Rev. E. E. Gilbert

When he first landed in Oregon City we measured him up questionably for we liked his predecessor, and we hardly expected him to be as good. Our initial impression of him was not formed altogether upon his initials of E. E., but he succeeded a long list of capable men, who had some thoughts for the benefit of the community aside from their own church. We refer to T. B. Ford, J. K. Hawkins, and others.

And now, after a little more than two years, we are to lose him to Medford. The Methodists have a wonderful system. No sooner does a preacher become well acquainted with his people, than the higher ups shoot him off to another town, and a substitute appears.

We wish the Rev. E. E. Gilbert well in his new field. He's a real man. No frills, solid as a rock, conservative and kindly. We assume his transfer to Medford may be looked upon as a promotion. Oregon City will miss him.

NEW CAR, BAD BRAKES, BRING JAP DRIVER TO GRIEF AND STIFF FINE

T. Johansen, Japanese, of Portland, was arrested Sunday afternoon by Speed Officer Meads on the South End road, charged with exceeding the speed limit and was tried before Justice of the Peace Stipp Monday and fined \$10 for speeding.

Evidence introduced showed that Johansen was driving an automobile with defective brakes and he was ordered to report to the County Judge on Wednesday for trial on the charge of operating a motor vehicle which was a menace to the public. On this charge he was found guilty and fined \$14.00.

Reports from various points along the South End road to the Sheriff's office last Sunday were to the effect that the car was being driven by the Japanese at a breakneck speed, without respect for the safety of other traffic, and Speed Officer Meads was directed to stop him. He arrived at a point near Gladstone in time to see the car, a new Grant Six, plunge over a low embankment and bound for several hundred feet before coming to rest. Fortunately for the occupants of the car the grade at the point where the car went over the bank was gradual and neither of the two occupants suffered more than a severe shaking up.

When questioned Johansen stated that he could not stop the car and examination showed the brakes to be defective. The car was brought to Oregon City and placed in the custody of the District Attorney's office.

W. J. Howell was arrested for speeding near New Era Sunday afternoon, charged with traveling 45 miles an hour and was fined \$25.

R. R. Stafford was also arrested for traveling 38 miles an hour and was fined \$5. L. D. Bowen was accused of traveling 35 miles per hour and forfeited \$15 bail.

NAVAL EXPERIENCES OF OREGON CITY BOY ARE FULL OF THRILLS

Arthur Wink, younger son of Mrs. G. W. Hall, of this city, who has been in the naval service since June 1917, and one of the first young men of Clackamas county responding to his country's call when the United States became involved in the world war, has received his discharge from service and is now connected with the Hall confectionery store at Twelfth and Main Streets.

Wink has many wonderful experiences since entering the service, seeing many sights, and visited many states, but says there is no place like Oregon. He arrived on the east coast August 25, 1917, and from that time until his discharge he was on the U. S. S. Rhode Island.

Starting as a coal heaver Wink was rapidly promoted, and at the time of his discharge he was first class petty officer. He was in charge of the fire rooms, having the responsibility of two of the ship's large boilers. Many times the fire rooms registered 162 while out at sea, but this was least of the young man's troubles, and he stayed with the job. He made five round trips to France, visiting that country while in port, but says "no France for me, no matter what time of the year." He has had many wonderful experiences, traveling in the war zone while the war was on.

One of the most enjoyable trips that Wink has taken through the Panama Canal. This was a trip that will long be remembered by the young man.

The Rhode Island has been used as a transport, and usually carried about 1200 soldiers. Oregon was well represented in her crew, there being 13 young men from the state, most of whom were from Eastern Oregon.

RUMORED INCREASE IN BIG FORTUNES FOUND NOT TRUE

WASHINGTON, Oct. 7.—Despite the popular belief that the number of large fortunes has increased during the last few years, income statistics made public today by the bureau of internal revenue showed a considerable decrease for 1917 in those reporting incomes in excess of less than \$150,000.

The figures were considered even more surprising as regards incomes of \$1,000,000 and over. There was a decrease of 65 in such incomes, only 141 being reported in 1917.

A total of 13,472,890 personal income tax returns were filed during the calendar year of 1917. The net income reported on these returns amounted to \$13,552,383,207, an increase of \$7,353,805,587 over the corresponding figures for the preceding calendar year.

The large increase is attributed to the lower exemption of the act of October 3, 1917, and partly to the general increase in the scale of wages, salaries and other forms of compensation.

PREHISTORIC BONES OF MASTADON FOUND BY FORMER RESIDENT

Mrs. Henry Shannon, formerly of Oregon City, now of Eugene, is in this city, where she is visiting friends for a few days. She is also to visit with friends in Portland for a few days before returning to her home.

Mrs. Shannon is interested in the discovery of bones of a mammoth recently unearthed on the Shannon place while excavating for a well, and which have been turned over to the museum of the Oregon Agricultural College. Several professors of the institution are taking an active interest in the specimens and are to seek further for the remainder of the bones of the huge animal.

A man employed by Mr. Shannon a few days ago had the first inkling of the fact that the family was partaking of water from a spring where the remains of a mammoth reposed. A well was being dug, and Mrs. Shannon, viewing the progress of the work, had her attention called to particles of bone that were being unearthed by the workman. After a quantity of the bone had been removed, the workman took out what he believed to be a piece of China, and jokingly said: "I believe I am striking China." Mrs. Shannon picked up one of the pieces and found it to be a portion of a tusk. More was unearthed and four large tusks, about nine inches long and three inches wide, were taken out and are now in the possession of the Oregon Agricultural College professors. Professors Horner and Sykes are making a study of the fossils.

It is believed by some of the scientists that the feet of the mammoth together with the flesh and the muscles would average about 18 inches in width.

Mrs. Shannon jokingly remarked her good health may be due to the antique beverage she has partaken of for the past year from the spring containing the remains of the mammoth.

The spring where the mammoth lies is about two miles from Bell Mountain and 18 miles from Corvallis. While here Mrs. Shannon sold one of her paintings to the Wakefield Music House in Portland, this being an almost life-size portrait of President Lincoln, the price of which was \$75. Mrs. Shannon has made quite a reputation with her paintings, and is one of the rapid sketch artists who gave demonstrations in Oregon City a number of years ago. One of her paintings, a handsome oil painting of Dr. John McLoughlin, adorns the McLoughlin home and was purchased by the McLoughlin Association. This is one of Mrs. Shannon's masterpieces.

Miss Sadie Evelyn Ford presided at the organ.

The floral tributes were beautiful and in great quantities, a silent token of the high esteem in which Mrs. Spears was held by her many friends in this city, and many friends paid their last respects by attending the funeral services at the church and following the remains to the last resting place in Mountain View cemetery, where interment took place.

The pallbearers were close friends of the family, and were C. H. Dye, James Wilkinson, L. M. Whitely, A. C. Howland, L. Adams and O. E. Freytag.

Constipation Causes Serious Ills

If you are its victim, try strengthening your digestive and eliminative organs with Nature's Remedy—it's better than laxatives.

NR Today—Keeps the Doctor Away

One of the world's greatest scientists says that more than 90% of all human ills can be traced directly or indirectly to constipation. How many sufferers realize this?

Most of them continually dose themselves with so-called laxative pills, calomel, oil, purges and cathartics, and force bowel action. To do that is a mistake. It weakens the bowels and liver and makes constant dosing necessary.

Why don't you begin right today to overcome your constipation and get your system in such shape that constant dosing will be unnecessary? You can do so if you get a 25c box of Nature's Remedy (NR Tablets) and take one each night for a week or so.

NR Tablets do much more than merely cause pleasant, easy bowel action. This medicine acts upon the digestive as well as eliminative or-

gans—promotes good digestion, causes the body to get the nourishment from all the food you eat, gives you a good, hearty appetite, strengthens the liver, overcomes biliousness, regulates kidney and bowel action and gives the whole body a thorough cleansing out.

And NR does this without a sign of griping, pain or unpleasantness. It works gently, but promptly and thoroughly. In a few days you notice the real result. You begin to feel that you are living again, with new strength, new energy, vim and pep and ginger. You soon find your bowels acting regularly without help. Try Nature's Remedy (NR Tablets) and prove this. It is the best bowel medicine that you can use and costs only 25c per box, containing enough to last twenty-five days. Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.
