FIFTY-THIRD YEAR—No. 25.

OREGON CITY, OREGON, FRIDAY, JUNE 27, 1919.

ESTABLISHED 1866

WAR TIME DRY LAW FAVORED BY COMMITTEE

WASHINGTON, June 25.—A straight, clear-cut bill for enforcement of wartime prohibition will be reported out tomorrow by the house judiciary committee.

Decision to separate the wartime from the constitutional prohibition enforcement measure, said to be the most drastic liquor bill ever presented to congress, was reported after an all-day session. A proposal that two distinct bills be drafted was rejected yesterday, but it was brought up again by Representative Walsh, Republican of Massachusetts, and was pending when a motion to adjourn abruptly ended the discussion.

There was no indication as to how the committee would have voted, but several of the leading prohibition members agreed tonight that in view of the manifest differences between the two issues and the possibility that the sale of beer and light wines might be permitted until January by presidential proclamation the wisest thing to do was to report out the wartime bill the first thing tomorrow and the constitutional bill later in the day. In this way there is every assurance, they said, that the wartime bill would be passed probably by both houses before the end of the month, at which time the "dry" act becomes effective.

CAPTAIN J. KANZLER NAMED BY OLCOTT JUDGE OF NEW COURT

SALEM, Or., June 24.—To get before the courts the question of the validity of the act creating a court of domestic relations in Portland, Governor Olcott today appointed Captain Jacob Kanzler as judge of the new court. The governor, in making the appointment, follows the announcement made some weeks ago that he would name Captain Kanzler, but held the appointment in abeyance until the opinion had been received from Attorney General Brown relative to the constitutionality of the act. This opinion was received from the attorney general today and holds much of the act to be unconstitutional, but the attorney general thinks some of the act, particularly that relating to the care of dependent children, may be upheld by the courts.

WIRES WOULD PROVIDE FOR PARK TRACT

Favoring the acquisition of the park tract now controlled by the water board and located in the southern section of the city, for an auto camp ground, the Live Wires of the Commercial Club Tuesday requested L. Adams and Rev. C. H. L. Chandler, the committee, to take such steps as may be necessary to have the tract fitted up. The committee was also requested to take up with the West Linn authorities the matter of establishing an additional camp on the west side of the river.

Before adjourning for the summer the Wires appointed John R. Humphrys, J. U. Campbell and John Collie a committee to investigate the practicability of securing for Oregon City an unloading platform for livestock. It is hoped that an exchange of property with the Logans may be effected.

R. C. Ganong, of Canemah, filed with the Wires a protest against the discontinuance of passenger service on the Portland Railway, Light & Power Co. lines between Oregon City and Canemah.

Airplanes Are To Be Made In Portland

SALEM, June 25.—Articles of incorporation were filed in the office of the state corporation commissioner today by the Barnes Aeroplane Manufacturing company, of Portland. The company, which is capitalized at \$10,000, proposes to build and operate aeroplanes in the United States and Canada. The incorporators are Ross C. Barnes, G. E. Robinson, H. E. Musselwhite, Arthur L. Smith and Lieutenant D. Pearson, all of Portland.

Without Cavil

Our chief executive seems to be doing very well on the other side of the Atlantic. How long he will stay here no one knows. He does not know himself. He is waiting, watchful of course, until the peace treaty is signed and he wants to stay on the job to see that the treaty is not divorced from the League of Nations, or vice versa.

This is all very well, so far as we are concerned. Some people yap and yell because Mr. Wilson does not come home and take his place as President of the United States, for which we pay him \$75,000 per annum, instead of continuing as a self-appointed representative at the peace table, but we don't care much. Ever since the people elected a Republican congress, we have been rather content for congress to run the government, by and with the advice of Dr. Wilson, or without it, just as they prefer.

But the good doctor continues to speak for the people of America. Over in his adopted country on Memorial Day he spoke for some of the people, and against some of them, and he turned his rhetorical guns upon the people of this nation who have the temerity to suggest that the League of Nations should not be part and parcel of the peace treaty.

Just how much authority the voice of the President has may be determined by looking over the election returns of last November when his fellow countrymen elected a Republican congress with more than a million votes to spare. They indicated clearly their preference for a Republican senate to act as their true representative in dealing with foreign affairs, even after Mr. Wilson had sought the privilege on October 24, 1918, when he issued the following appeal:

"My Fellow Countrymen: . . . If you have approved my leadership and wish me to continue to be your unembarrassed spokesman in affairs at home and abroad, I earnestly beg that you will express yourselves to that effect by returning a Democratic majority to both the Senate and the House of Representatives. I am your servant and will accept your judgment without cavil."

Dr. Wilson continues, however, to voice sentiments that he knows to be contrary to the views of the senate elected in response to his challenge.

SALVATION ARMY DRIVE LAUNCHED BY LOCAL ELKS

The local Elks launched their drive for funds for the Salvation Army Monday and City Chairman Emory Noble started committees in the city to canvass. Although it is too early for reports, from all indications the drive will go over the top in record time.

Workers report that nearly everybody they have talked to have a good word for the Salvation Army and are responding to the call for funds. Outside districts are being canvassed and chairmen in these report a hearty response.

Everyone knows of the good work the Salvation Army has accomplished during the war and as the money raised in this drive will go for a good cause people are not backward about subscribing.

The mills are being canvassed and the drive workers are very enthusiastic over the manner in which they are being received by these patriotic people. The mill workers have responded to every call made on them during the war and are showing their loyal spirit in this drive.

The county quota is \$8025 and the chairmen are working to put Clackamas over early in the week and think that they will have little trouble in doing so.

RECRUITING OFFICE IS OPENED HERE BY CAPTAIN HUNTINGTON

Captain Charles W. Huntington, who recently returned from France, having been with the famous 91st Division for ten months in France, arrived in Oregon City Wednesday morning, where he has established recruiting headquarters in the postoffice.

Captain Huntington visited Oregon City several weeks ago and appeared at a meeting of the Live Wires and gave a brief address. He will make his headquarters here until Monday, where those desiring to enter the service may do so. Captain Huntington is to be assisted here by Sergeant T. A. Lane, Sergeant Joseph Whitman, and Corporal Gustav W. Swenson, all of whom are with the First United States Infantry, stationed at Camp Lewis, Wash.

SALOONMEN GET LICENSES

CHICAGO, June 25.—Eighty saloonmen and 10 wholesale liquor dealers today paid the internal revenue tax for the fiscal year beginning July 1, just as though prohibition had never been heard of.

Anti-saloon league officials hold that possession of a federal tax receipt is prima facie evidence, under the new Illinois search and seizure act, of law violation.

RECLAMATION BILL IS BEING BACKED BY WESTERN STATES

SALEM, Or., June 24.—Oregon will co-operate with eight other Western states in a convention that may be called in the Northwest at an early date for the purpose of bringing pressure to bear on congress to pass the Lane bill appropriating \$500,000,000 for reclamation in the West. A letter to the governor from S. E. Brady, president of the Idaho Reclamation association, has been turned over to State Engineer Percy A. Cupper, who has replied that delegates will be sent from this state and co-operation given in any other helpful way. Co-operation also is asked from the states of New Mexico, Colorado, Nevada, Arizona, Idaho, California, Montana and Utah.

Jay H. Upton, president of the Oregon Irrigation congress, has promised his support, and in a letter to Cupper says it was largely through his efforts that Congressman N. J. Sinnot became active in favor of a general Western irrigation measure. Sinnot is chairman of the committee before which the Lane bill is pending, and it is said the committee has completed all hearings on the measure and is now considering the bill in executive sessions preparatory to reporting.

Coffee Enough For Year Is Reported

PORTLAND, June 25.—Another blow fell upon speculators and profiteers in coffee today when, following Tuesday's break in the coffee market, official advisers were received here that the world's supply of coffee is adequate for every need for at least a year.

These advisers were received by F. D. Stephenson, manager of the coffee department of Wadhams & Co., direct from the office of Food Administrator Hoover, which adds that "The principal difficulty at the present time seems to be the action of the producing countries in manipulating their supplies and withholding them from the market in the attempt to maintain the prices at a high level. The United States cannot control the situation in these producing countries."

DRUGS CONFISCATED

SEATTLE, June 23.—Federal customs officers, it became known today, while searching the Blue Funnel liner Cyclops Saturday found opium and cocaine said to be worth over \$200,000. The liner arrived here Saturday from the Orient. Efforts were being made today to find the smugglers who attempted to bring the drugs into this country.

Officers said the seizure was the largest of its kind ever made in the United States.

H. A. SWAFFORD IS APPOINTED MILL MANAGER

Harold A. Swafford, who recently returned from France, after spending over two years in the service, and resuming his position in the office of the Crown Willamette Paper company, has been appointed mill manager of the Crown Willamette Paper Company at Lebanon. The former manager, C. H. Ralston, has resigned his position.

Mr. Swafford left Oregon City Tuesday to take up his new duties with the paper company at Lebanon. His position here has been taken by Blaise Bowland.

Mr. Swafford, who was promoted to second lieutenant in the army while in France, left here with the 18th Engineers. Mr. Bowland was also a member of the 18th Engineers, and recently resumed his position with the paper company, held before leaving for France.

Mrs. Swafford, nee Ivy Ford, will leave within a few days for her new home. Mr. and Mrs. Swafford have been making their home at Twelfth and Elm streets.

PIONEER CALLS MANY HARDSHIPS CROSSING PLAINS

Among the Oregon City visitors on Friday was James Officer Dickey, prominent Clackamas county resident and Oregon pioneer, who resides at Dickey Prairie, in the Molalla country. Mr. Dickey, who is a member of the Oregon Pioneers' association, born in Clackamas county almost 69 years ago, was on his way home from Portland, where he had been in attendance at the Oregon Pioneers' reunion held Thursday.

James Dickey is the son of the late J. K. and Martha Anne Dickey, prominent early Oregon pioneers. At the time of crossing the plains the latter was a girl but 15 years of age, and her name then was Martha Anne Officer, and she was accompanying her parents, Mr. and Mrs. Officer, to Oregon. This was in 1845, and the Dickey and Officer families were in the little party that was coming westward by ox team, Oregon being the destination. These two families were members of the Meeks lost party, known by many old time pioneers.

This party was in charge of a Mr. Meeks, brother of Joseph Meeks, a famous old time character. The leader of the party said he knew a shortcut to Oregon, and after arriving near Prineville became bewildered and lost his way. The little party of immigrants were ready for vengeance, but Meeks disappeared, and the party started out to look for water before continuing the trip. They had gone without water for some time, and were almost famished when it was discovered at last in the Deschutes country. The party then turned north, and provisions were now getting short. Relief must be secured, so the party then started toward The Dalles, where a feast of fish and potatoes was enjoyed. Here a supply of flour was also procured, for the last bit had been used. Hot biscuits then appeared on the campers' menus for the first time for a number of days.

The trail followed by the immigrants from The Dalles to Oregon City was over a rough country. In many places the men had to lower the wagons by means of ropes to lower ledges where the traveling was more practicable. The old oxen trudged along for hundreds of miles, and by the time they reached their destination, after hauling their burden over the plains they brought their precious load to Clackamas county, arriving here in 1846.

A number of the women and children were sent a portion of the way from The Dalles by canoe, Indians being hired to bring them down.

Mr. Dickey and Miss Officer were married soon after arriving in Clackamas county, taking up their residence near Molalla. Here were camping and living in tepees the Molalla Indians, who were now somewhat contented to have the whites among them. Mr. Dickey bargained for a section of land, and the Indians gladly accepted the pioneer's terms, when about 640 acres were purchased. Mr. Dickey and his family were highly respected by the Molalla tribe. There were 400 Indians comprising the tribe. John Dickey was called by the Indians "John Dickey."

There are four members of the Dickey family still making their home on the father's land purchased from the Indians, and are James Officer Dickey, Ira Dickey, Raymond Dickey and Mrs. S. M. Ramsby.

PROBATE COURT

Veda M. Berkman filed Saturday for letters of administration of the estate of the late Ella B. Gorham. This estate consists of real property in Clackamas county valued at \$3,000.

George Gorham, who is with the American army in France, is the only known heir.

ROAD IMPROVEMENT CONTRACTS TO BE LET FOR GRADING HIGHWAY

SALEM, June 25.—Road improvements involving 61.4 miles of paving, 34.8 miles of macadamizing, 169 miles of grading, 654,950 cubic yards of excavation, seven reinforced concrete bridges, five wooden trestles, several reinforced concrete box culverts, cattle passes, an overhead crossing, a wooden truss bridge and a reinforced concrete bridge span, will be awarded to contractors by the state highway commission at its meeting in Portland, following the opening of bids July 8.

A contract for grading in Clackamas county will be let for 6.3 miles on the Pacific Highway in the Oswego section. This is for a strip of road connecting Oregon City with Multnomah county. The work will require excavation of about 37,000 cubic yards in this one strip.

LEAGUE OPPOSITION GROWING IS CLAIM OF SENATOR LODGE

WASHINGTON, June 25.—The opposition to the league of nations covenant as it now stands is stronger than it has been at any time. We undoubtedly have the votes to amend it and it will be amended."

This statement was made by Senator Lodge, of Massachusetts, the Republican leader of the senate, after carefully sounding out the sentiment of his colleagues.

Some differences of opinion have arisen between the opponents of the league over the method to be followed in dealing with the covenant. One group of senators, opposed to all leagues on the ground that the United States should stay out of entangling alliances, has taken the position that the suggestions of Elihu Root for reservation are commendable as far as they go, but do not go far enough. Another considerable number of senators fear that reservations could not be made effective. They expressed the opinion that any reservation which the senate might make in its resolution of ratification might be thrown into the league of nations and then killed. They believe that the most effective manner of handling the question would be to strike the league covenant from the treaty, ratify the treaty and then proceed with amendments to the covenant.

MANY RECRUITS ARE ADDED TO ARMY FIRST PART OF WEEK

PORTLAND, June 25.—Resulting from the newspaper advertising carried on by the army last week, these are banner days in recruiting at the office in the Worcester building. There were 15 applications for enlistment Monday and six Tuesday, making a total of 21 for the first two days of the week whereas the number of men usually enlisted in a week varies from 17 and 22.

The army is carrying on an extensive campaign not only to tell young men about the educational advantages of the army, but also to convert people generally to the new opinion of the army as a huge educational institution.

Last Sunday was army Sunday, when many pastors in Portland told their congregations what the army offers a young man.

Representatives of the recruiting office have spoken before some of the civic clubs of the city to carry the message still further. Displays have been shown in the windows of leading stores, with representatives of the recruiting office on hand to explain to the curious what the different implements of war are called and what they do.

The campaign will continue the rest of this month. It is bringing to the recruiting office men of various degrees of education and earning capacities.

Date of Wire Release Is Set

WASHINGTON, June 24.—Agreement was reached today by senate and house conferees on legislation to repeal government control of telegraph, telephone and other wire systems. The conferees adopted the house plan of terminating government control at midnight on the last day of the calendar month in which the law is approved.

Toll and local exchange telephone rates would be continued four months unless sooner changed by state commissions, under the conference agreement—a compromise between the 90 days rate extension clause of the senate bill and the six months continuance proposed by the house.

LEGION PLANS ENROLLMENT OF MANY MEMBERS

Willamette Falls Post, local branch of the American Legion, held its second meeting at the Methodist banquet hall Wednesday evening, at which time most of the members were present.

It was decided at this meeting to incorporate under the state branch of the American Legion and the boys will make an effort to have all returned soldiers become members of the local organization. All service men of Clackamas county, whether marines, soldiers or sailors are invited to become members. This includes all men who have been overseas or in the service at home.

At present there are about 25 members and it is estimated that over 200 will be enrolled in the near future.

At the meeting Wednesday evening the boys decided to take part in some Fourth of July celebration but did not choose which city would be visited.

The initiation fee is \$1 and dues will be 25 cents each quarter. The Legion is somewhat like a lodge and the whole community as well as the members will be benefitted through its activities.

The next meeting will be held at Willamette hall Wednesday evening, July 2, and all service men are urged to attend.

OPERATORS WILL HOLD MASS MEETING TO DISCUSS STRIKE

PORTLAND, June 25.—To discuss strike benefits for the members of the Commercial Telegraphers Union of America, a mass meeting will be held next Sunday in the Peacock room of the Multnomah hotel, with one session at 2 o'clock and another at 7. The meeting is to be attended by all members of the telegraphers' union as well as the member of the Order of Railway Telegraphers.

The plan at present is to pay full salary to all strike members who may go out on strike between now and Sunday, using the reserve fund of the Order of Railway Telegraphers, according to C. H. Preston, Sr., deputy international president.

Several speakers are to be arranged for the program. J. W. Holt, president of the Association of Western Union employees, will be asked to speak and explain the benefits of the employees' association to the men. Otto Hartwig of the Oregon State Federation of Labor, will also be asked to address the meeting.

LOYALTY LEAGUE OF STAFFORD BOOSTS DRIVE

The Loyalty League of Stafford held its last meeting of the season at the Stafford schoolhouse Saturday evening. This was in the form of a reception, also in welcoming the boys of that section home from the service. There were a number of boys in uniform attending.

The early part of the program was devoted to a musical and literary program by the young people of the Stafford district. Among the selections highly appreciated were those rendered by the Stafford male quartette.

Following the program Judge Grant B. Dimick gave a patriotic address. He closed his remarks by telling of the importance of assisting in the drive for the Salvation Army this week. Many patriotic people of that section have pledged to donate towards the good cause. Boys of that section have told of the good the Salvation Army and the Red Cross have done for the boys in the service and a number of the young men of the section having been in the service, have already pledged to contribute to the cause.

At the close of Judge Dimick's remarks a penny march was taken part in by those attending, and each deposited a penny or what amount they desired into the hat in charge of the chairman of the meeting and this totaled \$4.57. This will go towards the Loyalty League fund.

A supper was served after the evening's program. The room where this was served and where the meeting was held were patriotically decorated, Old Glory being used.

Miss Eva Seedling was chairman of the committee, and was assisted by Miss Esther Moser and Miss Christine Ellingsen.

IRISH REJECT PACT

NEW YORK, June 25.—Eamonn de Valera, "president of the Irish republic," reiterated tonight a statement forwarded by him to Premier Clemenceau of France, warning the peace conference that Ireland would not be bound by a peace treaty signed on her behalf by English peace commissioners.

ALLIES ARE IMPATIENT OVER HUNS SLOWNESS

PARIS, June 22.—If the heads of the allied powers in Paris do not hear from Weimar very soon regarding the German delegation for the signing of the peace treaty, an ultimatum will be sent to the German government, according to the Paris office of Reuters, Limited. The ultimatum will demand the appointment of plenipotentiaries within a certain number of hours.

Germany's silence regarding her representation at the formal signing of the peace treaty has caused some uneasiness in allied conference circles. It is still hoped in Paris that the treaty will be signed Friday, but the event may go over until the following day. Everything manifestly now depends upon the time of arrival of the German delegates.

It is expected that the new Italian delegation, headed by Tommaso Tittoni, will arrive in Paris Friday to resume the activities of Italy relative to the treaty with Austria. There are several important matters to be adjusted before the remainder of the Austrian treaty can be presented.

Dispatches from Berlin indicate that feeling over the peace situation still is running high in German military circles, officers speaking of defending "the honor of the German army and its leaders" by adopting "special measures."

INDUSTRIAL ACCIDENT COMMISSION ASKED TO FILE LAWSUIT

SALEM, Ore., June 25.—A writ of mandamus has been issued from the circuit court for Marion county against the state industrial accident commission in the case of C. W. Fenn against the commission to compel the latter to bring suit against Mrs. Edna Blanche Dibbern, of Portland, for the recovery of \$4000 or to appear in court by July 17 and show cause why it should not bring suit.

The sum of \$4000 was awarded to Mrs. Dibbern by the commission, under the workmen's compensation act, after her husband had been accidentally killed while employed by Grant Smith-Porter Shipbuilding company. The award awarded Mrs. Dibbern was in lump sum, which the commission claims was a legal proceeding. The petitioner for the writ of mandamus avers that this was not legal for the reason that Mrs. Dibbern was still a resident of the state when the payment was made. The \$4000 is now held by the sheriff of Multnomah county under a writ of attachment in case of Lee Roy E. Keeley against Mrs. Dibbern. Keeley claims money is due him from Mrs. Dibbern as attorneys' fees, and he states he will release the attachment as soon as the action is taken for the return of \$4000 to state.

MOLALLA TO CELEBRATE FOURTH AND WILL AID SALVATION ARMY

Molalla is to celebrate the Fourth this year as it has never done before, as many boys of that section have returned from overseas' service and others, who did not get over, will be among those to receive a most cordial welcome on this day.

The exercises will commence with a monster parade at 9:30 o'clock. Prizes will be offered for the best decorated floats, as follows: Prettiest decorated automobile, first prize \$10; second, \$5; best commercial float, first \$10; second \$5. There will be other prizes offered for decorated vehicles. All automobiles are to be in line at 9 o'clock.

Judge Grant B. Dimick will be the speaker of the day. There will be a baseball game between Molalla and Scotts Mills teams, and there will also be various kinds of sports during the day, with dancing during the afternoon and evening. The proceeds of the celebration will go toward the Salvation Army.

WAR EXPENSE HUGE

WASHINGTON, June 23.—War department expenditures from the time war was declared until June 1, 1919, totaled \$14,544,610,213, Secretary Baker today advised the special house committee investigating the department's activities.
