prineville and on to Bend. From Bend to Burns, a distance of 150 miles, Mrs. Wright gave her machine a free rein, letting it speed from 25 to 30 miles per hour, and she reached Burns two hours in advance of the auto stage, whereupon the worthy disciple of the famous Hank Monk expressed both his appreciation and astonishment.

The most thrilling adventure, however, on the entire trip was the day on which she overtook two men who had been riding in a car which had broken down. There was no place within a day's travel where repairs could be made, so, at their courteous request for assistance, she gave them a ride to the state line. Some time after reaching Denio she learned that they were operating a traveling "blind pig" and that they were then being sought for by Harney County officers who afterwards apprehended them and took them back to Burns.

Mrs. Wright's father, E. R. Hill, lives near Denio, where he owns an irrigation project. Mrs. Wright did not apprise her father and mother of her intended visit, so when her automobile drew up in front of the ranch house one sunny afternoon a heart-felt greeting took place, as it was the first time Mrs. Wright had seen her father and mother since her marriage. In round numbers the trip covered 3000 miles, most of which were driven by Mrs. Wright alone, save for the company of the trusty and trustful "Hiram." She had been accompanied by Mr. Wright a part of the distance both going and coming. Next year Mr. and Mrs. Wright expect to go on a long motoring trip to British Columbia. For the remainder of this season they will be content with an occasional trip to the coast.

### MARKET REPORTS

Heaviest Cattle Offering Received at North Portland Came Monday

Monday's market opened at the North Portland yards with one of the heaviest offerings of cattle ever received at that place. A total of 2300 head were received. There was a good demand for prime heavy steers.

First sales on this class looked steady at 10 cents lower. Choice light steers found a good market, as did the heavies. Other grades were from 20 to 40 cents off. Choice light cows sold another quarter Monday, the best selling at \$6.00; common to fair cows 50 cents lower and heifers at \$6.35 for the choice load.

### Bulletin No. 6

## Suppose this was Your Business!

If the Government had asked you to invest your money in a plant to supply Government needs; and after the plant was built, and had become useful for no other purpose, the Government built a plant of its own, making your plant useless and your investment valueless—would that seem fair?

That is precisely what Congress is planning for the Government to do with reference to our investment of \$7,000,000 in an armor plant.

Reporting to Congress, Hon. H. A. Herbert, then Secretary of the Navy, said December 31, 1896:

"The two armor contractors, the Bethlehem Iron Company and the Carnegie Steel Company, both entered upon the business at the request of the Navy Department."

Is it wise—is it fair—for the Government to destroy a private industry brought into existence to serve the Government, unless for reasons of compelling force? To show that no such reasons exist, we make this offer to the United States Government:

The Bethlehem Steel Company will manufacture armor plate for the Government of the United States at actual cost of operation plus such charges for overhead expenses, interest, and depreciation as the Federal Trade Commission may fix. We will do this for such period as the Government may designate.

Isn't that fair? The question is now before the United States Senate.

CHAS. M. SCHWAB, Chairman  
EUGENE G. GRACE, President

**Bethlehem Steel Company**

Hog prices were advanced another 20 to 25 cents. Tops went at \$9.05 with the bulk of sales at \$9.00. There were no extra choice hogs or tops would have undoubtedly been higher; 2750 head received. There was a good demand and offerings were not large enough to supply the demand.

Sheep prices were unchanged as has been the case for some time. Choice lambs sold at \$8.25. Yearlings and wethers at 6 cents. There is a good demand for choice ewes. Best light ewes selling \$5 to \$5.50. Representative sales were:

49 steers, 1370, \$8.25; 83 steers, 1100, \$8.00; 32-steers, 1054, \$7.85; 26 steers, 1106, \$7.80; 5 cows, 1226, \$6.75; 35 cows, 1170, \$6.00; 17 heifers, 870, \$6.35; 2 bulls, 1010, \$4.50; 93 hogs, 191, \$9.05; 768 hogs, 190, \$9.00; 8 yearlings, 99, \$6.00; 132 lambs, 74, \$8.25; 8 lambs, 75, \$8.20; 267 Wethers 84, \$6.00.

### HAY CROP IS LOSS

Thousands of Tons of Feed Rot in the Fields. Few Use Shock Caps

Reports from every section of the county and from many other parts of the state indicate that the late rains of spring and summer have caught practically every hay crop amidships, so to speak, and the damage will run into thousands of dollars. In nine

cases out of ten in this county farmers seem to follow, as if it were an adage, the plan of waiting until after the fourth of July to cut their hay crop so that good weather will be more certain.

This year, however, the plan failed to work. The hay was cut and the rains came on. And when they came they continued to come, letting not a spare moment of sunshine appear in which the farmers might stack the hay. Thousands of tons of feed are rotting in the fields, useless after the rain had fallen and the hay had mold-ed. In most cases farmers have given up hope of saving the crop and will burn it. The result will be a heavy purchase of feed from other parts of the state and the northwest.

The damage to the hay crop is an argument in favor of cock-caps for use when the crop has been cut and shocked on the field. It is said that the saving this year alone would pay the entire cost of caps for the farmers who have lost most or all of their crops.

### Department Prepares Maps

Recreation maps of the Deschutes, Ochoco, Oregon, Siskiyou, Siuslaw and Umatilla national forests of Oregon, and the Chelan, Olympic and Washington National forests of Washington have been completed by the De-

partment of Agriculture, and are being distributed to those who desire them. These maps show the available roads and trails, the location of ranger stations, lookout stations, and other points of interest on the forests. A special map of the Columbia Gorge park in Oregon is also being distributed.
