Feel Worse After Vacation

The change from outdoor activity of vacation time to the quiet of regular employment sometimes makes one feel heavy and "stuffed up," uncomfortable and bilious, with a mean headache, a nervous unrest and thick coated tongue. Instead of complaining that "a vacation does no good," it is better to remove the trouble, which usually is the result of indigestion. Foley Cathartic Tablets give quick relief with no unpleasantness or costive after effects. —Jones Drug Co.

STATE AID ROAD WORK TO BE IN CONTINUOUS ORDER

Work on the county roads that will receive state aid will be done in continuous units, said Judge H. S. Anderson Saturday in reply to the request of citizens of Oswego who wish to have a section of the highway near that town improved at once. County surveyors are working near Aurora at present on a stretch of road indicated by the highway commission and this road will be graded as soon as specifications are furnished by the commission. The contract for this road has been let by the commission.

It is the intention of the county court to carry all work through as quickly as possible but it is first necessary to have the state highway commission notify the county what roads are of first choice. The work of paving is done by the commission after the county has graded the roads according to the commission's specifications. Judge Anderson said county employees would probably be used on the stretch into Marion county which the surveyors are now working on, and that the Oswego stretch stands little chance of being completed until the other work is done.

Catarhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarhal deafness, and that is by a constitutional remedy. Catarhal Deafness is caused by an inflamed condition of the mucous surface of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarh, which is an inflamed condition of the mucous surface. Hall's Catarrh Medicine acts thru the blood on the mucous surface of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c. F. J. CROSBY & CO., Toledo, O.

by their owners, whether daily or weekly, must be licensed. This license is in addition to all other licenses heretofore required by masters and owners of vessels.

All applicants are required to fill out, in ink or typewriting, a form which may be secured at the office of the Licensing Officer, Room 408 Custom House, Portland, Oregon. Requests for application can be made either in person or by mail. If request for application is made by mail the party making the request should state whether the application is for a motor or a steam vessel.
