PRESIDENT WILSON ISSUES NOTE OF WARNING TO AMERICAN SHIPPERS

BRITISH OFFICIALS DEFEND ACTION

Concealment of Contraband Justifies Thorough Inspection They Say—Protest Not Surprise to London

WASHINGTON, Dec. 29.—President Wilson appealed today to American shippers of non-contraband goods, such as cotton, not to allow their cargoes to be mixed with contraband articles. The United States government he announced, could deal confidently with the difficulties which had arisen in the treatment of American commerce by Great Britain only if supported by absolutely honest manifests.

This statement followed a discussion by the president with his cabinet today of the general shipping situation and of the not dispatched to Great Britain protesting at length against the British policy of prolonged detentions of cargoes and other interference with American trade.

Publication of a synopsis of the note the tenure of which was confirmed at the White House and state department aroused much interest, not only in diplomatic circles, but in congress and official quarters generally. Many diplomats of European and South American countries made formal inquiry at the state department concerning the note, and a memorandum on the subject was promised them.

There was a confident feeling in diplomatic quarters that steps would be taken by other leading nations of this hemisphere, as well as by some European neutrals, to point out to Great Britain their acquiescence in the American point of view.

From the way the president discussed the situation with callers, it was evident that the Washington government had spoken firmly of its desire for an improvement in the condition of European commerce, and was prepared to insist further on its rights. The president declared that the theory expounded by the United States in its note was, from the American point of view, hardly debatable, as England had adhered in previous wars to the contentions now advanced by the Washington government.

LONDON, Dec. 29.—The note of the Washington government to Great Britain, protesting against the detention of American cargoes by British warships, has not as yet reached the British foreign office, although a synopsis of it has been published in London with the permission of the British press bureau, which has shown no disposition to conceal the American grievances in this direction.

The American stand has caused little surprise in official circles, as negotiations extending over several months before Ambassador Page and Foreign Secretary Gray have centered about the determination of the ultimate destination of the American cargoes in question and the present protest summarizes all the grievances of the United States in this connection.

STYLES BLAMED FOR JOB FAMINE

PHILADELPHIA, Dec. 29.—American women should help to provide steady employment for thousands of workers by being less capricious in demanding ever-changing styles.

Employers should be made responsible for their employees both in slack and busy seasons by legislation compelling them to pay a living wage throughout the year.

The labor market should be organized and directed by a national employment bureau with branches in every important city, and labor unions should discontinue the practice of drawing sharp lines between the trades.

These were some of the suggestions offered to insure steady employment to willing workers by speakers at today's sessions of the National Conference on Unemployment.

John B. Andrews, New York, secretary of the association, outlined a plan by which the entire labor market of the country would be organized under a new branch of the federal department of labor with headquarters at Washington.

SHOTS FIRED ONLY TO WARN—PATROL

BUFFALO, N. Y., Dec. 29.—Canadian militiamen who yesterday shot and killed Walter Smith and seriously wounded Walter Dorach, Americans today told American Consul J. B. Curtis that they were merely trying to frighten the two men and did not intend to kill them. Smith and Dorach were shot near Fort Erie after they had been warned to stop shooting ducks in Canadian waters, the duck season in Canada having closed, December 15. Smith and Dorach ignored the warning.

A written explanation of the affair was forwarded by Curtis to Secretary of State Bryan today. Canadian officials also forwarded a sealed report of the shooting to General Samuel Hughes head of the Canadian militia. Smith's funeral will be held tomorrow, Dorach, it was said, will recover.

SENATOR WORKS BEES TO PREVENT AMERICA'S NON-NEUTRAL INDUSTRY

SENATOR JOHN D. WORKS

WASHINGTON, Dec. 24.—Several members of congress are seeking to prevent the sale of all arms, ammunition and armament to the nations now at war. Senator John D. Works of California, Republican, would go even further. He has introduced a bill prohibiting the exportation of any material or articles used in the promotion of the war. He would hold up not only arms and ammunition, but all shoes, blankets, foodstuffs and other things used to sustain the armies of Europe. He would starve the belligerents into making peace through cutting off their principal source of supply. All of these proposals are being made in congress in the face of the fact that there is no prohibition in any treaty or in international law against the shipping of arms, ammunition and armament to belligerents. There are now six bills of this character pending in congress, all having been introduced recently. Besides the Hitchcock and Works bills, Representatives Bartholdt of Missouri, Lobeck of Nebraska and Vollmer of Iowa, all of German descent, have introduced similar measures.

Russian Attacking Force Driven 50 Miles From Cracow—French Admit Trench is Lost to Germans

WASHINGTON, Dec. 28.—United States consuls in Belgium must be acceptable to the German military authorities, and the withdrawal of some now there, for the present at least, is desired by the Berlin government. This was made known in a formal notification to the department of state today.

Secretary Bryan declined to make public the text of the German communication or to comment on it until he had had full opportunity to consider it.

It is said that while the German government does not insist that consuls in Belgium take out new ex-equators from German officers, it announces that such consuls must exercise their functions only by permission from the military in control of the territory in which the consulates are situated.

The United States has consular representatives in Brussels, Liege and Ghent.

NEW MUNICIPAL LINE IS OPENED IN 'FRISCO

SAN FRANCISCO, Dec. 29.—The Stockton street railway line, the shortest car route to the Panama-Pacific exposition grounds from the downtown district, was formally opened here shortly after noon today, under the auspices of the downtown merchants' association. Cars are now running over the line under a three minute schedule.

With the exception of the building of the Church street line which has been held up by strikes, the completion of the Stockton street line will give City Engineer O'Rourke's scheme a firm basis for the completion of the line before the opening of the exposition. It required three years to build the Gary street line at a cost of \$1,250,000. All the other municipals lines have been built within 18 months at a cost of \$3,000,000.

GUNBOAT KNOCKS CARSEY OUT

NEW YORK, Dec. 29.—Gunboat Smith of California has another knock-out to his credit today as a result of his defeat here of Chick Carsey of Philadelphia in the third round of a scheduled 10 round bout.

LARRY McLEAN IS OUT

NEW YORK, Dec. 29.—The planned contract of Pitcher Arthur Fromm, has been received by the New York National league club, it was announced here today. The only Giant regular now unsigned is Larry McLean, catcher.

WASHINGTON, Dec. 29.—Senator Chamberlain introduced a bill in the senate this afternoon appropriating \$100,000 for a new public building at Ashland.

RUSSIANS CLAIM FURTHER ADVANCE

GERMANS GO BACK AND AUSTRIANS FLEE IN PANIC, CLAIMS PETROGRAD

LOOT IS TAKEN BY TRAINLOADS

Allies Continue to Press Slowly Forward—Much Fighting in the West is Hand-to-Hand, Says Eyewitness

LONDON, Dec. 30.—With Petrograd tonight reporting further important successes in Southern Poland, Galicia and in the Carpathians, Berlin contents itself with the assertions that Russian cavalry have been driven out of East Prussia and that the offensive in various parts of Poland continues.

Many train loads of war material, which, with 50,000 prisoners, was taken from the Austrians, are passing through Lemberg, according to a dispatch from that city.

The allies, although making no dramatic attacks on the German lines, are steadily hammering away with their artillery and when opportunity offers push their line a few yards forward. A French eye witness, in a description of the battles from December 16 to 24, gives a good idea of the kind of fighting in progress and records gains while each is marked only in yards, amount in the aggregate to a considerable advance at many points.

A few hundred yards in Flanders were taken by primitive methods. Having the breeches of their rifles choked with mud, the allies used them as clubs and in many cases fought the Germans with their fists.

TRADER'S WINNINGS WILL AID THE POOR

CHICAGO, Dec. 29.—James A. Patten, wheat speculator, declared today that the \$25,000 he made yesterday in a few minutes of lively trading in wheat all went to charity, except enough for "living expenses for the day." Other speculators declared, however, that Patten cleared \$40,000.

Patten bought 2,000,000 bushels of May wheat yesterday at \$1.21 1/4. Later he sold 500,000 bushels at \$1.31 1/4, before the price slumped more than a cent.

Chicago traders fear Patten will dump the rest of the wheat on the market and take the profits, thereby demoralizing prices.

FORTY ARRESTED FOR OUTBREAK IN MANILA

WASHINGTON, Dec. 28.—Administration officials were not worrying today about last week's native outbreak in the Philippine Islands.

Official dispatches said the uprising was irresponsibly led, did not at any time threaten to become serious; that Governor General Harrison had the situation well in hand, and that no further trouble was expected.

It was said 40 arrests had been made, and that at the time of the commotion, one man was shot by a policeman.

An investigation was in progress concerning the influences behind the disturbance.

JOHN MUIR PASSES AWAY IN CALIFORNIA

LOS ANGELES, Dec. 24.—John Muir famous California naturalist and author, died here today of pneumonia.

The great naturalist went to Daguerre, San Bernardino county, from his home at Martinez several days ago for a visit at the home of his daughter, Mrs. I. O'Neil Funk. Four days ago he became ill of pneumonia. He was brought to Los Angeles quietly last night and taken to the California hospital, where he died about noon today.

John Muir's claim to fame will be sustained by many monuments, among the best being the famous Muir Glacier in Alaska, which he discovered and which was named after him. He was born in Scotland in 1833, received his early education in Scotland and removed to the woods of northern Wisconsin as a boy.

MAP OF LOCAL BATTLES IN WESTERN THEATER OF THE GREAT WAR

GERMANS ALLIES

This map shows part of the battle line in the western theater of war, where spasmodic attacks are reported to be in progress on both sides. The cold there is making the life in the trenches a terrible experience. Despite the snow and the frost, desperate attempts of a local nature have been made to pierce the line of the enemy. It is hinted from London that the allies are about ready for a determined advance which will likely be resisted by the Germans inch by inch.

LONDON, Dec. 31.—News reached Dover last night that a squadron of seven aeroplanes flew over Dunkirk yesterday (Wednesday) and dropped bombs.

WINTERHAVEN, Fla., Dec. 28.—Harry Alvey, his wife and three children were burned to death early today.

Kaiser Ceases Attacks on Bzura River—Heavy Fog Interferes With Battles Through Flinders, Bay Dispatches

BERLIN, Dec. 26.—(By wireless to Sayville, N. Y.)—The German admiralty made the following announcement today:

"On December 25 eight British ships made a dash into a German bay. Hydro-aeroplanes, conveyed by them, made an advance against the mouths of German rivers and dropped bombs near ships lying at anchor and a gas tank near Cuxhaven without hitting them or doing damage.

"The hydro-aeroplanes were fired at and withdrew in a westerly direction. German airships and aeroplanes reconnoitered against the British forces and succeeded in hitting with bombs two British destroyers and one other vessel of the convoy. On the latter fire broke out."

The Germans in their official report announce that they have ceased their attacks on the Bzura river, which, with the Russian masses behind it, stands across their direct path to Warsaw.

Fog has interfered with the battle in Flinders, but along the French front the Germans have been delivering fierce counter attacks in an effort to throw off the pressure which the allies are exerting.

GLEASON RELEASED

CHICAGO, Dec. 30.—William "Kid" Gleason, for three years advisor of James Callahan, was unconditionally released yesterday by Clarence Rowland, who recently succeeded Callahan as manager of the Chicago baseball team of the American league. Gleason played several years with the Philadelphia National league team and then went with the Detroit club of the American league.

SAN FRANCISCO, Dec. 24.—Fire, attributed to crossed electric wires, damaged St. Paul's Lutheran church to the extent of \$20,000.

AMERICAN IS KILLED BY CANADIAN PATROL

BUFFALO, N. Y., Dec. 25.—Fired on by Canadian soldiers, as several boats, containing duck hunters, were approaching the Canadian shore today, Walter Smith was shot and instantly killed, and Charles Dorach was fatally wounded. Both men were residents of Buffalo.

Details of the shooting are lacking, but a recent order prohibiting the importations of firearms into Canada was believed to have been the cause of the clash. The firing occurred in Canadian waters. The soldiers opened fire it was said, without asking any questions.

Smith and Dorach engaged two boats from Mutz Brothers here this morning, saying they were going duck hunting. Both were warned at the time, it was said, against taking firearms into Canada.

That was \$33,000,000 more than the grand total for 1913, the previous record year and more than double the value of all farm products in 1899.

Crops this year were valued at \$6,044,480,000, and the estimated total value of the animal products and of the farm animals sold and slaughtered was \$3,823,455,000. The value of crop production this year was slightly less than in 1913 on account of the reduced value of the cotton crop, brought about principally by the European war.

WHITE OUTFIGHT

NEW YORK, Dec. 30.—Joe Shugrue, of Jersey City, outfought Charlie White of Chicago, in a 10-round bout at Madison Square Garden last night. Shugrue had the better of seven rounds.

Both men weighed in under 133 pounds at 6 o'clock, and their ringside weights were: Shugrue, 133 1/4; White, 130 1/4.

Governmental Agents Make Many Arrests—Secret Service Operatives Disclose Inner Workings of Plan

MANILA, Dec. 26.—Disclosures of the checking by American authorities of uprising of Filipinos set for Thursday night were made today. Eight arrests have been reported, with more to follow. Christmas eve had been chosen by the conspirators in the belief that the army officers of American garrisons would be engaged in preparations for celebrating the holiday.

Warning was given that 10,000 Filipinos in Manila alone planned a concerted attack on Fort Santiago, the Cuartel Espana, the Cuartel Infante and the Medical department. Acting on this information, the military officers instituted a patrol of the streets at dusk and took other measures of defense.

It is disclosed that secret agents of the Filipino constabulary who are members of the secret societies disclosed the plans for an uprising, thus enabling a force of constabulary and police to disperse gatherings at Bagumbayan Paco and Navotas, near Malabon.

The uprising was conducted mostly by followers of Artemio Ritarte, a revolutionary now in Hongkong, to which place he was banished by the officials several months ago.

BUD STOPPED IN THIRD

WALLACE Idaho, Dec. 26.—Frank Barreau, the Vancouver, B. C., boxer, stopped Bud Anderson, of Vancouver, Wash., in the third round of their scheduled 15-round bout last night. Frank Dupuis, Anderson's second, threw a sponge into the ring to save Bud from further punishment.

Barreau was outwheeled by Anderson, who scaled 146 1/2 pounds, and was forced to forfeit \$100, as the weight limit was 145 pounds. Barreau weighed in at 144 1/2 pounds.
