CHERRYVILLE

Old Noah had nothing on us. We will have to wait till the clouds roll by.

Judge Wolverton was too smart and wise to fly in the face of a supreme court decision and says of which there was never any manner of doubt in the mind of an intelligent person that the S. P. R. Co. had nothing in the land grant but the \$2.50 acre irrespective of timber, mineral or anything else.

Mr. Spence, Master of the state Grange, also says there was never any doubt in his mind that the railroad had anything in law or in equity but the \$2.50 an acre which the highest court in the land says is all they have. Mr. Spence makes the further statement that instead of selling in tracts of 160 acres at \$2.50 they sold at an average price of \$7.00 an acre to big timber companies in plain violation of their contract, and as to their carrying U. S. troops, that is just what it was particularly specified they should do. The Governor has cut a very sorry figure in this controversy.

Prosperity, says an eminent writer, is money in motion. Lock it up in the bank and it is no manner of account to anybody. It appears that much of the idle money in Portland has been used to bolster up different kinds of favored business men in that city, but farmers could not get any with any kind of security. One man in this vicinity was told that the banks were not loaning money to anybody. Let us suppose that the merchants would combine and refuse to sell goods of any kind to anybody no matter how much money they had, how long would they last? Our banking system must be so arranged that any one can get money at any time at a reasonable interest who has good security, and that is just what will be done.

For a constitutional writer took a hike up into the mountains last week between showers as the alarming statement is made by medical men that locomotor ataxia is very much on the increase since autos have come so much into use and recommend everyone to get out and walk. The summer hotels were visited by Mr. and Mrs. Kern. After leaving there the journey was resumed to Billy Welch's. A mine is being developed up Cheney Creek, near Welch's and a sample of ore sent from this mine to be assayed run \$83 to the ton of gold, copper, silver and lead. When the mother lode is struck a stampede will set in. The next hotel is Fawcett's, about one mile above Welch's, which has lately been rebuilt and enjoys a liberal patronage, as the two

Mrs. Fawcett's have a great reputation as first-class cooks.

If you are sick and have tried everything else and did not receive help, try Chiropractic Spinal adjustments and get well. Hoey & Stone, Chiropractors.

New Unit of American Merchant Marine Chartered Through Portland

The Pacific coast sales agent for several large shipbuilding and foundry companies reports to the Bureau of Foreign and Domestic Commerce that the new steamer Pacific, which was built in San Francisco, and which last month made a successful trial in San Francisco Bay, has been chartered by a prominent exporting firm in Portland, Oregon, at the record figure of \$31.50 per ton for delivery from either Portland or Puget Sound to France.

The Pacific is a 9,000-ton carrier, and will draw in freight charges for her trip from Portland to France \$283,500. The voyage will take 90 days by way of the Straits of Magellan, giving a gross income per day of \$3,150. The price is more than the vessel's owners asked originally. The steamship agents in San Francisco had offers from at least seven different exporting firms, the correspondent of the Bureau states, and this accounted for the increase in charges.

The conditions disclosed are cited by the sales agent as emphasizing the need of tonnage on the Pacific coast

for shipments both to the Atlantic coast of the United States and to Europe.

STONE

Residents of this section have been overjoyed recently by the sight of the Carver line trains. They run to the Stone schoolhouse, and in the future will come still nearer.

Prosperity has come to John Hutton as one of his cows has had twin calves. The old-timers say that this is a sign of good luck.

Cleve and Melvin Stuart have moved back to the old farm and are going to improve the place.

Mr. Wheeler and family have moved back to their old place. We are beginning to feel good and liven up with old neighbors coming back.

Heavy immigration into this section is expected next summer. There is a new town called Carver just across the river. We call it Stone over here, but there is plenty of room for two towns.

Our school is going to have a Christmas tree the Thursday night before Christmas.

There is preaching in the church every fourth Sunday by the Rev. Mr. Trullinger, of Lents.

EAST CLACKAMAS

J. Welch lost a cow last week by means of the animal coming in contact with the Oriental limited on the P. & O. C. Damage was made right by Claim Agent Lischke.

The petition carriers are getting pretty thick in this neck of the woods. Wonder who is going to get there?

Raymond Bennett is going to the front in auto repairing.

Mrs. Schuren visited with her daughter over the week-end returning home Tuesday.

The traveling library books have arrived and now the book worms will get busy.

Mrs. L. Parker and Mrs. Sundien were Portland visitors Monday.

The train stopping at every path makes it handy for the natives but they do not run late enough for one to attend afternoon shows down town.

The East Clackamas social club met with Mrs. J. W. Bennett Wednesday.

Mrs. M. S. Shearer was in Portland last Monday having some dental work done.

Harry Blake is going to do some under ground draining in the near future.

L. Erickson is decorating his place with a new picket fence.

The pheasant ranch is turning into a dairy ranch.

We read about the natives of different parts of old Oregon eating ripe raspberries now, but they haven't much on us, for we ate grapes from the vine last Friday and there are still some green ones on the vine.
