FIFTY-THIRD YEAR—No. 24.

OREGON CITY, OREGON, FRIDAY, JUNE 20, 1919.

ESTABLISHED 1866

INTERURBAN SERVICE TO CANEMAH IS TAKEN OFF

Passenger trains over the roadway between Oregon City and Canemah will be discontinued within the next ten days according to an order issued by the Public Service Commission, which finds that with the limited width of the Pacific Highway as now established between Canemah and Oregon City, automobile and interurban railway traffic cannot pass thereover with safety and that existing conditions constitute an extreme hazard.

The commission stipulates that the tracks of the Portland Railway Light & Power Co. must not be removed and must be kept in repair so that traffic may be resumed at such time as conditions may warrant. Freight movements, which, as a general rule, are made at night, must be under flag.

The decision of the commission will terminate a condition that has prevailed for nearly a year, since the Pacific Highway route between New Era and Canemah was opened. The highway is hard surfaced as far south as Canby and traffic is naturally heavy, especially so during the summer months. Much of this tourist traffic, and it is especially to these persons who are unfamiliar with the condition, that this situation is extremely dangerous.

The relief granted is perhaps temporary, as it is not the present intention of the highway commission to permanently locate the Pacific highway where this narrow roadway is now located, but an effort will be made to run the highway over a location east of the main line of the Southern Pacific, eliminating the grade rail crossing at Canemah and coming into Oregon City through an underground crossing.

The present highway between Oregon City and Canemah is unusually narrow, it being a plank road slightly less than 18 feet wide constructed along the east bank of the Willamette river for a distance of about 3,000 feet. The tracks of the Portland Railway Light & Power Co. are constructed exactly in the center of the plank roadway, and very little room is left for vehicles when the track is occupied by cars. It is impossible for a vehicle to pass an interurban train on the river side of the track, nor is it possible to pass even on the easterly side without driving against the bank or into a pocket of which there are very few. In many places along this stretch of highway it is impossible for a vehicle and an interurban train to pass. The order recites that 26 trains per day, on an average, carried no passengers at all, and the local receipts per day amount to \$4.03. The majority of the residents of Canemah walk to and from their work at Oregon City.

VILLA BAND DEFEATED IN BATTLE WITH YANKS

EL PASO, TEX., June 16.—A report was received at military headquarters at 10:30 A. M. today that fighting was in progress between United States cavalry under command of Colonel S. R. H. Tompkins and a Villa detachment in the vicinity of San Lorenzo, opposite Yaleta, Tex., 12 miles east of El Paso.

Artillery fire against the Villa rebel forces southeast of Juarez was opened at 10:30 A. M. today, with the second battalion of the 82nd field artillery firing shrapnel bursts which could be seen plainly from the river. The artillery fire was six miles from Juarez in the vicinity of the cavalry fighting near San Lorenzo.

EL PASO, TEX., June 16.—At 11 o'clock, the entire 2nd cavalry brigade composed of the 7th and 5th cavalry regiments, could be plainly seen about eight miles south and west of Juarez in hot pursuit of the Villa forces which were engaged at 10 o'clock this morning in the vicinity of San Lorenzo. It was said at military headquarters.

Oregon City Wins Fast Ball Game

A hard fought ball game between Estacada and Oregon City was won by the latter Sunday on the Canemah grounds by a score of 6 to 1.

The score was 2 to 1 until the seventh inning, when the local boys made four runs and secured another in the eighth.

Bates pitched a pretty game for the local boys, fanning 14 and allowing very few hits. Lacy, Oregon City catcher, secured three hits, one a two-bagger.

Mr. Wilson's Tour

Press dispatches tell us that President Wilson intends, after his return from France, to tour the principal cities of this country in defense of the League of Nations.

This is Mr. Wilson's own child and of course he should go the limit to defend its existence with his voice, as well as with his pen.

The League of Nations is admittedly an experiment. It may be successful or it may not be. Time alone will tell. Its primary function, as we understand it, is to prevent war, and as such it is entirely commendable. It is not to be expected that any man or any set of men could draft a covenant that would be satisfactory to everyone.

Chief among the opponents of the League are men like Senator Johnson, of California and Senator Poin-dexter, of Washington. They tore the original covenant of the League to shreds before it was cold. One of them is a candidate for president. The objection of both of them to the League is primarily that under and through its operations the United States will become involved in European squabbles, and that this country will have to submit its own troubles, originating upon this continent and being only semi-international in character, to the determination of the League. Other senators believe that the League should not be part and parcel of the Treaty of Paris, but should be a separate document and considered separately by the senate, and we think this should be the case.

However, we have to consider what is placed before us and not what we should like to have. We are in the same position as the man who ordered fried eggs and the waiter brought him scrambled eggs, and told him the eggs looked better scrambled. He was a hungry man and ate the eggs. If the League of Nations will prevent the slaughter of millions of our young men, let us have it. Trial of it will determine whether it is workable.

LOGAN GRANGE TO GIVE PICNIC NEXT SATURDAY

Miss Marie Anthony, home demonstrators of Clackamas county, and Miss Jessie Biles, of the Oregon Agricultural College, have been spending two days of this week at Estacada conducting a series of talks before the women of that place, regarding the subjects they are handling in the county home economics and sewing.

Many women of Estacada took advantage of these meetings.

Saturday these women will go to Logan, where a picnic is to be given by the Harding Grange, an annual event of the grange.

A well arranged program will be given, and will be as follows: Morning—Races of various kinds, and the afternoon program will be given at 1 o'clock, and will be as follows: Song, audience; song, Shubel quartet; recitation, school boys; song, girls; address, C. E. Spence, state grange master; vocal solo, Miss Velma Anthony; address, Judge Stapleton, of Portland; violin solo, Miss Peters; address C. Schuebel; song, Shubel quartet.

BOYS OF COUNTY TO FORM LEGION FRIDAY NIGHT

An American Legion will be organized in Oregon City Friday evening, June 20. The meeting is to be held in the Willamette building, when a representative of the American Legion of Portland will be in attendance and address the assembly. A large number of young men having returned from the service are much interested in the organization, and Clackamas county will probably be largely represented at the meeting.

Among those who are interested and arranging for the meeting are Julius Spaglie, who was Lieutenant in the army, and Percy Wilson, who has recently returned from Guam, and who has been in the marine service for four years.

All those having been in the army, navy, or marine service are eligible to become members of the American Legion.

POLICE RAID LABOR CENTER IN WINNIPEG

WINNIPEG, MAN., June 17.—Ten strike leaders were arrested in their homes here early today and transported in automobiles to some place in the country, presumably Stormy Mountain, by government police officials. Arrests are reported to have been made in Calgary and other western points at the same time. Simultaneously with the arrests of the strike leaders, the Royal Northwest Mounted Police raided the Labor Temple from which the strike has been conducted. Considerable literature, said to be of a Bolshevik nature, was seized. The police broke down doors and windows during the raid.

K. ALTNOW KILLED IN ACCIDENT MONDAY

Kenneth Altnow, a 20-year old boy of this city, was killed Monday afternoon in a motorcycle accident in Canemah, when the machine on which he was riding was thrown. The cause of the accident is alleged to have been due to the rough condition of the roads.

Altnow, with A. V. Curl and W. C. Moore, had gone for a short ride and was returning through Canemah when the accident occurred. Moore was in the lead and Altnow second and the boys claim they were going about 35 miles per hour.

Hitting the rough stretch of road near Max Telford's home Altnow's machine toppled over and the young man was dragged over 30 feet. He struck on the right side of his head and his neck was broken and the skull fractured. Death resulted in about ten minutes.

Altnow was proprietor of the motorcycle shop here and has been in the city only a short time. He was a motorcycle racer of ability and in audience; song, Shubel quartet; recitation, school boys; song, girls; address, C. E. Spence, state grange master; vocal solo, Miss Velma Anthony; address, Judge Stapleton, of Portland; violin solo, Miss Peters; address C. Schuebel; song, Shubel quartet.

\$120,000 INCREASE IN WAGES ANNOUNCED

One hundred and twenty thousand dollars a year has been added to the pay roll of the paper companies operating in Oregon City by a general wage increase announced Saturday of three cents an hour, affecting both hour men and day workers. This increase of 24 cents a day brings up the minimum wage to \$3.60 from the former scale of \$3.36 and increases the hourly wage from 42 to 45 cents.

In the Crown Willamette mills alone the increase amounts to about \$70,000 per annum, and in the Hawley Pulp & Paper Co. approximately \$50,000.

Oregon City's pay roll in the two paper mills and in the woolen mill approximates \$3,000,000 a year, the wage disbursement of the Crown Willamette Paper Co. being nearly half that sum, affecting 900 employees of the concern.

The increase is made effective from June 1.

BOYS ACQUITTED IN JURY TRIAL OF SERIOUS CHARGE

Cecil Stewart, George McKinnis and Arthur McKinnis, who were charged with contributing to the delinquency of minors, were acquitted by a circuit court jury Friday.

The boys were charged with keeping the girls out all night, causing two of them to be afraid to go home and they ran away. They were captured by Sheriff Wilson at Canby the next day.

When arraigned for preliminary hearing the boys pleaded not guilty and appealed the case to the circuit court.

The jury was out from four o'clock in the afternoon until 9:30 that night on the case.

AMERICANS PREPARED TO MOVE ON BOCHE

WEIMAR, Tuesday, June 17.—Philip Scheidemann, the head of the German cabinet, in speaking to the peace commission of the national assembly here today, declared that the allied reply to the German counter proposals without the complete text did not yet permit of final judgment and that premature judgment would be a mistake.

COBLENZ, Tuesday, June 17.—Lieutenant General Hunter Liggett, commander of the American forces in the Coblenz area, says that the American forces are all ready to move ahead at a moment's notice.

The concentration of troops preparatory to advancing further in Germany if the Germans refuse to sign the terms of peace will begin Wednesday throughout all the occupied areas. Orders to this effect were received today from Marshal Foch, commander in chief of the allied armies, who sent orders to all the allied forces on German soil.

PIONEERS OF OREGON HOLD ANNUAL REUNION

PORTLAND, June 18.—The 47th annual convention of the Oregon Pioneer Association opened at the auditorium today and not more than a regiment of the hardy veterans were on the roster.

The convention program will open tomorrow at 2 P. M. under direction of Nathan H. Bird, 1846, vice-president. Among the speakers will be Rev. Andrew Hunsaker, 1847, chaplain; Mayor Baker, in an address of welcome; Vice-President Bird and Judge George W. Riddle, 1852, who will deliver the annual address, and other prominent pioneers.

Later in the afternoon, at 4:30 the women's auxiliary of the association will hold its annual meeting, followed by the social hour. The annual banquet, always a notable feature of good things to eat, will be a stellar feature of the late afternoon. Election of officers will take place at the business meeting, held at 7:30 tomorrow night followed by the annual campfire.

LIVE WIRES SUGGEST AUTO CAMP GROUNDS AND AVIATION FIELD

Establishment of an auto camp ground and of a flying field has been suggested by the Live Wires of the Commercial club, L. Adams and C. H. L. Chandler having been named to investigate the former. The park property under the control of the water board has been mentioned as well as a site in West Linn.

Lloyd Riches, R. C. Parker and D. F. Skene have been appointed to investigate the possibilities of a flying field for Oregon City. Other committees recently named have been O. D. Eby, G. B. Dimick and C. W. Robey on cooperation with the Canby Commercial club for the promotion of the interests of the county fair, and Dr. Clyde Mount was authorized to investigate the practicability of having a concluding dinner at Log LaBarre, when the Live Wires adjourn for the summer. Next Tuesday noon has been set aside for consideration of the proposal for the establishment of a Y. M. C. A. here.

Stolen Bicycles Are Recovered

Roscoe Locke and Edwin Risberger, two Oregon City youths, were made happy Wednesday when their bicycles which were stolen a month ago, were returned to them by Constable Fortune.

The wheels were stolen from near the elevator and recovered from a local shop. The proprietor said the wheels were left in front of his place two weeks ago and after leaving them there for some time he took them inside, awaiting word from the owners.

Mere Snails

The wonderful feat of Captain John Alcock and Lieutenant Arthur Brown in making a non-stop flight of 1900 miles across the Atlantic opens up a new field for aerial navigation. Darius Green and his flying machine are no longer a joke. These intrepid aviators have made a veritable conquest of the air, and Captain Alcock humorously remarked that he was the first trans-Atlantic air-postman, as he carried with him a packet of mail from Newfoundland to the Irish coast.

The jitney had little to offer over the steam train and the interurban, but what of the airplane? Speed of the motor car is no faster, if the traffic law is complied with than the car that runs on rails, but when we shall be given the opportunity to ride on a vehicle that travels through the air at the rate of 120 miles an hour, or better, with danger of collision reduced to a minimum, the average pace-making American will fall over himself to take the swifter route.

In a little while every city will have its aviation field, as close to the heart of the city as possible, and in the not far distant future Oregon City people will fly to Portland in seven minutes, taking a spin to the metropolis and return during the noon hour.

What an unusual opportunity for Oregon City merchants. We have a vision of our local department stores establishing an air parcel line, so that if a woman in Molalla wants a new dress for an evening party, she has only to telephone her measurements at 5:59 P. M., and presto! her new gown is in her hands 10 minutes later.

Airplanes will soon be sold for \$5,000, we are told. The Pierce-Arrow will soon be a drug on the market. The man with money will fly from his office to the golf links and then home to his dinner. Truly there are endless possibilities in air flights.

We have been living in a fast age, but the next decade will point us out as mere snails.

RESOLUTION TO REMOVE BURLESON IS ADOPTED

ATLANTIC CITY, N. J., June 18.—Radical and conservative delegates attending the reconstruction convention of the American Federation of Labor clashed again today. The contest, which arose over a resolution proposing inauguration of a policy of initiative and referendum within the ranks of organized labor was marked by a display of bitter feeling which, as was the case yesterday, resulted in the radical element being crushingly defeated.

A vote on whether there should be a rollcall on the resolution disclosed there were only 35 delegates out of 500 favoring the measure. This was interpreted as representing even more than the maximum ratio of radicals within organized labor.

The clash developed after all the delegates—radical as well as conservatives—had adopted unanimously a resolution assailing Postmaster-General Burleson for his "labor policy" and calling on President Wilson to remove him. During the consideration of the resolution the postmaster-general was severely criticised by delegates and termed "an administrative misfit." No delegate defended Mr. Burleson.

LIVE WIRES AND CITIZENS OF CANBY MEET

Firmly cementing the friendship existing between Canby and Oregon City the Live Wires Tuesday night joined with the Commercial club of Canby in pledging cooperation in every proposition of merit affecting the welfare of the county. Fully 50 members of the Live Wires made the trip, responding to the invitation extended last week by Canby. E. G. Robinson, president of the Canby Commercial club, presided.

Speakers for Canby were M. J. Lee, who spoke on irrigation, its application and advantage, and what it has done on a small scale for Canby producers and urging the promotion of a government irrigation project. Adam Knight, in behalf of the fair, told what the fair officials expected of the people of the county in supporting the fair and that they looked for nothing less than "Everything from Everybody."

Rev. A. J. Josselyn and Rev. Spiess also spoke, pledging their active support.

Oregon City speakers were Judge Grant B. Dimick, who was enthusiastic in his predictions of what cooperative work would accomplish and asking for a united support for road improvement and in making the fair more than a local institution.

O. D. Eby, who helped in organizing the fair association, urged an intensive work by a publicity committee, and suggested a number of practical methods to secure a record attendance.

Other speakers were Wallace Caulfield, main trunk, A. A. Price, Dr. Clyde Mount, Secretary Arthur G. Beattie of the Gladstone Chautauqua, presented the claims of the association. Captain C. W. Huntington explained the aims of the recruiting station which will be maintained in Oregon City and Canby, and C. W. Robey urged the claims of the drive for funds for the Salvation Army.

Not the least of the evening's enjoyment was the feast of strawberries and cream prepared by the ladies and served at the Methodist church.

SALVATION ARMY DRIVE TO START ON MONDAY, JUNE 23

Referring to the coming drive for the Salvation Army, Bishop Peter J. Muldoon, of the Administrative committee, of the Catholic War Council, says: "The beauty and sweetness of the Salvation Army can never be forgotten, and cannot be emphasized too strongly. However fine the other organizations, the Army is bright and brilliant."

The campaign will open June 23, continuing for a week.

The local Elks lodge is ready for the drive, all supplies having arrived and are being distributed.

All subscribers to the drive will be given an honor button, no matter what the amount of the subscription is.

The quota for the county is \$8025.

REPLY OF ALLIES TO GERMANS DELIVERED

PARIS, June 16.—The final reply of the allies and associated powers to the conditions of peace handed to the Germans at Versailles, May 7, was delivered to the German delegation today and made public shortly afterward.

The Germans are allowed five days to accept or to refuse the treaty as it stands. If they accept, peace will be signed at once; if they do not accept, the armistice will terminate Saturday (June 21) and the powers will take such steps as may be necessary to enforce their terms.

The principles of the original conditions have been vigorously upheld as establishing a peace of justice, but certain modifications in detail and many explanations of the effect of execution are made.

The reply is in two parts—a general covering letter and a series of discussions of the general counter-proposals. The changes include:

A plebiscite for Upper Silesia, with guarantees of coal from that territory.

Frontier rectifications in West Prussia.

Omission of the third zone in the Schleswig plebiscite.

Temporary increase of the German army from 100,000 to 200,000 men.

Declaration of the intention to submit, within a month of signature, a list of those accused of violation of the laws and customs of war.

Offer to co-operate with a German commission on reparations, and to receive suggestions for discharging the obligation.

Certain detailed modifications in the finance, economic and ports and waterways clauses, including abolition of the proposed Keil canal commission.

Assurance of membership in the league of nations in the early future if Germany fulfills her obligations.

YOUTH IS WOUNDED BY PLAYING WITH GUN

Four holes were punctured in Floyd Thomas' right leg Tuesday afternoon by a 38-calibre revolver bullet when the gun was accidentally discharged in the boy's hands. Fortunately no bones were broken and no large arteries were cut and outside of being very painful, the wound is not serious.

Floyd Thomas is the 15 year old son of Mr. and Mrs. V. C. Thomas, of Mountain View. He was home alone Tuesday afternoon and was playing on the bed with the loaded revolver when the inevitable happened—it went off. The bullet passed entirely through his thigh and then through the calf of his leg and lodged in the floor. Neighbors called Dr. C. A. Stuart to dress the wound of the thoroughly frightened boy.

Judgment Is Given On Bill of Goods

E. A. Lelsman was given a judgment Friday against W. H. and Olive Johnson for \$303.56 alleged to be due on a bill of goods.

The original bill was for \$368.56, sold to the defendants by H. Lelsman, who later died and left the account to his wife, who in turn transferred it to the plaintiff. The goods were sold between April 11, 1914 and December 28, 1917.

TWILIGHT CLUB ERECTING FINE NEW BUILDING

The Twilight Literary and Entertainment Club have commenced the erection of a commodious club building for social purposes, lectures and political gatherings. It will be a substantial frame structure with all modern conveniences and equipment. When completed the main hall will be 24x40 feet and a stage of 12x16 feet in the center, and a seating capacity of 200 people.

The building, which is being built on a tract donated to School District No. 109, by William McCord, the general president of the club, is being rushed to completion and will be publicly dedicated July 4, when an entertainment and basket picnic will be held. The music for the occasion will be furnished by Professor Theroux of Oregon City.

The building committee is Messrs. William McCord, Wallace McCord, Clarence Swick and George Jensen.

The old hall, almost half a century old, will be hereafter used for church and Sunday school purposes only.

Grant B. Dimick, of Oregon City, is to be the orator of the day at the dedication.

FEDERATION OF LABOR AGAINST BOLSHEVISM

ATLANTIC CITY, N. J., June 17.—Amid general uproar, delegates attending the convention of the American Federation of Labor today refused to endorse recognition of soviet Russia, although urging recognition by the United States of the "existing Irish republic," and voted against the general strike proposed for July 4 in behalf of "Tom" Mooney, convicted in connection with the preparedness day bomb outrages in San Francisco.

Discussion of bolshevism developed when the resolutions committee reported a resolution asking withdrawal from Russia of American soldiers, but refused to report others demanding recognition of soviet Russia and lifting of the blockade of Russian ports. The committee refused to endorse recognition of the "soviet or any other form of government in Russia until he people of that country by constituent or other form of national assembly shall have established a truly democratic form of government."

Suit Is Filed On Auto Insurance

McCarger, Bates & Lively, representatives of an automobile insurance company, filed suit Wednesday against Henry Cromley to collect a premium on a policy issued by them.

They allege the policy was issued December 20, 1918, and the premium was \$91.50, which the plaintiffs allege the defendant refused to pay and they canceled the policy. They claim that an earned premium of \$25.35 was due and they ask this amount and costs of the case.
