

Will Verify Statement

Mr. Philip Gelber, 545 Bushwick Ave., Brooklyn, N. Y., will verify to anyone interested his endorsement of Fruitola and Traxo. In writing to the Pinus laboratories Mr. Gelber says:

"I suffered with gall-stones seven years—tried various remedies without satisfactory result—was induced to try Fruitola and Traxo. Glad to say I am now feeling better than at any time for years and heartily recommend Fruitola and Traxo."

Fruitola acts on the intestinal organs as a powerful lubricant—softening the congested masses, disintegrating the hardened particles that cause so much suffering and expelling the accumulation with almost instant relief. Traxo is a tonic-alterative acting on the liver and stomach, and is especially recommended in connection with Fruitola to build up and restore the weakened run-down system.

For the convenience of the public, arrangements have been made to supply Fruitola and Traxo through representative druggists. In Oregon City, Portland, Canby and Hubbard they can be obtained at Huntley Bros. Co's Drug stores.

Passing in Review

News of the Week from War Zones of Europe and Mexico

Hurrying from the eastern to the western front, Kaiser Wilhelm made a flying visit to Berlin on Saturday. He held a short conference with Chancellor von Bethmann-Hollweg, and received reports from food dictators and cabinet officers.

Victory for the allies is now certain as Germany, fighting with her back to the wall, begins to reveal weaknesses. General Joffre, French commander in chief, told a group of American correspondents he had received on the occasion of the second anniversary of the war.

The strong Turkish force which attacked the British at Ramani, 22 miles east of the Suez canal, on August 4, was defeated and put to flight by a counter attack, says an official statement issued Sunday.

The Turks, adds the statement, are being vigorously pursued by the British, who have taken more than 2500 prisoners, including some Germans.

A Reuter dispatch from Amsterdam dated Sunday says the Hamburg Nachrichten quotes Admiral von Tirpitz, of the German navy, as having sent the following reply to a congratulatory telegram from a friend:

"May the knowledge grow in our fatherland that Germanism can be maintained and make it's own way, only if we emerge from this war in a firm position as regards Anglo-Americans. We gain this point if Germany and not England becomes predominant in Flanders."

Their advance in Volhynia checked east of Kovel, where they admittedly suffered their first serious defeat in Galicia, the Russians during the last few days resumed their drive in north-eastern Galicia, south of Brody, crossed the river Sereth near its headwaters, northwest of Zalozze, captured two villages, a wood and a height and took 1200 prisoners. Nine counter attacks by the Teutons were beaten off, and the gains are firmly held, an official bulletin states.

The allied cruisers patrolling the entrance to Hamton Roads to prevent the departure of the German submarine merchantman Deutschland were still in position within sight of shore late last week and there was nothing to indicate that they were aware of passage of the Deutschland out thru the capes. Marine men believed the submersible had entirely eluded the war vessels and was safely on her way across the Atlantic on her return voyage to Germany.

The Roumanian crisis is over, in the opinion of Balkan specialists whose judgment has been vindicated in the past. Roumania, they say, is safe for the present and will continue watchfully neutral, pending developments in the southeastern theatre of war which, it is thought, should be of a character not to tempt the Roumanian government to abandon its safe neutrality. The political tension in Bucharest, which reached almost the breaking point on Saturday, relaxed when it was learned that Mackensen had resumed his activities, and that Hindenburg would henceforth be in supreme command of the whole eastern front.

Under a merciless concentration of shell fire the Australians held onto their gains on a front of two miles. The Germans delivered three powerful counter attacks to retake the lost ground but failed.

In one of the counter attacks the Germans came forward holding up their hands. Behind them the British guns had placed curtains of shell fire through which it was impossible for them to retreat, while the Australians' machine guns and rifles, mowing them down, made it hopeless to continue the charge. It was death whichever way they moved—death if they stood still or lay down in the bullet swept plain, and they surrendered rather than continue their vain efforts.

The senate's and house conferees on the army bill have agreed that it shall carry approximately \$267,000,000, as compared with \$182,000,000 allowed by the house. This is a reduction of \$46,000,000 from the senate bill, but is a net increase of \$85,000,000 over the house bill.

Senator Chamberlain announced at the time that there had been no cut in items of vital importance. Several items aggregating several millions for which the money appropriated could not be utilized before the next session were eliminated. A full agreement has been reached, but will not be presented at this time because of dissatisfaction with the compromise with the proposed revision of the articles of war. The house conferees insisted on excepting retired army officers from the jurisdiction of the military. Senate conferees agreed to this rather than jeopardize the whole measure.

A Woman's Helpful Advice
Mrs. G. H. Eveland, Duncan Mills, Ill., writes: "I was stricken with lumbago, unable to turn myself in bed. A neighbor brought me Foley Kidney Pills. Said she had been similarly afflicted and they cured her. I tried them and was completely cured by three bottles." Mrs. Eveland heartily recommends Foley Kidney Pills for kidney trouble. When the kidneys are not functioning properly, impurities left in the blood cause rheumatism, lame back, aches and pains.

Unable to make any headway with their slogan "Anything to Beat Wilson," the Republicans have changed it to "Blame Everything on Wilson."

WILSON'S WORK LISTED

White Summarizes Some of Accomplishments of the Administration

Have the democrats of Oregon and the United States reason to be proud of Woodrow Wilson, who they selected as their party leader four years ago and whose tenure in the office of president of the United States for another term is desired by all democrats and many other partisans, whose code of politics is humanity and ability more than partisanship?

Samuel White, democratic state chairman, thinks that Woodrow Wilson's incumbency has been one of credit to the nation, the party and the man and he has enumerated a long list of the achievements of President Wilson during that official's four years at Washington. Summarized, Woodrow Wilson's presidential achievements follow:

1—The federal reserve banking law, which takes from Wall street the power to control the money volume and make money panics impossible.
2—Law revising the tariff downward—taking the duty off of the necessities and placing it on the luxuries of life.
3—Election of United States senators by direct vote of the people.

4—Income tax law—which lifts the burden of taxation from the shoulders of the masses and places it on those better able to bear it, the rich.
5—The law extending parcels post—increasing weight limits—reducing postal charges.
6—The law creating a secretary of labor in the president's cabinet.

8—Rural credits law—giving financial freedom, long delayed justice, long time loans, low interest, to the farmers.
9—Federal trades commission law—aiding and protecting honest business, curbing lawless trusts.

10—Seamen's law—humanizing labor conditions on shipboard and lessening the dangers of ocean travel.
11—Clayton amendment to anti-trust law—preventing control of big corporations by few men, declaring that "labor is not a commodity."

12—Alaska railway law—opening America's storehouse to the people.
13—Eight hour labor law on all government work.
14—Law providing government insurance on ship cargoes.

15—He furnished government money to aid in moving farmers' crops to market when Wall street was holding money for speculative purposes.
16—He averted a threatened panic at outbreak of the war by offering to use government money to relieve the business situation.

17—He perfected 29 peace treaties with other nations, thereby greatly lessening the danger of war.
He is now urging congress to pass the following laws:

1—A tariff commission law, taking the tariff out of politics, politics out of the tariff and regulating it on scientific business principles.
2—Inheritance tax law.
3—A law taxing munitions of war.
4—Child labor law.

5—A merchant marine shipping law, curbing and controlling the greatest of all trusts, the shipping trust.
He has kept us out of war, maintained a strict neutrality, strengthened and extended the Monroe doctrine to South American countries.

He has refused to be forced into a war of revenge or conquest, with Mexico, has extended the hand of friendship rather than the mailed fist.
More progressive legislation has been enacted during the Wilson administration than in the previous 40 years, vitally affecting the people's welfare.

He could hardly walk
Kidney trouble manifests itself in many ways. Rheumatism, aches and pains, soreness and stiffness are common symptoms. Ambrose Gary, Sulphur, Okla., writes: "I was bothered with kidney trouble ten years and at times could hardly walk. Three months ago I began taking Foley Kidney Pills. I got relief from the first bottle but continued to take them till I had taken three bottles. I feel like a new man. It is a wonderful medicine. No harmful drugs.—Jones Drug Co."

Doughnuts

That will remain moist.

Every housewife who bakes her own bread knows that if a little potato is added to the sponge, the bread will not dry out so quickly. In this recipe potato is utilized to make doughnuts that will remain moist and fresh for several days.

K C will be found to have distinct advantages over any other Baking Powder for doughnuts. K C is a double acting baking powder with which a large batch of doughnuts may be mixed and fried a few at a time. The last will be as light and nice as the first.

K C Potato Doughnuts
By Mrs. Nevada Briggs, of Baking School fame.

3 cups flour; 2 eggs; 1 cup sugar; 1 level teaspoonful K C Baking Powder; 1 teaspoonful salt; 1 teaspoonful mace; 1 cup cold mashed potato; 1 cup milk, or more if needed.

Sift three times, the flour, salt, spice and baking powder. Beat eggs with rotary beater, then add sugar, gradually add milk and then work in the mashed potato with a spoon and alternately add milk and flour mixture. Make a soft dough, roll into a sheet, cut into rounds, pinch a hole in the center with the finger and fry in deep fat.

Fat for frying should not be hot enough to brown the doughnut until it has risen. When the doughnut is dropped into the fat it sinks to the bottom. As soon as it comes up it should be turned and turned a number of times while cooking. This recipe is excellent as they do not take the fat in frying and will stay moist for days.

BEACHES ARE "GOOD"

Sheriff Wilson Examines Bathing Suits and Bathers

On Sunday Sheriff Wilson conducted a private and personally conducted tour of investigation at the outing resorts within Clackamas county to ascertain for himself the moral tone that exists at such places among the great crowds which frequent every available outing place on their rest day. The investigation was carefully made and inquiries as to conditions were made of campers, pleasure seekers, picnic parties and managers of resorts.

Last year repeated complaints were made to the sheriff regarding the extremely lax moral conditions at these places, more especially the islands in the river and the bathing beaches along the shore. This year, according to the sheriff, there are to be no complaints simply because there will be no cause for them.

He did not visit all the beaches and resorts and will continue the investigation during the next few weeks. At Oak Grove and Cedar island, which occupied most of the official's attention on Sunday, he found conditions to be above reproach. For the most part these places are occupied by quiet campers, minding their own business and anxious to have others do likewise. There are innumerable Sunday picnic parties at these places, however, and in spite of what may have been the condition last year all is well at present.

Not even the lamented and much discussed "abbreviated" bathing suit was in evidence to any extent. The mode of the season greatly favors the abbreviated costume and the only way most people could be made to refrain from wearing them would be to jail them.

Sheriff Wilson found managers at the two prominent places visited really anxious to keep their places morally right and those whom he questioned asserted that managers were very strict as to who remained on the beaches and how they conducted themselves. The strictness of the management had also been noticed by campers at these places.

"As far as I can see or determine," said Sheriff Wilson, "these places are above reproach. As long as they remain so and as long as those who frequent the outing places in this county conduct themselves as ladies and gentlemen, I shall not interfere in any way with their pleasures. I believe that things were not entirely right last year. I am certain, nevertheless, that they will be right this year."

17 NEW CITIZENS

John S. Smith Conducts Naturalization Examinations in Court

Only four of a total of twenty-two men failed to qualify as American citizens in Circuit Judge J. U. Campbell's court here on Monday and the seventeen eligibles have dropped all vestige of hypenation and are merely on their several ways as full-fledged Americans. John Speed Smith, chief naturalization examiner for the western department, with headquarters at Seattle, was in the city to conduct the examinations.

The operation of the naturalization law extracted the hyphen from six German-born men; four former British subjects; four Austrians and several of other nationalities.

The following Germans became American citizens: Caspar Endres, August Karl Kanne, Carl Thun, John Bohrer, Otto August Mueller and George Christ. Those from Great Britain: James Brown Patterson, John Thomas Hindle, Fred Herman Hettman and George Randall. Austrians: Louis Zoza, Mathias Justin, Josef Paulin and Norbert Cevela. Peter Malzanin, Italy; Arnt Evensen Loe, Norway; Fred Karlen, Switzerland.

It is easy to understand how the leader who so readily swapped a bull moose for an elephant can see no danger to the country in swapping horses while crossing a stream.

RIVER GIVES UP BODY

"Mickey" Porter Disappearance Mystery Cleared Late Last Week

William Porter, known to his friends as "Mickey," disappeared from his work at the Menefee shingle mill at Milwaukie on March 14, of this year. A body identified as that of the missing man was found floating in the Menefee mill pond on Thursday of last week.

The missing man gave the officials of Clackamas and Multnomah county much worry and the search for him consumed much time. They feared that he had met with foul play, but the sad story came to full light with the finding of the body. Porter was a shingle weaver by trade.

Porter's parents live at Arlington and he has a brother-in-law at Carlisle, Wash. Porter was 32 years of age and was a resident of Milwaukie.

Local officials have little doubt that Porter committed suicide and disbelieve the statement of friends that he was killed. The body was in a badly decomposed condition from the effects of the water that had been its grave for nearly five months.

Announcement

The undersigned have a complete well-drilling outfit and are soliciting business in Clackamas county. Work guaranteed. Satisfaction is assured. Phone Pac. 180-J.
