Advertising Rates on application.

INTERESTING LETTER FROM CORP. DUNGEY TELLS OF FINAL DAYS

The following letter has been received by Mrs. E. Dungey and her son, Edward, from Corporal Walter Dungey, written in Brest, France:

Brest, France, July 26, 1919.
Dear Mother and Brother:
"Things look pretty good now for our leaving in a few days. They say the first of August half of us will be released, and the remainder on the 10th."

"I am at present at the Post of Brest, and not over-worked or underfed nor in the worst of health. There is a great difference from a month or two ago. Everything is so much quieter."

"Yesterday they say 28,000 men loaded for home trip. I know they 'streamed' all day long. Nearly everyone moved out of the barracks, where I am, and today there are five of us—a cat and two dogs left. We are expecting to go out to the big camp within a few days, where of course everyone has to go through the mill—that is, the delouser."

"The weather has been very favorable for us—not too hot and not too cold."

"Well, if we don't have any hard luck, I am sure of leaving soon, and will be home about September 1st."

"I will close, hoping to see you soon."

With love,
WALTER DUNGEY.

Troop Movement Registration Office, Port of Brest, A. P. O. 716.

Corporal Dungey left here with Company E, 15th Engineers' Railway Company, August 1, 1917, arriving in France a month later, and has been anxiously awaiting the receipt of his orders to return to the United States. He is one of the most popular boys of Oregon City entering the service.

RECEPTION AND GOOD ROADS MEETING WILL BE HELD AT MOLALLA

The people of Molalla are to enjoy a reception to the soldier boys of that section returning from the service, and a good roads meeting, the two of which are to be combined into one to make it one of the memorable occasions to be held in that town.

A committee will be appointed to further the plans in arranging the affair, and will meet in the office of the Pioneer at Molalla Wednesday evening, August 20.

The date for the event has been set for September 6. A band from Portland will furnish the music for the day, and there will be addresses of welcome by some of the prominent residents of the county.

Many of Molalla's boys have been in some of the big engagements in France, and as there has been no formal reception given in their honor, and as a good roads meeting had been arranged for that date, it was decided by some of the prominent citizens of that place to hold the two together.

SHERIFF WILSON SAYS EVERY DAY IN WEEK IS HIS BUSIEST DAY

Sheriff W. J. Wilson has had troubles of his own during the past three days, starting as early as 6 a. m. Sunday, when he should have been enjoying his Sunday rest. The troubles on Sunday were largely of family jars, and these were "held" in two sections of the county, the first near Liberal and the other near Barton. Sheriff Wilson played the part of peacemaker, and succeeded in bringing one family together, while the other will probably forget their little differences and live happily from now on. As long as he was doing a Christian act, Mr. Wilson did not believe it necessary to attend church, as is his usual custom on that day.

Monday trouble again came in sight and even Tuesday he was kept on the run. He is looking forward to a vacation, but so far does not know just where it will be or when.

RESIDENTS OF OLD MILL SETTLEMENT GET BETTER MAIL SERVICE

Through a petition of the people of the Linn Old Mill settlement, School District No. 21, the smallest school district of the county, the mail boxes that have been posted near the Henri school house have been moved to the top of the hill. By this arrangement most of the people of that little settlement are now finding the mail boxes close to their homes. Heretofore they have been compelled to walk about a mile for their mail.

IMPROVEMENTS TO HUNTLEY DRUG STORE PROVIDE MORE ROOM

Workmen are busily engaged on the new addition of the Huntley Drug Company's store on Main street, and when completed it will be one of the largest and most complete business houses in this city. The contractor is William Krueger, of this city, and the architects are John G. Wilson, of Portland, and W. A. White, of this city.

The addition will be 35x43 feet. The office, which is now on a second floor, will be on the first floor when the addition is completed. This room will be 12x16 feet. There will be a women's rest room 6x13 feet. The paint department will be 12x20 feet, where the oils, paints and other necessities in this line will be carried, and will be in charge of D. W. James, who has had much experience in the paint line. A rubber goods' room will be at the right of the drug department and will be 9x13 feet.

The Victrola room is to be divided into four compartments, three for demonstrating records, and one for the talking machines. Each demonstrating room will be 6x9 feet, and will be sound proof. Charles Harlow will have charge of this department. At the present time the two rooms do not allow the company to demonstrate the records as desired.

The tea and ice cream parlors are to be enlarged and refurnished. The soda fountain, instead of being located as at present at the rear of the room, will be placed at one side. The walls will be retinted and the woodwork will be in white enamel to correspond with the walls and woodwork of the large salesroom adjoining.

A balcony will extend from the soda fountain to the rear wall, and along the rear wall to the opposite side of the room. This will be nine feet in width, and there will also be a balcony in the large store room. New shelving will be added here. On the main floor new oak counters and show cases are to be installed.

One of the attractive features of this store will be a new metal and plate glass front, and the front of the store will extend over 64 feet, allowing a display of goods to much better advantage than at the present time. A full cement basement is being built, and will provide store-rooms, men's lavatories and the incinerator, where all debris is to be destroyed, and an Otis elevator will save many unnecessary steps.

The Huntley Drug Company has occupied this building for the past 25 years, and as the business has increased it was found necessary to enlarge the building to accommodate the large stock kept on hand.

Mr. Wilson has been an architect of Portland for many years, and Mr. White as many years in this city. These two architects have shown excellent judgment in arranging the new addition. Mr. Krueger has a force of experienced men at work in constructing the addition, himself having had much experience in building.

It is the intention of the drug and book-company to have a big opening day as soon as the building is completed, the date of which has not yet been set.

BEEFSTEAK WAR IN SPOKANE BRINGS ALL MEAT PRICES DOWN

Five additional meat markets joined the free-for-all-beefsteak war here today and as a result the prices of beef and mutton remained far below the normal price. One market sold boiling beef at 5 cents a pound. Sirloin and round steaks went fast at 12 1/2 cents and 15 cents a pound and other cuts were in proportion. The "war" is one between union and non-union markets and is an outgrowth of the butchers' strike now on.

SINGLE NOTICE FOR EXTERMINATION OF THISTLES IS ENOUGH

SALEM, Aug. 19.—No second notice is necessary on the part of county authorities before taking a hand in the extermination of Canadian thistles or quack grass, which ETA vigen. Julia, within 10 days after the property owner has been properly notified, according to an opinion prepared by Assistant Attorney General Van Winkle, in reply to a query from Donald Young, deputy district attorney for Lane county. The work of extermination may be performed in one operation or may be a continuous performance as the occasion may require, the opinion states.

The annual convention of the Associated Advertising Clubs of the World in New Orleans in September will be attended by a large number of women who are advertising experts.

IMPROVED ORDER OF RED MEN BANQUET TO NATIONAL HEAD HELD

The banquet given Tuesday evening at the Electric hotel by the Wacheno Tribe No. 13, Improved Order of Red Men, in honor of James T. Rogers, Great Inchohnee of the United States, was one of the most elaborate banquets given in this city by any order.

The following program was given. Selection, orchestra; song, America, audience (membership); Opening Remarks, Brother Judge Grant B. Dimick; Song, "Star Spangled Banner," Miss Naomi Armstrong; Short speech by various members of the Order; Selection, Orchestra; Address, T. C. Reichle, Great Sachem of Oregon; Selection, Orchestra; Address, Dr. H. L. Henderson, P. G. Sachem and Great Representative; Song, Miss Naomi Armstrong; Address, Brother James T. Rogers, Great Inchohnee of U. S.

The committee from Wacheno Tribe No. 13 arranging for the banquet and entertainment is composed of Walter L. Little, chairman; D. E. Frost and George Marley, prominent members of the organization.

One hundred and twenty-five guests sat down to the banquet at the hotel and their unanimous verdict at its conclusion was that it was the finest and most sumptuous that they had ever indulged in.

The speeches and musical selections were thoroughly enjoyed and the novelty singing of a glee chorus who accompanied the out-of-town delegates was without doubt the hit of the evening.

SHERIFF WILSON IN ROLE OF DETECTIVE ARRESTS RUNAWAYS

Three girls, Louise Bastine, aged 15 years, Bessie Burleson, aged 13 and Isabelle Tracy, aged 14, made their appearance in Oregon City Monday evening and were placed under arrest by Sheriff Wilson.

The girls had run away from their homes the day previous and were bound for California, they claimed, although Miss Tracy was the only member of the party having any funds, and the extent of her capital amounted to 75 cents. She said she had friends at Aurora whom she thought would give them a lift.

Tuesday morning a message came from Portland asking Sheriff Wilson to keep on the lookout for the wandering trio, and as he already had them in charge he held them until the arrival of Miss Tracy's father from Portland, who reached town Tuesday afternoon and took them in charge. Sheriff Wilson had taken the girls in charge owing to their appearance, and subsequent events proved his deductions to have been correct.

ATTACHMENT FILED AGAINST AIRPLANE IS FIRST IN COUNTY

The first airplane attachment recorded in Clackamas county was filed in the office of County Clerk Fred Miller Thursday afternoon. The suit was filed by J. A. Davis and W. B. Maddox, of Portland, against C. L. Woodruff, John Doe Carter and H. F. Newton, for the sum of \$148.30, claimed to be due on the airplane made by the plaintiffs, who, in their complaint, testify that only \$55 has been paid on the making of the machine.

Sheriff Wilson, of this city, went to 82nd street Thursday afternoon, where the airplane was seized, and it is now chained to a large oak tree, and Sheriff Wilson has the key. He is thinking seriously of learning to fly, so that it will not be necessary to leave the machine so far from Oregon City's courthouse.

The airplane had been taken to 82nd street on a trial trip when Sheriff Wilson arrived.

LIBRARY BOARD SENDS RESOLUTIONS TO WIFE OF LIBRARY DONOR

At a special meeting of the City Library board held last Tuesday evening, a telegram of condolence was ordered sent to the widow of Andrew Carnegie at her home in Lenox, Mass., and a copy of resolutions drawn by the board was ordered mailed to the widow of the donor of the fund, of which \$12,500 made possible the present library in this city.

The following is the resolution drawn up by the board and forwarded to Mrs. Carnegie: "WHEREAS, the greatest of philanthropists, and the one whose generous gift of the building we occupy made possible the attainment of the present condition and success of the free library of this Association, has been called in death, therefore

BE IT RESOLVED, that in the death of Andrew Carnegie this association has lost its main instrument of being, this community a most generous benefactor and the world a monumental force for its enlightenment, and

BE IT FURTHER RESOLVED, that this resolution be spread upon the minutes and a copy forwarded to the bereaved widow and family.

The Ell Family Have Odd Names

PENDLETON, Aug. 19.—The gentlemen who deal in family trees and genealogy are forever taking the joy out of life by showing up one's relatives or ancestors. Now and then, however, they connect one with illustrious persons one would never suspect a relationship to. The latter is the case with Joe Ell, councilman and insurance dealer, who received a little twig from the Ell family tree today.

The information did not come from an expert in family trees but from a friend in Seattle who noticed an interesting chapter regarding the Ell family reprinted in the Seattle Post Intelligence from the Chicago Tribune. Mr. Ell confided in the East Oregonian that he had never met any of his illustrious relatives referred to in the article following:

Sir: I note a contribution from Watt Tell. This is evidently the W. K. Tell, Watt T. Ell, son of old man Hardison Ell. Watt T. Ell married Miss Eukan Gota Ell. They have two sons and daughters. The elder daughter Hooene Ell, married a man named Ar-yoo, and is the celebrated bullshovette, Hooene Ell Ar-yoo. The younger daughter, Whirna, ran off with a man named Shogee, and has not been heard of since, except for a telegram announcing her marriage and signed Whirna Ell Shogee. The sons are overseas with the American army. The elder, Maj. Hottis Ell, recently married Fraulein Weeile Wursen Ell. SMART S. ELL.

ARMY TRUCK ARRIVES AND NOW WORKING ON COUNTY ROAD WORK

The first of the two big army trucks loaned to Clackamas county by the government has arrived in this city and is already actively engaged in the road work of the County Court Road commission being done on the various roads of Clackamas county. It was at first expected that it would be necessary to make considerable alterations to the body of the big truck before it would be put to work on road construction, but upon its arrival here it was decided that it would be suitable for all requirements without any changes.

La Suffragiste, organ of the suffrage movement in France, has resumed publication after five years' suspension due to the war.

Starlings, which are extremely quarrelsome over food, will sleep together at nights packed like peas in a pod.

A Reward For Justice

For a purse of silver and a few trinkets of gold a good and noble woman was called on Friday in Portland to give up her life before the ferocious assault of a beast in human form who, through the protection of a beneficent state, considered himself protected from the just punishment for the taking of life and was emboldened through that sense of security to prey upon a defenseless woman.

Imagine, if you can, the horror of the first shock of realization with which the young son viewed the mangled form of his mother when he entered his home after his day's work, greeted with the grisly horror of death rather than the mother's kiss to which he had been accustomed. Put yourself, if you can, in his place for a moment and let the full horror of his loss be borne in upon your consciousness.

Is it right that Oregon should be made the dumping ground and refuge for all criminals of the country, here to pursue their works of crime, through the knowledge that even if apprehended, their skins are safe and the hangman's noose cannot reach them? If it were your mother, or wife, or sister, or daughter, who lies in the morgue in Portland today with her skull mercilessly crushed, would you still be willing that murderers should receive leniency?

OLIVER FERGUSON IS REPORTED SUFFERING FROM PTOMAIN POISON

Oliver Ferguson, son of L. Ferguson, of New Era, who is still in the service, and stationed at Fort Winfield Scott, Calif., has been critically ill with ptomaine poisoning. In a letter received from the young man by his father Thursday, he tells of his illness, and convalescence.

Ferguson was in France with the regulars for several years, is still with the regulars, and will receive his discharge in November, when he expects to return to Clackamas county to resume his residence. Ferguson is among the boys of Oregon who were wounded and suffered from gas in the big battles in France. He is a member of the 59th Coast Artillery, Battery E, 31st Division.

Starlings, which are extremely quarrelsome over food, will sleep together at nights packed like peas in a pod.

YOUNG MAN WANTED FOR GRAND LARCENY IS ARRESTED HERE

Victor W. Guild of Chehalis, Wash., was arrested by Sheriff Wilson and Deputy Sheriff Henry H. Hughes on Tuesday morning and is in the county jail awaiting the arrival of the sheriff from Chehalis, who will take him back to that city to face a charge of grand larceny.

Sheriff Wilson received a telegram on Monday evening advising him that young Guild was thought to be in the vicinity of Barton and instructing him to arrest and hold him. Acting on the telegraphic instructions Sheriff Wilson and Deputy Sheriff Hughes went at once to Barton and arrested Guild as he was in the act of boarding a car to make his getaway.

Young Guild was very neatly and carefully attired when arrested and bore none of the earmarks of a criminal.

Ten Points To Settle Before You Buy Any Auto Truck

The motor truck is established. Its utility is no longer questioned. As a means of transportation it is definitely established that a motor truck is incomparably economical, convenient, etc. So it is not a question of whether or not you need a motor truck.

Your decision must be WHICH TRUCK to select. It is a big question not to be decided until you have every fact and every data of cost before you. On that basis ONLY can you make a selection that will justify the required expenditure.

GARY, "THE TEN TEST TRUCK," invites every investigation, every test or question that any owner may advance. The GARY MOTOR TRUCK has been selected by some of the largest truck users in America. They buy on a basis of FACT ONLY, and the Gary has satisfied these owners in every one of these following ten vitally important points.

Test "1" REASONABLE INVESTMENT. Don't buy a truck that will depreciate too rapidly to be economical. You really rent a motor truck when you buy it. At the end of its period of use it should have substantial "cash or trade-in" value. Investigate the actual "after use" worth of any truck before you make your selection.

Test "2" ECONOMICAL SELECTION. Trucks are means of economy. It is not an investment to buy a truck that will increase your transportation costs. Find out what it will actually cost you to transport your merchandise.

Test "3" SIMPLICITY. Skilled experienced labor costs money. You don't want to increase your labor hire because of your trucks investment. Before making your choice, take any worker in your delivery department, give him a few simple instructions, see whether or not the truck is simple enough for his unskilled abilities.

Test "4" EQUALIZED BALANCE. From front to rear lamp bracket maximum efficiency of operating requires even distribution of weight, work and wear. The motor must not be too light for its load the frame must not be heavier than is necessary. Consider whether or not there is proper correlation of size and parts.

Test "5" OVER CARRIAGE. Do not buy a one ton truck and expect it to do a 3 1/2 ton duty. But the trucks you do buy should be built to allow for reasonable margin of overload. Buy the size truck that your business needs but do not invest in a 5-ton truck for a 1-ton truck labor. Nor should you buy a 3 1/2-ton truck for a 5-ton labor.

Test "6" CONTINUED OPERATION. Accidents will happen, and some repairs are inevitable. Select the truck of a design so standardized that repairs will never keep your truck out of service.

Test "7" ESTABLISHED MANUFACTURE. A truck made by a maker having a limited resources is a questionable investment. Be sure that the maker of your truck will be able to continue in business as long as you do.

Test "8" DEALER DEPENDABILITY. The dealer is the agency that is directly responsible to you. Be sure that the dealer from whom you buy your truck is as reliable as your own banker. Do not buy a truck from a dealer that has a reputation of shifting responsibility.

Test "9" NON RADICAL DESIGN. Radical changes and principles are experimental. Do not buy an experimental truck. Keep within approved designs and principle.

Test "10" SPEED, POWER. An emergency will arise where you will have to run your fully loaded truck at its maximum speed. Power should provide for speed to allow for speed when it is necessary.

GARY, "THE TEN TEST TRUCK," has measured up to every test. Let us give you the facts to prove it.
