JENNINGS LODGE

The Jennings Lodge school house never looked prettier than on the evening of October 5, when the second annual juvenile fair was held. The newly decorated walls made a splendid background for the beautifully tinted autumn leaves which were artistically arranged in clusters, and large baskets of marigolds with a display of the community flower—the dahlia—completed the decorations.

A number of exhibits, including sewing, handicraft, canning, fruit and vegetables were on display and the Mesdames Cushing, Wood and Truscott were the judges in this department, while the Messrs. Hopson, Bartlett and Garden judged the poultry and pets, including rabbits, guinea pigs, dogs and canary birds. The fair committee was much disappointed in not being able to have the children's project work returned from the state fair in time to be displayed, but was pleased to announce to the large number of people present that Mary Kessi had won first prize at the Canby fair and that Gladys Caldwell received fifth prize at the state fair.

While the judges were placing the blue and red ribbons on the merited exhibits, the Misses Bessie and Ruby Trout sang the "Little Brown Church in the Vale" and were well received. Cards and letters are finding their way to the Lodge to the many friends of Ralph Madison, who is a member of company C, 110 engineers of the 41st division and is stationed at Camp Greene, Charlotte, N. C. Ralph does not enjoy the mud and rain as well as he did the Oregon mist, but is loud in his praises of the Sunday dinner and the true southern hospitality which is displayed among the soldier boys.

Interesting, indeed, are the letters from Harold Smith, son of Rev. H. N. Smith, who is also at Camp Greene. He describes Charlotte as a town with the Sunday lid closed tight and says that autos take the boys to and from Sunday service and then are entertained in the homes where they enjoy wonderful southern dinners.

The Brunswick

Known for Its Tone

And Because It Plays All Records

The Brunswick has an all-wood sound chamber—built like a violin.

This throat gives The Brunswick a clear, vibrant voice. When you hear it, you will have a new appreciation of phonographic reproduction. One must compare it.

Another feature that decides many in favor of The Brunswick is its ability to play all records, whatever make. This removes limitations.

This means Brunswick owners may now enjoy the famous Pathe Discs, for which a sapphire-ball reproducer is furnished. Pathe, as you know, has the world's largest collection of records.

The Brunswick is designed and built by the House of Brunswick, for 76 years a leader in the wood working art.

The Brunswick is furnished in ten models, ranging from \$30 to \$1500.

Hear The Brunswick, and compare before you decide. It is the final type, a composite of all wanted features—truly, "All Phonographs in One."
