growing County.

FIFTY-THIRD YEAR

OREGON CITY, OREGON, FRIDAY, APRIL 18, 1919.

ESTABLISHED 1866

ENGLAND WILL NOT INTERVENE IN RUSSIA

LONDON, April 16.—No intervention in Russia; no recognition of bolshevism and the fulfillment of his election promises, including those relating to indemnity from the enemy powers and punishment of the ex-German emperor, were the outstanding features of the report which Premier Lloyd George delivered in the house of commons today.

Every member was in his seat and the galleries were packed with distinguished visitors, among them the prince of Wales and the American ambassador, John W. Davis, when the premier entered the chamber, with the cheers of the great crowds outside the parliament grounds still ringing in his ears. He appeared fresh and in buoyant spirits.

AIR SERVICE OPEN FOR ENLISTMENTS FOR 1 TO 3 YEARS

Authority has just been granted by the General Staff of the Army for the enlistment of about 15,000 men into the Air Service. This presents an unusual opportunity for those who desire to become identified with what is probably the most talked-of and fascinating branch of Military Service; and it is a foregone conclusion that the quota will soon be filled. Enlistment is for one or three year periods, the former being for those who have special aptitude in one or more of the trades listed below, and the other for those who must be trained in a Government school to properly equip them for the work.

The Air Service has a mechanical instruction school in operation at the present time and is about to establish others.

The Air Service offers liberal allowances of furloughs in times of peace, medical and dental attention, excellent chances to travel, physical training, retired pay after 30 years' service, clothing, board and lodging. The following are the rates of pay in the Army: Private, \$30; Private, first-class, \$33; Corporal, \$35; Sergeant, \$44; Sergeant, Aviation Mechanician, \$66; Sergeant, first-class, \$51; Sergeant, first-class, Aviation Mechanician, \$74.50; Master Signal Electrician, \$81; Master Signal Electrician, Aviation Mechanician, \$121.50.

SCHOOL DIRECTORS OF DISTRICT NO. 114 DEFENDANTS IN SUIT

Florence Jagger entered suit Monday against Directors of School District No. 114, to collect \$108.75 alleged to be due her for teaching in the absence of the regular teacher, Florence Moore.

Plaintiff alleges she taught from January 10 to February 19, with the consent of the board and the regular pay is \$75 per month or \$3.50 per day and the regular teacher executed and delivered an assignment for this amount. She claims she has made demands for the amount and board has refused to pay her. She asks for costs of the case.

NEW YORK THREATENED BY GENERAL STRIKE; WOULD TIE UP TRAFFIC

NEW YORK, April 16.—Two strikes threatened New York today. Marine workers' affiliation called a general harbor walkout for 6 A. M. tomorrow. This would again completely tie up shipping here. The affiliation took this step because union tugboat men were called to tow barges owned by non-union firms. The other impending strike is a walkout of Brooklyn Rapid Transit employees which would halt all elevated, street-car and much of the subway service in Brooklyn.

LICENSE TO WED
A license to wed was granted Wednesday to Mary E. Hays, 20, of Gladstone, and Arthur W. Rice, 25, of Wapinitia, by County Clerk Miller.

NEW QUARTERS POSTOFFICE UP-TO-DATE

April 15 the Oregon City post office is to be moved from its present location opposite the court house to Fifth and Main streets. This location was secured through the efforts of M. D. Latourette, vice president of the First National Bank. Two store buildings, one owned by the First National Bank and the other by the Barlow-David heirs, have been combined into one large room. The First National bank is to rent the store room owned by the Barlow-David heirs, and the two rooms together will be sublet to the government by the First National bank.

M. D. Latourette has had charge of securing all furniture and fixtures for the new postoffice, and excellent taste and judgment have been used by him in selecting this. All furniture is in mahogany finish, and all fixtures are painted in similar color to correspond, making it one of the most attractively furnished and equipped post offices in the state. The eight sorting tables in the rear room, the individual lockers for the convenience of the employees and other appliances are of steel, and painted mahogany color.

The main lobby is 35 feet, and here a new and modern correspondence table has been installed. At the left opens the postmaster's office, and also the office of the employees of the registry, stamp, parcel post and general delivery departments. This room is about 20x30 feet.

In the rear is the main room for receiving and sorting the mail. This room is 60x60 feet and is equipped with all latest devices for receiving and sorting the mail. There is also the drinking fountain with porcelain bowl, stock room and the lavatories.

In the main lobby a new feature has been established different from the present post office. There are three compartments for mailing. One for the papers, one for the city mail, and the other for outgoing mail. Heretofore it was necessary to drop letters for city and outgoing mail in the same compartment.

There are over 500 boxes for the patrons of the office, and it is probable those who are renting boxes will retain the same numbers, thus relieving the employees of the post office of much extra work.

One of the conveniences of this office will be a shed for the storing of automobiles of the mail carriers and a shed for the horses. A passageway will be constructed leading from the Southern Pacific track for bringing the mail to the office, while another will be made for the mail coming by way of the Portland Railway, Light & Power company.

A substantial vault has been constructed, and a large safe recently used by the First National Bank has been installed and will be loaned to the government.

By removing the postoffice to the new location will have a tendency to rent all the buildings in that section, and there has been a steady demand for buildings in that section since it became known that the office would be moved. Many years ago the post office was located in one of these store buildings, but on account of lack of room it was moved to the I. O. O. F. building and several years after moved to the present location and built especially by the Weinhard estate for the post office.

VICTORY LOAN QUOTAS GIVEN FOR DISTRICTS

M. D. Latourette, county chairman of the Victory Loan drive, gave out the quotas of the seven banking districts Tuesday as follows:

Canby State Bank, \$25,200; First National Bank of Canby, \$22,950; Estacada State Bank, \$17,775; Milwaukie First National Bank, \$29,025; Molalla First National Bank, \$19,350; Bank of Oregon City, \$141,075; Bank of Commerce, Oregon City, \$64,125; First National Bank, Oregon City, \$57,375; Clackamas County Bank of Sandy, \$11,925; Farmers Bank of Wilsonville, \$12,150.

County Chairman Jos. E. Hedges of the "Speakers' Committee," has been asked by Wilsonville to send a speaker there Thursday evening and William Hammond has been appointed for that time.

Raymond Caulfield, Oregon City Banking District manager, has called for a conference of the 48 district managers tributary to Oregon City for Saturday at the Commercial Club when plans for the drive will be discussed.

E. H. Myers Denies Cruelty to Stock

E. H. Myers of Oswego, indicted by the grand jury on a charge of cruelty to animals, was arraigned Tuesday and waived further time to plead and plead not guilty to the charge.

He was arrested by Constable Fortune on a warrant sworn out by a humane officer of Portland, who alleged he had about 15 head of cattle which he did not feed or shelter suitably.

The Fish Controversy

Our silk-stocking friends from Portland are after the official scalp of State Game Warden Shoemaker and Commissioner Warren. They charge that these two gentlemen have manipulated the affairs of the State Fish and Game Commission in the interests of the cannerymen and the commercial salmon interests as against the hook and line sportsmen, commonly known as anglers and represented by the Oregon Sportsmen League, and they demand that the interests of the anglers be thoroughly separated from those of the commercial fishermen and cannerymen. It is also charged that these two gentlemen named have played politics and the protestors have put the matter squarely up to Governor Olcott for investigation and adjudication.

The Governor has acted wisely in calling in all of the interested parties to Portland this week for a hearing that will bring out the facts. Like every other controversy there is probably two sides to this one and the chief executive has taken the proper course in insisting that a full presentation of the facts laid before him, in order that he may act intelligently and with a full knowledge of the conditions as they have been and as they are. The attitude of the Governor in demanding a show-down is entirely commendable, and it may be safely predicted that an impartial hearing will place in the possession of Mr. Olcott those things which he and the public as well is entitled to know.

The Fish and Game Commission is without popularity among the commercial fishermen of Clackamas county, who have indicated their intention to initiate a measure looking to the abolishment of the commission, which has used its influence, with conclusive success, to close the Willamette river below Oregon City to Oswego to the men who have depended upon the net fishing for their livelihood.

The wide-open conduct of public affairs is the better method, for the day of the gum-shoe and pussy-foot in Oregon has long since passed. As the actual head of the Fish and Game Commission the governor should be well informed as to its operations, and he has taken the best method of securing his information.

TWO DISTRICTS ARE REPORTED OVER TOP

Wilsonville Banking district is the first Clackamas county banking district to go over the top in the Victory Liberty Loan. Chairman Joe J. Thornton phoned M. D. Latourette, county chairman, at 2 o'clock Wednesday that his district was over. The quota for that district was \$12,150. The committee in charge of the Wilsonville district is composed of Dwight L. Seelye and Joe J. Thornton, chairmen; N. O. Say, Sherman Seelye and Homer A. Kruse, executive committee.

CLACKAMAS IS OVER TOP IN RELIEF DRIVE

Dr. Roy Prudden, county chairman of the Armenian Relief Drive, sent a check for \$6,066.96 to state headquarters in Portland Tuesday to apply on the \$50,000 check State Manager Ben Selling hopes to send the sufferers for Easter.

The quota of Clackamas county in this drive was \$6,400 and up to date

\$6,430 have been turned over to the county chairman and Canby and Milwaukie have not reported. The quota of Estacada was \$900 and they raised only \$400 but Oregon City came through in fine style and made up the difference.

Oregon City went over the top by \$500, the quota being \$5,500 and \$6,000 were subscribed.

Besides the large check sent by Dr. Prudden Thrift Stamps for \$20.25 and pledges for \$95 have also been sent to the county headquarters and more is still coming in.

OREGON SENDS LARGE CHECK FOR RELIEF FUND

PORTLAND, April 10.—A check that means life and hope and happiness to a people just arising from slavery and oppression, a check for the sum of \$100,000 was sent to New York last Saturday by Ben Selling, state treasurer of the Armenian-Syrian relief quota—the first large remittance to be made from the Oregon campaign. The state quota is \$184,000.

Portland has long since passed, without aid, the combined quota for the city and Multnomah county. The quota was fixed at \$73,200, and more than \$74,000 has been raised in the city alone. The field work was almost entirely performed by committees of women.

Three shiploads of supplies started overseas in January and a fourth is now loading in New York. Among the supplies are 15,000 tons of flour, 100 motor trucks, ten farm tractors, 15 ambulances, 4,500,000 yards of cloth, 100,000 blankets, 50,000 pairs of shoes, 15 100-bed hospital units. Two thousand four hundred tons of rice were bought in the Caucasus.

Among the 250 relief workers who sailed in January were physicians, nurses, social service experts, agriculturists, carpenters and business executives. The work of the commission is being aided by the French, British and American governments, which have put all their facilities at

WHIPPET TANK TO BE AT OSWEGO NEXT SATURDAY

The French Whippet Tank, which is now touring the West in the interest of the Victory Liberty loan, will arrive at Oswego at 2:43 P. M. Saturday, April 19.

C. Schuebel, chairman of the Oregon City Banking District on speakers states that quite a program will be held in Oswego at that hour as he is to provide speakers for the occasion, in the interest of the Victory Loan.

The public is invited to view the tank from the depot, and it is the opinion that large crowds will visit Oswego from Oregon City and other Clackamas county points.

These tanks played a very important part in winning the war and would be of much interest to everyone to see.

PORTLAND EDITOR IS GUEST AT CITY CLUB

Edgar B. Piper, editor of the Oregonian, talked Tuesday night at a dinner given by the Live Wires of the Commercial Club on his experiences in England and France during the closing days of the great war. He delivered an eloquent address, and described graphically scenes he had witnessed along the battle line.

Mr. Piper was one of a party of 12 American editors who went abroad in the Fall of 1918 at the invitation of the British government to secure first hand information of the activities of the allies, and particularly of the inside of many things that were denied the reading public.

The speaker took his audience, composed of 100 members of the club and their wives, from New York across the broad Atlantic, to the British Isles, and later telling, rather briefly, the story of his visit to England, he portrayed with vividness, some of the terrible spectacles that came under his own observation. He made a personal inspection, under official escort, to many of the battle-scarred fields of France, and was within range of the German guns. His talk was enlivened with amusing incidents, and again with the sorrowful narratives of the experiences of the French people, notably those of the women of Lille, which city he entered immediately after the end of the German occupation lasting more than four years.

During his trip through France Mr. Piper was injured in an automobile accident, and he was able to present some interesting tales about the hospitals. His address was wonderfully entertaining and inspiring to those fortunate enough to attend.

Dr. Clyde Mount, main trunk line of the Live Wires, presided, and Mr. Piper was introduced by E. E. Brodie. Music was furnished by the Filipino orchestra from the Crown-Willamette mills.

STOCKMEN MEET

BAKER, Ore., April 12.—The Sixth annual convention of the Cattle and Horse Raisers' Association of Oregon will be held at Bend, Or., April 22 and 23.

Saved from German Prison After 30 Months, Comes Here as Rescuer's Bride

MISS L. O. DOUVAL

A French girl who was captured by the Germans and imprisoned for thirty months has come to America with her husband, Lieutenant L. O. Douval of the United States army, to try to forget the horrors through which she passed. Lieutenant Douval rescued her when the Americans took the town of Noye, his only weapon being a wrench. Soon after her release Lieutenant Douval, who has two French decorations and one Belgian, pressed his suit and they were married in Noye.

MANY TOURISTS ARE EXPECTED IN NORTHWEST

Hundreds of thousands of dollars are to be spent by American and Canadian railways in advertising for tourist traffic this summer, and the Pacific Northwest will get its share of this advertising, according to Herbert Cuthbert, secretary of the Pacific Northwest Tourist Association, who has returned to Seattle after spending a month visiting eastern cities of the United States and Canada to get cooperation in the work of the Association from the railways and to further other plans for securing tourist business.

"I conferred with the heads of the passenger departments of the United States Railway Administration in Chicago, Washington and New York, and with two large advertising committees who are preparing a national advertising campaign to stimulate tourist travel on the railways and received the best of receptions from them," said Mr. Cuthbert. "They have been taught to appreciate the Pacific Northwest and cooperation between the railway campaign and the campaign of our association was arranged so as to get the best possible results from this section."

"The value and results of the work of our association during the past two years is shown not only in greatly awakened interest in our scenic attractions throughout the East, which will bring a heavy tourist travel our way this summer, but also in the recognition of the Pacific Northwest by the heads of the railway administration in their advertising plans."

"Tourist travel to the Pacific Northwest will be especially heavy this summer and the hotels, summer resorts and people generally should be prepared to take care of the tourists properly. Tourist rates, already announced, will go into effect June 1st and the rates, together with the widespread publicity which we have received, will inevitably bring a heavy tourist travel this way. We should benefit not only by the business which tourists bring but also by calling to the attention of tourists the natural advantages and resources and the opportunities in this section, so that the tourist may be induced to become an investor and a resident to help in the development of this section."

Big Hop Contracts Are Filed at Salem

SALEM, April 16.—Contracts covering more than 150,000 pounds of Marion county hops have been filed with the Marion county recorder. The purchasing firm is Strauss & Co., of London, operating through their agent, H. L. Betts of Aurora. The producers of the hops are A. J. Ray & Son, of Portland, and Loren G. Geisy, of Aurora. Ray & Son contract to sell 40,000 pounds a year for three years, the price to be 30 cents for the 1919 crop, 28 cents for the 1920, and 25 cents for 1921. The Geisy crop will be 2000 pounds for this year, 15,000 pounds in 1920 and 15,000 in 1921, the price each year to be 25 cents.

W. M'ADOO PAYS BRIEF VISIT TO THIS CITY

Oregon City was agreeably surprised Monday morning by an unannounced visit of William G. McAdoo, former secretary of the treasury in President Wilson's cabinet, who spent about ten minutes in our city. Mr. McAdoo was on his way to Portland and had intended going on through but several prominent citizens of the latter city came here in cars to take the visitor off the train and were prepared to pull some real movie stuff to do so. But McAdoo did not object to the auto ride and went peacefully.

On invitation of M. D. Latourette, president of the Commercial Club, Mr. McAdoo gave a brief talk on the Victory Loan and expressed confidence that it would go over the top in record time. He said we could not afford to miss this opportunity to show our appreciation for the boys who have fought for us and those who have made the supreme sacrifice.

Mr. McAdoo was introduced by Mayor Baker of Portland, and was given a cordial reception by local citizens. He shook hands with several local men, among these being L. P. Horton, who was the first to greet Mr. McAdoo in this manner.

The ex-secretary of the treasury is now chief counsel for the "Big Five," a recently established motion picture company, composed of Mary Pickford, William S. Hart, Douglas Fairbanks, Charlie Chaplin and D. W. Griffin, who will do their own producing and distributing.

Mr. McAdoo was met here and escorted to Portland by Mayor Baker, C. S. Jensen, George V. Adams, representatives of the Chamber of Commerce, city officials and business men of Portland.

WILD MAN CAPTURED TUESDAY ON MT. SCOTT

Moreno Albertine, an escaped inmate of the Morningside Institute of Portland, was captured Tuesday by Sheriff Wilson and Deputy Hughes in the Mount Scott district. The officers were assisted by Roy and Albert Ott and George Stephens of that section.

Complaints have been made to the sheriff that the farmers in the Mount Scott neighborhood were losing chickens, eggs, and farm produce and the officer made a trip there before but did not succeed in locating the man.

When found he was on the top of the mountain and when ordered to stop, at first refused but was captured in short order. He had been living in a cave under the roots of a large tree and had a good supply of provisions on hand. He had been sleeping on some old blankets and brush. The denizens of the man was close to the Mount Scott cemetery.

He was dressed very shabby, old shoes that were tied on, a pair of overalls, a jumper and slouch hat. He evidently had not shaved for some time as a heavy growth of beard covered his face.

Albertine is an Austrian and claimed to have been in this country for six years, four years in the East and part of the time in Alaska. He said in the latter place he was taken to a hospital and later brought to Portland. He is a man of about 25 years of age and very powerfully built.

He was held in jail here awaiting word from the officers of the Morningside Institute.

VICTORY LOAN QUOTA \$400,950 FOR CLACKAMAS

County Chairman M. D. Latourette of the Victory Loan drive received word Monday that the quota for Clackamas county is \$400,950, and the quotas for the different banking districts will be announced in a few days. The county has been divided into seven districts as in the former drives and chairmen have been appointed and are ready for the work.

The quota of the last drive was \$491,120, which is \$90,170 more than that of the Victory Loan. In the last drive the county raised \$619,500 or 126 per cent. of the quota.

A. G. Clark of Portland, will be here Thursday to hold conferences with local people at the Commercial Club and chairmen for the different committees are making their plans for a whirlwind campaign.
