

MAYOR OLE HANSEN TO RESIGN HIS JOB TODAY

SEATTLE, Wash., Aug. 27.—Mayor Hansen will resign tomorrow, Councilman C. B. Fitzgerald will be elected to succeed him as mayor, and A. T. Drake, clerk of the finance committee, according to an arrangement made by the officials concerned.

His health and a desire to finish his literary work and to start soon upon a lecture tour, which will take him to most of the northern states, are the reasons assigned for Mr. Hansen's resignation. The agreement between the city council and the other officials concerned has been under discussion for more than a month, but it was only within the last few days that the details were definitely decided upon.

AMERICAN TROOPS MAY POLICE POLES DURING ELECTION IN SILESIA

WASHINGTON, Aug. 26.—America's first job of military policing in Europe under the new order of American participation in European affairs, may be in Upper Silesia.

Secretary of War Baker today said that a brigade of American troops is to be dispatched from the United States to Poland and may be used in policing of Silesia, in which the peace conference decreed a plebiscite to determine whether a portion of upper Silesia shall be retained by Germany or transferred to Poland.

Clashes between the Poles and Germans in the province are occurring almost daily and even more serious developments are feared.

"It is the purpose of the war department to send to Europe in the near future a brigade consisting of two regiments of regular infantry, the 5th and 50th, and two regular field hospitals and one regular ambulance company," said the secretary.

"There is a probability that from our forces in Europe it will be necessary to send troops to Silesia to assist in taking a plebiscite and should this be done the above named organizations, which will be composed throughout of regular enlisted men, would be sent."

UNCLAIMED MONEY ON DEPOSIT TO GO INTO STATE FUND

On July 16 the Bank of Oregon City rendered and published a statement of dormant accounts which had not been checked against for a period of seven years and Monday according to due legal process this statement was filed with the Secretary of State and the money representing the total of the dormant accounts will be turned over to the State.

According to the law governing cases of this nature the state will have the use of the money, a total of approximately \$240, until such time as the lawful claimants of the accounts file affidavits of their claims.

Similar statements have been filed by all the banks in Oregon, the gross amount representing all dormant accounts totalling \$12,515.85. This sum will be applied by the state to the common school fund.

FIFTEEN MILLION GALLONS GASOLINE SOLD IN SIX MONTHS

SALEM, Aug. 27.—Under the motor fuel tax law passed by the 1919 legislature, which became effective February 26 last, the several companies selling fuel oil in Oregon have paid a total of \$165,420.18 in taxes up to July 31, says a statement issued yesterday by Sam A. Koser, deputy secretary of state.

The law assesses a tax of 1 cent a gallon on gasoline and 1/2 cent a gallon on distillate. The same statement shows that the number of licensed automobiles in the state on that date was 75,044.

This amount represents a total of 15,311,011 gallons of gasoline and 2,462,003 gallons of distillate sold in Oregon between February 26 and July 31, 1919.

POSTAL FOOD SALES AT LOCAL POSTOFFICE REPORTED BOOMING

According to reports from the local postoffice a large number of residents of Oregon City are taking advantage of the opportunity offered by the government sale of army food supplies to lay in a good stock of staple groceries, the first few days of the sale registering a large number of orders.

The local office has been advised that the Portland office is charging the second zone rate of parcel post, and although not officially advised, the local office is booking all orders at this rate. This means a saving of at least two-thirds of the postal charges to customers and effects a material saving in the cost of the groceries laid down here.

From inquiries at the local office it is evident that a number of prospective customers are not thoroughly familiar with the method of ordering and this unfamiliarity may result in their failure to secure a portion of the supplies now being offered by the government.

To cite an example: The bacon offered by the postal department comes in 12-pound cans, 6 cans making a case. Nothing short of case lots is sold. This would mean that to secure bacon an order must be placed by the local postoffice for at least 72 pounds of bacon. It is not probable that one customer would place an order for this amount, and to make the purchase of bacon possible the postoffice officials have been advised, and have in turn advised their customers, that orders for less than case lots of bacon, or any commodity offered (bacon in this instance being used merely as a case in point), may place their orders with their local postoffices, and the office will pool all such small orders, making up case lots for ordering from the distribution point.

It was pointed out at the local office, in this particular, that it might be possible that the total number of orders for any commodity as placed with the Oregon City office, might not total one full case, and in this case the officials would be unable to place an order and the customers would be disappointed in not receiving the goods ordered. To avoid such a contingency it was suggested that neighborhood orders be made up—that is, a number of different parties pool their orders for supplies in such a manner that when they are placed with the local postal officials they will amount to case lots, or units of case lots, the order being placed with the postoffice in one individual's name. In this manner the order will not be held up and there will be less possibility of the order being turned back because of the supply being exhausted.

LOW RATES MADE FOR GRAND ARMY MEET BRING BIG RESPONSE

PORTLAND, Aug. 25.—Low rates and liberal ticket limitations granted by the railroad administration to members of the Grand Army of the Republic and affiliated organizations for the G. A. R. convention at Columbus, Ohio, September 14, is drawing large numbers of early ticket purchasers and a heavy Pacific coast attendance at the convention is expected.

Tickets were placed on sale August 15, with a round trip fare from Portland of \$59 and \$41 war tax.

MOLALLA RESIDENTS PLAN BOOSTER MEET; DISCUSS GOOD ROADS

At a meeting held by some of the prominent residents of Molalla Friday evening arrangements were made for holding a good-roads meeting in that place. The date for the meeting was set for September 6. This will be one of the best events of a similar nature ever held in that vicinity, and is expected to be an all-day affair, with many attractions besides the regular business of the meeting to entertain the crowds who are expected to be in attendance. Among these will be a band from Portland, dancing and airplane flights, as well as addresses by some of the most prominent men of the state, among others being Samuel Hill, Rufus Holman addressing the meeting Friday.

A committee was named at the meeting Friday to make further plans for the meeting. The executive committee is composed of the following: W. J. Vick, Liberal; Rev. C. H. Renhard, and Oscar Hult, Colton; Herman Chingren, Meadowbrook; D. L. Trullinger, Union Mills; Gordon J. Taylor, Dr. E. E. Todd and W. W. Everhart, Molalla. Gordon Taylor was named chairman of the executive committee.

The object of the celebration is to get all of the people of the road districts of the southern part of the county together for the purpose of formulating plans for the building of permanent roads and highways.

Harvard Graduates Who Are Leaders in Drive For \$11,000,000 Endowment Fund.

Above, left to right: Thomas W. Lamont and Elliot Wadsworth. Below, left to right: Charles H. Haskins and Mitchell Davis Follansbee.

More than a hundred famous men from all parts of the country have been brought together by the "Old Grads Summer School," the object of which is to help raise an endowment fund of \$11,000,000 for Harvard University. Here are four men who are "students" and prominent in the movement. They are Thomas W. Lamont, of J. P. Morgan & Co., and financier, and Charles H. Haskins, president of the National Forest Service, and Charles H. Haskins, president of the National Forest Service, and Charles H. Haskins, president of the National Forest Service, and Charles H. Haskins, president of the National Forest Service.

ATTY.-GENERAL WARNS WETS TO OBSERVE LAW

WASHINGTON, Aug. 27.—Recent arrests in New York for violation of the prohibition law will be followed immediately by "clean-ups" in other cities, Attorney-General Palmer announced today. He declared that liquor dealers who thought the law enforcement activities of the department of justice had been laid aside for the high cost of living investigation would be shown they were mistaken.

"Some cities opened wide when it was thought we were so busy with reducing prices that we could not see anything else," Mr. Palmer said. "We are going to change that condition. The people out where the fields are green are obeying the law because it is the law, while in the cities there apparently is an attitude that prohibition can be evaded. We will show them differently."

ANTI-BOLSHEVIKI MOVEMENT SAID TO FAVOR MONARCHY

London, Aug. 25.—Now that Leninism is believed in government circles to be tottering under the ring of steel forged by the anti-Bolshevik armies, attention both in and out of official circles is centering upon the possibility of a coup to restore the monarchy in Russia.

Indications are piling up that the adherents of the Romanoff family, the former ruling dynasty of Russia, are active.

The summer campaign against the Bolsheviks has been meeting with greater success than any other offensive that has been undertaken against the forces of Lenin and Trotsky. With the British furnishing large stores of war materials and the Roumanians undertaking an offensive in conjunction with the South Russian army under General Denikin developments of high importance—both military and political—are already looming on the horizon in Russia.

ROOSEVELT FIELD, MINEOLA, L. I., Aug. 25.—American's greatest air race began here this afternoon when a fleet of airplanes set out for Toronto in the contest for a \$10,000 prize. Lieutenant P. H. Morgan, in a Le Pere machine, was the first to get away here. He started at 1:55 p. m.

The second flyer to start was Captain J. F. Footes in an A. L. W. F. machine.

ATTORNEY GENERAL IS AWARDED MONEY TO HUNT PROFITEERS

WASHINGTON, Aug. 25.—Attorney General Palmer will be granted a fund of \$2,400,000 to conduct his nationwide drive upon profiteers, but the requests of the departments of labor, commerce and agriculture for special funds will be turned down by congress, according to members of the house appropriations committee.

It was stated also that the request of the Federal Trade commission for \$500,000 for the employment of special investigators probably would be turned down also.

"We'll give the attorney general all he asks for and then expect him to start immediate action in the courts," said Representative Good, chairman of the committee.

When the anti-profiteering law, which passed the house last Friday, comes up in the senate, probably this week, an effort will be made to put back in the measure the exemption for retailers doing an annual business of less than \$100,000 a year, and Senator Harrison of Mississippi will attempt to have rent profiteers included in the provisions of the measure, which as it now stands, sets a penalty of a \$5000 fine or two years' imprisonment, or both, as the penalty for hoarding or profiteering.

U. S. TROOPS TO CONTROL CONDITIONS IN MEXICO

WASHINGTON, Aug. 26.—Although the policy of the United States government toward Carranza is officially described as unchanged and although the incident of the capture and release of the two American aviators virtually is closed, it may be stated positively that developments of the first magnitude are soon to take place south of the Rio Grande. Information which has been slowly but surely accumulating, for the United States as well as other governments, indicates that the following events, reluctantly or otherwise, must be regarded as inescapable:

"First, the United States must intervene in Mexico, and take over the affairs of the Mexicans as completely as it did in the case of Cuba.

"Second, the fact of coming intervention is now recognized and the time set is being estimated at six months or even less, though this latter is admittedly an uncertain factor.

"Third, the reason for intervention is not because of Carranza's arrogance or bandit raids or sporadic cases of infringement of American rights, but because the country has simply gone to pieces beyond recall and no other possible solution looms up."

One of the best animal swimmers in the horse. Horses have been known to swim a river nearly a mile wide simply to get back to their old stables.

WATERSHED RESERVE BILL IS RECEIVING FAVORABLE ACTION

The bill recently introduced in the House of Representatives which proposes the reservation of certain sections of the watershed of the Clackamas river basin for the more adequate protection of the water supply of Oregon City is reported to be receiving favorable attention in a letter recently received in this city from Representative Hawley in Washington.

Representative Hawley stated in his recent communication that Secretary Houston of the Department of Agriculture has suggested a number of minor changes in the bill and in order that these changes may be brought before the people of Oregon City that they may be fully cognizant with the exact nature of the bill the text of the proposed amendments is published:

In the opinion of this Department, however, it is believed that the bill should be more elastic in regard to disposition of timber, so that it could be disposed of under the usual regulations prescribed for sales and free use from other National Forest lands which have proven satisfactory to other municipal officials. These would permit of a more equitable method of handling the timber for the benefit of the local settlers and other Forest users, if it is found that the timber may be cut without impairing the watershed values, since under the Act of June 4, 1897 (30 Stat., 11, 35.), sales up to \$100.00 stumpage value may be made without advertisement, and free use may be allowed settlers and others for firewood, fencing, buildings, mining, prospecting and other domestic uses. Also, under the Act of August 10, 1912 (37 Stat. 269), mature, dead and down timber may be sold at actual cost to homestead settlers and farmers for their domestic use. These Forest Service regulations have heretofore proven adequate upon watersheds needed by other municipalities and would no doubt be just as effective on these lands.

"For that reason it is suggested that the following amendments be made to Section 2:

Strike out the word "sale" in line 18 and substitute the word "cut." Strike out of line 21 the words "sell and" and also the phrase "to the highest bidder."

This Department has had considerable experience in the administration of lands on watersheds needed by municipalities. At the present time more than 1200 cities and towns obtain water from watersheds within National Forests. Many of such municipalities have entered into cooperation engagements with the Forest Service. It is believed, therefore, that with the amendment suggested above the bill would be entirely workable and would accomplish what is desired by the municipal officials of Corvallis, Dallas, Oregon City and Ashland.

For these reasons the Department recommends favorable consideration of the measures with the proposed amendments.

Very truly yours,
(Signed) D. F. Houston,
Secretary.

KAISER'S NEW HOME AS SELECTED BY WIFE HAS ONLY 12 ROOMS

AMERONGEN, Aug. 23.—The former German empress personally selected "The House of Doorn," which William Hohenzollern has purchased as the future home in which she and her husband hope to live the lives of country gentlemen in Holland.

The former emperor has not yet seen "The House of Doorn," but it is announced in Amerongen that he will soon pay a visit to Doorn.

The house, though rich in history and imposing in appearance, has only 12 rooms in addition to small chambers for servants.

ASTORIA OPENS FIGHT AGAINST RED ELEMENT WITH LOYAL LEGION

ASTORIA, Aug. 26.—The two outstanding developments of the past 24 hours in the fight of Clatsop county's ex-service men to rid this section of pro-Germanism, and all other isms, except pure red-blooded Americanism, were the declaration of the members of Clatsop post No. 12, to stand back of its president, Jesse R. Hinman, in his fight against the Toveri, Finnish daily newspaper, and the Astoria News, the so-called labor paper, and the declaration of the editor of the latter, Miss Clara Irvin, that she "is Bolshevik to the core."

This declaration was made late yesterday afternoon under oath while she was under examination during the trial in police court of her charge against Hinman of disorderly conduct.

VETERAN OF FORMER WARS FROM THIS CITY RETURNS FROM FRANCE

Mrs. K. L. Newton, of this city, received a telegram Thursday morning from her son, Major Frank Newton, telling of his arrival at Camp Merritt after almost two years' service in France. He will be temporarily stationed at that camp.

Major Newton is a well known young man of this city, and since entering the service has been rapidly

MAJOR FRANK NEWTON

promoted. He has had much military experience, having been in the regular army during the Spanish-American war and was also in the regular army during the Boxer Uprising in China, having been highly commended by his commanding officers for bravery during those two wars. He has been with a headquarters company in France.

SALEM CONVICT IS RECAPTURED NEAR DESCHUTES

SALEM, Aug. 27.—D. C. Brichoux, who with Edward Southwick escaped from a truck while being taken from the state hospital to the prison flax fields near Turner several weeks ago, was captured today in Deschutes county, according to a telegram received by penitentiary officials here today. No details of the arrest were given.

Southwick, who also was reported to have been seen in the Bend country recently, is believed by officials to be making his way toward Nampa, Idaho, where his relatives live. Officers there have been requested to keep a close watch.

CHICAGO PAYS WELL FOR SALEM BERRIES AND OTHER PRODUCTS

SALEM, Aug. 25.—An average price of 72 cents a pound has been realized by the Salem Fruit union on all its berries, held in Chicago, according to Manager Paulus, who adds that the berry screenings have been sold to a flavoring manufacturer for 45 cents a pound. A carload of dried loganberries valued at \$29,000 was shipped out here by the union to Canada last Friday.

WILLAMETTE VALLEY FARM BUREAU AFTER CANADIAN THISTLES

Those counties in the Willamette valley that have organized farm bureaus are actively taking advantage of the recently enacted legislation affecting the control of the Canadian thistle, and for the first time a concerted drive is being made upon this dreaded pest.

In Washington county the matter has been brought to the attention of the county court by the farm bureau and publicity has been given the new law.

The executive committee of the Clackamas county farm bureau has asked the county court to employ the necessary assistance to put the law into effect in that county. For two years the Clackamas county farm bureau has been active in Canadian thistle control and last year succeeded in preventing many patches of this serious weed going to seed.

CALIFORNIA RAILROAD STRIKE IS SPREADING

PORTLAND, Aug. 27.—Cancellation of one Southern Pacific passenger train between San Francisco and Portland, further limitation of ticket sales to Southern California and possibility that further freight embargo orders would be announced over the Southern Pacific today, is the local effect of the spread of the Southern Pacific sympathetic strike to San Francisco Tuesday.

Railroad wire service because of the sympathetic walkout at San Francisco Tuesday has been very bad, but the Southern Pacific received official word from the Shasta division this morning that train No. 54, which would have arrived in Portland at 7:20 o'clock Thursday morning, has been annulled until further notice.

LOS ANGELES, Aug. 27.—California, Nevada and Arizona are almost entirely isolated from the remainder of the nation today as the result of the railroad tieup. The Southern Pacific railroad admitted that it is not moving trains in any of the three states.

The tieup of the Salt Lake road extends as far east as San Bernardino. Santa Fe service is cut off west of Needles.

On both the Salt Lake and the Santa Fe the danger of the spread of the strike further eastward is imminent. No Santa Fe trains enter Nevada.

No trains are leaving or entering Los Angeles today, according to the United States railroad administration. Tons of decaying fruits are either being thrown into the river or turned over to the city's poor, as a result of the freight tieup in the Southern Pacific yards.

JOHNSON CANDIDACY FINDS FAVOR; COAST HEARS OF PROSPECT

Portland, Aug. 22.—"Hiram Johnson for president," is the slogan brought to Oregon by Percy V. Long, prominent San Francisco attorney and politician and emissary from the campaign camp of the California senator to sound out the sentiment in Portland on the next presidential campaign.

California is strong for Johnson, according to Mr. Long, and his home supporters plan to thoroughly organize that state to boost his nomination; then they will organize Oregon and plan to launch a national campaign to sweep the west and overrun the East.

"Prominent men in all walks of life are telling us that the greatest development of the nation commercially and industrially during the next ten years will be on the Pacific coast," said Mr. Long. "If the Pacific coast is to reap the benefits from this development we should have a Western man at the head of the nation, and in looking over the field we have arrived at the conclusion that Senator Johnson is the best and biggest man for the position."

STATE GRANGE WILL INCORPORATE AND OPERATE EXCHANGE

Articles of incorporation of the State Grange Cooperative Exchange were filed at Salem Saturday.

The purpose of the new exchange, which is the outgrowth of the cooperative store operated by the State Grange at Sherwood for the past year, is the marketing of the products of the farmers belonging to the State Grange through a central office and also the purchasing of all supplies needed by the members through the same agency.

The new Exchange has established offices at 272 Third street, Portland, and will be in charge of Mr. Chas. H. Hayes.

The State Grange Cooperative Exchange does not attempt to engage in a retail business in the selling of the products of its members, but endeavors to dispose of its products to the wholesale trade, the exchange acting in the capacity of intermediary for the producer and wholesaler at the minimum of time and monetary loss and expense to both parties, along lines similar to those adopted by the fruit and citrus growers of California.
