

ON ALL THE SCREENS NO CAST LIKE THIS

In "Dr. Rameau" is seen the most superb cast of Eminent Dramatic Artists ever assembled, in a stage success that has stirred New York, Chicago, London, Paris and other great cities. Read the following list of Brilliantly Gifted Actors and Actresses appearing in "Dr. Rameau."

FREDERICK PERRY, star of the New York's season's most sensational dramatic success, "ON TRIAL," in his first screen appearance (another William Fox capture); DOROTHY BERNARD, that peerless and beautiful leading woman; GEORGE ALISON, a truly great actor, in the best work of his career; STUART HOLMES, most popular of screen favorites, in a characterization of marvelous force and thrilling intensity; EDITH HALLOR, a striking beauty and splendid artist; JEAN SOTHERN, that bewitching little ingenue, and a Great Big List of other world renowned favorites.

GERVAIS MAN SHOWS

Willamette Valley Still Holds Prominent Place at Frisco Exposition

W. H. Egan, of Gervais, has some fine Wolf River apples on display at the Oregon Building, San Francisco, the largest in the building. They are in the most prominent place in the Willamette booth and attract great attention. The Roseburg display of grains and grasses, just in place, is as fine as anything of the kind in the building, and that's saying a great deal. Oats stands seven feet tall and other greens and grasses are in proportion. Winter Banana, King and Spitzberg apples from Roseburg make a beautiful display, and the fine vegetables that came with the twenty ton shipment make a handsome showing. In the Eastern Oregon booth, peaches from W. E. Baker, of Home, Baker County, are the only ones now on display and these are big enough and fine enough to make the mouth water. Spitzberg and Newtons from Mosier, the same from Gus Miller at Hood River, and Golden Orleays from W. G. Parmalee, Hood River, are fine new fruit now at the Palace of Horticulture. According to half page announcement in the San Francisco papers, the apples of Hood River diamond brand apples opened at twenty six stores here on the 21st.

MANY AT VARSITY

Clackamas County Well Represented at Oregon University

Clackamas county is well represented among the students of the University of Oregon this year. Fifteen students are registered. They are: Bothwell Avison, Joseph Hedges, Mary Mattley, Erna Petzold, Otto Pfahl, Alene Phillips, Roberta Schuebel, Alvin Wiewersick, of Oregon City; William Kenneth Bartlett, of Estacada; Katherine Bridges, Albert Holman, of Oswego; Esther Campbell, of Jennings Lodge; Adolph Gourdeau, of Sandy; Jacob Risley, of Milwaukie; and Katherine Twomey, of Oak Grove.

Clackamas students are taking an active part in student enterprises and activities. In athletics, Bartlett and Risley are regulars on the Varsity football team. Bothwell Avison is a member of the student council; Erna Petzold is secretary of the senior class; Katherine Bridges is president of the college Y. W. C. A. Roberta Schuebel is one of the few college women who are taking the course in law.

This year's registration shows an increase of ten per cent over last year and twenty per cent over two years ago. Every county of Oregon except four, eleven other states and two foreign countries are represented in the cosmopolitan student body.

WATER OUTLOOK BETTER

Milwaukie Expects Soon to Go Ahead With Installation of Bull Run

Milwaukie citizens who want Bull Run water to drink are feeling considerably more hopeful about the matter now, and early this week received assurance that they would be able to get it without an appeal to the supreme court. Following a decision against them in one of the local courts recently, attorneys for the city and for the water companies interested, together with leading citizens of Milwaukie, held a meeting with the judge who rendered the first decision and thoroughly threshed the matter out.

It was pointed out to the judge that if the matter was taken to the higher courts on a writ of review the chances were that he would be reversed, and as the judge was desirous of avoiding a reversal in any case dealing with municipal questions, considerable progress was made. Attorneys for the city of Milwaukie said that they were willing that it should be stipulated that a fair and reasonable price should be paid for the plants of the old water companies, but they strenuously objected to the right being reserved the water companies to sue for damages after their plants had been paid for. Such a proceeding, it was said, would not only be unfair, but an order providing for such action was decidedly out of the limits prescribed by law.

MORE ABOUT WAR

High Cost of Breakfast Felt in England; Women Get Work

Interesting side-lights on some of the results of the war are contained in government reports of recent date. Among other things noted is the "increased cost of breakfasts" in England. Prices on breakfast commodities are quoted as follows: tea, 57 cents a pound, an increase of 8 cents; coffee, 47 cents a pound, and increase of two cents; cocoa, 60 cents a pound, formerly rated at 40 cents; sugar, eight cents a pound, an increase of one cent; and loaf sugar, 12 cents a pound, an increase of four cents.

In Nottingham, according to reports, people are becoming quite accustomed to seeing women in various branches of the public service performing duties which were hitherto undertaken by men, and it occasioned little surprise when women tram conductors made their appearance a few days ago. At first only two or three were engaged to make the experiment, but they gave such universal satisfaction that the Tramways Committee, on September 10, definitely concluded to engage 15 or 20 more women as tram conductors. If the women perform their duties efficiently, they will be permanently employed on the same salary basis as the men. They will be furnished with suitable coat and skirt uniforms, and the authorities will endeavor to so arrange the shifts that the hours of work will not be too exacting.

Three women are in the Nottingham postal service, delivering letters in areas which do not involve a great amount of walking, and the general satisfaction they have given thus far will doubtless result in others being employed.

In Germany, according to a report from Breslau, there are more jobs open to women than there are women to fill them, and local school teachers, in particular, might do well by emigrating. Since the beginning of the year, the Breslau branch of the Merchants' Employment Agency has reported 932 vacancies for women in commercial positions. To fill these positions there were only 655 applicants or 277 less than required. Out of this number 400 secured satisfactory employment. Thus 61.07 per cent of the applicants were accepted and 42.92 per cent of the positions were filled. The information bureau of the agency service war widows and orphans free of charge, and often assists them in the preparation for these positions. In the teaching profession there are always vacancies for well-qualified young ladies, and the demand far exceeds the supply.

This report of the Merchants' Employment Agency is fully substantiated by the numerous "Help wanted" advertisements in the daily papers of Breslau.

TRANSFERS TO BE GIVEN

G. B. Dimick Forecasts Aid to Passengers on Valley Southern Road

In response to a rather peremptory order from the city council, acting under instructions from Mayor Linn E. Jones, Grant B. Dimick, president of the Willamette Valley Southern road, has issued a statement in which he says that in the near future a transfer service will be given between his road at the Portland Railway, Light & Power company, so that travelers on the valley line who want to come to Oregon City may do so without the payment of extra fare. The transfers will be issued to ticket-holders on the W. V. S. and will be good for a ride from the valley line's depot at Fifteenth and Main street to any point south as far as Canemah.

In the opposite direction transfers to the W. V. S. will be issued to passengers paying a five-cent fare on the interurban line between Canemah and the Fifteenth street depot, and these transfers will be good for a five-cent fare on the W. V. S. Mr. Dimick does not know how soon this arrangement will go into effect, but says that negotiations for it are under way between his road and the interurban line.

At its last session the grand jury recommended the construction of a new concrete wall and railing on the west and north sides of the county jail.

Do you want to sell or trade your property? If you do come in and see us on the corner of 8th & Main street, Oregon City, Oregon. We also write fire insurance for buildings and automobiles.

DILLMAN & HOWLAND

Various cases in other states were cited the judge in support of the rights of the city of Milwaukie, and it was shown that at least one of the complaining water companies never had a legal franchise to operate. In fact in the discussion of the matter a new phase was put on the case entirely, and it is said by those present that probably the original decision will be so modified shortly that work on the completion of the Bull Run project for Milwaukie will shortly be resumed. Bull Run water is now permitted in the Milwaukie school buildings, the judge having said that he did not deem it right that children should be compelled to risk possible disease by drinking water from the private plants, which state health board officers had testified was open to contamination.

Why older people should be forced to drink this water was not made clear at the time, but in the conference the judge is said to have remarked that older people could boil the water. It is also said that permission was given for the laying of pipe for the Bull Run system, though no connections with this pipe are to be made until the old water companies are settled with.

County Seat Wins

By a score of 7 to 0 Oregon City high school defeated Vancouver high school at football Saturday. The game was played at Canemah grounds, between deluges of rain. Oregon City goes to Vancouver this Saturday to play a return game. When the whistle blew for time at the end of the game Oregon City was within three yards of securing another goal.

PURE WATER SOUGHT

South Fork Commission Appealed to From Many Quarters for Service

The South Fork water commission, in charge of Oregon City's new water supply, has received numerous requests for water outside of the city proper. Fifteen farmers living in the Mt. Pleasant district have asked for connections with the pipe line; Estacada has an application of file for water service, and 13 property owners in the Falls View district also want the new water.

The water commission is watching with interest the move started in West Linn to annex Willamette, as this may bring on complications with the city on the western shore of the river. Under the agreement by which West Linn is to share Oregon City's supply, the neighboring city is not permitted to sell water outside of its limits. There is some division of opinion among the members of the water commission as to the legality of giving South Fork service to Willamette if that city is annexed to West Linn.

How to Read Signs
"When a woman winds a towel around her head and calls for a bucket of water it means the beginning of a big day," according to Farm and Fire.

side, "but when a man winds a towel around his head and calls for water it means the end of a big night."

CITROLAX

Best thing for constipation, sour stomach, lazy liver and sluggish bowels. Stops a sick headache almost at once. Gives a most thorough and satisfactory flushing—no pain, no nausea. Keeps your system cleansed, sweet and wholesome.—R. H. Weilhecht, Salt Lake City, Utah, writes: "I find Citrolax the best laxative I ever used. Does not gripe—no unpleasant after-effects."—Jones Drug Co.

NOT ENOUGH CHILDREN

ever receive the proper balance of food to sufficiently nourish both body and brain during the growing period when nature's demands are greater than in mature life. This is shown in so many pale faces, lean bodies, frequent colds, and lack of ambition.

For all such children we say with unmistakable earnestness: They need Scott's Emulsion, and need it now. It possesses in concentrated form the very food elements to enrich their blood. It changes weakness to strength; it makes them sturdy and strong. No alcohol. Scott & Bowne, Bloomfield, N. J.
