

OREGON CITY ENTERPRISE

FORTY-NINTH YEAR—No. 17.

OREGON CITY, OREGON, FRIDAY, APRIL 23, 1915.

ESTABLISHED 1886

CAPITAL CITY IS
DESTINATION OF
ELECTRIC ROADCOOPERATION OF PROPERTY
OWNERS IS NECESSARY FOR
EXTENSION TO SALEM.CONSTRUCTION SOUTH OF MT.
ANGEL MAY BEGIN NEXT FALLApproval of Big Bond Issue by Port-
land Railway, Light & Power
Co. Assures Money for
Addition to Line.Salem is the goal of the Willamette
Valley Southern.This is the assertion of Judge Grant
B. Dimick, president of the road.

Two things are awaited before the
construction of the extension of the
road beyond Mt. Angel, the present
terminus, can begin. When the Port-
land Railway, Light & Power company
approved the \$3,000,000 bond issue of
the Willamette Valley Southern, the
restriction was made that the line
could not be built past the Marion
county town until the road was on a
paying basis. Judge Dimick believes
that this point will be reached about
October.

Co-operation of Farmers Awaited.

The other thing awaited is the
co-operation of people between Mt.
Angel and Salem. The company will
not ask that subscriptions to either bonds
or stocks be taken but it will be ex-
pected that right of way will be do-
nated.

The money for the extension is al-
ready in sight. About a year ago the
Portland Railway, Light & Power com-
pany approved a \$3,000,000 bond is-
sue so that there will be no difficulty
when the time comes to market the
bonds. Of the total sum, \$650,000 of
the bonds have been sold which was
enough to complete the work to
Mt. Angel. The rest of the issue will
be used in construction down the val-
ley.

Even though construction work can-
not begin until the first unit of the
road to Mt. Angel is on a paying basis,
it is probable that officers of the Wil-
lamette Valley Southern will go into
the country during the coming sum-
mer to secure rights of way so that as
soon as the line is on a paying basis,
the work of building the road can be-
gin.

The only point that can delay the
work, in the opinion of Judge Dimick
is trouble in obtaining rights of way.
The definite route has not been made
public.

The construction of the line from
here to Beaver Creek represents the
most expensive work on the entire
route to Salem. The country east and
southeast of Oregon City is cut with
gullies and many creeks. One trestle
is almost 300 feet long and over 200
feet high and there are a number of
cuts containing several thousand cubic
yards. Through the Molalla country
and on south out of Mt. Angel, the
country is level and there the con-
struction problems are comparatively
simple.

The plan of building an electric road
south out of Oregon City has long ex-
isted in the minds of business men
of Clackamas county. About 10 years
ago, Judge Dimick, with a few asso-
ciates, began a survey through the
country east of Oregon City. While
the survey was under way, the late F.
M. Swift, then a traveling man, came
to Oregon City, went through the Mo-
lalla country and returned an ardent
believer for the project.

Following Swift's first trip, there
came long years of discouragement
when powerful interests, controlling
other lines in the valley, succeeded in
blocking every attempt of the local
line, then known as the Clackamas
Southern. Finally early last year, the
Portland Railway, Light & Power com-
pany became interested and traffic
agreements were made whereby the
big electric company approved the
bond issue of the local road. In ex-
change, the Willamette Valley South-
ern has granted the Portland Railway,
Light & Power company traffic con-
cessions and is now using power from the
River Mill plant of the latter company.

Extension Suggested at Mt. Angel.

With the money in sight and with
every financial difficulty overcome, the
completion of the line south to Mt.
Angel was assured. The road was
completed to the Marion county town
late in January. There were three
passenger trains and one freight mak-
ing a round trip daily when the ser-
vice was first inaugurated but already
the company has added a fourth pas-
senger to accommodate the increased
patronage.

DESERTION IS CHARGED.

Charging desertion, Mrs. Grace
Simpson has filed a suit for divorce
against Walter A. Simpson. They were
married April 22, 1913, at Van-
couver, Wash.

H. E. WEEDS PRAISES
LOCAL SCENIC BEAUTYBUT LANDSCAPE ARCHITECT DE-
CLARES ADVANTAGES SHOULD
BE DEVELOPED

That Oregon City has unusual nat-
ural advantages that if properly de-
veloped would add to its beauty as a
town, was the statement of Howard
Everts Weeds Wednesday night at the
high school.

The entertainment which was illus-
trated by stereoscopic slides was
under the auspices of the school au-
thorities and the Parent-Teacher as-
sociation. The school auditorium was
well filled.

Mr. Weeds urged greater care in beau-
tifying lawns, school yards, curbs and
parks. He asserted that the attrac-
tiveness of a town could be greatly
increased by a systematic development
of lawns, parks and streets. He also
strongly approved of school gardens.

Mr. Weeds is a graduate of landscape
architecture of Cornell university and
is supervisor of gardens and landscape
gardening for the Portland public
schools.

EX-GOVERNOR IS
WINNER IN SUIT
BY SALOONMANBAKER JURY IS OUT SEVEN
HOURS IN COPPERFIELD
CASE.OUTCOME OF THIS ACTION
DECIDES OTHERS AS WELLMr. West, When Told of Victory, Is
Greatly Pleased—Outcome Was
Surprise to Attorneys
on Both Sides.

BAKER, Ore., April 17.—Ex-Governor
West won tonight in the suit
brought in circuit court here against
him by William Wiegand, Copperfield
saloonkeeper, for damages alleged to
have been caused by the removal of
liquor and saloon fixtures from his sal-
oon, when Governor West declared
martial law in Copperfield after Fern
Hobbs' visit on January 2, 1914.

The victory means that, according to
the court, Mr. West had a right to de-
clare martial law and to use the mil-
itary according to his reasonable dis-
cretion, and that the conditions in Cop-
perfield before the raid warranted it.

The jury returned the verdict at 7:45
o'clock, after being out seven hours.
Nine were for ex-governor and three
dissenting. The first several ballots
the jurors stood eight for the defend-
ant and four against, and the dissent-
ing ones did not change until after 7
o'clock.

Ex-Governor West was not present,
although he was notified in time. At
the Geiser Grand Hotel, while packing
to leave for Portland, he clearly
showed elation.

"I came here convinced I would get
a square deal, even should I lose," he
said. "I was naturally anxious that
the verdict should be in my favor, for
the case has been one which attracted
statewide attention, as having the
great question of human rights. The
question, I believe, is now settled for
good and all, and the rights of the hu-
man being are acknowledged to be su-
perior to those involving property."

PRESIDENT TO WED
WIDOW, SAYS SEERPROFESSOR KODAMA PREDICTS
WAR WILL END IN THE
FALL.

PORTLAND, Ore., April 20.—Profes-
sor Don-Sho Kodama, of Tokio, Ja-
pan, wearing mustache, beard and
burnsides, groomed in a cutaway and
carrying a high silk hat yesterday re-
lated not what has happened, but what
will happen.

Professor Don-Sho Kodama is a
seer from Nippon who uses the Sengai
blocks, sacred bamboo sticks, prayer
and imagination to solve the mysteries
of the future. His system, not yet
popular in Portland, is 4000 years old
in Japan and is called "Divination."

President Wilson got his told for
nothing, for Professor Kodama yester-
day had a dream or vision regard-
ing the chief executive and made the
announcement that the President will
marry an American widow about 40
years old next March and will reside
with her in New York. They will have
two daughters and their lives will be
long and full of happiness.

President Wilson will be the man to
bring the war to a close, the sage ad-
ded. But he cannot be president of the
United States any more. The profes-
sor asserts that the Republican party
will resume charge of the office after
Mr. Wilson's first term expires.

LINE TO SANDY
P.R.L. & P. PLAN
SAYS PRESIDENTFRANKLIN T. GRIFFITH TELLS OF
18 MILE EXTENSION PRO-
POSED IN COUNTY.JITNEYS CUT EARNINGS OF
POWER COMPANY, HE DECLARESCrown-Willamette Mill Asks for Site
on West Side of Willamette
River to Erect Hydro-
Electric Plant.

SALEM, Ore., April 16.—Declaring
that the company's earnings virtually
were at a standstill as a result of un-
regulated jitney bus competition, un-
necessary lighting competition and the
business depression, Franklin T. Grif-
fith, president of the Portland Rail-
way, Light & Power company, closed
the testimony today in the hearing by
the state railroad commission to de-
termine the value of the properties of the
corporation.

Adjustment of rates is the purpose
of the investigation, which has been
in progress for three months. The
corporation is the largest in Oregon,
and the commission has more than
7000 pages of testimony.

Mr. Griffith announced that the com-
pany planned building a railroad
either from Cottrell on the Mount
Hood line, or Boring, on the Cazadero
line, through Sandy for a distance of
18 miles. He said that men, whose
names he was not at liberty to divulge,
were negotiating with the company for
the construction of the line.

"There are 400,000,000 feet of the
finest timber in the world six miles
from Sandy, and these men want to
market it in Portland," continued Mr.
Griffith.

The railway man said that the land
owned by the company on the east
side of the river from Hawthorne av-
enue to the Oaks, was not so valuable
as has been thought. It was used now,
he said, principally for logging opera-
tions, the logs being floated down the
river and held there until they were
transported over the company's line to
the paper mills at Oregon City.

The president announced that the
Crown-Willamette Paper company had
asked the railway company to furnish
it a site on the west side of the river,
near station B, upon which to erect a
hydro-electric plant, but that the com-
pany hesitated to grant the request. It
believed that the paper company event-
ually would need a great amount of
power, and there would not be suffi-
cient for both corporations and ex-
plained the water rights of the railway
company at the falls at Oregon City.

OVER 100 MEN NOW
AT WORK ON PIPELINECOPENHAGEN BROTHERS OPEN
UP ROAD ALONG BANKS OF
THE CLACKAMAS.

With the beginning of the second
week of active construction of the
South Fork pipeline, over 100 men are
now employed along the route. Work
between the Abernathy and Clear
creek which was the first to receive at-
tention of the contractors, is further-
progressed. Clearing has been com-
pleted in many places and men are
now digging the trench for the pipe.

Copenhagen Brothers, the subcon-
tractors for the upper 10 miles of the
line, are now installing three construc-
tion camps and opening up the old
Southern Pacific grade along the
Clackamas. Although they have been
at work on this road for only about a
week, teams can now go within a mile
of the mouth of the South Fork. Pipe
and supplies will be ferried across the
river as the right of way is not on the
same side of the river as the old rail-
way grade.

Harold A. Rands, engineer for the
water commission, and Adam Knight,
county commissioner, spent the greater
part of Monday going over the sur-
vey wherever it touched on the county
road.

SIX ON NEW GRAND
JURY ARE FARMERS

The only member of the grand jury
which was drawn Monday who did not
give his occupation as farmer is J. A.
Lisberg, an abstractor living in the
county seat.

Ward B. Lawton, of Mt. Pleasant and
secretary of the Clackamas County
Fair association, is foreman. The other
members are: F. C. Burk, J. A. Lis-
berg, C. C. McLoughlin, Ed Bates, Wil-
lam Bonney and O. F. Frentress.

LONDON, April 20.—According to a
dispatch from Amsterdam trains of
heavy artillery are leaving West Ger-
many for the Austro-German front in
the Carpathians.

45-POUND SALMON CAUGHT

Dick Long caught a 45-pound
salmon Wednesday morning. It is
one of the largest caught this sea-
son. The fish was put on display
in the window of Wilson & Cooke
and attracted the attention of
many. The salmon made a hard
fight and was not landed until
Mr. Long had received the aid of
his son.

PROJECT FOR NEW
COUNTY WOULD
CUT CLACKAMASSHERWOOD IS LATEST TOWN
THAT ASPIRES TO BE
COUNTY SEAT.WASHINGTON, CLACKAMAS AND
YAMHILL, VICTIMS OF PLANCampaign Under Way by Commercial
Club—Principal Reason Is Due
to Railroad Facilities
to Hillsboro.

SHERWOOD, Ore., April 17.—Presi-
dent J. E. Morback of the Sherwood
Commercial club, has called a meeting
for April 22, at which time the new of-
ficers will be elected and many mat-
ters of great importance will be dis-
cussed.

One of the most important subjects
for discussion is the question of open-
ing the campaign for a new county to
be apportioned from part of Yamhill,
Clackamas and Washington counties
and to be known as Sherwood county.
This movement first was started fully
15 years ago, but the leaders gave up
the fight after a few weeks' campaign.

Plans are being made for an exten-
sive campaign for the new county.
Meetings will be held, literature will
be sent broadcast to members of the
state legislature and officials of Ore-
gon fully advising them of the plans
of the campaign, etc.

The principal reason for the move-
ment is the fact that Washington
county transportation facilities are not
such as will permit of a trip to the
county seat of Hillsboro, or Oregon
City, within less time than 10 to 12
hours from various sections of the
county.

BARLOW SALOONMAN
IS FOUND GUILTYJURY IN JOE KING CASE IS OUT
ONLY ABOUT HALF
AN HOUR.

Joe King, one of the few remaining
saloonkeepers in Clackamas county,
was tried and convicted Monday in the
circuit court on the charge of selling
liquor to a minor. The jury was out
about half an hour.

King is charged with selling whis-
key to Felix Baty, a Molalla boy, aged
18 years. His defense consisted of a
general denial to the charge. King
will be sentenced Wednesday.

The man was indicted on two counts
by the grand jury but the principal
attorney on one charge has left the county
and cannot be located.

The trial of King Monday was the first
of a series of criminal cases during
the next two weeks. Probably the
most prominent will be that of Jake
Levitt, who is charged with securing
money under false pretenses, Satur-
day.

DELEGATES NAMED
FOR PRESS CONGRESS

The following delegates were ap-
pointed Thursday by E. E. Brodie,
president of the Oregon State Editorial
association to represent the associa-
tion in The International Press con-
gress at San Francisco, July 5-10:

Edgar McDaniel, Coos Bay Harbor,
North Bend; Elbert Bede, Sentinel,
Cottage Grove; George Palmer Put-
man, Bulletin, Bend; G. A. Robbins,
Record, Pilot Rock; A. E. Voorheis,
Courier, Grants Pass; Eric W. Allen,
department of journalism, University
of Oregon, Eugene; E. H. Woodward,
Graphic, Newberg; M. E. Bain, Argus,
Ontario.

The International Press congress
dates follow immediately after the an-
nual meeting of the National Editorial
association in Los Angeles, June 23-
July 1.

For public spirit displayed in ap-
pearing in marching order on a recent
city boosting occasion, the Ashland
Commercial club has passed formal
resolutions thanking and praising the
school children of Ashland. The reso-
lutions have been read in all school
rooms of the city.

LOCKS TRANSFER
IS DELAYED FOR
SEVERAL DAYSGOVERNMENT DOES NOT YET
CONTROL CANAL DESPITE
ASSURANCES MONDAY.ELECTRIC COMPANY AWAITS THE
PAYMENT OF CASH, SAYS SULLIVANRecorder Dedman's Statement Is
Thought to Have Arrived in
Portland After Business
Hours Monday

PORTLAND, Ore., April 20.—Tele-
graphic advices from Washington to-
day were that papers in connection
with the purchase of the locks and
canal at Oregon City by the govern-
ment from the Portland Railway,
Light & Power company, had been
mailed from there Monday and are ex-
pected here Friday.

In the event delivery of the docu-
ments is made then the transfer will
probably take place that day, so the
locks will be open to the public im-
mediately thereafter. Final steps in
the matter will be taken through Col-
onel McKinstry, corps of engineers,
United States army, who will make
the payment of \$375,000 for the prop-
erty.

Despite assurances Monday night
that the government would take over
the Oregon City locks at midnight, the
transfer had not been made up to a
late hour Tuesday night. The delay
is caused by the fact certain papers
have not arrived from Washington.

The Grahams, of the fleet of the
Graham Transportation company, was
the first boat to pass through Tuesday
morning but the usual tolls were
charged against the boat, said T. W.
Sullivan.

"The locks will be government prop-
erty as soon as our company receives
the payment in Portland," said Mr.
Sullivan. "I do not understand what
is holding up the transfer now but I
suppose that there is some detail con-
cerning the abstract that has not been
cleared up."

United States engineers in Portland
requested Mr. Sullivan Monday to
speak to John Chambers, lock tender,
asking that he be retained. Mr. Sul-
livan understood that the government
would take over the property at mid-
night and so informed Mr. Chambers.

Monday afternoon, Mr. Letter, of the
Portland law firm, Griffith, Letter &
Allen, sent word to E. P. Dedman,
county recorder, asking that state-
ment be sent to Clarence L. Reames,
United States district attorney in
Portland. Mr. Dedman, about 5 o'clock
wired the information that subsequent
to March 22 there had not been filed
in his office any assignments or other
instruments in any way affecting the
property.

CAR WRECKED; ONLY
PASSENGER ESCAPESBOLTON WOMAN ONLY BRUISED
IN COLLISION WITH HEAVY
LOG TRAIN.

Although the car in which she was
riding was almost demolished by the
force of a collision with a heavy log-
ging train, Mrs. J. S. Dillow, of Bolton,
the only passenger, escaped with only
bruises and possibly slight internal
injuries. The accident occurred Sun-
day shortly before noon on the Willam-
ette Falls line of the Portland, Eu-
gene & Eastern when a logging train
collided with a passenger car.

The accident occurred about half way
between Bolton and West Linn sta-
tion. John Hickman, the motorman,
saw the train approaching, threw on
the reverse and jumped. The engine
hit with enough force to plow its way
about six feet through the front of the
car.

J. C. H. Meisner and Dr. M. C.
Strickland were called to attend Mrs.
Dillow. The former said Monday
morning that she is somewhat better.

Walter Luzzader, an engineer in the
West Linn shops, was returning from
Oswego with a lone engine. Residents
of Bolton say he passed through that
place at needless speed. The collision
occurred a short distance this side of
Bolton. The collision was apparently
due to disregard of schedules.

GRANGE MEETS SATURDAY.

Warner grange will meet Saturday
in the Grange hall at New Era. The
forenoon will be devoted to the trans-
action of business, at noon dinner
will be served and in the afternoon at
the lecture hour, Dean Butler, of this
city, will talk. Mr. Butler was recent-
ly principal of the schools at Oak
Grove and is very much interested in
educational work. He has visited
Manila and will talk on the habits of
the people located there. A musical
program has also been arranged by
Wolthy Lecturer George M. Lazelle.

UNION HIGH SCHOOL
URGED AT MOLALLASTATE SUPERINTENDENT AND J.
E. CALAVAN SPEAK AT WELL-
ATTENDED MEETING.

J. A. Churchill, state superintendent
of public instruction, was the principal
speaker at a well attended meeting at
Molalla Wednesday night. County Su-
perintendent Calavan acted as chair-
man and introduced Mr. Churchill.

Mr. Churchill declared the need of
a union high school at Molalla and re-
commended immediate action so that a
school could be opened in the fall. The
meeting was attended by men and wo-
men from school districts outside of
the town as well as from Molalla.

The proposal that the districts near
Molalla unite with the town and es-
tablish a union high school was first
suggested over a year ago and several
meetings were held under the auspices
of the Molalla Parent-Teachers' as-
sociation to further the cause.

The matter has never come to vote
and was almost dropped. Following
the meeting Wednesday night immedi-
ate action is expected.

COURT VIOLATES
STATE ROAD LAW
CLAIMED IN SUITCHARLES W. RISLEY BRINGS AC-
TION AGAINST COMMIS-
SIONERS AND JUDGE.STATUTE DISREGARDED IN 45
DISTRICTS ALLEGES PLAINTIFFCounty Officials Were Warned of Law
But Construed it Differently
From Taxpayer Who
Wants Court Order.

In an effort to compel the county
court to respect the state law which
provides that all road work in districts
wherein \$1000 or over is spent be done
by contract or under the supervision
of the county surveyor or roadmaster,
Charles W. Risley filed a suit in the
circuit court Friday afternoon, asking
for a court order restraining further
expenditure in this manner. The suit
was filed through the office of John
F. Clark.

Mr. Risley alleged that the law is
being violated in 45 of the 60 Clackamas
county road districts. He names the
following: 1, 2, 3, 4, 5, 6, 7, 9, 10,
11, 12, 13, 15, 17, 18, 19, 21, 22, 23, 24,
25, 26, 28, 30, 31, 32, 33, 34, 35, 37,
38, 40, 41, 43, 47, 49, 51, 52, 54, 55,
56, and 58.

The county court was reminded of
the law over a year ago but got around
it by interrupting it to mean that it
applied only to individual jobs amount-
ing to \$1000 or over. The plaintiff
takes the stand that it applies to every
district in which \$1000 or over is
to be spent during one year.

Mr. Risley lives in road district No.
47. He alleges that in his home dis-
trict \$3573.93 will be spent during this
year under the supervision of E. D.
Olds, road supervisor. Mr. Risley was
a member of the house in the 28th
legislative session.

County Judge Anderson, Commis-
sioners Mattoon and Knight and Clerk
Harrington are named defendants by
the action.

PAPER LOADED HERE
FOR BLAKE-M'FALLBEFORE FIRE IS OUT, SHIPMENT
IS READY FOR VICTIM OF
BIG FIRE.

When the fire in the Blake-McFall
building Portland, was at its height
about 9 o'clock Sunday night, em-
ployees of a local paper mill were load-
ing a car with news and wrapping pa-
per for the new store of the big whole-
sale firm.

As soon as the management of the
wholesale company saw that probably
none of the paper would be saved,
word was sent to Oregon City to pre-
pare a shipment to leave Monday
morning. A warehouse was rented be-
fore the first was put out and the firm
was ready for business at the usual
time Monday morning.

PORTLAND, Ore., April 19.—Thirty-
nine firemen were injured or overcome
by smoke and heat, some seriously,
and damage, roughly estimated at
\$250,000, was done by the fire of un-
known origin, starting at 7 o'clock last
night, that practically wiped out the
downtown offices and storerooms of
the Blake-McFall company, wholesale
paper dealers, at Fourth and Ankeny
streets.

PROGRAM IS OUT

Astoria, Lower Columbia..... May 6
..... May 7-8

The tentative program for The Dal-
les-Celilo canal-Oregon City locks ce-
lebration here May 6, was made public
Monday afternoon by T. W. Sullivan
and M. D. Latourette, the committee in
charge of the local celebration.

Invitations have been sent to all
towns in the Willamette valley to
take part in the event. Cities along
the river are requested to send dele-
gations by boat to join the Ruth and
Lang which will leave Oregon City for
Portland early in the afternoon. Mc-
Minville is the first to respond with
an offer to send a delegation of 100
persons. Eugene, Salem, Newberg,
Harrisburg, Corvallis and Albany,
on the river, are expected to accept the
invitation by sending delegations on river
boats and Woodburn, Silverton, Mo-
lalla, and a score of other towns not
on the river will probably have repre-
sentatives here.

The tentative program follows:
8:30 to 9:15 a. m.—Band concert.
Seventh and Main streets.

9:15 a. m.—Assembling of boats
from all Willamette valley points and
Portland.

9:30 a. m.—Arrival of queens in auto-
mobiles from Portland.

9:45 a. m.—Monster foot and auto
parade from Fourteenth to Second
street on Main and return to court-
house.

10:30 a. m.—Speeches from court-
house steps:
Address of welcome by Mayor Jones.
Response, by mayors of Salem, Al-
bany, Eugene and McMinnville.
Address by Governor Withycombe.
Addresses by other men from valley
towns and from Portland, yet to be se-
cured.

Noon—Dinner at Commercial club.
Present will be the queens, the gov-
ernor of the state, senators and rep-
resentatives from Clackamas county,
mayor, board of governors of the Com-
mercial club, mayors from valley towns
and other distinguished guests.

1 p. m.—Board of governors, queens,
guests, Governor Withycombe, may-
ors of valley towns and others take the
flagship Lang at Eighth and Main
streets and others take the Ruth.

1:15 p. m.—F. T. Griffith, president
of the Portland Railway, Light & Pow-
er company, will deliver the locks to a
representative of the federal govern-
ment. Locks will then be proclaimed
free forever to the public by Governor
Withycombe. A band on the flagship
will play the national tune. Boats
will move through the locks free of
charge and will then pass on to Port-
land to take part in the parade in the
Portland harbor.

One of the interesting details of the
ceremonies at the locks will be trans-
porting of a 10-gallon jar of water
from the upper river to the lower. The
jar will be broken in the lower lock
chamber.

This program is, of course, only ten-
tative. As the event is almost three
weeks distant, changes and additions
will be made, said Mr. Sullivan Mon-
day afternoon.
