

U. S. NAVY SEEKS EX-SAILORS TO ENLIST
Chief Disiasco, local Navy Recruiter, said today that under a new policy to secure reenlistments, the Navy department now offers honorably discharged ex-Navy men special inducements to attract these trained specialists to a career in the Navy.

Some of these benefits are retention of rating, 30 days advance leave and travel payments, and, if qualified, transportation of household goods and payment of reenlistment bonus to those ex-sailors discharged in the past 90 days. In some cases, this bonus may exceed \$1600.

Training schools and refresher courses are also available to most categories of former regular and reserve personnel.

For complete details on this new policy, ex-Navy men should contact the Chief at the Recruiting Station, 6727 S. E. McLoughlin Boulevard in Portland or phone him at BE 6-9881.

NOTICE OF SCHOOL ELECTION UPON QUESTION OF INCREASING TAX LEVY OVER AMOUNT LIMITED BY SECTION II ARTICLE XI, STATE CONSTITUTION

Notice is hereby given that an election will be held in School District No. 108 of Clackamas County, State of Oregon, from 2:00 PM to 8:00 PM on April 14, 1958, at Estacada Grade School in said school district, for the purpose of submitting to the legal voters of said district the question of increasing the tax levy for the fiscal year 1958-59 over the amount limited by section II, article XI, of the constitution of

Oregon.

The reasons for such additional levy are:
Purchase of new school bus.
Increasing costs of instruction.

The amount of tax, in excess of the 6 percent limitation, proposed to be levied for said fiscal year is \$82,442.38.

ROVER IS DEAD

Golden City, Missouri Rural Carrier Henry Gipson broke his parons of the bad habit of expecting him to affix the stamps to their mail by distributing to them the following in the form common for death notices:

Rover died this morning, the victim of a disease common among Rural Mail Carriers. The name for the disease is "glueitis". Rover noticed it usually took me over an hour to stamp your letters each day, and since he was always anxious to get home to his dinner he figured that the best way to accomplish this was to get in and help. He realized that I had my hands plenty full doing my work and yours too, so he would sit beside me and stick out his tongue and I would swipe the stamp across his moist tongue and presto it was ready to be

affixed to your letter.
Rover knew darn well that I was too good a fellow to leave your letters in the mail box just because you didn't put stamps on them, even though the Post Office Department has ruled that I didn't have to pick them up without the proper postage affixed. But now since Rover is gone, I wonder if it would be asking too much to ask you to keep a few stamps on hand for stamping your letters before depositing them in your mail box for collection. I carry a nice assortment of stamps, postal cards, and stamp envelopes at all times.

CONTROL FOR GARDEN SOIL INSECTS

Since garden planting time is here, and it has been a rather mild winter, it is suggested by R. L. Smith, County Agent, that gardeners plan to apply a soil insecticide prior to planting.

An application of Aldrin or Dieldrin as directed will give good control of wire-worms, larvae of cucumber beetle, carrot rust fly and white maggot. In addition, seed corn maggot, onion maggot, and cabbage maggot injury can be greatly reduced or eliminated.

The procedure which fits in with the normal preparation of the soil in spring is as follows:

1. Work up soil to a good degree of tilth.
2. Apply insecticide. Dusts or granular formulations can be supplied with a lawn-type fertilizer spreader or liquid formulations (emulsions) can be sprayed on the soil with a trombone pump up or power sprayer with a coarse spray nozzle.

3. Immediately (within two or three hours, work the insecticide into the soil. The garden is then ready for planting.
