

## Obituaries

### John Wesley Kiser

John Wesley Kiser died Thursday afternoon at his home at Oswego after a prolonged illness. Mr. Kiser was 86 years of age, and had been a resident of Oswego for the last 30 years, coming here from Kentucky where he was born. Services were held Saturday morning at 10 o'clock from the Methodist church of Oswego. Five children survive Mr. Kiser.

### Christian Dybdah

Christian Dybdah, a resident of this city for the last 12 years, died at the Oregon City hospital Sunday morning. He suffered a paralytic stroke a few months ago and has been failing since that time. He was a native of Denmark, and was 83 years of age. He has made his home at the Electric hotel since he has lived here. Services were held Monday morning at the Mountain View cemetery, with Rev. William Kraxberger officiating.

### William Futter

William Futter, of the Beaver Creek district, a resident of Oregon since 1866, died Thursday morning at 7 o'clock at the family home following an illness of several months from cancer of the stomach. He was born in Iowa, November 26, 1858. He came to Oregon in 1866, making his home at Pendleton, until 1913, when he moved to his late home. He leaves his wife and five children, Amelia Futter, of Montana; Charles, also of Montana; William, of Tacoma, Wash.; Mrs. George Bolin, of Butter Creek, Oregon; and Arthur, of Albee, Oregon. The funeral of the deceased is to be held Saturday at Pendleton, where interment will take place.

### Mrs. Sarah Anna Lau

Mrs. Sarah Anna Lau, wife of J. J. Lau, of the Holcomb district near this city, died at the family home

## BIG SHOE BILLS CAN BE CUT

"I will always wear shoes with Neolin Soles," writes Mr. M. Newman of the J. Newman Mfg. Co. of Minneapolis. "They are superior soles in every way, waterproof, more comfortable and more durable. After many months of wear they remain in good condition."

Mr. Newman, and millions of others, have found that the answer to the shoe-bill problem lies in getting shoes that wear a long time—Neolin Soles. They are scientifically made, very tough and yet have the other qualities that soles should have—comfort and absolute waterproofness. Get Neolin-soled shoes for your whole family. They are found nearly everywhere and in all styles. Have worn shoes repaired with Neolin Soles. They are made by The Goodbye Tire & Rubber Company, Akron, Ohio, who also make Wingfoot Heels—guaranteed to outwear any other heels.

early Sunday morning from pneumonia. Mrs. Lau was well known in this county, and was an active worker in the Red Cross auxiliary at Holcomb. She was serving as chairman of the auxiliary at the time of her death.

Mrs. Lau was born at Knoxville, Tenn., September 11, 1891. When she was 11 years of age the family moved to Bellingham, Wash., coming seven years later to this county, where they have made their home since. She was married to Mr. Lau at Toledo, Oregon, July 6, 1912. Mrs. Lau is survived by her husband, her parents, Mr. and Mrs. A. Warren, of Oregon City; six brothers, Elmer, Harry, Ralph, Richard, and Lowell Warren, of this city; and Clyde Warren, of the 36th Balloon company in France. Funeral services were held Tuesday afternoon at the Dickson cemetery near Redland. Rev. R. P. Williams, pastor of the Christian church at Molalla, officiated.

### Socialists Hold Meeting

A well-attended socialist meeting was held at the Moose hall in this city Sunday afternoon. H. M. Weeks, of Portland, was the principal speaker at the meeting, which was under the auspices of the Oregon Socialist party.

## ILLS CARRIED BY FLEAS; HOW TO GET RID OF THEM

Of all insect pests that annoy man, fleas, it will undoubtedly be conceded, are the most vexatious. But there is a more serious side, for it is an established fact that fleas are disease carriers. The bubonic plague, for instance, which from time to time has been introduced into the United States on both the Pacific and Gulf coasts, and which affects man and rodents, is occasioned by fleas conveying the bacillus that causes this dreadful disease. This is only one of several maladies attributed to these insects. There is a probability, according to the Bureau of Entomology, United States Department of Agriculture, that fleas can carry many diseases not heretofore credited to them. Future investigations, entomologists think, will reveal them.

All past investigations with fleas have dealt entirely with the possibility of conveying disease by the bite of the adult flea, and the bureau suggests that there are possibilities of other means of disease transmission; for example, the larvae taking up organisms from the filth in which they breed and retaining these organisms to be transmitted by the adult. The larvae breed in dirt and usually are to be found where animals are common. Also they may breed in the dirt of kennels and stables, in the open country, in carpets, in closets of houses, and especially in cellars.

In respect to the flea bite, it is astonishing how many germs one of these diminutive pests can suck into its system. While imbibing the blood from a plague-rat, the stomach of the rat flea is capable of receiving as many as 5,000 germs. These germs may be carried by both male and female fleas, which may remain infective for 20 days during

an epidemic. Inoculation may be by scratching in of the bacilli which have been voided in the feces of the flea, or by the forcing of the bacillus-laden blood into the wound made by the flea bite.

Nine species of rodents, but mainly rats and mice, are hosts upon which plague fleas feed. The dog flea and the human flea are the two most important species invading the habitation of man. Adult fleas feed more or less on cats and dogs, the immature stages developing in cracks of floors, beneath carpets, or in rooms not frequently swept and to which pet dogs and cats have access, and beneath houses.

To rid the premises of fleas the carpets and rugs should be removed, the floors thoroughly swept, and all of the dust obtained burned, as it contains many of the eggs and maggots of the fleas. Then the floor should be scrubbed with strong soap-suds or sprinkled with gasoline, care being taken to avoid having fires about. After the floor coverings are thoroughly aired and beaten they may be returned, but it is desirable before putting them down to sprinkle the floor with naphthalene crystals or pyrethrum powder.

The thorough washing of infested animals in kerosene emulsion is a cheap and satisfactory method of destroying fleas. Five gallons of this emulsion may be made by dissolving 2 ounces of washing soap in 1 quart of hot water, and when brought to a boil, removing it from the fire and adding 2½ pints of kerosene. The mixture should be agitated violently with an egg beater or something of the sort. This should result in a milky mass from which the oil does not separate. Water is then added to make 5 gallons. Free kerosene will burn animals, and if any separates out the mixture should be reheated, care being taken to avoid spilling it on the fire or boiling it over, and then it should be beaten again.

Those who are especially annoyed by the bites will find that various cooling applications will give relief. A 3 per cent solution of carbolic acid in water applied to the bites will be beneficial, and such substances as menthol, camphor, and carbolated vaseline will be found to allay the irritation. Iodine in the form of a tincture, if applied to the bites will alleviate the irritation, but should not be used by persons afflicted with any form of eczema, or applied to the tender skin of young children as it may stimulate the eczemic eruptions or blister the skin.

## GOVERNMENT TO ASSIST WORKERS TO FIND JOBS

The thousands of civilian war workers in the government service who will soon be dismissed because their services are no longer needed will be assisted in finding re-employment through plans now being arranged by the United States Civil Service Commission.

On the recommendation of the Civil Service Commission the president issued on November 29 an executive order which provides that the names of persons in the competitive classified civil service with unrestricted status who were appointed either permanently or probationally prior to the date of the order, who have served less than three years, who are separated from the service because of a reduction of force, and who are recommended for further employment by the government because of demonstrated efficiency in the office from which they are separated will, upon request, be entered by the Civil Service commission on appropriate eligible registers for reappointment, eligibility thereon to continue for one year from the date of separation. The reemployment registers thus established will be used so far as is practicable for filling positions in the government service. It is expected, however, that there will be a surplus of eligibles on these reemployment registers, and in order that those who cannot be replaced in the government service may find positions in private employ, the Civil Service commission has asked the cooperation of the department of Labor in the work of finding suitable employment in private establishments for dismissed war workers who cannot be further employed by the government.

It is the view of the Civil Service commission that the machinery of the government should be used to the fullest extent in finding employment for the war workers for it is realized that a considerable number of them entered the government service at some personal sacrifice to help with the war program.

**A Woman's Recommendation**  
Mrs. D. T. Tryor, Franklin Ave., O., writes: "Nine years ago I was very much afflicted with kidney trouble. I bought different kinds of medicine, but all to no effect, until one day I bought a box of Foley Kidney Pills. I realized so great a benefit from the use of that box that I concluded myself cured of kidney trouble. I feel safe in recommending Foley Kidney Pills to any kidney sufferers." They relieve backache, sore muscles, stiff joints, rheumatic pains and bladder ailments.—Jones Drug Co.

## FEEL MISERABLE FROM THAT COLD?

Colds and coughs are quickly relieved by Dr. King's New Discovery

Nobody should feel "perfectly miserable" from a cold, cough or bronchial attack for very long. For it takes only a little while to relieve it and get back on the road to recovery when Dr. King's New Discovery is faithfully used. It soon loosens the phlegm, relieves irritation, soothes the parched, sore throat, brings comfort. Half a century old and more popular today than ever. At all druggists.

### Make Your Bowels Behave

Make them function with gratifying precision. If regulation of the diet does not relieve their torpidity Dr. King's New Life Pills will. They are perfect bowel trainers, cleanse the system surely, comfortably.

### INCOME TAX RETURNS

#### TO BE ASKED FOR

Collector of Internal Revenue, Milton A. Miller, is receiving many inquiries concerning the provisions of the new Revenue bill providing for income and other taxes, and numerous requests are being made for forms on which to make returns.

Collector Miller says that no definite information can be given, or forms furnished, until the bill has finally passed congress and becomes a law. It will then take some little time to have forms printed and ready for distribution. He has made arrangements to send out a general notification from his office so that all taxpayers may be informed promptly of the provisions of the proposed law. The organization of his field force will be such as to render every possible assistance to taxpayers throughout the state of Oregon, and deputies will be located at many advantageous points so that information may be secured direct to guide them in making returns when the proper time arrives.

The basic principles of the old Income Tax law will no doubt be applied to the provisions of the new law, and it would be well for every individual and corporation to prepare figures and ascertain the exact amount of income so as to be ready to make return with as little delay as possible.

### Summons

In the Circuit Court of the State of Oregon, for the County of Clackamas.

Christina Demmer, Plaintiff, vs. Abraham Zidell and Annie Zidell, husband and wife, and William Zidell and Martha Zidell, husband and wife, and A. E. Kern, Defendants.

To Annie Zidell, and William Zidell and Martha Zidell, husband and wife, Defendants above named: In the Name of the State of Oregon you are hereby required to appear and answer the complaint of the plaintiff above named, filed against you in the above entitled cause, on or before March 15th, 1919, that being the date set for you to appear and answer herein, and being more than six weeks from the date of the first publication of summons herein; in default whereof the plaintiff will apply to the Court for the relief demanded in the complaint in this suit, to-wit:

Judgment against you in the sum of Eight Hundred no-100 (\$800.00) Dollars, together with interest thereon at the rate of eight per cent per annum from July 27, 1917; the further sum of Eighty no-100 (\$80.00) Dollars, attorney fees; and for the further decree foreclosing plaintiff's mortgage on the West one-half of Section two (2), township seven (7) South, range two (2) East of the Willamette Meridian, Clackamas County, Oregon; forever barring all of the above named defendants and anyone claiming thru them, of all right, title and interest in and to the above described real property; and for such other and further relief as to the Court may seem just and equitable.

This Summons is published once a week for six consecutive weeks in

## Weekly Health Talks

Where Most Sickness Begins and Ends

BY FRANKLIN DUANE, M. D.

It can be said broadly that most human ills begin in the stomach and end in the stomach. Good digestion means good health, and poor digestion means bad health. The minute your stomach fails to properly dispose of the food you eat, troubles begin to crop out in various forms. Indigestion and dyspepsia are the commonest forms, but thin, impure blood, headaches, backaches, pimples, blotches, dizziness, belching, coated tongue, weakness, poor appetite, sleeplessness, coughs, colds and bronchitis are almost as common. There is but one way to have good health, and that is to put and keep your stomach in good order. This is easy to do if you take Dr. Pierce's Golden Medical Discovery. It is a wonderful tonic and blood purifier, and is so safe to take, for it is made of roots and herbs. Dr. Pierce, of Buffalo, N. Y., stands behind this standard medicine, and it is good to know that so distinguished a physician is proud to have his name identified with it. When you take Golden Medical Discovery, you are getting the benefit of the experience of a doctor whose reputation goes all around the earth. Still more, you get a temperance medicine that contains not a drop of alcohol or narcotic of any kind. Long ago Dr. Pierce combined certain valuable vegetable ingredients—without the use of alcohol—so that these remedies always have been strictly temperance medicines. If piles are torturing you, get and use Pierce's Anodyne Pile Ointment. The quick relief it gives is hard to believe until you try it. If constipated, Dr. Pierce's Pleasant Pellets should be taken while doing the cases which these splendid remedies will not relieve and usually overcome. They are so good that nearly every drug store has them for sale.

## Water Systems

will be found on hundreds of farms and suburban places in Oregon and the Northwest. They have been sold here by us for years. They give satisfaction. WHY? Because they are made up of good units such as

Stover Gasoline Engines

Myers Pumps and Cylinders and Tanks that are made right and thoroughly tested

and we make proper installation, using men for this purpose who have had years of experience. Besides all this, if anything isn't right we try to make it right. When you install a water system you put in something that is to serve you for many years. Better get a good system made up of good units, put in by a responsible concern with experienced men and in the right way.

In short
