One matter that our city should take an interest in came up before the Live Wire at Tuesday's luncheon. Capt. Noble brought up the matter of having a playground or public sports park for our boys and girls—a place to play base ball, football and other sports. There probably isn't a city in Oregon of our size but what has a place of this kind, and there is no limit to the purposes such a field can be used for. If centrally located, but the means to acquire such a field is the trouble. There are too many who would not favor it at public expense and too few who would take private interest enough.

SCHUEBEL-BFQUEIHH.

Thomas in pink. Melvin Ogden, director of the University of Oregon glee club, played "Lohengrin" wedding march. The marriage took place in the living room, under a canopy of cedar boughs and white carnations. Just before the ceremony, Mrs. Lee Des Larzes sang very beautifully, "Oh Flower of All the World."

The bride was beautifully gowned in white crepe meteor, with pearl trimmings, and carried a shower bouquet of brides' roses and lilies of the valley.

The maid of honor wore pale green chiffon over silk and carried pink carnations.

The Dalles.—As the result of a worktrain on the Deschutes railroad hitting a large snowbank, Mike Zaklan, a laborer, is dead and Lem Glevanovich is not expected to live. Zaklan was so seriously crushed that he died almost instantly.

Land Values Rise in Harney

Burns.—The beginning of railroad construction is having its effect in stimulating real estate values here. Most of the landowners who hold valuable water rights along Silvers river, Malheur lake and even small creeks, who a few years ago would have been glad to have parted with their land for \$20 to \$30 per acre, expect it to be worth \$50 to \$100 per acre as soon as the railroad reaches this valley.

TESTING PLAN SUPPORTED

Mining Towns Indorse Idea of Having Scientific Stations Established

Baker.—Every mining town in eastern Oregon is making strenuous efforts to further legislation in congress to authorize ore testing plants for Oregon, from the \$100,000 appropriation recommended by Secretary of the Interior Fisher. The mining organizations of Baker, Sumpter and Prairie City, as well as the commercial clubs have passed resolutions endorsing and promising financial support to the movement that has been inaugurated by the Oregon Mining Congress. The plan of the Oregon Mining Congress is to have a plant in Baker and Grants Pass. The testing plants hold the same relation to the mining industry as does the experiment stations to agriculture. Judge Thomas C. Burke, of this city, president of the Oregon congress, and L. D. Mahone of Portland, secretary of the organization, have completed a tour of the entire district and the plan was approved and support promised in every camp.

It is claimed that the orient will soon be large purchasers of Oregon plants. They can be sent by mail, parcels post, in 11 pound packages to Japan, cheaper than they can to Portland.

LANE SEEKS ROADBUILDER

County Desires Expert Engineering Advice in Highway Construction.

Eugene.—Employment of an expert roadbuilder, to have direct charge of all road construction in Lane county, was decided upon by the county court, and the court is now seeking a suitable man for the place. A practical man, capable of directing the work, and of giving the county expert engineering advice, is what is wanted. The court expects to keep for itself the planning of road work and the final say as to what roads are to be improved and how, but they want an expert who will advise them as to the best forms of construction to use in the different sections of the county, and to give accurate estimates of all the different elements of cost of any proposed improvement. The present road supervisors will not be displaced, but will rather be aided by the expert.

There are over 1500 miles of road in Lane county, little over half of which have any sort of improved surface.

Crockery and Glassware
THIS is not the only store that sells Crockery and Glassware in this state, but it is the one that sells reliable Crockery and Glassware.

It may be news to you that a cup and saucer made of the same material and finished in the same way, may have two grades—"firsts" and "seconds." This is caused in the making, firing and handling of the cup and saucer. The cups and saucers that come out of the process best are "firsts" and the next are "seconds." It is the same with Glassware. Most stores carry "seconds" only. We carry both.

But when we offer you the best Crockery and Glassware at this store it is the best. Inspect our stock, compare our prices with those of any other store—Then look at the quality.

Just received a large shipment of up-to-date Dinner Sets from the Homer Laughlin China Co. See our window display. We've got something to please you at the lowest prices ever made in this city.

Sweet and Hard. The Royal hand with a royal for the king, Louis XIV., the "Sun King" of France. The king was on his knees and was the whole court. The monarchy kept the awkward attitude until the end of the reign. After rising, the king turned to the Count de Grammont and asked how he found the music. "Very sweet to the ear, sir, but very hard on the knees."

BALD HEADS NOT WANTED

Baldness is too often considered a Sign of Advanced Age

A bald-headed person does not have an equal chance with one blessed with a healthy head of hair, because baldness is too generally accepted as an indication of age. Many large corporations have established an age limit, and refuse to take men over 35 years of age as new employees.

Probably 65 per cent of bald-headed people may regain a healthy head of healthy hair if they will follow our advice and accept our offer. We have a remedy that we positively guarantee to grow hair on any head, unless the roots of the hair are entirely dead, their follicles closed, and the scalp has become glazed and shiny. We want people to try this remedy at our risk, with the distinct understanding that unless it does exactly what we claim it will, and gives satisfaction in every respect, we shall make no charge for the remedy used during the trial. We know exactly what we are talking about, and with this offer back of our statements no one should doubt our word, or hesitate to get our remedy to an actual test.

We want everyone in Oregon City who is suffering from any scalp or hair trouble, dandruff, falling hair or baldness to try our Rexall "83" Hair Tonic. We want them to use it regularly—say until three bottles have been used—and if it does not eradicate dandruff, cleanse and refresh the scalp, tighten the hair in its roots and grow new hair, we will return every cent paid us for the remedy for the mere asking. There is no formality expected, and we exact no obligation from the user whatever.

We are established right here in Oregon City, and make this offer with a full understanding that our business success entirely depends upon the sort of treatment we accord our customers, and we would not dare make the above offer unless we were positively certain that we could substantiate it in every particular. Remember, you can obtain Rexall Remedies in this community only at our store—The Rexall Store, Huntley Bros. Co.
