The body was brought to Stafford on Saturday for burial by the side of his wife, who died here several years ago. Two sons, Samuel and Fred, with their families, live on the old home farm. Mr. Moser was an honest man, the noblest work of God. He was a charter member of the German Baptist church of this place, and leaves many friends who deeply sympathize with the bereaved family.

Some farmers in the vicinity felt compelled, in view of the unusually late spring and the pleasant day Sunday, to work in their fields.

John Q. Gage came Sunday to his mother's farm to help put in a garden by her request, and proposes to spend the week at the old home.

Mr. Phillips of near Salem spent a few days with friends at this place. Mrs. Nussbaum has been entertaining friends from the east for the past week.

### LIENS BAR LOANS

Lands Irrigated by the Government Are Not to be Included

Whenever a lien of any kind exists on land in the state no loans will be made upon that land from the state school fund or the rural credits fund. This policy has been announced by the state land board in compliance with the provisions of the laws governing both funds.

This means that on lands which have been developed by the government and claimed for irrigation the board can make no loans, if the government lien on the water rights remains unsatisfied.

The law will exclude a large number of landowners in eastern and southern Oregon from taking advantage of either the school fund or the rural credits fund loans.

A concrete case where the law operates is shown in connection with property near Merrill in Klamath county. The records show that the owner secured a loan of \$4000 from the school fund on his dry farm. The farm then was unincumbered. Dur-

## Brighter and Happier Hours in Your Kitchen

How can you make the hours spent in your kitchen BRIGHTER and HAPPIER?

Cooking is not REALLY drudgery.

There is real satisfaction in being able to make good bread, or cake, or biscuits.

DOING THINGS WELL is a very great happiness in itself.

The most agreeable tasks are those that bring certain results. And when you can SEE these results for yourself and SHOW them to others, you are justly PROUD.

Why, then, are you sometimes disheartened because you must spend at least PART of your time in a kitchen?

Why do you sometimes almost wish that STOVES had never been invented—or that YOU, at least, might be released from having anything to do with one?

WHY?

Ask Yourself These Questions—

Is not my frequent distaste for the kitchen due to the fact that my kitchen is often hot and stuffy?

Is it not the accumulation of DIRT and SOOT on pots, pans and stove that discourages me?

Might not ONE cause of unhappiness be the STOVE itself?

Isn't it heat and the dirt that comes from the STOVE itself?

Isn't it heat and the dirt that comes from the STOVE that gives me back-aching worryment?

Might not the elimination of these "stove worries" also eliminate my FAILURE?

Might it not make possible much greater success with my cooking, thus assuring me real and lasting happiness in my everyday house-work?

It would pay you to find out what ELECTRIC COOKING will do to put an end to these failures and relieve you of the uncertainties and discouragements of your kitchen hours.
