BOYS OVER HERE—OVER THERE

GLADSTONE MARINE BACK HOME AFTER SERVING FOUR YEARS

Percy Wilson, who recently returned to his home at Gladstone, after serving four years as a marine, and for some time having been stationed at Manila and Guam, was among those presented with a medal during the Rose Show of Portland. Wilson was one of the Clackamas county boys appearing in the large military parade and the medal was a gift from the city of Portland.

While in Portland he was among the "Devil Dogs" being banqueted at the Multnomah hotel, when Miss Ruth St. Dennis, the dancer, secured \$800 to be turned over to the Salvation Army. The men entertained at this banquet donated liberally toward the good cause for they say nothing is too great for the Salvation Army after it had done so much for the boys in the service.

Upon his return from Portland a surprise has been planned by the parents of the young man, Mr. and Mrs. H. S. Wilson, of Gladstone, when a family reunion was held. The interior of the Wilson home was prettily decorated with roses and ferns, and those attending the affair were Mr. and Mrs. H. S. Wilson, Mrs. W. A. Scoles and baby, Harry, of Portland; Mrs. E. Wilson of Aurora; Miss Ethel Wilson, of Aurora; Wilbur, Evelyn and Percy Wilson, of Gladstone.

WILLAMETTE BOY IS HOME AFTER LONG SERVICE IN NAVY

Harold Van Ness, son of Mr. and Mrs. Van Ness, of Willamette, who has been in the naval service the past two years, enlisted April 1917 and in the war zone for ten months of the two years, returned to his home at Willamette Tuesday morning. He has received his discharge from the service.

Harold Van Ness has been on the U. S. S. Chester, and was among the first of Willamette to enter the service. He was a student of the Willamette school, and he is represented by a blue star on the service flag of that school. He has had many wonderful experiences since leaving here, but says there is no place like the United States for him.

Edward Van Ness, a brother, who is with the 12th Engineers, is still in France and when last heard from was stationed at Ligonas.

BAGBY DISAPPOINTED OVER FAILURE TO GET IN BIG FIGHT

Rody C. Bagby, second son of Mr. and Mrs. C. W. Bagby, of this city, arrived home from the service Thursday morning, having received his discharge in Portland Wednesday night. Bagby, who left here on July 25, 1918, for the service, has since that time been stationed at Camp Merritt, N. J., but was on the boat and would have sailed in five minutes' time when the armistice was signed. He and the remainder of the young men in the boat were among the most disappointed men when word came they were not to sail. They were anxious to get a hand into the big fight.

Bagby says they can say all they want about the east and the south but nothing compares with old Oregon in the west, and he is mighty glad to be back home again where his many friends are giving him a cordial welcome.

When leaving here he was a member of Company M, 13th U. S. Infantry, Second Division, but was later transferred to headquarters company.

BOYS MEET WITH MANY EXCITING SEA EXPERIENCES

Orlando and Harry Romig, who have been wireless operators on the U. S. S. "Westward Ho," a Polish Relief Ship making trips to Danzig, have received their discharge from the naval service, and returned to their home at Willamette.

The Romig boys have had a wonderful experience since leaving their home December 18, 1917, to enter the service. Among these was being shipwrecked when the "West Bridge" upon which they were first assigned,

was struck by a German torpedo. The boys had to take refuge on a raft, and were on the rough sea before being rescued by another vessel. This occurred during a terrific storm, but were only two seamen lost at the time.

Since leaving here these boys have visited England, France, Denmark and Germany.

The foodstuffs sent to the Poles and Jews by the Polish National Committee amounted to two and one-quarter million dollars. It was while making the trip to Danzig that Orlando Romig secured 300 photographs, a number of these of which were purchased by Underwood and Underwood. It was also while on the trip that these boys secured many relics, and brought home. They have helmets of various kinds, belts, gas masks, and have probably the largest collection in Clackamas county.

It was while on their way home, after their arrival in New York they visited the headquarters for the Oregon boys in the service. Here they were given a most cordial reception, and were feasted on jellies, jams, cookies and other good things to eat. Miss Gilbert, of Newberg, Oregon, was one of the hostesses during their stay in New York, and who was one of the boys have great praise for their entertainment. While peering over the register they were pleasantly surprised to see two familiar names from their home town, Oregon City. These were Mr. and Mrs. L. Adams, who have recently returned from an Eastern trip. The boys endeavored to find their Western friends, but after a thorough search gave up the task.

Orlando and Harry Romig have taken part in many parades since leaving here. One of the greatest pageants in which they appeared was on May 5th at Brooklyn, N. Y., where about 3000 sailors appeared. There are about 15,000 young men stationed there. They left New York for the West May 29, and arrived at Seattle May 29, and received their discharge from the service June 5.

The boys will probably resume their studies at the Pacific University at Forest Grove in the fall.

ARTHUR M'DONALD IS ON WAY HOME FROM OVER SEAS SERVICE

Dr. and Mrs. A. McDonald, in company with Miss Mary Thomas, left Wednesday afternoon for Vancouver, B. C., to welcome the return of Arthur McDonald, who will arrive in Vancouver Friday from overseas, after two years service in France and England. McDonald left Halifax June 13, and is enjoying the trip homeward. He left here August 1917, and has been with the 72nd Highlanders.

Arthur McDonald is one of the well known Oregon City boys who was a student of the Oregon City high school when entering the service. He enlisted at Victoria, and was with the Highlanders in some of the big battles in France. He will return immediately to Oregon City with his parents, after visiting a brief time with relatives at Victoria.

Merrill Scripture On Way Home

Merrill Scripture elder son of S. F. Scripture, of this city, one of the first Oregon City boys to arrive overseas, who left here August 5, 1917, is now on his way home from France. Scripture is a machine instructor and is with the 642 Aero Squadron. He was stationed in England and in France, and returned to New York City May 25, on the Tiger.

Scripture has had much military experience, and was among the boys first answering his colors during the Mexican trouble. He is a former student of the Oregon City schools, and has a host of friends here awaiting his arrival to give him a welcoming home. He expects to arrive within a few days.

HAROLD RICHES PROMOTED.

Lloyd Riches, advertising manager of the Morning Enterprise, received a letter from his brother, Harold Riches, Monday morning saying he had been promoted to lieutenant.

Lieutenant Riches, who is a well known Silverton boy, has recently been at Beaune, France, attending the A. E. F. University. He expects to leave for the United States June 19.

SEAPLANES VISIT.

Hundreds of local citizens had the pleasure Thursday and Friday afternoons of witnessing a seaplane flight. One of the navy seaplanes exhibiting in Portland made the trip over this city both days and on Thursday made a landing on the river above the falls.

The planes flew every low and a good view was obtained here.

MITCHELL STORY IS GIVEN WELCOME ON RETURN FROM SERVICE

Mitchell Story, son of Mr. and Mrs. Nick Story, returned to Oregon City Saturday morning, surprising his parents and other relatives here, having received his discharge from the service at Bremerton, Wash., Friday. Mitchell's many friends here gave him the glad hand, and are pleased to have him return home.

Mitchell Story was connected with the mechanical department of the Morning Enterprise for five years before entering the naval service in 1917. He was first stationed at Goat Island, Cal., and later transferred to San Diego, and from that city was transferred to transport. He has made many trips over-seas. Among the places visited were Brest, Nance, St. Nazaire, Bordeaux, France. He brought a number of relics back, among these was a German gas mask. He came on the U. S. S. Santa Paula. While in New York Story saw a number of Oregon boys who were in the service, among these were Joseph Miller, who is in the navy; John Lewis, navy, and who is making a record for himself by boxing; John Montgomery, "Mike" Myers, and stationed at Bay Ridge.

Story visited the Oregon headquarters for the returned soldiers and sailors, and where he feasted on some of the good things provided by the Oregon people. He says they were given a most cordial reception while there and made the boys feel like they were at home.

Mitchell Story is the third son of Mr. and Mrs. Nick Story to have entered the service, his other brothers being George and Matt, George was in the navy and Matt in the army, and both of them have received their discharge.

Story will resume his position with the Morning Enterprise.

DAYLIGHT SAVING DOOMED

WASHINGTON, June 18.—Doom of the daylight saving, inaugurated as a measure, was pronounced today by congress, both senate and house adopting by overwhelming votes measures to terminate operation of the law when the period of summer-time ends next October 26.

Thirty Years Ago Today

Taken From the Oregon City Enterprise Thirty Years Ago

Lawn social tomorrow evening at the home of Mrs. C. E. Burns. The affair is given by the St. Pauls Guild of the Episcopal church.

Mr. and Mrs. John G. Porter will go to Monmouth Wednesday evening for a brief visit.

Grant Bacon will go to Monmouth Saturday to attend the graduating exercises of the Normal.

Jack Trembath returned from up the Columbia last Saturday. He had been fishing there.

Hon. J. B. Dimick, well known veteran, was in Oregon City Thursday attending the Memorial Day exercises.

To Buy a Buggy—Last week Martin McMahon circulated a paper to secure funds with which to purchase Father Hillebrand a new buggy. So successful was he that the vehicle will soon be purchased and the Rev. Father can take a little comfort as he rides about discharging his duties.

Decoration Day—Last Thursday was observed by Meade Post No. 2, G. A. R., with ceremonies appropriate for the occasion. A large number of citizens participated in the exercises. At 8:30 the school children marched from the school house to the hall, accompanied by the Post, and waited there for the persons arriving on the train. The Post, accompanied by the band, met the train, after which the procession formed and the march was made to the cemetery, where the graves were decorated. Returning to the grove near the Presbyterian church, appropriate exercises were held. The address of the day was made by Rev. Joselyn, of Vancouver. It was greatly appreciated by everyone present.

A basket picnic followed the program.

Band Sociable—Arthur Warner, Sr., and family generously tendered the Willamette Silver Band the use of their grounds and all the strawberries they can use for a social. The band has accepted the offer, and will give the sociable next Saturday night. Strawberries and cream will be served. There will be plenty of good music.

Light From Water—Last Tuesday evening the electric dynamo of the Willamette Falls Electric company was run to its full capacity and carried 55 arc lights in Portland, doing the work most effectually. The loss of distance did not exceed 15 per cent. The dynamo in use is a Brush machine and it works to a charm. Mr. McArthur, the electrician in charge, was busy with a force of men yesterday putting in another dynamo. Others will be placed as fast as the man can do the work. Linemen are busy stringing four additional wires, and very soon now the company will be able to furnish any number of lights and power.

Filling his silo—L. H. Andrews is engaged in filling a 70-ton silo with green clover hay. He finds it very heavy to handle. When he has this filled he will only have put up one-fifth of his crop, so heavy is the yield.

Pulp Mill—Work on the pulp mill is again progressing more satisfactorily since they are again able to get lumber. Work on the residence was stopped for lack of lumber. Yesterday they organized and hope to be able to push it to speedy completion.

In the drydock—The Multnomah has been in the drydock since Sunday and will go out today. It has not been determined where she will run.

Glory Be!

After years of fussing around with all sorts of wasteful repairs, the city has finally come down to a common sense basis and now has under way the repair of a part of two streets in a permanent way. Washington street, from the Abernethy bridge to Fourteenth, and Fourteenth to Main are being repaired with a concrete pavement, 18 feet in width, connecting up the county highway with the Main street pavement.

This stretch has long been a thorn in the sides of residents and visiting motorists, who will be as quick to commend the city administration as they have been to excoriate it.

Permanence in street work can go far here. Thousands of dollars have been wasted on many of our town thoroughfares. Seventh street and Singer hill have been "repaired" time and time again, only to go to pieces within a few months, until, at the present time, they form a mass of holes and ruts for people to jolt over, causing endless profanity and dissatisfaction.

The city council is at last on the right track, and we believe they will stay there. It should be possible, next year, to lay hard surface on other streets where traffic is heavy and where the old time-honored macadam will be only a disagreeable memory. Concrete pavement, properly laid, should last for 20 years, or more, and the heavy burdening item of maintenance will gradually disappear as the permanent repair of our streets is followed up.

WRESTLING BOUT IS STAGED MONDAY AT MOOSE AUDITORIUM

Ben Borden, light heavy weight wrestler, has been matched against Ed Warner, of Lewiston, Idaho, at Moose hall next Monday night. Borden is well known among the local wrestling and fight fans, as he appeared here several years ago. He knocked out Kellogg in two rounds and fought Pankey Lewis four rounds to a draw. Several preliminaries will be staged.

DOG CAUSES SUIT.

D. C. Catton filed suit Monday against Ellen Rabb to collect \$450, alleged valuation of a dog owned by plaintiff, who says defendant took the dog without owners consent. Plaintiff also asks \$50 cost of the case.

ELKS CELEBRATE FLAG DAY WITH GOOD PROGRAM

The anniversary of the birth of Old Glory was celebrated Sunday with fitting exercises by the local B. P. O. Elks lodge from the court house steps.

Exalted ruler Gilbert L. Hedgoc, in a few well chosen words explained the object of the day and introduced the speakers and those on the program.

The Unitarian Quartet, of Portland, rendered several numbers, which were well received and Judge Cleaton, also of Portland, was the principal speaker. He spoke on patriotism and of the greatness of the American people and the flag.

Fred A. Miller gave the Elks Tribute to the Flag, and John Stevers read a History of the Flag, both of which were well received. Several hundred people attended the exercises.

AEROPLANE FLIGHT IS ENJOYED BY FORMER OREGON CITY EDITOR

Earl Brownlee, a former Oregon City newspaper man, who has recently received his discharge from the service, and who has resumed his newspaper work in Portland, was among the "victims" of the aeroplane flight in Portland during the Rose show this week. Brownlee, like other newspaper men, has always been noted for his inquisitive and his faculty of "butting in," this was the reason he got many a good story for the newspaper. This time he "buted in" an aeroplane, and decided he would like to take a ride skyward, but before making the landing he was sorry for he was one of the worst "sea-sick" men the aeroplane ever carried. Brownlee stayed with it until the pilot thought it time to "duck," and Brownlee was never happier than when the pilot "ducked" for he knew he could not stand it longer, and this has been a lesson to him to never "but in."

Brownlee's many friends are complimenting him on his nerve any way in even attempting a flight, and he got a story for his paper, that will go down in history.

SECRETARY REPORTS CHAUTAUQUA PROGRAM AND GROUNDS READY

Everything is in readiness for the big Gladstone chautauqua to be held on July 8 to 20, according to Secretary Beattie, who has been working on the different tasks to make the chautauqua a success. Some of the best talent in the United States has been secured on the program for this year, and among others will be William Jennings Bryan, Private Peet, New York Marine Band, and other varied attractions. The grounds of the chautauqua have been made almost dust-proof this year, and cement walks, and other buildings erected at the big park for the convenience of campers. It is expected that one of the largest crowds in the history of the Gladstone chautauqua will attend this season.

POMONA GRANGE WEDNESDAY

On account of Chautauqua the Clackamas District Pomona will meet on Wednesday, June 25, with Tualatin Grange No. 111.

California Trip Very Pleasant

Circle Mountain Cattle Ranch via Cotton, California. Elevation 6200 feet above sea level. San Gabriel mountains, 6 miles from Old Santa Fe Trail, now a state and national highway. E. E. Brodie, Oregon City, Ore.

Dear Friend Brodie:

Greetings to you and yours from myself, wife and son, and say, if you have never made the trip, I would advise you that in the running of your affairs, make arrangements to have your "bux wagon" in good shape and go through this state at about this time of the year and reach the coast or mountains, and you certainly will find the "Fountain of Youth." Of course it may not last more than 30 days as I expect it will with us, but it certainly will be a grand 30 days.

Inform Dr. Mount, L. A. Morris and Mori Latourrette, "fast drivers," that the route would be a few evenings drive for either of them but for us we left Estacada Monday at 7 A. M., made a fine drive during the week and Saturday afternoon at 4:30 we stopped at Los Angeles, the speedometer registering just 1200 miles. No mishaps, no trouble and only the expense of oil and gas. Camped evenings and generally ate lunch and dinner at some city on the way.

A most interesting trip, as California was a new country to me, and the drive over fine roads (mostly pavements) there. Fine valleys, some farming, some fruit, some grain and some general farming and stockraising, their beautiful cities and along the ocean, was the most beautiful, exciting and educational I have ever made.

We drove the coast route from Frisco to Los Angeles and it certainly was a wonderful drive.

The cement roads here are the ones that are the best and I am informed that the future building in this state will be of concrete. Our road builders of our county should be sent into this state and a three weeks investigation and journey over the roads would give them more information and good ideas of roads and road building than a life time at home. We should be relieved of the experimental stage by profiting from the experience of our sister states.

We expect to be here at Cotton about three weeks and be home about July 15.

With best regards I am,
Yours sincerely,
E. W. BARTLETT.

UMATILLA CROPS DO WELL

Pendleton, Or., June 17.—Harvest will start in Umatilla county immediately after the Fourth of July. In the west end the northwest sections of the county, grain is already far advanced.

GARY MOTOR TRUCKS WIN IN ROAD WORK COMPETITION

GARY 3 1/2 TON TRUCKS

Three Gary 3 1/2-ton Trucks, purchased by Kay County, Oklahoma, for public road work—after a competitive test with five other leading makes of trucks.

We now have twenty trucks on the way like those shown above, all equipped with 3 1/2 yard steel lined bodies, with Hydraulic Hoist, that we are bringing in for road construction work. These will be sold under the factory's absolute guarantee for the full period of one year.

GARY steel products lead the world. GARY Trucks are in the same class. Don't chance an unknown quality.

REPORT OF W. C. NORRIS CO.

Here is the report of the W. C. Norris Motor Sales Company, of Tulsa, Oklahoma, on the three trucks shown above, and covering their experience with motor trucks in general and GARY Trucks in particular.

"We have just closed the deal with the County Commissioners of Kay County for three GARY 3 1/2-ton trucks. We competed with five other makes, and outperformed them all. The performance of the trucks we frankly state is marvelous. The "H" and "HU," 2 and 2 1/2-ton models with four speed transmission outpull, overpower and outclass everything in their rated capacity; while the 3 1/2-ton is even greater in pulling power and load carrying capacity. We consider your worm drive, semi-floating Sheldon Axle as the only safe and sure form of construction for hard usage and to withstand the strain and abuse to which a truck is subjected in the oil fields and kindred lines of work. Our observation, experience and knowledge of actual results in meeting oil field requirements, with heavy loads and no roads, convinces us that GARY TRUCKS can be relied upon in every instance and will deliver a long life of service at a nominal upkeep and low cost of operation. We are for the GARY TRUCKS strong and shall concentrate our future efforts exclusively on the GARY line.

R. C. NORRIS MOTOR SALES CO.,
(Signed) N. D. Southerland, Gen. Mgr.

Note: The W. C. Norris Motor Sales Company are a million dollar concern, and one of the largest in Oklahoma. After several years' experience with other lines of trucks, they have dropped them all and rely exclusively on GARY Trucks for heavy duty oil field work and for all purpose usage.

There is a Gary Truck for every purpose, one to five-ton sizes. All of the highest quality of design and construction. Certainty of Service is our slogan, and as WEST COAST FACTORY AGENCY, we shall always be prepared to supply any duplicate part that may be required, and do any repair or service work necessary.
