REDLAND

Funeral services for Francis Wilcox, 64 years of age, who died at Redland July 22, were held in Bethel church Sunday, Rev. Stuart officiating. Interment was in Redland cemetery beside members of his family, all of whom are dead with the exception of one son, Fred Wilcox, of Redland. Francis Wilcox was born in Dane county, Wisconsin, and moved to Redland about 11 years ago from Iowa. The family settled on the Alex Ketchum place.

Mr. and Mrs. Buck, of Salem, are visiting her mother Mrs. Amy Hubert.

Mrs. Lanham and son and Mrs. Stum, of Denver, Colo., cousins of Mrs. Fullam, are visiting relatives here. They think crops are just grand compared to what they are used to seeing.

Mrs. Ripley starts this week for the east.

Coop and Schneider have purchased a Roan Durham bull for breeding purposes.

Frost hit a few places Saturday night, enough to kill bean and tomato plants.

This is surely an off year. Little or no fruit, what few acres of fall wheat is blighted, spring sown grain is heading so low it will be almost impossible to cut it with the binder, potatoes are at a standstill and are not setting well, only about 2 in the hill. Pastures also are dried up.

Mrs. Heferland, of Los Angeles, was visiting her sister the past week.

A. L. Funk had his barn raising last week, 36x48x22 foot posts.

Mr. and Mrs. A. L. Funk attended the wedding of her brother, Harry Grey, at Dayton, Sunday.

The click of the binder can be heard in what few acres of fall wheat there is, but the late sow will not be ready for at least four weeks yet.

The dairymen's picnic at Cedar Hill farm was pulled off according to schedule, although the crowd was a little slow in gathering. There were about 60 in attendance. After a sumptuous lunch in the alder grove, the program was opened by Mr. Simpson, manager of the Cooperative Dairy Exchange, of Portland, who represented 17 creameries, Henry Thiessen presiding. His topic was cooperative selling of butter. He showed where he had saved money to the producer by finding outside markets for butter when Portland was overloaded. In other words they act as a clearing house for the creameries, which the individual creamery could not do, at a cost of about 3/4 of a cent a pound. Mr. Simpson says Seattle is one of their best markets.

Mr. Finch, of O. A. C., official tester of the Clackamas County Dairy association, then followed and took for his subject cost and production and showed that Mr. Ladd had the highest official testing cow in the association, 80 pounds of butter fat per month.

W. Ladd then followed with a plea for the farmers not to unload their females, as after the war all of Europe would have to depend on the United States for her breeding stock in cows, horses, hogs and sheep. According to figures produced, Clackamas county was third in line in number of dairies in the state. He placed great stress on the importance of having a proved sire at the head of the herd.

Mrs. A. S. Hughes, secretary of the association, then read a paper on the financial proposition of pure bred stock. Mrs. Hughes thinks the secret of success is in having your stock in such condition at all times that it will be attractive to the eye.

She was followed by Prof. Westover, dairy professor at O. A. C. He says no one should be satisfied with any cow that does not produce over 250 pounds butter fat and the tester is the only sure guide.

Prof. Hyslop, of O. A. C., then talked on the production of crops and forage to offset the high cost of feed, which is at the present time starting the dairymen in the face, and believes the silo will help to solve the problem.

They then proceeded to the judging contest; which was participated in by about 10 boys and girls under 14 years of age and in your correspondent's opinion they came nearer to placing the cows correct than the judges did, who were Thomas Withycombe, Prof. Westover and Mr. Badger. They awarded Fawn, of Cedar Hill, 1st; Pewel, of Cedar Hill, 2nd; Pride, of Cedar Hill, 3rd.

In the judging contest Roy Smith carried off 1st, Albert Coop 2nd, and Walter Funk 3rd.

This closed the program. Mrs. Hughes announced there would be a Guernsey picnic at Red Wing Farm August 18, in the grove opposite the barn at the spring. Ample room for everyone and everyone is to be made welcome. Come and get acquainted with a well filled basket.

LOGAN

If we only had a part of the surplus rain of what should have been seeding time, how fine it would be. One extreme has followed another and it seems as though there was a conspiracy of the weather board to prevent the growth of a crop when it is necessary and desirable. Misfortunes seem to travel in groups.

The writer's uncle, Millard F. Bird, of Portland, died last week as the result of a fall while building a silo near Woodburn. "Doc," as he was familiarly called, was born at Stafford, in this county, about 61 years ago and was formerly well known by pioneer residents of the county. He lived in Washington for several years and for some time has lived at Portland, where he leaves a wife and several children. Farewell, comrade of youthful years.

Jesse Cromer and party, while driving the new Paige auto in Portland recently, were run into by another machine and the car was badly damaged, some of the occupants thrown out and all badly shaken up.

The Kelnhofer poultry ranch is keeping up with the latest water systems by installing an engine pump and overhead tank. Andy says if any of the chickens get stubborn and wont drink they will connect Mr. Chick with the hose.

Several from here autored to upper Molalla river last Sunday and tried to get acquainted with the wily fish, but we did not ascertain how many fish tried to rub up against the aristocracy of East Clackamas, though we did learn that the autoists had not contributed enough lately to the rubber trust and consequently had their share of the usual auto trouble.

L. Kelnhofer has the lumber on the ground for his new house.

The sauer kraut factory started on the first run last week.

The P. & O. C. railway is doing a rushing business in the wood line just now. It seems that some of the Portland people aim to keep warm this winter.

PARKPLACE

Of all Mrs. Brayton's birthdays, she thinks her 75th one, the 30th of July, was the happiest she ever spent. The day was full of lovely surprises. The biggest one was when several of her Oregon City friends came in very unexpectedly to help her celebrate. Thanks to Mr. Rose's "carry all," it brought a gallon and a half can of ice cream from her daughter, Mrs. Kellogg.

Mrs. Brayton received many lovely presents and flowers, as well as nice things to eat. Everybody present had a jolly good time.

Miss Marie Holmes left Sunday by auto for Hood River. She will spend a week there visiting friends and relatives.

The Business of Getting On in the World

WHATEVER the future holds for you, your everyday actions are increasing the amount of it.

If your attitude toward money today is one of reckless disregard for the future, undoubtedly you are storing up trouble.

If it's the same tomorrow, more trouble.

But, if your thoughts are turned toward the sensible things that mean, finally, more money in your savings account, the danger of trouble, sometime in the future, diminishes.

Have you a savings account? Is it always uppermost in your mind? Does it receive a fair share of your income? Are you doing everything a sensible person should to avoid the troubles that overwhelm so many people, almost within speaking distance of you every day?

Have you a regular "bank day"?
