Waists Wirthmor at Just \$1.00

Isn't it gratifying to know that you can still get a pretty—modish—distinctive—well made and perfect fitting Blouse for just one dollar? Though the price has remained the same, there's been no lowering of the high standard of quality that the Wirthmor has established, the increased cost of material and labor having been offset by the economies resulting from largely increased volume of sales.

OREGON CITY IS WELL ADVERTISED

(Continued from page 1)

by Clackamas county's uniformed citizens.

Otherwise Oregon City has acquired fame in San Francisco. Up at the Elks' club the other night a "Bill" found that several of us were from Oregon City. "Well, well!" he exclaimed. "I suppose you know 'Dad' Holman and all his tricks?" "Dad" Holman has a stand-in in this town at least. But we were told that Mr. Holman felt lost when he was roaming in these pastures because he couldn't find a suitable bowling alley and there wasn't a Gib Hedges to fuss with in the whole state of California. Incidentally the local Elks have taken the names of all lodge members in camp and will, later on, stage a party of some kind for the bunch.

There are only 14 days (from Sunday) until the officers' school will be divided into the three divisions of the army service for which student officers have applied. The first month all are being trained in the fundamentals and when the division is made it is understood that the infantry commission seekers will remain at the Presidio and the cavalry applicants also may remain. The artillery students, we are told, will be sent to Arizona and the coast artillery to Fort Winfield Scott, adjoining the Presidio. It is a happy circumstance that all the Oregon City students will remain at the Presidio.

Clackamas county has contributed two other students to the camp. They are Harry W. Crawford and Lewis P. Campbell, from Milwaukie, and since the camp opened they have been going through the same routine as the rest of us. As far as the Oregon City crowd can determine there are eight in the camp from Clackamas county, five of them being from Oregon City and one from Gladstone.

Hugh Broomfield didn't quite understand that a soldier had to put up with the same trials as confront the housemaid at home. The laundry here is sent out on Friday and returned the same day of the following week. When the boys stripped their beds on Friday there was no clean linen to replace the soiled. The post commander, we were told, would not allow the wagons to come on the reservation because they had violated their contract. Hugh joined in the mob that raided the soiled laundry pile in front of their barracks and resurrected the used sheets for use this week. Our laundry still reposed in the archives of the washers on Monday.

Harry Williams has recalled his leather puttees and joined the happy throng in the city on Saturday afternoon all decked out as an officer. Harry was fortunate in that he still had his uniform and equipment from his national guard days, while the rest of us had to pay out valuable money for our decorations. It is all pay out around here and there is no promise of anything coming in. Some pocket books are getting a worn and empty look and financial difficulties may force many men in the school to give up their work. The expectation was that the government would pay the students \$100 a month, but thus far that has been a mere promise.

As candy makers Lou and Nan Cochran haven't counterparts in the country, according to Kenneth Robinson, nephew of those popular Oregon City girls. Robinson is a member of the 8th company and his bunk mates who have not yet tasted that delectable candy are of the opinion that Kenny is stuffing them with taffy of his own make.

She had three children by a former marriage but there are none of the latter union. She charges cruelty and asks a restraining order prohibiting Lawies from selling personal property on their farm. Judgment Against Denny

Judgment for \$155.53 was granted to Henry Jennings & Sons, of Portland, against Julius Wilbur, Martin Denny and Larry Sullivan, former proprietors of the Friars' club of Milwaukie. The claim was for furnishings for the club.

PAVING WORK STARTS

Stretch of Grays Crossing Road to Be Finished in Three Weeks

Work of paving the stretch of the Grays Crossing road between Oregon City and Portland, which was left unfinished when the remainder of the road was paved, commenced Wednesday. About three weeks' work will be necessary to finish the paving and Roadmaster Roots says that while vehicles may go around the crew it would be more convenient to use the river road or the west side. People from Redland, Logan and other points in the eastern part of the county may turn off at the cemetery and go through Milwaukie.

600 WALK OUT IN SYMPATHY STRIKE

(Continued from page 1)

refused to move any shipments of paper for the Crown-Willamette company. The executive committee of the union ordered the men who had been maintaining a head of steam at the plant to leave their posts, they say, because the company refused to reduce the head of steam from 120 pounds to 80 pounds pressure. More than 900 men, the organizers declare, have signed up with the union. Of these about 40 per cent are from the Hawley Pulp & Paper company, which concern is not opposing the organization. The charter of the pulp workers and the paper makers arrived Wednesday. Plans were completed to extend credit to strikers who are unable to provide for themselves during the strike.

The temporary officers of the pulp and sulphide mill workers are, president, S. A. Richards; vice-president, L. McGrath; recording secretary, F. J. Farrell; financial secretary, Ed Smith; treasurer, J. Armstrong.
